Will Rogers Remarks:

BEVERLY HILLS, Aug. 21. [To the Editor of The Times:] Mrs. Poindexter shattered the first columns front. She is the ex-Senator's wife that wrote of Washington as she saw it, and ended her literary career in Peru.

All she got out of Peru was a butler. Now another Peruvian diplomat has copped him. Diplomacy should end in the pantry.

The woman's air derby started from right close to my shack, and Fred Stone and I were over to the field quite a bit. We met and had a long chat with this Marvel Crosson that was killed. We both talked at the time of what a fine, wholesome type of girl she was. No riding boots or riding breeches or spurs or anything but just a neat gray suit. She had a great record as a flyer.

Yours,
WILL ROGERS.

TOKIO CRASH STOPS GRAF

Mishap Delays Pacific Hop

World-Circling Bag Damages Rear Motor Gondola as it Leaves Hangar

Dr. Eckener Plans New Start When Mechanics Finish Needed Repairs

KASUMIGAURA (Japan) Aug. 22. (Thursday) (AP)—The world-encircling airship Graf Zeppelin, after crossing the Atlantic Ocean and the continents of Europe and Asia, met with its first mishap today while being removed from a hangar to begin a flight of 5400 miles across the Pacific to Los Angeles.

Dr. Hugo Eckener, commander of the dirigible Graf Zeppelin, said this afternoon that he hopes to start for Los Angeles at 10 o'clock tonight (5 a.m. Pacific standard time.)

Two struts of the gondola housing the rear motor were damaged when the gondola struck the earth while the ground crew was hauling the dirigible from its hangar. An inspection convinced Dr. Eckener

FIRES LAID TO FIENDS

Torch Maniacs Peril State

Total of Seventy-five Blazes Traced to Criminal Acts; Wide Areas Burned

Many Arrests Believed Near as Forester Chief Opens War on Arsonists

SACRAMENTO, Aug. 21. (Exclusive)—Incendiarists have been responsible for more than seventy-five forest, brush and grass fires in California in the past few weeks, according to a statement issued today by State Forester M. B. Pratt.

Pratt declares that secret service agents now in the field have uncovered evidence that arsonists are at work in many counties of the State and he is confident several arrests soon will be made.

Sun glasses, candles and other paraphernalia of what Pratt terms the "fire maniacs" have been found by investigators to have been the cause of many fires.

"The State forest service is determined to stamp out this epidemic of incendiarism," said State Forester Pratt, "and we earnestly solicit the aid of California jurists in making this possible.

DANGEROUS CRIMINALS

"The time has come to let the firebug know that he will be shown no mercy. His offense demands swift and drastic punishment—jail sentences, not fines.

"The man who deliberately sets a fire that destroys thousands of acres of fine timberland or burns up the grain of some unfortunate farmer is a criminal of the most dangerous type. In one California fire recently, believed to have been deliberately set, loss of life resulted and the firebug became a murderer."

A partial list of incendiary fires in recent weeks, released today by State Forester Pratt, shows that the malicious burning campaign has extended into virtually every section of the State, as follows:

Eldorado county, eight "set" fires near Rescue.

Placer county, Applegate fire set in two places, burned over 5000 acres of second-growth timber and swept to within half a mile of Weimar.

Colusa county, fire along Cache Creek, set in six places after once brought under control.

OTHER "SET" FIRES

Calaveras county, 15,000 acres of brush and grazing land burned by a fire set in an open field near Valley Springs.

Butte county, 1000 acres destroyed near Mooretown.

Mariposa county, ten fires set in Federal protected areas near the Sierra National Forest.

Nevada county, two fires set near San Juan.

Stanislaus county, nine incendiary fires in grazing lands, destroying 2000 acres.

Butte county, 4000 acres on Table Mountain burned over by incendiary fires.

Tuolumne county, 5000 acres near Columbia burned over by "set" fires.

Fresno county, several big fires traced to firebugs.

Tehama county, 7000 acres of grass and grain destroyed by malicious burning.

Lake county, several incendiary fires.

Klamath National Forest, fourteen known incendiary fires on Federal protected lands.

Amador county, several incendiary fires.

WASHINGTON FIRE MAY BE YEAR'S WORST

SEATTLE, Aug. 21. (AP)—With 4000 acres burned, the fire in the La Clerc Creek basin in the Pend Oreille National Forest, Northeastern Washington, threatens to be the worst since 1910. Other fire fronts are reported diminishing in danger.

Ranchers were forced to flee for safety today and one ranch was burned as the blaze swept over acre after acre.

TWO-NATION WATER PACT BODY MEETS

Second Secret Session Held in Mexico City by International Board

MEXICO CITY, Aug. 21. (AP)—The International Water Commission, charged with reaching an agreement between United States and Mexico on disposal of the waters of the Rio Grande, Colorado and Tia Juana rivers, met in its second secret session today without announcement of what took place at the first meeting yesterday.

El Universal this morning calls the people of Mexico to back up strongly the Mexican commissioners to obtain "Mexico's rightful share" in the waters of the three rivers. The Boulder Dam project is involved in the discussion.

GAS COMPANY ACCUSED

SAN FRANCISCO, Aug. 21. (AP)—The city of Vernon, Los Angeles county, and various packing and milling companies today filed complaint with the Railroad Commission against the Southern California Gas Company, charging unjust rates and unreasonable practices.

HUMAN WEAKNESS BLAMED FOR DRY-LAW FAILURES

Mrs. Willebrandt Says Bootleggers Often Get Federal Officers on Their Pay Rolls

BY MABEL WALKER WILLEBRANDT

(Copyright, 1929, by Current News Features, Inc. All rights for publication reserved throughout the world.)

(The personal equation plays a great part in failure of enforcement, Mrs. Willebrandt points out in this article, the eighteenth of her series on prohibition. Lack of intelligence, honesty and earnestness rise up to clog the machinery, and she enumerates many instances where sabotage has kept the law from grinding out its honest grist.)

I am not one of those who believe that what prohibition enforcement needs is more men, more money, and more ammunition. In fact, I do not even believe that prohibition enforcement particularly needs more law.

It is lack of intelligence, earnestness, and honesty, rather than lack of law, that prevents effective prohibition enforcement.

MRS. MABEL WILLEBRANDT

There lies before me a personal letter from a United States District Attorney in the East, a part of which I quote, with the names and places deleted, for obvious reasons:

"A few minutes ago Mr. S—, former Congressman and State Senator, who lives just outside the city of K—, was in my office and told me about a saloon keeper in K— who was in the Senator's office Saturday of last week and his conversation divulged that he was paying about $1000 a year to a brother of the Mayor of K—for protection in his business. He also told the Senator there were between fifty-five and sixty other men who were running saloons and paying as much or more than he was paying for protection.

"Of course, you have no opportunity of knowing the kind of men working under Mr. X—, the prohibition administrator, and I am not complaining about them. Nevertheless, it is a fact that neither Mr. X— nor any of the present employees of that office have had sufficient experience and training to investigate and prepare a conspiracy case for trial in a Federal court. Mr. X—and his men have been doing wonderful work along the line of repression in so far as it affects the smaller violators, but they have not been able to fathom the larger phases of violation of the prohibition act, and have not been able to prepare cases which involve the real leaders in these violations.

"The Mayor is serving his second

FIRE RACING ON GLACIER BUILDINGS

Flames in National Park Battled Desperately as Rescuers Hunt Victims

GLACIER NATIONAL PARK (Mont.) Aug. 21. (AP)—The administration buildings in Glacier National Park are threatened by a forest fire, which is reported out of control and moving rapidly tonight.

Desperate efforts to stem the blaze are being made. Special trains on the Great Northern Railroad have been sent to the Lake MacDonald region to bring out all persons living or camping in that vicinity.

The fire already has destroyed many logging camps and homesteads, and two persons, J. F. Potter and his wife, who refused yesterday to leave the threatened area, are unaccounted for. One man was seriously burned in fighting the blaze today.

Middle West Temperatures Soar Higher

LINCOLN (Neb.) Aug. 21. (AP)—With the mercury touching 104 deg. at 3 and 5 o'clock, Lincoln today experienced the hottest day since August 26, 1926, when a temperature of 105 deg. was recorded. Thermometers reached 104 at Grand Island; Kearney had 102 and Omaha 98.

KANSAS CITY, Aug. 21. (AP)—The mercury reached 99 deg. here this afternoon. It was the hottest August 21 since 1913.

CHINA TO PAY LEAGUE ON INSTALLMENT PLAN

NANKING, Aug. 21. (AP)—The Chinese Nationalist government has adopted the installment plan for paying her back dues to the League of Nations.

China's defaulted membership fees are estimated at $1,500,000, and this amount, it was announced today by the Foreign Office at Nanking, will be paid in fifteen annual installments of $100,000.

TURNER HOP OVERLAND COMPLETED

Flyer at New York Goal; Fails to Break Record Set by Hawks

ROSCOE TURNER.

ROOSEVELT FIELD (L. I.) Aug. 22. (Thursday)—Capt. Roscoe Turner, who with three passengers and a navigator left Glendale, Cal., early yesterday in an attempt to demonstrate the feasibility of an eighteen-hour transcontinental air service landed here at 12:35 a.m. (eastern daylight time.) An unofficial check-up gave his elapsed flying time as nineteen hours and forty-nine minutes, so that he failed to break Capt. Frank Hawks's record. Capt. Turner made stops at Albuquerque, N. M.; Tulsa, Okla.; Louisville, Ky., and Cincinnati to refuel.

Capt. Turner brought his Lockheed-Vega cabin monoplane to rest only after three unsuccessful attempts to land. On his first three efforts he threatened to overshoot the field. Seeing the danger, he "gave her the gun" and zoomed aloft, then circled over the field and came in again. He set the craft down successfully on his fourth attempt.

Turner announced that he would take off Friday for a return trip to the Coast, over the same route and with the same passengers. From California the group will fly back to Cleveland for the air races, he said.

TELETALKIE SOUND FILM GIVEN TEST

Television's Little Sister Aims to Broadcast Full Version of Picture

LONDON, Aug. 21. (AP)—A demonstration of the "teletalkie," or broadcast sound film, was given today in the studios of John L. Baird, inventor of the televisor, the television apparatus for instantaneous transmission of scenes by wire or wireless, and of the noctovisor.

The "teletalkie" method permits broadcasting an ordinary talking film similarly to television and receiving it on an ordinary televisor. The image on the film is transmitted on one wave length and the sound on another.

Engineers hope by perfecting the television and the teletalkie methods to make combination programs of actual pictures of individuals performing by television, and large groups performing by teletalkie.

Son of Ex-Tube Magnate Killed

PITTSBURGH, Aug. 21. (AP)—Frederic C. Schiller, 24 years of age, son of William B. Schiller, former president of the National Tube Company, was shot to death last night in his father's country home in Sewickley Heights and county authorities today were investigating the case.

The youth's brother, W. B. Schiller, Jr., said the victim shot himself accidentally.

RUSSIA'S MASSED TROOPS READY TO INVADE CHINA

Soviet Intends to Occupy Harbin as Punitive Method of Enforcing Demands, Dispatch Reports

LONDON, Aug. 21. (AP)—A statement cabled to the Daily Mail by Sir Percival Phillips, who is en route to Manchuria to investigate the situation there, said Russia has completed mobilization of an expeditionary force on the frontier and is ready to advance into Chinese territory.

The dispatch added that the soviet intend to occupy Harbin and hold that city pending settlement of the Chinese Eastern Railway question on the basis outlined in the original ultimatum from Moscow. Satisfaction also will be demanded for asserted violation of Russian territory, according to Sir Percival.

(The Russian ultimatum of July 13, last, demanded an immediate conference to regulate all questions connected with the Chinese Eastern Railway, that the Chinese should cancel all orders relating to seizure of that road and that all Russian citizens who have been arrested should be released immediately. The Chinese reply to this was deemed unsatisfactory and on its receipt Moscow broke off diplomatic relations.)

It is estimated here that Sir Percival's information is derived from Japanese official sources.

His statement added that nobody looks for a declaration of war. It is believed rather that whatever military action Moscow takes will be regarded as a punitive expedition.

The dispatch indicated that Japan will not interfere in the dispute unless her interests in the railway zone leading southward from Harbin are threatened definitely.

CHANG SAYS JAPANESE OFFICERS WITH REDS

SHANGHAI, Aug. 21. (Exclusive) The local office of the Ministry of Foreign Affairs today had reports from Mukden, supposedly from Gen. Chang Hsueh-Liang, which assert that Japanese officers have been discovered in the soviet army.

The statement given out further asserts, the reports say, that soviet Russia and Japan have reached a secret agreement in which Japan promises to assist Russia on the basis of the latter giving up fishing privileges in Northern Sakhalin in favor of Japan. The same statement says that Japan opposes intervention, which America is said to have proposed.

TEST OPINION

The Ministry of Foreign Affairs announced at Nanking today the receipt of a communication from Gen. Chang Hsueh-Liang, war lord of Manchuria, as follows:

"The repeated raids by soviet troops on China's border constitute a Russian scheme to test world opinion regarding the Chinese-soviet situation. In the event that the powers' manifestation of disapproval is not forthcoming the soviet army probably will launch a general attack on Chinese forces.

"The entire Chinese Eastern Railway zone is now under martial law in order to prevent further sabotage by Chinese Communists and other enemies of the government."

MOBILIZE TROOPS

It was announced from Nanking that Gen. Chang Tso-Hsiang, personal representative of Gen. Chiang Kai-Shek, head of the Nationalist government, arrived in Mukden today and conferred with Gen. Chang Hsueh-Liang, informing him that the central government's troops are mobilizing along the Tien-tsin-Pukow railway.

In case of war the troops can be moved across the Great Wall to Manchuria as reinforcements to the Manchurian armies.

HEAVY FIGHTING IN MANCHURIA REPORTED

TOKIO, Aug. 21. (AP)—Manchuli correspondents of Nichi Nichi and Asahi Shimbun today reported a heavy battle yesterday just east of Manchuli between soviet invaders and Chinese troops.

The two newspapers said soviet armored trains appeared with infantrymen, who jumped from the trains and deployed, opening fire on the Chinese under cover of their own artillery.

The Chinese troops replied with howitzers and the Russians eventually retired after two hours' fighting, in which the Chinese suffered thirty casualties. Several

WIND HALTS AIR DERBY

Pilots Remain at El Paso

Terrific Sandstorm Keeps Women from Flying on to Midland, Tex.

Miss Earhart First to Land But Mrs. Thaden Leads in Elapsed Time

EL PASO, Aug. 21. (AP)—Seventeen women flyers, participants in the National Women's Air Derby from Santa Monica, Cal., to Cleveland, O., rested here tonight after their flight from Douglas, Ariz., today.

The control point for tonight was to have been Midland, Tex., but weather conditions prevented continuation of the flight from here. The planes are scheduled to leave here tomorrow at 6 a.m. Fort Worth will be the next overnight stop.

PLANES GUARDED

All the planes were under guard tonight on instructions received here by local airport officials from Cliff Henderson, manager of the National Air Races at Cleveland. Mr. Henderson's instructions to guard the ships came at the request of Robert P. Holliday, Santa Monica (Cal.) newspaper publisher. In a telegram to the Cleveland manager, Holliday said that curiosity-seekers were swarming over the ships and "doing untold damage."

Amelia Earhart, first woman to fly across the Atlantic, led the derby into this control point today. She nosed her plane to a landing at 8:16 a.m. Miss Earhart was followed at intervals of a few minutes by the other members of the derby.

MISS RASCHE JOINS

The longest hop today was made by Thea Rasche of Germany, who left Phoenix early this morning and arrived here shortly after noon. Miss Rasche arrived at Douglas, Ariz., at 9:33 a.m., took off from that airport at 10:28 o'clock and landed here at 12:39.

After their arrival here the woman flyers stayed on the field in the belief that they would continue to Midland but a sand and thunderstorm broke over this territory and an airplane was sent east to find out weather conditions. On the return of the plane Maj. A. D. Surles, El Paso referee of the race, and Hal Russ, El Paso chairman, announced that flying would be dangerous until the storm cleared and advised that this be made the overnight control point. This was agreed to by all participants in the race.

MRS. THADEN LEADS

Mrs. Louise McPhetridge Thaden of Pittsburgh leads in elapsed time in the heavy-plane division from Santa Monica to this control point. Her unofficial elapsed time is given as 6:46:31. In the light-plane group Phoebe Omlie of Memphis is credited with leading. Her elapsed time is 8:35:24.

No trouble was experienced by any of the flyers today.

The official flight record of elapsed time to El Paso follows:

HEAVY PLANES

Louise McPhetridge Thaden, Pittsburgh, 6:48:31.
Gladys O'Donnell, Long Beach, Cal., 7:01:08.
Amelia Earhart, Boston, 7:19:47.
Florence Lowe Barnes, San Marino, Cal., 7:26:34.
Ruth Nichols, Rye, N. Y., 7:26:26.
Ruth Elder, Los Angeles, 8:41:23.
Blanche Noyes, Cleveland, 8:57:15.

(Continued on Page 2, Column 3)

PLANE HOOKS ON DIRIGIBLE

Los Angeles Practices Picking Up and Releasing Craft Piloted by Naval Aviator

LAKEHURST (N. J.) Aug. 21. (AP)—The United States Navy dirigible Los Angeles returned to its hangar today after a ten-and-a-half-hour flight over Central New Jersey.

While in flight the dirigible practiced picking up and releasing an airplane. The plane, piloted by a navy man whose identity was not revealed, was caught by a wire hung from the stern of the Los Angeles, which connected with a hook on top of the plane.

Flying at the same speed as that of the Los Angeles the pilot brought his plane into position under the stern of the great airship and swung the hook on his wing into the U-shaped wire attachment. The propeller of the plane was continued in motion to prevent the tail from dropping. This difficulty will be surmounted by attaching another hook to the tail of the plane and another yoke further back on the dirigible, it is explained.

After flying together for several minutes the plane was cut loose from the airship as the pilot drew the hook from the yoke and swung his craft toward the ground.

The test was made in accordance with Lieutenant-Commander Herbert V. Wiley's project to develop the scheme until as many as six planes can be carried at one time. He recently announced his intention of taking the Los Angeles up at every opportunity to make more experiments.

NAVY DEPARTMENT HAILS NOCTURNAL FEAT

WASHINGTON, Aug. 21. (AP)—The launching of an airplane from the dirigible Los Angeles while the latter was in flight last night and the former's successful return was said by the Navy Department to be the first time that the feat had been accomplished at night.

Lieut. A. W. Gordon piloted the plane. He succeeded with the experiment in three of four attempts.

REDS PREPARED TO GRAB HARBIN

Dispatch Says Railway Center Soviet's Objective

No Actual Declaration of War Anticipated

Japan Not to Take Action Except in Defense

(Continued from First Page)

Russian guns and some ammunition were captured.

SOVIET GUNBOAT FIRES ON CHINESE BARGE

MUKDEN (Manchuria) Aug. 21. (AP)—Chinese military dispatches from Harbin today stated a Russian gunboat on the Sungari River near Fuchinghsein fired upon a Chinese postal barge and captured five postal employees and the boat's mail.

Minor engagements were reported today from Mulinsien and Holunghai in the neighborhood of Lake Hanka, while it was said severe fighting took place near Chalanor Con, last Sunday and Monday.

Railway traffic at the eastern end of the Chinese Eastern Railway has been crippled by attempts to blow up trains.

RUSSIANS TAKE TOWN FROM CHINESE

PEIPING, Aug. 21. (AP)—Clashes along the eastern and western borders of Manchuria continue daily, messages arriving here indicating the majority are committed by Russian troops needing supplies and outlaws taking advantage of the present situation.

The most serious of these affrays seems to be the report from Harbin stating 1200 men attacked and captured Tungnin, on the border of Kirin Province, last Monday. Some reports state the Russians were soviet regular troops while others say they were a combined force of Koreans and Buriat tribesmen.

Efforts of the Kirin provincial authorities to hurry reinforcements to the border have met with difficulties at Changchun, where the Chinese-owned Kirin-Changchun Railway and the Chinese Eastern Railway are connected with the Japanese South Manchurian Railway.

It is stated the Japanese authorities refused permission for Chinese troop trains to pass through the station to the Chinese eastern line. The Chinese are trying to meet this difficulty by hurriedly laying a track around Changchun connecting their railway with the Chinese Eastern.

The concentration of 10,000 Japanese troops in Changchun is considered to indicate the seriousness with which the Japanese regard the present situation. Hasty construction of temporary barracks indicates the arrival of more Japanese troops.

CHINA CHARGES REDS "WHITEWASHING" FACTS

WASHINGTON, Aug. 21. (AP)—Charges against the soviet government of "whitewashing" illegal acts of their officials in China and misrepresentation of facts in the Chinese-soviet controversy were contained in a note from the Chinese government to the United States.

The note, which was handed to Secretary Stimson yesterday by Minister Wu of China and made public today, recites at considerable length the attitude of the Chinese government in the situation resulting from its action in taking over administration of the Chinese Eastern Railway.

Identic notes were communicated by Minister Wu to the representatives in Washington of the signatory nations to the Kellogg pact for the renunciation of war and it is understood that similar notes were transmitted directly to the interested powers by Chinese representatives in the various countries.

After reviewing events leading up to the taking over of the administration of the railway, however, the Nanking government expressed determination to abide by the terms of the antiwar treaty in so far as it is able apart from "preserving its territorial sovereignty and adopting precautionary measures of self-defense against external invasions." The note also stated that the Chinese government is willing either now or in the future to discuss and settle the dispute with the soviet.

The note charged that the Chinese-soviet treaty of 1924 in which both had agreed not to engage in propaganda directed against the political system of the other had been violated by the soviet.

FAREWELL BOUT POSTPONES TRIP

Leg of Miner Broken in Wrestling Match With Friend at Party

REDDING, Aug. 21. (AP)—John Mackey, 40 years of age, was to have left for Canada today to take a mine superintendency, but after the farewell party at his house last night doctors told him his departure will be postponed six weeks or so.

Some one at the party proposed a friendly wrestling match between Mackey and his friend of many years, Oliver Clark, 52. When the match ended, Mackey's leg was broken in two places.

Willebrandt's Post Brings Two Lawyers to Fore

WASHINGTON, Aug. 21. (AP)—George Neuner, United States District Attorney for Oregon, and Haveth Mau, United States District Attorney at Cincinnati, are being mentioned in connection with the office of assistant Attorney-General in charge of prohibition enforcement recently vacated by Mabel Walker Willebrandt. Both men have been highly recommended on their records as lawyers and prosecutors.

President Hoover has sought an appointee with such a record for the important Justice Department post. No decision has been definitely made.

Army Council Begins Work on New Budget

WASHINGTON, Aug. 21. (AP)—Faced with an order from its commander-in-chief that expenditures must be spared wherever possible, the Army's war council assembled today and started the task of drafting a budget for the military establishment for the next fiscal year.

Just what took place behind the closed doors of a War Department office was not learned, as all budget sessions are executive.

Those attending today's session included Secretary Good, Assistant Secretaries Hurley and Davison and Gen. Charles P. Summerall, chief-of-staff.

Lifer Fails in Parole Demand

SAN FRANCISCO, Aug. 21. (Exclusive)—Acting as his own attorney, L. L. Oberman, 30-year-old San Quentin lifer from Los Angeles, today appealed to the Superior Court of Marin county in a unique effort to force the State Prison Board to parole him.

In a writ of mandamus sworn to before the prison notary Oberman cited a section of law which empowers the board to parole prisoners after they have served one year of their sentence.

President Charles L. Neumiller and each of the board members were cited individually. The petition was denied by Superior Judge Butler.

SHANTUNG WAR LORD FACES TRIAL AS SLAYER

OITA (Kyushu, Japan) Aug. 21. (AP)—Chang Tsung-Chang, former Shantung war lord, will be tried by a Japanese court for the killing of Prince Hsien Kai, cousin of the former boy emperor of China, at Beppu on the 2nd inst. Chang's version of the affair is that the gun went off accidentally. A preliminary examination of the former powerful Chinese military leader on a charge of accidental homicide, was completed by the judge of the Oita district court today. The verdict was that Chang must be formally tried. This corresponds to an indictment in American law.

CUBAN GOVERNMENT MAY USE GOLD BASIS

HAVANA, Aug. 21. (AP)—The gold standard may be adopted by the Cuban government, it was reported today at the Treasury Department. Orders were issued yesterday by Secretary of the Treasury Gutierrez de Celis for a thorough study of monetary systems of other nations to get a working basis to put Cuba on the gold standard.

STORM HINDERS AIR DERBYISTS

AIR SABOTAGE QUIZ FINDS NOTHING

SAN BERNARDINO, Aug. 21. (Exclusive)—Charges that planes of the girl flyers in the Santa Monica-Cleveland air derby were tampered with at San Bernardino, the end of the first lap of the contest, faded today before an inquiry conducted by Chief Deputy District Attorney Thompson.

The prosecutor questioned fifteen witnesses, including race executives in charge of the air field and the ground crew personnel who serviced the planes of the flyers. Without exception the witnesses at the inquiry declared that there was no tampering with the planes, all of which were under guard throughout Sunday night.

The charge of sabotage made by Lieut. Herbert J. Fahy, husband of Claire Fahy, who was forced down near Calexico, was hurled back at Fahy by Fred C. Ayars, vice-president of the Federal Aircraft Corporation, in charge of the ground crew at the field.

"Lieut. Fahy's charges," said Ayars, "are unsportsmanlike. As far as there being acid on the wires of Mrs. Fahy's plane is concerned, I do not believe it true that she was forced down when acid ate away the wires. Her husband said her plane was under guard of one of her own men at the field."

Marvel Crosson, the San Diego girl killed when her plane crashed in the wild, rugged country near Wellton, Ariz., had experienced trouble with the motor of her ship before taking off from Santa Monica, according to Mr. Ayars's testimony at the inquiry.

TRIBUTE TO BE PAID MEMORY OF AVIATRIX

CLEVELAND, Aug. 21. (AP)—National tribute will be paid to the memory of Miss Marvel Crosson, aviatrix who lost her life in the women's air derby being flown in connection with the Cleveland air races which open here Saturday.

The National Exchange Club, sponsors of the race, will conduct memorial services at all clubs, numbering about 800, and a thirty-second period of silence will follow the opening ceremonies at the Cleveland airport. A vacant seat will be marked for her at the banquet at which the women will be honored at the close of the race.

BODY OF MISS CROSSON ARRIVES IN SAN DIEGO

SAN DIEGO, Aug. 21. (AP)—Marvel Crosson, San Diego aviatrix whose body was found near Wellton, Ariz., following a crash of the plane in which she was a contestant in the women's air derby from Santa Monica to Cleveland, is to be buried here. Her body was brought to San Diego by train and arrangements for her funeral are being completed.

ILLNESS FROM HEAT BLAMED FOR TRAGEDY

WELLTON (Ariz.) Aug. 21. (AP)—Belief that Marvel Crosson, San Diego entrant in the women's air derby who was killed near Wellton Monday when her plane cracked up in a ravine, became suddenly ill from the intense heat and lost control of the plane was expressed here today by investigators led by J. W. Noel of Los Angeles, inspector for the Federal Department of Commerce.

Noel, who carefully examined the wreckage of the Crosson plane, said that his examination disclosed nothing that would indicate either the motor or plane failed before striking the ground.

He said that the plane struck on its nose in the sandy wash in the bottom of the ravine. After talking with four ranchers who saw the plane apparently in trouble a moment before the fatal drop, Noel said that Miss Crosson must have jumped from the falling machine when it was only a short distance from the ground.

These witnesses said that the pilot was still in the cockpit when the plane disappeared behind a clump of cottonwood trees a short distance from where the wreckage and body of Miss Crosson were found.

The Commerce Department inspector left for the coast tonight. He will make a formal report on his investigation after reaching Los Angeles.

CLUB TO CONDUCT SABOTAGE INQUIRY

TOLEDO (O.) Aug. 21. (AP)—National officials of the Exchange Club, sponsors of the women's Santa Monica-to-Cleveland air derby, took action here today to investigate asserted charges of malicious tampering with planes in the early stages of the race.

National President George Green and Frank G. Copeland, executive director of the derby, who are making the California-to-Ohio flight, told Herold M. Harter, national secretary, by telephone that they are investigating the sabotage reports at Douglas, Ariz.

Joseph L. Archer, Exchange Club derby representative at Phoenix, reported to Mr. Harter that a flood of telegrams warning derby participants of dangers ahead had proved spurious.

MRS. FAHY AGAIN CHARGES SABOTAGE

Mrs. Claire Fahy, Santa Monica-to-Cleveland women's air derby entrant forced out of the race at Calexico, Monday, with broken wing wires, reiterated last night her charges that her plane had been tampered with.

Mrs. Fahy said her husband, Herbert J. Fahy, test pilot, talked with the District Attorney's office in San Bernardino by telephone yesterday.

"No stranded wire in the world," she quoted him as having told investigators, "would have broken unless it had been tampered with." Fahy has charged that the wires of his wife's plane were weakened with acid.

COSTE DEFERS MYSTERY HOP

French Ace Fails to Start for Undisclosed Goal, Believed Either New York or Tokio

LE BOURGET (France) Aug. 22. (Thursday) (AP)—Capt. Diedonne Coste, French aviation ace, early today postponed his projected long-distance flight to wherever he may have intended going. Capt. Coste made no announcement of the change in his plans and the reasons for it can only be conjectured. He had announced that he would take off at 5 a.m.

Coste told the Associated Press he will fly to Tokio. To personal friends earlier in the afternoon he confided he will start around the world in pursuit of the Zeppelin, but late tonight there were persistent reports among the pilots at Le Bourget that Coste will make a second try to span the Atlantic between France and New York.

CAPT. DIEUDONNE COSTE

To those who know the French ace the fact that he flatly announced he plans to fly to Tokio in one great hop is interpreted to mean he will take off in exactly the opposite direction. They say Coste probably told friends of the proposed spectacular world race, being aware they would divulge the plans to correspondents and thus give him more freedom of action in preparing for a Paris-New York flight, which has been his fondest ambition.

Coste's announcement that he will give the Graf Zeppelin exactly a week's start and one-third the distance around the world as handicap was hailed here as the first world air race.

Coste himself said he will make the distance from Paris to Siberia in one flight.

DETAILS ANNOUNCED

At Kasumigaura Airport, where the Zeppelin has spent three days, Coste told his friends, arrangements have been made for pontoons to be installed on his plane. Stopping in Japan only eight hours for sleep, supplies and necessary alterations to his craft, the daring Frenchman told friends he expects to take off at 5 o'clock Sunday morning on the Pacific leg of his chase.

His route will be by way of the Hawaiian Islands rather than by the northern great circle route followed by the Graf Zeppelin. Honolulu will be reached Tuesday morning, the 27th inst. A successful jump across the Eastern Pacific would land the Frenchman in Los Angeles before the Zeppelin is refueled. Somewhere between Honolulu and New York Coste said he expects to overtake his German rival.

The flight from the Pacific to the Atlantic Coast of the United States, Coste regards as easy, as he has already made this flight in the opposite direction.

SWISS FLYERS HELD ATLANTIC'S VICTIMS

NEW YORK, Aug. 21. (AP)—The Swiss flyers, Oscar Kaesar and Kurt Luescher, are missing today, their names apparently added to the list of those who dared the perilous westward passage of the North Atlantic and lost their lives in the attempt.

They were last seen two days ago, flying over the Azores on their way from Lisbon to New York. They should have arrived yesterday but they failed to appear. Somewhere between the ocean islands and the fog-bound coast of America their adventure came to an end.

They had little in their favor beyond the courage of their youth—they were but 21 and 22 years of age. Their white monoplane was a sturdy ship of proven design but it was unequipped for alighting on the water. Neither of them knew much of navigation and they had been flying only since 1927.

But they had youth, so they took off with blithe audacity on the adventure that has brought failure or death to all who have tried it except the crew of the German plane Bremen, who barely managed to achieve a crash landing on ice-bound Greenly Island.

Admiral Charles F. Hughes, chief of naval operations, today asked merchant ships and ordered naval vessels plying the North Atlantic to keep close watch for the flyers, whose only means of staying alive if they had to bring their plane down at sea are inflated rubber suits and a rubber boat.

ACTOR DEAD; CASE BALKS AUTHORITIES

Bay City Police Baffled; Murder, Self-Destruction or Accident Possibilities

SAN FRANCISCO, Aug. 21. (AP)—The mystery of how Robert Chapman, 28 years of age, leading man of the racy French comedy, "Easy For Zee Zee," came to his death presented a problem to police today as they sought to determine whether the young actor was murdered, a suicide or had killed himself accidentally.

Chapman's body was found this morning at the bottom of a light well, six stories below the apartment of his friend, Allan Hoffman, playwright, after the two had returned from a party at the apartment of one of the women members of the play's cast.

Hoffman, police said, was able to give only meager details of his friend's death. Two men, Hoffman told them, came to his door and asked for liquor. On being told he did not operate a bootlegging joint, he said, they assaulted him and knocked him unconscious. He recovered to find Chapman had either fallen or been pushed out of the window.

Police were reluctant, they said, to accept the theory that Chapman was the victim of gangland vengeance over the affections of Naana Wortova, star of the play, who has figured in a series of police escapades, and whose name was linked with that of Jerry Perri, racketeer slain about a year ago. They expressed the belief that he either had jumped out of the window in fright at the attack on Hoffman or had fallen accidentally.

Mrs. Lindbergh Can Land Now

HICKSVILLE (N. Y.) Aug. 21. (AP) Under the tutelage of her husband from whom she is receiving flying instruction, Mrs. Charles A. Lindbergh today made eight practice landings.

Today's session lasted four hours and the famous airman's wife displayed considerable skill.

Air Post Goes to C. M. Young

WASHINGTON, Aug. 21. (AP)—Clare M. Young of Des Moines, Iowa, was appointed today by President Hoover as Assistant Secretary of Commerce for Aviation, succeeding William P. MacCracken, resigned.

GRAF DELAYED IN TOKIO SMASH

(Continued from First Page)

that eight hours will be required to repair the damage.

ALL SET TO FLY

The twenty passengers and the crew of forty-one were aboard at 4:04 a.m. when hundreds of men on the ground began to haul the great airship into the open to begin the longest flight over seas ever attempted. The Graf Zeppelin had almost cleared the hangar when a defective trolley precipitated the rear gondola to the ground, damaging its supports so badly that Eckener immediately ordered repairs made before taking off. A few minutes later the dirigible was taken back into the hangar.

"I hope to be able to start this evening," said Dr. Eckener, "although we may be delayed until tomorrow."

The mishap to the Graf Zeppelin occurred after she had flown 10,726 miles since leaving Lakehurst, N. J., August 7. Before her stretches the great flight over the Pacific Ocean to Los Angeles, and the concluding air passage of 2500 miles to Lakehurst, the point of beginning.

COULD HAVE CROSSED

Aviation experts aboard the Zeppelin told the Associated Press correspondent today that the flight from Friedrichshafen to Tokio showed the airship's cruising radius to be so great that she might have flown directly from Siberia across the Pacific to America had she not turned south for the Tokio stop. The long flight from Germany to Japan consumed less than three-fourths of the Graf's fuel load.

The Graf Zeppelin's stores today were enlarged in Japan by fifty quarts of champagne and a like quantity of wines, besides a plentiful supply of whisky and liqueurs.

No beer was stocked here, the Graf preferring to carry her own brew around the world.

The point has been discussed here whether the Zeppelin's "cellar" will be emptied before the coastline of the United States is reached. If not, the problem may arise of how nigh in the air prohibition extends, together with other questions of enforcement on international air liners.

Although it is hoped to complete the trans-Pacific flight in three or four days, the Graf Zeppelin was loaded today with food enough for six days for twenty passengers and a crew of forty-one.

SCHEDULE OF POSTAL RATES GIVEN FOR ZEPPELIN

Because of numerous inquiries, attention was called again yesterday by Postmaster O'Brien to the fees of postage for letters and postcards to be sent on the Graf Zeppelin from Los Angeles.

It is pointed out that the fees are: from Los Angeles to Lakehurst, N. J. letters, 60 cents each; postcards, 30 cents each; from Los Angeles to Friedrichshafen; letters, $1.60; postcards, 90 cents each. These charges do not include the fee for special delivery of additional air-mail service, if any. Registered postcards and letters will not be accepted.

FLY FUND PROCLAIMED

PHOENIX, Aug. 21. (AP)—Gov. Phillips has proclaimed an appropriation of $34,000 for use by the State Commission of Agriculture in its fight against invasion of the Mediterranean fruit fly and in combatting foulbrood in Yuma county.

CANCER-CURING METHOD FOUND

(Continued from First Page)

kind. An average of about 70 per cent of the experimental animals, to all appearances were cured, said Dr. Sokoloff, and in some experiments the apparent cures were 100 per cent.

Where the apparent cures did not attain 100 per cent, he found too rapid liquefaction of the cancer a cause of death, and that mortality from this source could be prevented by reducing the doses, so that the curative process was slower.

Speed of the process is striking. He said that the smaller cancers began to liquefy in three to five days, while "larger tumors dissolved slowly, within about fifteen days."

Use of infra-red rays to view tiny, living objects that hitherto escaped detection by the microscope was described by Ivan Bertrand and L. Justin-Pesancon of Paris. Infra-red, the longest visible ray. It is red, the lowest visible ray. It is an intervening step between light and heat.

The Frenchmen exclude all visible light from the photographic plate which is specially sensitized to the infra-red emanations. They said that because of the extra length, these rays penetrate into and reveal some of the outer portions of living cells. They described photography in a kidney study that revealed organisms "entirely missing in the microscopic examinations by the eye."

BETTER MILK

Better milk for both Chinese and American babies was disclosed as among recent scientific developments. For American infants it is real cow's milk, but for the Chinese it is a substitute, made of vegetables. Scarcity of cows is the mother of this modern Chinese invention. Its main ingredient is finely ground, water-soaked, fresh soy beans. Added are cane sugar, corn or rice starch, cod-liver oil, calcium lactate, salt and cabbage water, the latter the chief source of vitamin C.

Its surprising effects were described by Ernest Tso of the Pekin Union Medical College, who said: "Six infants, one from birth and the others a few weeks old, were successfully fed six to ten months on this diet. Their weight curves followed very closely the average weight curves of healthy nursing infants in the United States.

METHOD DESCRIBED

For the young Americans Prof. R. L. Hill of Utah Agricultural College told of a method for identifying certain cows, the milk of which closely approaches human milk in digestibility by infants. These cows number about 10 per cent of milk cattle.

Toughness of the milk curd is the test. Some cows, he said, give "milk that is soft curdled enough for use by delicate infants."

Sargon Worth Weight in Gold to Her, She Says

"Sargon has been worth its weight in gold to me, and I am glad to be one of the thousands to endorse it.

"I've been in bad health six years, suffering with stomach and liver trouble. I got so I didn't have

MRS. CAROLYN M. HORTON

any desire for food, and the little I did eat caused indigestion. Gas would form, and sometimes I would have such smothering spells I could hardly get my breath. I had such billious and dizzy spells at times, that a blur would appear before my eyes, and I could hardly get about. My entire system was so full of poisons, that it caused my skin to be sallow, and unhealthy looking. My rest was broken all through the night on account of the condition of my kidneys. I would frequently have the backache. Extreme nervousness caused me to be easily excited. My circulation was so poor that my arms and limbs would get numb and cold.

"I will always be grateful to my friend who told me about Sargon for I now enjoy better health than I have had in years. My appetite is splendid, my food digests properly, and I have gained so much strength and energy that I now take a long walk every day. Why, last Sunday I walked three miles, something I couldn't think of doing a few weeks ago. My blood circulates freely, because that numb, cold feeling has disappeared, and my skin is a clear healthy color. The terrible pains in my back have gone, and I sleep good, and awake refreshed and feeling fine.

"Sargon Soft Mass Pills have eliminated the poisons from my system, and I never suffer with constipation or those billious and dizzy spells like I used to. I can't conceive of anything better than the Sargon treatment, for I feel like a different woman."

The above statement was made by Mrs. Carolyn M. Horton, who resides at 1040 B St., San Diego.

The special Sargon representative at the Owl Drug Store, 6th and Broadway, is personally meeting hundreds of people daily who call to learn first hand of its wonderful powers. Sargon may also be obtained at all Owl Drug Stores in Los Angeles and other cities.

HYDE REVAMPS FRUIT-FLY BAN

Florida Quarantine Limits Cut September 1

Destruction Will be Confined to Infested Zone

Shipments May Go North But None to Come West

WASHINGTON, Aug. 21. (AP)—Progress made in Florida in combating the invasion of the destructive Mediterranean fruit fly was rewarded today with an order from Secretary of Agriculture Hyde modifying the State fruit-and-vegetable quarantine.

Today's order provides for shipment in Interstate Commerce of Florida fruits and vegetables other than those produced on properties found infested. The Secretary said the new policy is the result of the intensive eradication efforts of the past four months and the discovery of methods of sterilizing "host" fruits to lower the risk of carrying infestation to untouched areas.

FEDERAL AID HINTED

Secretary Hyde added that he anticipated "a strong effort" by organizations and interested persons in Florida to give preference in any aid which may be obtained from the Federal Farm Board or otherwise for the financing of packing-house adjustments necessary to provide for such sterilization as may be required.

Under the regulations announced today, which will become effective September 1, fruits produced in Florida outside of eradication areas may, whether sterilized or unsterilized, be authorized to move anywhere in the United States other than in western and southern States and the Territory of Porto Rico.

KEPT OUT OF WEST

Methods of sterilization for host vegetables have not been worked out, and pending development of satisfactory treatment for such vegetables, peppers, lima and broad beans produced in eradication areas may be authorized for movement only to the District of Columbia and destinations in Maryland, Pennsylvania and States north and east thereof. Tomatoes and eggplants produced anywhere in the State and peppers and lima and broad beans produced outside of eradication areas may be moved throughout the United States other than into the western States and the territory of Porto Rico.

As a condition for authorization of the interstate movement of Florida host fruits and vegetables the State is to require and enforce certain extermination measures prescribed in the regulations.

New Los Angeles Air-Rail Line to Fly via El Paso

ST. LOUIS (Mo.) Aug. 21. (AP)—Announcement of a new transcontinental air-rail route for service September 1 was made here today by officials of the Southwest Air Fast Express. Other agencies include the New York Central Lines, the Texas and Pacific Railroad and the Standard Airlines.

Under present plans the eastern end of the route will be rail travel via the New York Central to St. Louis, transfer to plane here for Stillwater, Tex., then on the Texas and Pacific to El Paso, Tex., with the Standard Airlines completing the trip to Los Angeles.

LEGION BODY PICKS GLENDALE MATRON

Mrs. Margaret Kaeding

AUXILIARY WOMEN IN ELECTION

Mrs. Kaeding Chosen to Highest Office in State at Legion Convention

SAN DIEGO, Aug. 21. (AP)—California's auxiliary of the American Legion today elected Mrs. Margaret Kaeding, Glendale, president, and re-elected Ethel M. Flynn, El Cerrito, secretary-treasurer.

Five area presidents of the auxiliary were elected. They are Mrs. Marie Bunklee of Vallejo, first area; Mrs. Marretta Bailey of San Jose, second area; Mrs. Lorena Good of Modesto, third area; Mrs. Winifred Smith of Venice, fourth area, and Mrs. Gertrude Bailey of La Mesa, fifth area.

Delegates at large to the national convention in Louisville, Ky., September 30 and October 1, 2 and 3, were elected as follows: Mrs. Bernice Keyes of San Diego, former vice-president; Mrs. Florence Kelley of Fresno; Mrs. Alice J. Gill, retiring department president; Mrs. Kaeding and Mrs. Ethel Flynn.

District chairmen elected at today's closing session are:

Bessie Nichols, San Leandro; Agnes Walker, Glendale; Hattie Thurston, Ukiah; Mrs. Ann Thatcher, Oroville; Madeline Mohler, Susanville; Mrs. Hazel Young, Healdsburgh; Mrs. Estelle Daubin, Roseville; Mrs. Mary Holt, San Francisco; Mrs. Jennie Brooks, Merced; Mrs. Aileen Frederickson, San Jose; Mrs. Zelina Jewell, Hanford; Mrs. Rose Vavery, Visalia; Mrs. Zeta Hayden, Santa Barbara; Mrs. Gertrude Powell, Glendora; Mrs. Gladys Moore, Bell; Maxine Reynolds, Stockton; Mrs. Cecil Givens, Dunsmuir; Mrs. Jeannette Snyder, Los Angeles; Mrs. Ethel Marsh, Upland, and Mrs. Edith Cameron, El Centro.

BOY KILLED IN TRYING TO STEAL CORN

Another Lad May Die and Girl Wounded as Result of New Jersey Shooting

SOMERVILLE (N. J.) Aug. 21. (AP) A boy 12 years of age was shot to death, another boy probably fatally wounded and a young girl shot in both legs on the Blue Ribbon Farm last night. They are said to have been stealing corn.

Grover and Craig Hoffman, owners of the farm, are held by State police today, but no specific charge has been placed against them.

The dead boy, John Kolesar, was killed instantly. Helen Klementovich, 14, and her younger brother Joseph are in a hospital where it is said there is no hope of the boy recovering.

Chief of Police and Aide Killed

LIVINGSTON (Mont.) Aug. 21. (AP) Peter Holt, Chief of Police here, and guide of the Theodore Roosevelt party through Yellowstone National Park in 1906, and Martin Zollman, police officer, were shot and killed by a man named Davidson, as they sat in the office of Chief Holt today.

COTTON MILL STRIKE TEST OF ENDURANCE

MARION (N. C.) Aug. 21. (AP)—The strike at the Clinchfield cotton mill today apparently had settled down to a test of endurance between the striking members of the United Textile Workers of America and the management which is attempting to operate with non-union employees. National Guardsmen still are held in readiness to quell any disorders.

HISTORIC MINE TOWNS LOSE TELEGRAPH LINK

SAN FRANCISCO, Aug. 21. (AP)—The historic mining towns of Angels Camp and Sutter Creek, in the mother lode, no longer will have direct telegraph communication with the rest of the world through the Western Union. That company today was authorized by the State Railroad Commission to discontinue its offices in the towns.

SAN DIEGO, Aug. 21. (AP)—The California Department, American Legion, concluded its eleventh annual convention in enthusiastic harmony here today, after electing officers and passing several score resolutions on national defense, community service, veterans' welfare and kindred subjects.

CLARENCE L. KINCAID

Clarence L. Kincaid, past commander of Hollywood Post, was chosen as new State commander to succeed Frank N. Belgrano, Jr., of San Francisco. Other officers elected to the State department are: Catherine E. Reardon of Stockton, vice-commander-at-large; Lieutenant-Commander Francis Lee Albert of San Francisco, State chaplain; Fred Dukes, Bakersfield, sergeant-at-arms, and the following area commanders.

Area No. 1, Ben Curler, Susanville; Area No. 2, James B. (Bobbie) Burns, San Francisco; Area No. 3, J. E. McNamara, Merced; Area No. 4, Robert M. McCurdy, Pasadena, and Area No. 5, Richard J. Welch, Jr., Riverside.

KINCAID'S RECORD

Mr. Kincaid, the new commander, achieved distinction in the building up of the Hollywood Post, and later served as commander of the inter-county post in Los Angeles and as an area commander. During the World War he joined the infantry, served in an officers' training school, and later returned to Los Angeles, where he was graduated from the University of Southern California law school.

District commanders of eleven of the twenty-two districts were chosen for two-year terms as follows: District 1, B. B. Bartlett, Eureka; District 3, Harry Coleman, Alturas; District 5, Jack Sheehy, San Anselmo; District 7, Ed W. Bolt, San Francisco; District 9, Steven Nielson, Martinez; District 11, C. J. Mello, Ripon; District 13, Charles Taylor, Salinas; District 15, Ralph Patrick, Bakersfield; District 17, Homer Chaillaux, Inglewood; District 19, Lawrence Klinker, Bell; District 21, Robert F. Miller, Fullerton.

ISSUE SMOOTHED

One issue which had promised to provoke a contest in the convention was smoothed over by the resolutions committee's treatment of a mass of resolutions on Mexican immigration. The convention adopted resolutions on this subject, requesting the Department of Labor, State of California, to make a survey of the Mexican and Filipino immigration in the State from a social and economic aspect and report before the 1930 convention for action.

On veterans' welfare the convention voted down a resolution to urge Congress to provide additional beds in veterans' hospitals, the delegates contending that additional small hospitals should be provided rather than expanding the large ones. On the question of location of new hospitals it was urged by resolution that a board of army medical and engineering officers be called by the government in each case to select the site and prevent real-estate promotion from effecting site decisions.

VAN NUYS GOES OVER TOP IN DRILLS AND SINGING

SAN DIEGO, Aug. 21. (Exclusive) The Van Nuys boys and girls attending the Legion convention here will return to their homes quite satisfied with their prowess in drilling and singing, with most of the credit falling to the girls.

The Van Nuys women's drill team was adjudged best of ten competing drill teams and walked og with the first prize easily. In the glee club contest, the Van Nuys club won second prize, being exceeded in vocal ability only by the Santa Ana club.

Throughout the convention the Van Nuys delegation has been prominent in all phases of the joyous gathering functioning strongly in the business sessions of the assembly and scoring solidly in all competitive events.

In the drum and bugle corps contest of the Legion convention, Long Beach won first prize, Riverside second, Los Angeles third, South Pasadena fourth, Pasadena fifth and Redlands sixth. Twenty-two drum and bugle corps competed.

The band contest was won by Hollywood with Stockton second and Sacramento third.

Ship Ablaze and Deserted at Sea

NEW YORK, Aug. 21. (AP)—The Radio Marine Corporation today received a wireless message from the freighter Yaiza stating she had seen the steamer Quimistan on fire and deserted about 1100 miles east of Norfolk, Va.

The Quimistan is well down in the water, the message said, and is a menace to navigation. The ship was formerly a Honduran vessel but recently was sold to German interests to be scrapped.

ARIZONA BOARD RULES ON STAGE LINE PLEAS

PHOENIX, Aug. 21. (AP)—In a series of orders issued by the Corporation Commission, the City Auto Stage Company of Tucson was granted a ten-year renewal certificate authorizing operation of the company's stage line between Tucson and Nogales. Application of Pickwick Stages to transport intrastate passengers between Globe and Duncan was dismissed as unnecessary because all permits held by this company recently were transferred to the Union Auto Transportation Company.

NAVY CUP PLANE FAILS TO GET UP

Mercury Balks Thrice When Asked to Show Stuff

Lieut. Williams Overcome on Final Attempt

Officials Now Think Racer Cannot Leave Water

ANNAPOLIS (Md.) Aug. 21. (Exclusive) — The Navy's $173,000 Schneider entry, the Mercury, refused three times to leave the water here today. Lieut. Al Williams, speed pilot, thrice took his tiny, powerful craft back to shore.

In the first attempt the heavy swell from a passing ferry almost toppled his plane over, forcing him to cut his switch to save himself. The next attempt ended in failure when the gasoline pressure gauge showed to low a feed to take off. The third ended when Williams was overcome in his inclosed cockpit by what he believes to have been the fumes from his exhaust.

His top speed, made in the last attempt, was 120 miles an hour on the water. The plane should have flown at that clip.

There is an ever-growing suspicion among informed spectators here that the Mercury racer cannot leave the water. Some of the officials in the Bureau of Aeronautics think the same.

Williams firmly believes he has a ship that will fly and fly fast. His engineer, John S. Kean, believes the same. To date in six attempts to get off the water the ship has not succeeded.

Williams must take his ship off the water before next Saturday if he wants it entered in the Schneider cup race.

BRITISH CUP PLANE FLYS AT 350 MILES PER HOUR

LONDON, Aug. 21. (Exclusive)—The fastest flight ever made by an airplane was achieved today during the speed trials for the Schneider cup races over the Calshot course.

The enormous speed, estimated to be 350 miles an hour, was reached by Flying Officer Waghorn of the British Royal Air Force piloting a supermarine Rolls Royce six, one of the new British Schneider contest planes.

CHINA TO ISSUE BONDS

TOKIO, Aug. 21. (AP)—The legislative Yuan of the Chinese Nationalist government at Nanking today adopted proposals authorizing the Ministry of Finance to issue 75,000,000 Mexican dollars ($30,750,000) worth of military disbandment bonds.

TARIFF READY; FIGHT PLANNED

Senate Finance Committee Republicans End Task

Democrats Getting All Set for Battle on Floor

Domestic Value Made Basis of Ad Valorem Rates

WASHINGTON, Aug. 21. (AP)—Except for a few minor administrative provisions which will be acted on tomorrow, the tariff bill was made ready for the Senate today by the Finance Committee Republicans, who approved many important changes in the measure as passed by the House.

The bill will not be taken on the floor, however, until September 4, under the party agreement to allow ample time for Senators to study it.

Meanwhile, the Democratic members of the Finance Committee, who had no part in the actual rewriting of the bill, will lay plans for the floor battle at a meeting called for Friday by Senator Simmons of North Carolina, ranking minority member.

NEW VALUE BASIS

While voting to retain in the bill the flexible clause giving the President power to readjust tariffs up or down within a limit of 50 per cent, the majority committeemen today approved a proposal by Senator Reed, Republican, Pennsylvania, to base all ad valorem rates in the future on the United States instead of the foreign value.

Under the plan, all ad valorem duties in the present bill which are based on foreign value, would be converted by the Tariff Commission into duties based on the wholesale selling price of the imported article in the principal markets of this country. The commission would be given until January 1, 1932, to complete the conversion task, but could not begin the work until the present bill became law.

SUBJECT TO APPROVAL

As originally framed, the Reed proposal would have had the President proclaim the new rates as fast as the commission translated them, but an amendment by Senator Couzens, Republican, Michigan, was adopted to make the converted duties subject to approval by Congress.

As United States value is much higher than foreign value, the converted rates necessarily must be lowered to arrive at the same degree of protection and amount of revenue derived under the foreign value method.

"It should be apparent to anyone that the change from foreign to domestic value would not change the measure of protection in the slightest degree," said Reed in a statement. "If we collect a 50 per cent ad valorem duty on an imported article with a foreign valuation of $1, making the duty 50 cents, and the wholesale selling price of the same article in the United States is $2, the ad valorem rate under the United States value would be 25 per cent or 50 cents.

WORK TO BE SPEEDED

Reed said the new system will speed up the work of the tariff commission in determining values and end the practice of fraud practiced by some importers in undervaluing goods.

He declared it has been all but impossible to ascertain costs of production in France and several other countries and in the case of goods coming from those countries the United States is "at the mercy of foreign manufacturers and importers so far as valuations are concerned."

Another new House provision approved by the majority committeemen is that authorizing the tariff commission to take into consideration differences in competitive conditions, including transportation, import and other costs, instead of costs of production alone, in determining bases for duty assessments.

BOARD CHANGE BEATEN

The House provision authorizing the President to appoint tariff commissioners without regard to party affiliation was disapproved and the present bipartisanship of the fact-finding body retained. It also was voted to keep the membership at six, as at present, instead of seven as proposed by the House.

The $12,000 salary for commissioners voted by the House, as against $7500 as at present, was approved. When asked if the new provision empowering the President to re-create the commission by dismissing any or all members was approved. One Senator said the President already has that authority under a Supreme Court decision.

Rejection of the House provision placing the power in the Secretary of the Treasury to act as final arbiter of appeals from customs appraisals as they affect valuations was voted and the committeemen approved restoration of this power to the jurisdiction of the customs court.

House provisions making it unlawful to import any printed matter urging treason, insurrection or forcible resistance to any law of the United States, or containing any threat to take the life of or inflict bodily harm upon the President of the United States were liberalized to read to take the life of "any person within the United States."

PROPOSED TARIFF ON VEGETABLES RAPPED

Protest on the proposed increased tariff rates on tomatoes, peas and peppers was made yesterday to Senator Shortridge by James A. McPherson, president of the Southern California Restaurant Association. He wired the Senator that he considers the rates which the Senate Finance Committee is to report are prohibitive in some cases and greatly restrictive in others, for several months of the year depriving consumers of important fresh vegetables.

McPherson protested that tomatoes need no tariff protection, and he requested that a correction be made of the proposed rates which, he added, would work great injustice on California consumers. The association recommended a seasonal rate of one-half cent a pound on tomatoes from December 15 to April 30, 1 cent on peas from December 15 to March 15, and 3-4 of a cent a pound on peppers from January 1 to April 15.

Young Hoover Gets Army Call for Training

WASHINGTON, Aug. 21. (AP)—Herbert Hoover, Jr., son of the President, today was ordered by the War Department to active duty effective October 17, next, as a first lieutenant in the specialist reserve.

The order, which was designated as "by the direction of the President," instructs First Lieutenant Hoover to proceed from Pasadena, Cal., to San Francisco and report for training.

First Lieutenant Hoover will revert to inactive status October 30.

Arizona Slayer Quest Continues

PHOENIX, Aug. 21. (AP)—While their chief, J. N. Keith of Washington, D. C., was speeding back to Washington today by train, Department of Justice agents continued their quest here for clews to the death of Paul E. Reynolds, 29 years of age, whose body was found in a canal near here.

Sheriff Wright of Maricopa county has wired authorities in Redwood City, Cal., requesting them to check the numbers on a pearl-handled pistol found in the possession of Cecil Miller, Harry Smith and John Cooper, arrested in the California city yesterday.

MONKEYS AND BABOONS USED AS PAY FOR COGNAC

NEW YORK, Aug. 21. (AP)—A bottle of cognac is worth four baboons and three mountain monkeys to an Abyssinian chieftain.

Miss Gertrude Sanford, New York society girl, who just returned from a four-months' hunting expedition for rare museum specimens, said she was presented the small menagerie by a grateful native chief to whom she had given a bottle of brandy.

On arrival of the party here the engagement of Miss Sanford to Sidney Legendre, a member of the expedition, was announced. Morris Legendre and Donald Carter, assistant curator of the mammal division of the American Museum of Natural History, were the other members of the party.

Specimens of Nyala, a rare species of antelope, blue winged geese, yahi, or African hunting dog, and other animals were obtained.

Pajama Dance Ban Announced

LITTLE ROCK (Ark.) Aug. 21. (AP) The realm of the pajama is the bedroom and not the ballroom, according to an official pronouncement of the County Prosecutor.

A local casino advertised a "pajama dance" for tonight. Women's clubs protested and yesterday assistant Prosecuting Attorney Shoffner issued a manifesto to Sheriff Cook, notifying the officer he would be within his rights in preventing the event.

LODGE LEADER DIES

FLAGSTAFF (Ariz.) Aug. 21. (AP)—Miss Rebecca Spear, 60 years of age, a member of a pioneer family and one of Northern Arizona's best-known lodge women, died here this morning after several months illness.

POPE ELEVATES K. OF C. LEADER

Supreme Knight Presented With Grand Cross

MILWAUKEE, Aug. 21. (AP)—Martin H. Carmody, Grand Rapids, Mich., tonight began his second term as Supreme Knight of the Knights of Columbus after receiving the highest papal honor that can be bestowed upon the Catholic layman.

As Supreme Secretary William J. McGinley, New Haven, Ct., announced that Mr. Carmody had been unanimously re-elected Supreme Knight today by the delegates to the order's forty-seventh annual convention here. Most Reverend Henry Joseph O'Leary, Edmonton, Alta, Can., appeared before the assembly to present the papal honor. It was the grand cross of the Knights of St. Gregory the Great.

The following other officers also were re-elected:

Deputy Supreme Knight, John F. Martin, Green Bay, Wis.; Supreme Secretary, William J. McGinley, New Haven, Ct.; Supreme Treasurer, Daniel J. Callahan, Washington, D. C.; Supreme Advocate, Lukeve Hart, St. Louis; Supreme Physician, Dr. Edward W. Fahey, St. Paul; Supreme Chaplain, Rev. John J. McGivney, Bridgeport, Ct.; Supreme Warden, David E. Supple, San Francisco.

Two Arrested in Man's Slaying

SALT LAKE CITY, Aug. 21. (AP)—Two men are under arrest here today and two others and a girl are being sought in connection with the slaying of a man tentatively identified as A. Lugo of Butte, Mont., found dead in a box car at Ogden yesterday.

The two men under arrest said they rode into Ogden on the same train with Lugo. They are Abraham Pietzlman and Joseph McIllvaine.

The police are holding them in the hope they may be able to identify other men who were on the train.

David Soloris of Porterville, Cal., writer of a letter found in the dead man's pocket, informed police that Lugo had a divorced wife in Sonora, Ariz.

WORKERS IN MEXICO PLAN PLEA TO HOOVER

MEXICO CITY, Aug. 21. (AP)—A convention of workers which has been meeting here for consideration of the proposed new labor code decided last night to telegraph President Hoover a protest against methods adopted by the police and courts of North Carolina in breaking a strike of cotton weavers.

The protest also will call his attention to "plans to assassinate sixteen workers of North Carolina charged with asserted crimes," and requesting release of those workers.

CONSUL RULED ABOVE ARREST

State Department Decides Against Fine for Teuton

SACRAMENTO, Aug. 21. (AP)—Gov. Young's office received documents today from Acting Secretary of State Castle, Washington, D. C., stating that although Hans A. Kroll, acting German Consul-General in San Francisco, is immune from arrest on misdemeanor charges, he should assure Palo Alto he will not speed within that city again.

A fine was imposed against Kroll after his arrest for speeding on July 6 but Kroll declined to pay. The matter was referred to the State Motor Vehicle Division and State Department at Washington.

KROLL ON WAY BACK TO HIS NATIVE LAND

SAN FRANCISCO, Aug. 21. (AP)—Hans A. Kroll, former acting German Consul here, is not in a position to apologize personally to Palo Alto authorities for speeding in that city, as suggested in communications between Washington diplomatic agents to Gov. Young. He left for Germany on the 3rd inst.

PHOENIX MAN DIES

PHOENIX, Aug. 21. (AP)— C. H. Dunlap, 63 years of age, prominent locally and for thirty years a resident of Arizona, died at Mormon Lake, according to a report received here today.

HEAD ACHE?

A DOZEN different things may cause a headache, but there's just one thing you need ever do to get relief. Bayer Aspirin is an absolute antidote for such pain. Keep it at the office. Have it handy in the home. Those subject to frequent or sudden headaches should carry Bayer Aspirin in the pocket tin. Until you have used it for neuritis, neuralgia, or some other deep-seated pain, you've no idea how marvelously effective Bayer Aspirin is. It means quick, complete relief to millions of men and women every year. Doctors everywhere declare it does not depress the heart. Any drugstore.

NEW AIRWAYS UNDER SURVEY

Six Scheduled to be Added to Nation's Network

Experts Mapping Routes and Picking Landing Fields

Commerce Department in Charge of Operations

WASHINGTON, Aug. 21. (AP)—Six new airways for the rapidly developing aviation transportation lines over the country are being surveyed by the Commerce Department.

Experts are mapping routes, selecting landing fields and sites for aero-light beacons for night flying and emergency landing fields near cities along the route.

The airways being surveyed extend from Washington to Cleveland; Brownsville, Tex., to New Orleans; Fort Worth, Tex., to Brownsville, Tex.; Miami, Fla., to Atlanta, Ga.; Portland, Or., to Pasco, Wash., and from Pasco to Spokane, aWsh.

Approximately 2000 miles of airways under construction are nearing completion, one of which is international. These established routes soon will extend from New York City to Montreal; Cleveland to Albany, N. Y.; Kalamazoo, Mich., to Detroit; Bay City, Mich., to Atlanta, Ga.; Chicago to Milwaukee, and Green Bay; St. Louis to Evansville, Ill.; Salt Lake City to Pasco; San Francisco to Seattle; St. Louis to Columbus, O., and from Los Angeles to Albuquerque, N. M.

The Commerce Department reports that already this year more than 8,000,000 miles have been flown by commercial aviators.

On the 1st inst., the department reported, there were 8569 licensed pilots in the United States, seventy of them being women. Of the women, seven held transport licenses, the highest granted by the Commerce Department, while eleven held limited commercial licenses.

The latest information at the department shows 12,224 privately-owned and commercial airplanes in use in the United States.

FAR FLIGHT SET FOR 'EAGLE'

Col. Lindbergh Slated for South American Survey for Air-mail Routes by Postoffice

WASHINGTON, Aug. 21. (AP)—A flight by Col. Charles A. Lindbergh to Rio de Janeiro, Montevideo and Buenos Aires next month is considered as a probability.

The flight will be made in connection with plans now being considered by the United States Postoffice Department for the most extensive air-mail service in the world, linking North America and South America on both coasts and connecting with the country-wide network of air-mail routes in the United States.

TO NO MAN'S LAND

Aerial reconnaissance by Col. Lindbergh over the Chaco Boreal, in dispute between Paraguay and Bolivia, to determine the possibility of aerial mapping of the region, on which subject the noted airman recently gave advice to the commission now sitting here, also is considered a probability.

While details of the plans for the air mail are withheld by the postal authorities, it is said they call for a regular four-day service between the southern countries of South America and the United States and Canada, where transmission of mail now takes two weeks or more.

EAST COAST SERVICE

With service to the countries on the west coast of South America down to Chile already in operation on a weekly basis, officials are engaged in arranging for similar service on the east coast through Brazil to Argentina. The first move in that direction will be the opening of the air-mail service from Miami, Fla., through Cuba and the West Indies to Paramaribo, Dutch Guiana, on September 20, with a mail plane piloted by Col. Lindbergh.

Extension of that service to Cayenne, French Guiana, Para, Pernambuco, Bahia, Rio de Janeiro and Santos, Brazil; Montevideo, Uruguay, and Buenos Aires, Argentina, is being arranged by postal officials. They would not say today just when service over the entire East Coast may be expected. Contracts will be let only after advertising the routes.

POST'S RIGHT BOWER

Col. Lindbergh after he arrives at Paramaribo probably will continue down the East Coast to Buenos Aires to make a survey of the proposed air route. He has always worked closely with the United States Postoffice Department officials since he left the service as a mail pilot to embark on his trans-Atlantic venture.

The flyer had an opportunity a fortnight ago while the week-end guest of President Hoover to discuss the proposed extension of the air mail to the countries of South America, in which the President is known to have a deep interest.

CLEAN BILL GIVEN ATECA AND HIS AIDE

Ex-Paymaster of Mexico Rebel Forces Cleared in United States Court

NEW YORK, Aug. 21. (AP)—Salvador Ateca, former rebel Mexican paymaster, and his secretary, Antonio Gomez Maquero, today were cleared of the charge of conspiring to effect Ateca's departure from this country while under bond to appear in Federal court.

Dismissal was agreed to by U. S. Atty. Tuttle, who had filed the charge against the men when they were arrested here May 4, last.

It was explained before United States Commissioner O'Neill that the Mexican government has failed to make good the charges it brought against Ateca and Maquero in extradition proceedings and also in a civil suit to recover $700,000 in cash and securities which it asserted Ateca took from Mexican governmental agencies and from banks in Mexico.

The men still are under indictment in El Paso, Tex., charged with violating the President's neutrality proclamation in arranging for the transportation of arms and ammunition into Mexico during the recent revolution.

Arizona Slated for Fifteen New Fox Theaters

PHOENIX, Aug. 21. (AP)—At a cost of many millions of dollars, three modern showhouses in Phoenix and fifteen in Arizona are to be erected in the near future by the Fox West Coast Theaters.

Announcement of the plans of the $300,000,000 theatrical concern was made by Commissioner David P. Kimball at a meeting of the City Commission here today.

The Fox company plans to build two theaters in Tucson, and one each in Jerome, Prescott, Winslow, Miami, Bisbee, Douglas, Safford and Yuma.

FARM VIEWS SOUGHT

Hyde Asks Stand of Agricultural Group on Packer Case

WASHINGTON, Aug. 21. (AP)—The Department of Agriculture, in response to a request by Atty.-Gen. Mitchell, will begin hearings on September 3, next, to ascertain the views of agricultural interests regarding the proposed modification of the packers' consent decree.

The petition of the packers for a modification of the decree, which enjoins them from owning any interest in any stockyard market and from dealing in commodities unrelated to the packing business, has been set for hearing in the District of Columbia Supreme Court on October 2, next.

In order to obtain the views of agricultural groups regarding the economic effect on agricultural and live stock interests of the country of the proposed modification, Secretary Hyde has invited various groups to present their views.

AMERICAN SAFE IN CRASH

OXTED (Surrey, Eng.) Aug. 21. (AP)—Parton Cuyler, an American living in Paris, made a forced landing in a French monoplane in Titsey Woods near here. The machine was wrecked but the pilot and a single passenger escaped.

Swede Abandons Flight Attempt

STOCKHOLM, Aug. 21. (AP)—Capt. Albin Ahrenberg, Swedish airman who has been dogged by misfortune in his efforts to fly from here to New York by way of Iceland and Greenland, has decided to abandon his attempt this year.

He will leave Ivigtut, Greenland, where he has been stranded for two months, for Copenhagen tomorrow.

CALTECH CLIMB CREW RECOVERS

Exertions Conquering Peak Lead to Illness

GUAYAQUIL (Ecuador) Aug. 21. (AP)—Members of the expedition from the California Institute of Technology who recently climbed the volcanic peak of Sangay, a 17,000-foot mountain which had never before been conquered, are reported as rapidly recovering from the effects of their exertions.

Terris Moore, son of Robert O. Moore, leader of the expedition, suffered ill effects, he having repeatedly returned to the base camp to take food supplies to the climbers. The other members are Waddell Austin of Pasadena, Cal., and Lewis Thorne, a Yale student.

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs—once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs are the greatest of all system purifiers. Get a family package with full directions. Only 35 cts. at drugstore. (Adv).

HERE ONE FINDS CHIC

COMFORT is a welcome attribute in a costume for active sports, but it scarcely compensates for poor looks. However, in Jaeger sportswear comfort is always tastefully modish.

See the smart woollens at the new Jaeger store at 713 West Seventh Street, between Hope and Flower. The difference between ordinary sportswear and that found in the Jaeger store is immediately apparent to the discriminating.

CURB DEMANDED ON ROADHOUSES

Federal Report Filed on Dance-Hall Problem

Parents Called Negligent in Fight on Evil

Well-Conducted Places Pay, Survey Declares

WASHINGTON, Aug. 21. (AP)—Roadhouses outside city limits and parental failure to keep their youngsters from public dance halls were cited today by the United States Children's Bureau as major difficulties in the "problem presented by the dance hall."

The report, based on a survey of cities in twenty-five States, showed variance in the laws for control of such halls. Echoes of dances long dead are found in still valid ordinances prohibiting the toddle, shuffle, grizzly bear, bunny hug, Texas tommy and camel walk.

Children's Bureau officials, in issuing the study of which Ella Gardner, bureau recreation specialist, is the author, pointed out that there was no attempt to call attention to "so-called dance-hall evils," but to discuss how public dance halls may be made a "real recreational opportunity rather than a brighter form of boredom" for adolescents.

NOT ALL BAD

The investigations did not reveal uniformly bad conditions in the public dance halls, the pamphlet said, and this fact furnished the best argument for successful regulation.

"Some dance-hall managers," it continued, "had demonstrated that it was profitable to offer well-conducted dances in attractive halls with good music."

Miss Gardner's research included studies of comparative data on ordinances of 416 cities with a population of 15,000 or more, and "field investigation" visits to rented halls, outdoor pavilions, amusement parks, dance academies, cafes, cabarets, closed halls, and roadhouses of fifteen large cities. In the same fifteen cities, she gathered data on community recreation and "the extent to which it successfully competes with the public hall for the use of the adolescent's leisure."

ROADHOUSE SCORED

The report recommends that States and counties pass regulations for roadhouses, pronounced by city authorities "the biggest problem in the protection of young people from the dangers of the unregulated commercial hall."

Charges made by the cities against the country dance halls include such statements as: "They are our greatest menace;" "liquor and narcotics keep the roadhouses running;" "the beach places or shacks or halls 'out in the county' allow all things that are forbidden in the city halls;" "they are rough, cheap and badly run."

SAN DIEGO RATES ON FACTORY GAS REDUCED

SAN FRANCISCO, Aug. 21. (AP)—Consumers of manufacturing gas in San Diego will benefit to the extent of $75,000 a year as the result of an order of the State Railroad Commission handed down today, instructing the San Diego Consolidated Gas and Electric Company to reduce its rates 3 cents per thousand cubic feet. The order will be effective September 1.

GERMANS CALL FOR SHOW-DOWN

Stresemann Voices Warning at Hague Conference

Teutons to Balk at Bearing Cost of Parley Failure

Creditor Powers' Delegates Jolted by His Stand

THE HAGUE, Aug. 21. (AP)—Warning the creditor powers that Germany will not consent to pay the cost of failure of the present reparations conference by a continuance of annuities under the Dawes plan, Gustav Stresemann, Foreign Minister of the Reich, almost brought the moribund conference to life today.

Herr Stresemann had asked for a meeting with representatives of the six creditor powers and he demanded, first of all, that the delegates take an inventory of what has been done in the past two weeks and ask themselves whether the time has not come to get down to the real questions at issue. He talked earnestly and at length about the methods followed by the conference, arguing that they would lead only to ill feeling between the nations.

He declared there is an absolute need for abandonment of those methods and he demanded the delegates decide without further delay whether they wish to adopt or abandon the Young plan.

DELEGATES JOLTED

The German pronouncement against indefinite continuance of the Dawes payments produced a visible effect on the other delegates, some of whom were unable to conceal their feelings as they left the conference room. Both English and French said that Germany has no right to decide offhand to cancel the London treaty that put the Dawes plan into effect, if the Young scheme is not adopted here.

The Germans appeared disheartened following the day's events. They made little effort to conceal a feeling that the consequences of any failure here will fall on their country. Herr Stresemann seemed ruffled when he came out of the conference room. He had occupied the greater part of two and a half hours in discussing what might be done.

REPLY INDICATED

What the creditor powers will reply to Germany's proposals was indicated by a sentiment expressed today that, while continuance of payments under the Dawes plan would be hardship to Germany, such consequences are to be expected at times in international affairs.

It was suggested, however, in French circles, that while the Dawes plan cannot be abrogated until the Young scheme has been adopted, it might be possible to satisfy Germany by an arrangement whereby excess payments over the Young plan might be applied to a reduction of later annuities. Germans said, however, that under the present condition of Reich finances it would be impossible to accept such an arrangement. They emphasized that immediate relief for the Reich treasury is needed.

FORTUNE NO MORE BEAMS ON ACTRESS

Beauty Can't Sue in Paris and Trunks of New Finery Burned on Way to Reno

NEW YORK, Aug. 21. (Exclusive) Fortune, which smiled on beautiful Miriam Crosby for the last four years, elevating her to the heights of leading woman in "Hit the Deck," has at last turned against her, it was learned today.

On the "outs" with her husband, of whose existence even her intimates along Broadway were unaware, the gay little dancer not only has failed in her efforts to get a Paris divorce decree but has lost a whole trunkful of finery en route to Reno, Nev., to establish a residence there for divorce purposes.

The actress went abroad a month ago accompanied by her lawyer, Dudley Field Malone, expecting that his efforts would quickly result in a dissolution of her secret marriage three years ago to Roland Tevlin, son of a wealthy New London (Ct.) man. Then, she learned she would have to reside in France at least six months before the French courts would consider plea for a divorce. Under contract to a Hollywood film company to begin work on October 1, Miss Crosby and her lawyer were forced to cancel their plans.

A trunk containing her Paris-bought clothing was destroyed in the fire which eviscerated the liner Paris last night as it lay in its dock preparatory to sailing. Her mother, Mrs. T. W. Blaney, said today her daughter will take the next available boat and go to Reno immediately.

Highest Court Appealed to in Water Fight

WASHINGTON, Aug. 21. (AP)—The Southern California Utilities, Inc., today asked the Supreme Court to review a decision of the lower Federal courts, permitting Huntington Park to extend its water system into the suburb known as the Fruitland district.

Asserting it holds a franchise from Los Angeles county to lay and maintain pipes in public streets and highways of county, the utilities company points out it had installed pipes and was furnishing water to the Fruitland district before Huntington Park incorporated.

It declares that should Huntington Park be permitted to install water mains and furnish water to the Fruitland district, its business would be destroyed. It insists the franchise it has from the county prohibits all municipalities in the county from supply water for private use in competition with it.

Six Days Faster
A New Service

President Hayes sails from Los Angeles to Manila with call at Honolulu.

This new service of the Dollar Steamship Line is six days faster than any other route. For those who wish to reach the Philippines in the shortest possible time, this new service is the way to go.

World travelers by sailing on the S.S. President Hayes to Manila and connecting there with a Round the World President Liner may circuit the globe in ninety-nine days.

The S. S. President Hayes, a popular Liner of the Dollar Steamship Line Fleet, is famed for her cuisine and comfort. All cabins are amidships. All are outside rooms with beds, not berths. Hot and cold running water. Private bath and shower if you wish. Spacious decks. A swimming pool. Luxurious public rooms.

In addition to this new Direct to Manila Service, President Liners sail weekly via Honolulu to Japan, China, Manila and Round the World calling at Singapore, Penang, Colombo, Suez Canal, Egypt, Italy, France then direct to New York.

President Liners sail fortnightly from New York via Havana and the Panama Canal to California.

Sun-Maid Growers to Begin Purchase from Others

Federal Farm Board Program of Stabilization Starts

Grading Schedule Agreed to by Both Groups

FRESNO, Aug. 21.—Putting the Federal Farm Board's $9,000,000 stabilization program for the California raisin industry into immediate effect, the Sun-Maid Raisin Growers will begin purchasing the current crop of raisins from nonmember growers, it was decided late today, following meetings of the directors and growers' advisory council of the co-operative.

The grading schedule approved by both groups provides for an initial payment to the growers from $50 to $70 per ton, with a basic price of $60, as provided by the Farm Board at the time the agreement was made with that body and California banks to advance funds for this year's buying and marketing activities.

Purchase contracts will be in the hands of all Sun-Maid plant managers and at the Sun-Maid headquarters here, and in addition a crew of field men will be sent into various districts to establish direct contact with growers who are not members of the association.

LARGE RETURNS EXPECTED

The announcement pointed out that the initial payment is merely the advance payment that is always made immediately following delivery of the fruit to the association, and that because of the short crop and indications of a rising market, it is confidently expected that substantial additional payments will be possible as the fruit is moved.

The nonmember growers will be dealt with independently of the co-operative operation of the association, with the result that they will have to bear none of the overhead costs of the association, nor be obligated in any way to bear any of its expenses, the payments to them being net sums, the announcement said.

The first delivery of raisins is expected to take place late in September, making delivery to the trade possible early in October.

Harry M. Creech, president of Sun-Maid, who reached Fresno this morning from Washington, where he participated in the negotiations leading up to the huge loan, said:

PUBLIC TRUST

"We have been entrusted with the duty of making farm relief available to all growers, whether they are affiliated as members with Sun-Maid or not. Our task is to find a way for the fulfillment of that responsibility to the entire industry, without crossing any of the antagonisms that may exist, or enmeshing them in anything that has gone on before. This will be carried out in an entirely impersonal manner. We will regard it as a public job, a public service and a compliance with a fundamental policy of the Farm Board.

"We are to be an industry vehicle, semigovernmental in operation, and subject to strict governmental supervision and examination by the Farm Board.

"We will never force anybody to do anything and the program on which we are working proposes the extension of the benefits of farm-relief for every grower who wants it."

Queer Animals Arrive on Ship

SAN FRANCISCO, Aug. 21. (Exclusive)—Harold Jefferson Coolidge, member of the Indo-China division of the Roosevelt expedition of the Field Museum of Chicago, arrived here today on board the Dollar liner President Jefferson. Coolidge is a cousin of the former President.

In the hold of the President Jefferson were 4000 specimens of small mammals and birds consigned to the Field Museum. More interesting than the stuffed animals were a family of gibbons, mother, father and baby, which Coolidge believes to be the first ever brought into the United States.

Noises of Quake Alarm Mexicans

MEXICO CITY, Aug. 21. (AP)—A dispatch from Excelsior to A. Capulco says that a series of earth shocks there beginning at midnight Saturday was accompanied by loud subterranean noises which spread panic among the people.

At the same time the sky became overcast and a heavy rain fell.

"PREACHER" IN PRISON STABS NONBELIEVER

SAN FRANCISCO, Aug. 21. (Exclusive)—Enraged because a fellow-prisoner denied belief in God, Louis Bustin, 52 years of age, negro, self-appointed "cell block preacher" at San Quentin, today stabbed Isaac Leonard, 21, another negro, three times with a leather knife, seriously wounding him. Bustin has been trying to convert Leonard, according to the latter.

ARIZONA YOUNGSTER BURNED BY LIGHTNING

PRESCOTT (Ariz.) Aug. 21. (AP)—A bolt of lightning during an electrical storm and heavy downpour of rain here this afternoon struck the ground at the feet of James W. Smith, 13-year-old boy, knocking him unconscious and burning him slightly in his right hand, elbow and shoulder.

PAIR TO STUDY AFRIÇANS

NAIROBI (Kenya, British East Africa) Aug. 21. (AP)—George Amos Dorsey, New York anthropologist, and his wife arrived here today, and soon will proceed to Cairo to observe life among the primitive Acholi and Latuka tribes.

UNEASY RESTS AFGHAN WATERBOY KING'S HEAD

PESHAWAR (British India) Aug. 21. (AP)—Habibullah Khan, as Bacho Sako, Afghanistan's waterboy king, calls himself, has become depressed, Afghan reports state. This is because of the successes of Nadir Khan, who is contesting him for his throne.

Consequently he has given orders that anyone mentioning the name of Nadir Khan shall be publicly nailed to a wall by the ears and afterwards blown from a cannon. Rebel tribesmen fighting against Habibullah recently captured a general and his staff and boiled them in oil.

Nadir Khan is said to have raised an army of 16,000 men with which he is besieging Gardez, from which Habibullah's men are deserting daily. Habibullah, who is said to be growing more and more unpopular, has prepared three lines of trenches for the defense of Kabul itself.

CAROLINAN WET MOP-UP CONTINUES

More Than Fifty Under Arrest Following Raids by Federal Agents

CHARLOTTE (N. C.) Aug. 21. (AP) With more than fifty persons already under arrest, Federal prohibition officers tonight continued a series of raids begun today in two widely separated parts of North Carolina. Those arrested were described by the officers as "mostly small retailers."

At least thirty persons, white and negroes, were held here after all-day efforts to "mop up" Charlotte and Mecklenburg county.

A raid conducted from Fayetteville, headquarters for the prohibition forces in Eastern North Carolina, into Robeson county resulted in the arrest of at least twenty persons. Officers there declined to divulge the number arrested but from a United States commissioner it is learned that nineteen were given hearings and remanded to jail in default of bond.

Fayetteville officers said fifty-three warrants were sworn out before the raids began.

The arrests today are said to have followed several weeks of work by "undercover agents." In Robeson county the undercover men are said to have driven a truckload of tobacco over most of the county, posing as planters on the way to market and attempting to buy whisky at each filling station.

MANY HURT IN BATTLE OVER BIER

Thousands Clash With Jerusalem Police During Jewish Funeral March

JERUSALEM, Aug. 21. (Jewish Telegraphic Agency)—Three persons were injured seriously, twenty-one beaten and several arrested in a clash this morning between the British police of Jerusalem and a Jewish funeral procession in which 3000 persons participated.

It was the funeral of Abraham Mizrachi, one of the victims of anti-Jewish attacks by Arabs at various points of Jerusalem, which have gone on since last Thursday.

The police, including many Arabs, were mobilized to maintain order and are said to have forced the procession to leave the main road in order to prevent an Arab-Jewish encounter.

A speaker at the funeral exercises charged the Jerusalem police with failure to do its duty in protecting the Jewish population against assaults by Arabs.

MINING MAN EXPIRES

SAN FRANCISCO, Aug. 21. (AP)—M. J. Brophy, 69 years of age, retired mining man, died today at his home here. For many years he was actively associated with the Phelps-Dodge Company at Bisbee, Ariz., and also held interests in properties at Casa Grande, Ariz.

POLITICAL BEES TO GET BUSIER

Washington to See Contest Going on Year Round

Republicans Prepare Scene for Permanent Work

Democrats Already Rushing Their Campaign Plans

WASHINGTON, Aug. 21. (AP)—There is going to be politics the year round in Washington, and year in and year out.

With the new Democratic organization at the capital already in operation, the Republicans are mobilizing a new set-up which will get under way next month.

Claudius Huston of Tennessee is slated to be the new chairman of the Republican National Committee and the active general of the Republican organization. A. F. Dawson, Iowa banker and former newspaper man, is to be the man on the job—the field captain, or executive secretary.

Dawson is to take office here with the Republican National Committee and serve as liaison officer among all Republican organizations including the National Committee and the Senatorial and Congressional campaign committees.

A publicity drive, timed to coincide with the conderation of the tariff bill in the Senate, is to be launched as a counter-offensive to the Democratic publicity campaign. Under the guidance of Charles Michelson, veteran newspaper man, the Democrats have been making a target of the House tariff measure all summer and the Republicans are aroused. Either Dawson or a "high powered" newspaper man is to take command of the Republican campaign.

President Hoover is satisfied with the reorganized Republican campaign plans and is credited by many with inspiring the arrangement. Senator Watson of Indiana, the Republican leader, also is regarded as one of those giving impetus to the program for a more active party organization.

Green Lantern Fountain

Makes Old Sol
SHIVER
The New
Green Lantern
Ice Cream Soda

HERE'S ONE on old Sol! He wasn't figuring on an eclipse this summer. Just sweltering heat. (Surely has been unusually hot this year, hasn't it?)

Then without warning we announced our great big new edition of the Ice Cream Soda. The Green Lantern Soda. Cold. Frosty. Thirst quenching. Cooling all over.

What chance did old Sol and his heat waves have with such competition? Thousands and thousands of people (we are not through yet counting coupons) flocked to Green Lantern Fountains. And came out laughing at the heat. Honestly. No doubt you were one of them. So we call this the year of the Green Lantern Ice Cream Soda eclipse.

Now it's a habit with many. (One of those good habits.) When hot, thirsty or tired—try it!

Your favorite flavor. A perfect blend of pure ice cream, fine flavoring, and sparkling carbonated beverage. It has zip and kick. Remarkably refreshing. Just perfect.

SPECIAL THIS WEEK

This week our Fountains are featuring Green Lantern Fresh Peach Ice Cream Soda for 15c. Here is a treat you should not miss. Made with specially selected, tree-ripened peaches in syrup, whipped cream and that fine Green Lantern Ice Cream.

* * * * *

The cleanliness at Green Lantern Fountains makes them doubly attractive on hot days. The spic-and-span orderliness actually makes them seem cooler. Everything is served with appetizing daintiness by courteous, schooled attendants. It's a pleasure to go to a Green Lantern Fountain.

* * * * *

By the way, have you served Green Lantern Ice Cream at home? Do so soon and don't tell the folks beforehand what brand it is. They will notice the difference and you will receive many compliments. Try it. In bulk and also in packages ready to slice. The same fine ice cream as is served at Green Lantern fountains in all ice cream dishes and drinks.

A Matter of Interest to Business Houses

Each month Pacific States Savings' customers include an increasing number of business houses who use this institution's 6% facilities.

One concern has thus increased the interest in its reserves more than $500 annually. "*Equal to the profit on a mighty big sale,*" says its president.

Here are questions business men ask regarding reserves at Pacific States Savings:

Will they enjoy safety unquestioned?
Will they be subject to convenient withdrawal?
Will they be free from personal property taxes in California?

You will find satisfactory answers to these questions in our Statement of Condition and our booklet describing our 6% facilities,—and 5% facilities for temporarily idle funds.

Send for them. They indicate why more than 2000 firms and corporations—and banks, insurance companies and title companies—have funds on reserve here.

POLITICS AND GRAFT MAKE DRY ENFORCEMENT WEAK

Ex-Prosecutor Tells How Federal Attorneys Cause Failures in Application of Law

(Continued from First Page)

term here, and the report among those who are conversant with such matters is that he is the head of the protecting organization for the violators. My personal opinion is that this lead from the Senator is an exceedingly important one and calls for a careful investigation by the best-trained men in the bureau of investigation."

MONEY LACKING

And my reply to this had to be that the bureau of investigation in the Department of Justice did not have the money to make the investigation! It was one that should have been made by the agents of the prohibition division of the Treasury Department.

It is the lack of quality of the man power in the enforcement job rather than the lack of quantity which has made the work ineffective. Too many of the agents are the ordinary policeman type, without special training or experience in under-cover investigative work. There are too many little cases being made against ordinary retail bootleggers, and not enough cases against the real brains of the bootlegging industry.

BIG FISH GET AWAY

To detect and capture ten bootleggers in one week in a town of any size presents no great difficulty. But to discover and to obtain proof sufficient for conviction of the common source of supply, to find who is furnishing protection and how, to link these local operations with operations in cities of the same county and perhaps the operations of a gang distributing liquor over not only an entire State, but three or four others, and to show their dependence primarily upon a conspiracy with a brewery, distillery, bonded warehouse, alcohol manufacturer or alcohol permit-holder is more difficult—and much more essential.

The job of prohibition enforcement can be well done with the right kind of men, but it never will be done with any number, no matter how large, of the wrong kind of prohibition agents, directors and administrators. And the right kind of agents, directors and administrators will not be appointed unless there are the right kind of men at the very top of the enforcement organization.

BETTER MEN NEEDED

I am often asked, "How many agents, spies and snoopers do you think ought to be employed to enforce prohibition?—the implication being that a limitless army is needed to obtain anything like effective enforcement.

My answer to that is that the number of Federal prohibition agents and officers should not be greatly increased. It is no more logical, sensible or feasible to expect the Federal government to set up and maintain an organization sufficient to apprehend all the liquor law violators of the country than to set up an organization to snare and prosecute all the petty thieves, burglars and hold-up men in the United States.

The Eighteenth Amendment itself contains the best answer to the question I have quoted. Section two of the amendment provides that the States shall have concurrent power to enforce the laws made under it. Certainly that part of the amendment having been ratified with the other part by forty-six of the forty-eight States, places on those States a responsibility as great and as solemn as that resting upon the Federal government.

STATES PASS BUCK

The States can no more say, "Well, the Federal government has authority now to deal with the liquor problem; we will leave it alone and let the people at Washington worry about that," than to say: "There is a Federal law which prohibits the shipment between States of impure and spoiled foods and, therefore, we will not, in this State, make any effort through our own officers to protect our people against canned goods that are poisoned, contaminated or adulterated. Let the Federal government attend to that."

Where blame does attach to the Federal government, is in failing to supply the right kind of man power in many places during the last few years. The human flaws, and not the legal flaws, have furnished the loopholes through which bootleggers have swarmed.

Lest the prohibition officials in the Treasury Department complain that I have been unfair to them and willfully blind to the defects in the Department of Justice's machinery for law enforcement, I now call attention to some of those defects.

SLIP OFF HOOK

As things are now, the prohibition agents and their superiors often say: "We gather plenty of evidence and arrest practically everybody who is in the bootlegging business, but we can't make any real progress in putting a stop to the business because the Department of Justice falls down on its end of the job. Give us the right kind of District Attorneys who will prosecute cases vigorously and obtain convictions and long sentences, and we will soon have most of the bootleggers out of business."

Certainly no one has a better understanding of the glaring deficiencies and defects in the prosecuting organizations than I have. During my entire eight years as assistant Attorney-General, a large part of my time and energy necessarily was devoted to prosecuting prosecutors when I should have had to do nothing but direct prosecution of people the prosecutors should have prosecuted!

DROVE NEW AUTO

For instance, a few years ago we received complaints from any reputable citizens of an eastern city that prohibition cases assigned to an assistant United States District Attorney were being handled in an ineffective way. The complaints were of such a character that we ordered a thorough investigation. The investigation disclosed that the assistant District Attorney, who had been appointed through the political influence of a United States Senator, was constantly consorting with bootleggers and other underworld characters, and had shown evidences of wealth not at all compatible with his salary of less than $4000 a year. Among these evidences were purchases of a high-priced automobile and an expensive seashore home, payments being made in cash.

The prosecutor, on being questioned, admitted that he had possessed little money or property before taking office. He explained his evident prosperity after assuming office as due to the receipt of a large fee from an underworld character for whom he had done some work which he said was in no way connected with his Federal activities. He stated that the fee had been paid in cash and that the man from whom he received it had since died, having been killed in a shooting affray. He admitted that he had failed to account for the money in his income tax returns. He stated that he was unaware of the regulation of the Department of Justice prohibiting District Attorneys or their assistants from appearing as defense counsel in criminal cases, either in State or Federal courts. Certainly a man cannot both prosecute and defend persons at the same time without either neglecting the public's interests or poorly serving his private clients' interests.

IN BREWERY DEAL

Even after we called for the resignation of this prosecutor, he sought by the use of political influence to retain his position. However, he finally went.

Another assistant United States Attorney, while responsible for the prosecution of prohibition cases, actually associated himself in a transaction whereby he became the partner of several shady characters in the purchase of a brewery!

In another district, I received information concerning the operations of a liquor ring that was transacting an enormous amount of business. The evidence was clear and conclusive, but we had to withhold taking any action to obtain indictments until the United States District Attorney then in office was replaced by another. We found that it would be unsafe to place the evidence in the hands of the District Attorney then in office, because there was proof that he and his friends were closely associated in many ways with some of the principal conspirators to violate the prohibition law.

There are many ways in which an unwilling or dishonest District Attorney can nullify the effect of good work on the part of the prohibition agents. I was obliged to recommend the dismissal of one of the United States District Attorneys, not because of any proof of corruption or graft, but because of continued neglect of prohibition cases. One of these cases involved the removal to another State for trial of a Federal Court bailiff who happened to be a Republican county chairman in the District Attorney's State. The removal proceedings were neglected nearly two years until one of the men under Mr. Morrison, head of what we call our flying squadron from my office, took action to end the delay. When the removal was brought about, the defendant was tried and convicted.

MANY STRAW BONDS

The District Attorney's offices, of course, are responsible for insuring the posting of adequate bonds by bootleggers who seek release on bail pending trial, but in many cases prosecutors have failed to see to it that the bonds posted were valid and collectible. The result is that arrested bootleggers simply have disappeared and bondsmen have had to pay nothing.

Prohibition agents can gather evidence and make arrests to their hearts' content, but there is little prospect of prohibition enforcement when a District Attorney handles prosecutions in such a way that six out of ten of the men arrested gain dismissal of their cases with the apparent acquiescence of the District Attorney.

In one district we discovered that of 830 criminal cases disposed of, 474 were either dropped for want of prosecution or quashed on motion of the defendants—which meant that the defendants were freed without trial. In the same district there were 123 trials by jury and sixty-five of these, or more than half, resulted in acquittals for the defendants. The District Attorney in charge simply wasn't interested in prohibition enforcement and had to be replaced by a man who was.

In other districts we found the work of good prohibition agents nullified by the plain incompetence and lack of ability of District Attorneys appointed to their offices merely in reward for political services rendered a Congressman or United States Senator. This type of District Attorney simply doesn't know how to prosecute a prohibition case or any other kind of case effectively and, of course, bootleggers thrive in such districts.

(Tomorrow Mrs. Willebrandt will have something more to say about the human flaws that have prevented genuine enforcement of the prohibition laws.)

COLLECTOR GETS FIRE TRUCK

Illinois Village Left Without Protection as it Fails to Make its Payment

LYONS (Ill.) Aug. 21. (AP)—The installment collector was out this way yesterday and drove off with the village fire truck.

There was about $9000 due on it. The village trustees were *sorry*, explaining that the treasury temporarily was a bit low. The installment fellow was nice about it, but adamant. Lyons, therefore, virtually is without fire protection today.

Moose Elect New Officers at Convention

DETROIT, Aug. 21. (AP)—Albert H. Lander, Jr., of Philadelphia was elected supreme dictator of the Loyal Order of Moose last night at the forty-first annual convention here.

Other officers elected are: Frederick Zihlman of Cumberland, Md., supreme vice-dictator; Henry W. Busch, Detroit, supreme prelate; Malcolm R. Giles, Mooseheart, Ill., secretary; Harry W. Mace, Pennsylvania, treasurer, and George N. Warde, Mooseheart, general dictator.

Secretary of Labor Davis, director-general of the order, presided at a meeting last night at which 2500 new members were initiated.

FOUR IN SOUTHLAND GIVEN COMMISSIONS

WASHINGTON, Aug. 21. (Exclusive)—Four of the ten Californians accepting commissions in the Army Reserve Corps are from Southern California, two from Los Angeles, one from Glendale and one from San Diego, the War Department announced today. The two Los Angeles Reservists are W. H. Lollier, 1227 South Spaulding street, commissioned first lieutenant, special reserve, and J. E. Salter, 650 South Grand avenue, commissioned second lieutenant in the Coast Artillery. E. T. Jones, 1312 Garfield avenue, Glendale, also was commissioned as a second lieutenant in the Coast Artillery Reserve Corps. A. P. Atherton, 1327 Eighth street, San Diego, also accepted his commission as second lieutenant in the Air Reserve Corps.

DOCTORS FAVOR 'MERCY DEATH'

Prague Congress Would Kill Incurable Patients

PRAGUE, Aug. 21. (Exclusive)—After a violent debate the national congress of doctors meeting here voted in favor of legislation for euthanasia, the much mooted business of putting patients suffering from incurable ailments out of misery.

The Czech doctors decided there are many cases in which euthanasia would not only be human but actually defensible on moral grounds and it is the first time anywhere, it is believed, where legislation was asked to make it possible.

It was recommended that a national board of three leading physicians be established to pass on the cases and decide which ones should be given a fatal overdose of some drug or restrained from trying to prolong life. All agreed that grave abuses would arise if left to individual judgments and most of them said they would prefer to have the responsibility shifted to the national board.

"Journal" Ends Life in Chicago

CHICAGO, Aug. 21. (AP)—The Chicago Daily Journal today announced today's issue is its last.

Beginning tomorrow, the Journal will be absorbed and published in consolidation with the Chicago Daily News, the name of the combined newspapers to be the Chicago Daily News and the Chicago Daily Journal.

PARAMOUNT'S PLANS PUSHED

Film Officials Now Directors in Broadcast Company

NEW YORK, Aug. 21. (Exclusive) Further progress in the reported plans of Paramount Famous Lasky Corporation to build up a unit-for-unit competitor of Radio Corporation of America in the amusement field was made today when five representatives of the motion-picture company were elected directors of the Columbia Broadcasting Company. The acquisition of a 50 per cent interest in the broadcast system was announced two weeks ago but until the action today Paramount has taken no official part in the operation of the broadcasting organization.

The five representatives of Paramount who were elected to the directorate are Ralph A. Kohn, Sidney R. Kent, Charles E. McCarthy, Eugene J. Zueker and Sam Katz. Mr. Kohn, who is treasurer of the Paramount company, was elected treasurer of the broadcasting company at the organization meeting which followed the election of directors. Mr. Kent is a sales manager for the Paramount company, Mr. Katz the director of the Paramount theaters and Mr. McCarthy director of publicity and advertising for the film company. It is understood he will assume the same duties in connection with the broadcasting company.

The directors representing the unacquired half of the system are W. S. Paley, J. Paley, H. H. Loucheim, L. Levy and I. Levy.

OFFICIAL EXONERATED

EUREKA, Aug. 21. (AP)—Charges of misconduct in office against George W. Howe, District Attorney of Del Norte county, were quashed here today when Superior Judge Selvage dismissed the action.

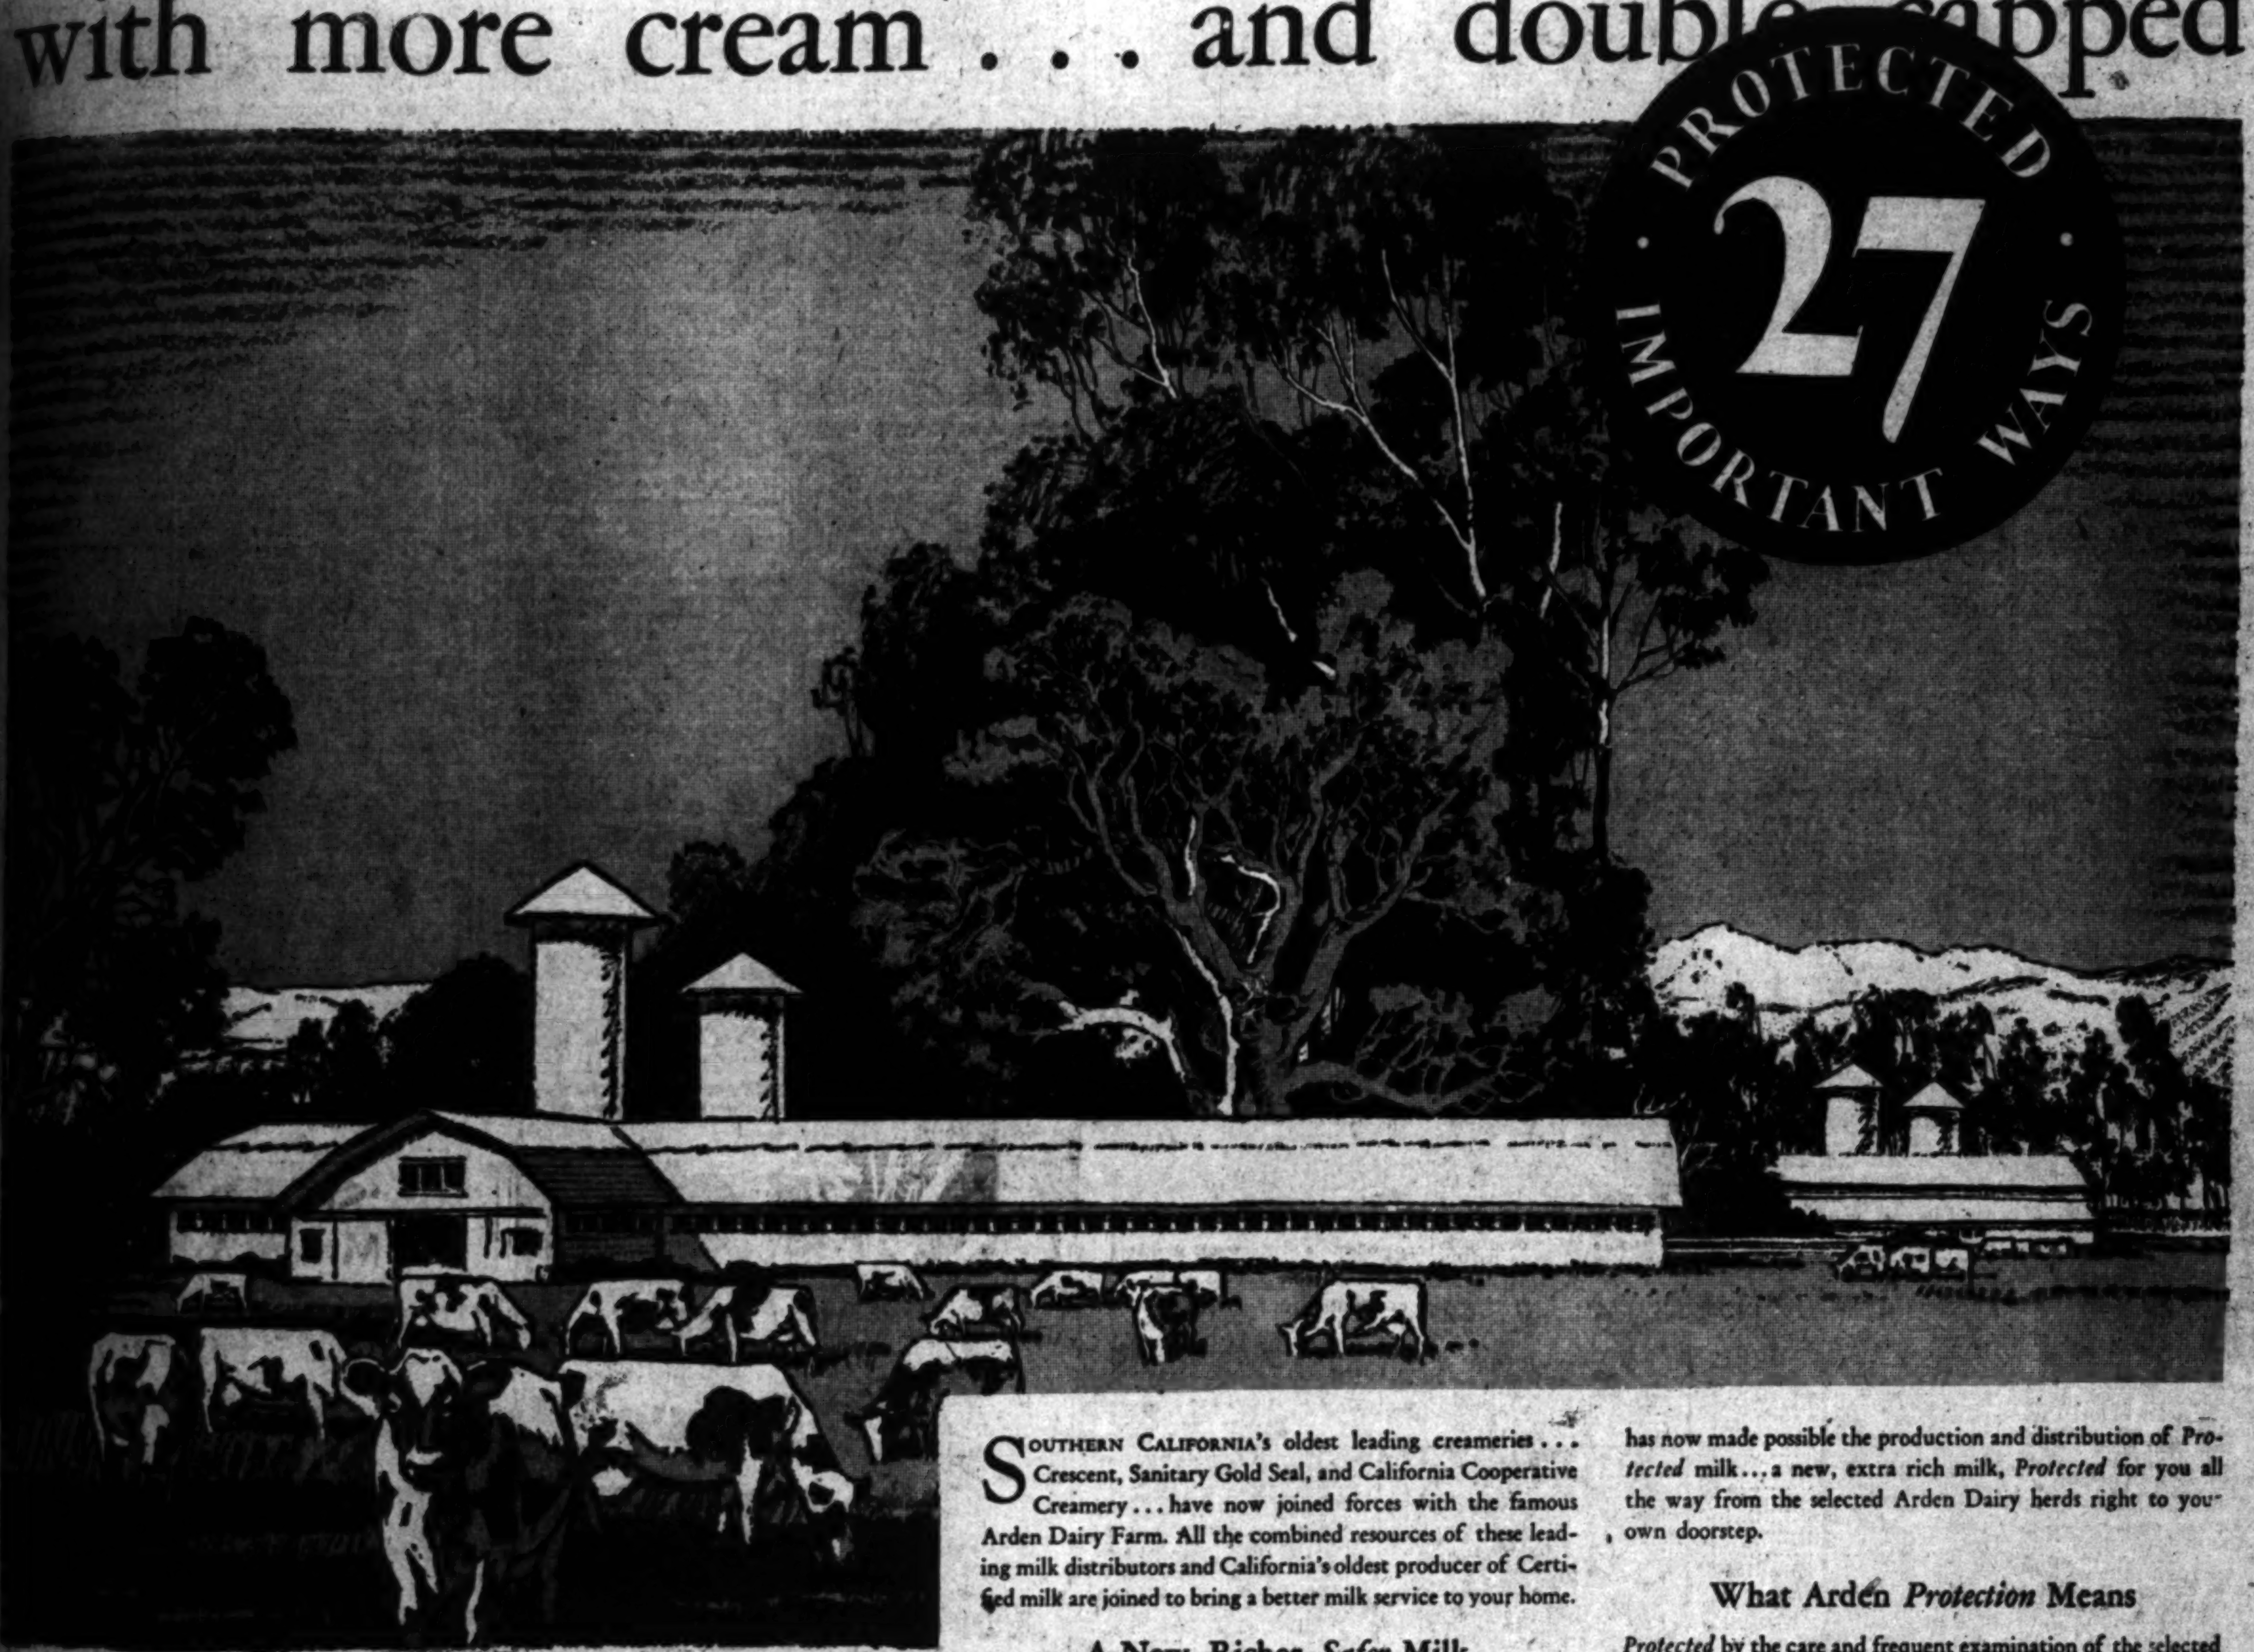
NEW . . ! Extra Rich Arden *Protected* Milk with more cream . . . and double capped



Selected Cows at the Famous Arden Farm

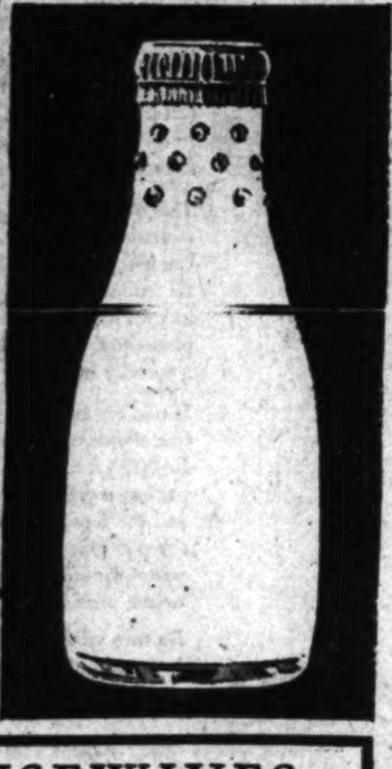
These herds of the finest selected Holstein and Guernsey dairy cows produce Arden's prize-winning Certified Milk *under the direct supervision* of the Los Angeles County Medical Milk Commission.

Watch the Cream Line

The new Arden Extra Rich *Protected* Milk is now the richest pasteurized milk being distributed in Southern California by any of the larger creameries. It has *more cream and is richer in butter fat*. Watch The Cream Line and note added value to you.

Double Cap Protection

Your milkman brings this new Arden *Protected* Milk, sealed with a sterile inner cap, and then *double capped* so that no hand can touch the top of the bottle . . . the final safeguard of the 27 modern, sanitary *Protections*.



FOR 150,000 HOUSEWIVES

Already 150,000 housewives are enjoying the additional cream and finer flavor of this new *Protected* milk. They are taking advantage of the 27 Protections...Protections which mean healthier babies and sturdier children. Now you too can have this new richer, double capped, *Protected* milk. Just phone the Arden Order Girl. Your Arden Gold Seal Milkman will call tomorrow.

16¢ Qt.

PHONE NOW . . . . TRinity 9521

SOUTHERN CALIFORNIA'S oldest leading creameries . . . Crescent, Sanitary Gold Seal, and California Cooperative Creamery . . . have now joined forces with the famous Arden Dairy Farm. All the combined resources of these leading milk distributors and California's oldest producer of Certified milk are joined to bring a better milk service to your home.

A New, Richer, *Safer* Milk

And the first accomplishment of this finer service is the new Arden Extra Rich *Protected* Milk. It has *more cream . . .* is *richer in butter fat . . .* is *double capped . . .* features which mean added health for your family . . . and a natural flavor which helps in getting children to drink milk.

With a New Name

A new name was chosen for this *Protected* milk, because its added richness, finer flavor, and the rigid, modern, sanitary *Protections* under which it is produced, made it necessary to distinguish it from all other milks. So it comes to your home today under its new name . . . Arden Sanitary Gold Seal *Protected* Milk.

This joining of resources brought together the finest and most modern creamery plants in the West. Hundreds of thousands of dollars were spent to perfect and install the most modern, sanitary devices known to the milk industry. And, it has now made possible the production and distribution of *Protected* milk . . . a new, extra rich milk, *Protected* for you all the way from the selected Arden Dairy herds right to your own doorstep.

What Arden *Protection* Means

Protected by the care and frequent examination of the selected cows which produce it.

Protected in the diet of the herds.

Protected by being quickly cooled at the farms after milking.

Protected by medical examination of employes connected with its production and delivery.

Protected by perfect pasteurization.

Protected by being bottled automatically . . . and by being double capped so that no hand can touch the bottle top.

SHIPPING NEWS AND ACTIVITIES AT LOS ANGELES HARBOR

FISHING-FLEET HAVEN LOOMING

Movement for Mooring-Base to Bear Fruit

Approval of Harbor Board Believed Assured

Cost of Project Estimated at About $500,000

BY WAYNE B. CAVE

Mooring facilities are in prospect at last which will keep Los Angeles Harbor's big fishing fleet from basing elsewhere.

A rock breakwater is contemplated seaward from Fish Harbor which with finger-type wharves will afford places for hundreds of boats to tie up.

The idea, pressed by the San Pedro Chamber of Commerce, must receive formal sanction by the Harbor Commission before work may start, but that sanction apparently is unofficially assured already.

The breakwater would run seaward 1800 feet, as a projection from the east side of Fish Harbor. Finger-type wharves, numbering perhaps half a dozen, and from 200 to 600 feet long, would run off at right angles on the protected side of the breakwater. Boats would berth on end on either side of these wharves, while dolphins and anchor rings on either side of the present Fish Harbor breakwater will afford moorings for additional craft.

Also just east of Bethlehem's shipyards a small city strip of land will be fitted with a platform for unloading and for additional moorings for fish boats.

Formal authority is expected from the Harbor Commission in a few weeks and the project completed by the close of the present year. Its cost is yet indefinite, but might approach $500,000.

LOCAL YARD GETS LINER REPAIR WORK

The Los Angeles Shipbuilding and Drydock Corporation was successful bidder yesterday for repairs to the stern section of the Dutch motorship Bingtang, Java-Pacific liner which was aground a week ago in Long Beach channel. The yard's tender was $19,512, with completion in eighteen days of repairs entailing thermit welding of new sections into the broken stern frame an installation of a new rudder.

Other bidders included the Bethlehem Shipbuilding Corporation, Ltd., with a tender of $22,425 and twenty days for completion and the Moore Drydock Company, San Francisco, with a bid of $22,335 and twenty-one days for completion.

Marganita, a famous Atlantic Coast cruising yawl which has been purchased by Henry B. (Skip) Warren, local editor and yachtsman, arrived from New York yesterday on the deck of the American-Hawaiian motorship Californian.

The Californian also brought, in addition to 2300 tons of general freight for local discharge, the first three De Haviland "Moth" light airplanes to be received on the Coast. Consigned to Crook & Co., two will be delivered here and the third at Oakland.

Sixty-five hundred tons of Los Angeles freight, the biggest consignment to go to North China from the Pacific Coast this year, will be taken out on the 27th inst. aboard the Oceanic and Oriental liner Golden Wall, it was announced yesterday by R. A. Stewart, terminal superintendent of the American-Hawaiian Steamship Company, operating agent.

The big shipment will include 120,000 cases of kerosene and gasoline, canned goods and machinery.

Capt. Thomas Ridley, master of the British tanker British Star, was yesterday recovering nicely from an operation for acute appendicitis, performed by Dr. P. McLean Campbell at the San Pedro General Hospital.

Luis M. Salazar, Inc., is opening ship brokerage offices on the second floor of Cabrillo Theater Building, San Pedro, directly adjoining the Mexican Fish and Game Commission's offices. The concern has headquarters at San Diego, where it alone is declared to be licensed by the commission to grant Mexican bait licenses. J. R. Paredes, brother-in-law of Salazar, and treasurer of the company, holds the license as broker, as Salazar declared he himself is not an American citizen. R. R. Dominguez, another brother-in-law, was expected to run the San Pedro office.

The government cable ship Dellwood arrived from the north yesterday to take on bunker oil and proceed to England. There she will load cable for laying in the Philippine Islands.

First and last trip in here, the Garde Maru sailed yesterday for Japan. She is a former British tanker, small in size, sold to Mitsui who will operate her between islands of Japan. She carried out 20,000 barrels of Diesel oil from the Marine Refining Company.

News of Ships and Sailings at Pacific Ports

[illegible]

...by steamship lines operating to Europe, particularly Germany and Scandinavian ports, indicated another successful apple shipping season. Full bookings run up until the end of March in 1930, shippers report.

The United Kingdom is not yet active, but it was expected that this market soon would also get under way. Preparations have been made for a large movement in that range.

PORTLAND, Aug. 21.—Objection to any proposal of the Dock Commission to abolish the position of harbor master was voiced here today in letters from the Chalmers Shipping Company and W. J. Jones & Son to the City Council.

The position was left vacant recently with the death of Capt. Jacob Speier. Subsequently the Dock Commission suggested that the position be abolished and later asked that the request be held in abeyance.

Bringing sixty-seven passengers and 1315 tons of general cargo, the Matson steamer Wilhelmina arrived here today from Honolulu. She sails at noon tomorrow for Hawaii.

INDIGNITIES OF MORGUE ROUSE PARISIAN 'CORPSE'

PARIS, Aug. 21. (Exclusive)—The imagination of the novelists is not the only place where the dead return to life, as was proven this morning by Jean Duda, who abruptly came to life on a block of ice in a St. Denis morgue.

M. Duda officially was drowned yesterday. He tried to teach himself to swim in an isolated part of the Seine but only succeeded in going to the bottom six or seven times. When he was hauled out all known first-aid treatments were administered, then all known death tests were applied. He was declared dead by the Coroner.

This morning the "corpse" while being prepared for an undertaker, suddenly sat up and indignantly demanded, "What's the big idea?"

The officials were furious but were finally forced to blot out the line in the record where he was inscribed as dead.

NAVAL ORDERS

WASHINGTON, Aug. 21. (Exclusive)—Navy orders posted today follow:

Lieut. J. F. Wombler, Jr., to the Paul Jones.

Lieut. J. C. Waldron to Pensacola.

Lieut. A. W. Barnes to Washington, D. C., yard.

Lieut. C. W. Brown to Eleventh Naval District.

Lieut. L. A. Williams to Mare Island yard.

Lieut. W. W. Pierce to the Henderson.

Lieut. C. S. Weeks to the Barker.

Adam Strolls French Town Sans Fig Leaf

GRENOBLE (France) Aug. 21. (Exclusive) — America's pajama wearers were outdone here today by an Italian mason named Delozzaci Abaldo, who startled the tranquil town by walking unconcernedly through the main street clad in nothing at all.

The police, aroused by a couple of dozen frantic telephone calls, swooped down on the back-to-nature fan and arrested him, despite his protests that he had no evil intentions but found the weather too warm for clothes.

Bakersfield Banker Dies

SAN FRANCISCO, Aug. 21. (AP)—Louis V. Olcese, Bakersfield capitalist, and reputed to be one of the wealthiest men in Kern county, dropped dead here yesterday while en route to visit his sister in Piedmont, authorities divulged today.

Olcese, widely known as a wool grower, also was a vice-president of the Bank of Italy.

Pursuit Planes in Kansas City

KANSAS CITY, Aug. 21. (AP)—Fifteen sleek and speedy Boeing pursuit planes, "war-birds" of the Navy, and two giant twin-motored Sikorsky amphibians, en route to the National Air Races at Cleveland, arrived at the Municipal Airport here today.

The planes carried twenty-three naval officers and nineteen enlisted men, en route from San Diego. They took off this morning from Dallas, Tex.

Minor troubles today delayed four of the ships comprising the entire group and they did not arrive with the main body.

JAPANESE TRAINING SHIPS ON WAY HERE

SAN FRANCISCO, Aug. 21. (Exclusive)—With their bands playing the "Star Spangled Banner" and all hands on deck standing at salute, the Japanese imperial navy training ships, Asama and Iwate steamed out through the Golden Gate today bound for Los Angeles. As the visiting ships bade farewell to the American battle fleet and to the Chilean naval vessel Gen. Baquedano, the band on the U.S.S. Maryland burst forth with the Japanese national anthem. Two destroyers from Uncle Sam's navy acted as escort to the ships that put out to sea.

BURNING VESSEL GETS TO PORT WITH ESCORT

MORLAIX (France) Aug. 21. (AP)—The German steamer Dalla, escorted by the steamer Arfried, reached port today with fire smouldering aboard here. The Morlaix crew had the flames under control. Financial loss was heavy.

Fire had broken out as the steamer was leaving the harbor at Brest. It was necessary to transfer the passengers to the steamer Arfried.

10 YEARS

Of Constantly Increasing Dem

Prove Popularity Of

MONOLITH

For Waterproof Plaster and Concrete W

MONOLITH is the *original waterproof portland* cement made on the Pacific Coast. For ten years it has enjoyed a constantly increasing demand and is by far the largest selling brand in this market.

It has been sold in large quantities to construct numbers of swimming pools, reservoirs, walls, foundations and other types of waterproof concrete structures. And there are today literally thousands of homes, apartments, flats and store buildings whose walls are stronger and absolutely watertight, because the stucco plaster was made of Monolith Waterproof Portland Cement.

This overwhelming popularity has come as a result of the one convincing test—actual usage over a period of years under all sorts of climatic conditions. Cement is not a product to be demonstrated by itself over a dealer's counter. Its true worth is judged in the qualities it adds to completed structures, after its own identity is lost by mixing with other materials. And it is the complete satisfaction and true economy which has attended its use that has brought a steadily increasing demand for Monolith.

If you are building for permanence, for satisfactory results, for the elimination of upkeep expense, you will buy MONOLITH WATERPROOF PORTLAND CEMENT. Monolith insures satisfaction. The slight additional cost per bag is greatly offset in the finished construction by the speed in handling and the fact that less of it is required per unit of other mixing material. And the difference in cost is more than completely offset when you consider its waterproofing quality, its strength, and the elimination of upkeep expense over a period of years.

Be sure you know all the facts—then you'll understand why Monolith has been selected as the best material for waterproof stucco plaster. For sale by leading building material dealers.

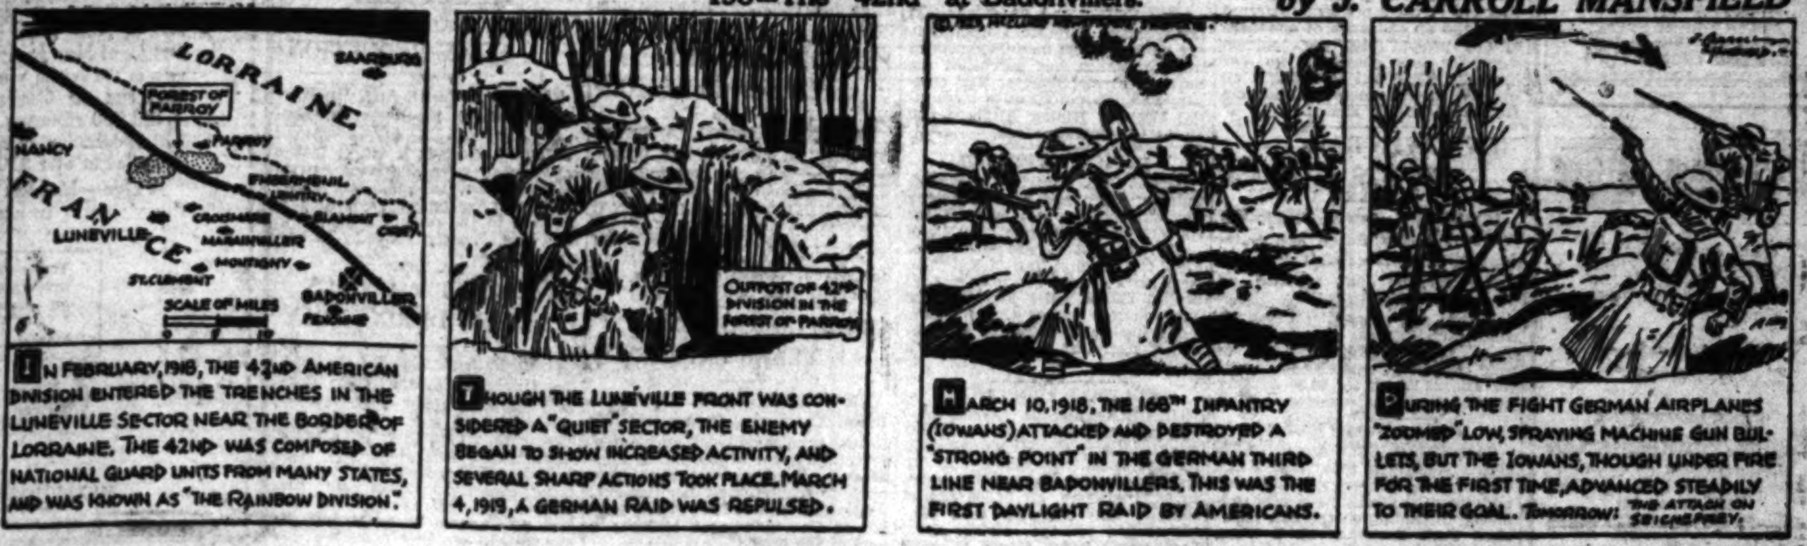
A Fund of $40,000,000 to Provide Planes for civilians anxious to take up aviation is sought from the government by Thomas L. Hill, war flyer and president of American Society for Promotion of Aviation. In five years 250,000 flyers would be ready for service, he asserts. (A. P. photo.)

Youngest Ball Player Signed by a major league club is little Sam (Red) Solomon, 13 years of age, shown here with Rogers Hornsby of the Chicago Cubs. He is from New York. Waite Hoyt, the next youngest player ever signed, was 16 when he became a major leaguer. (A. P. photo.)

HIGH LIGHTS OF HISTORY 1426

The Story of the World War
196—The "42nd" at Badonvillers.

by J. CARROLL MANSFIELD



IN FEBRUARY, 1918, THE 42ND AMERICAN DIVISION ENTERED THE TRENCHES IN THE LUNEVILLE SECTOR NEAR THE BORDER OF LORRAINE. THE 42ND WAS COMPOSED OF NATIONAL GUARD UNITS FROM MANY STATES, AND WAS KNOWN AS "THE RAINBOW DIVISION".

THOUGH THE LUNÉVILLE FRONT WAS CONSIDERED A "QUIET" SECTOR, THE ENEMY BEGAN TO SHOW INCREASED ACTIVITY, AND SEVERAL SHARP ACTIONS TOOK PLACE. MARCH 4, 1918, A GERMAN RAID WAS REPULSED.

MARCH 10, 1918, THE 168TH INFANTRY (IOWANS) ATTACKED AND DESTROYED A "STRONG POINT" IN THE GERMAN THIRD LINE NEAR BADONVILLERS. THIS WAS THE FIRST DAYLIGHT RAID BY AMERICANS.

DURING THE FIGHT GERMAN AIRPLANES "ZOOMED" LOW, SPRAYING MACHINE GUN BULLETS, BUT THE IOWANS, THOUGH UNDER FIRE FOR THE FIRST TIME, ADVANCED STEADILY TO THEIR GOAL. TOMORROW: THE ATTACK ON SEICHEPREY.

FINANCIAL

NEW FINANCIAL COMPACT MADE

Pacific American Associates in Eastern Hook-up

Affiliation Announced With Goldman, Sachs Unit

Development of West Coast Industry Chief Aim

Combination of Pacific Coast and eastern capital on a large scale to participate in the development and management of financial, industrial and other business enterprises on this Coast was announced here yesterday through the affiliation of Pacific American Associates, Inc., with the Goldman Sachs Trading Corporation.

Pacific American Associates, Inc., a $100,000,000 management and trading company, organized and directed by Pacific Coast interests, has entered into a consolidation with the Goldman Sachs Trading Corporation, the announcement states, and will continue to specialize under the direction of its own officers in the management and investment in Pacific Coast enterprises.

Affiliation with the powerful Goldman Sachs interests, it was stated, will lend to Pacific American Associates with the financial resources and facilities of the eastern group, now recognized as one of the strongest and largest in the country. Goldman Sachs Trading Corporation has led the way in developing the trading and management company as a formidable vehicle in modern finance, and recently launched two similar enterprises in the Shenandoah Corporation and the Blue Ridge Corporation.

MERGER PLANNED

Organized in January of this year by Hunter, Dulin & Co., Pacific American Associates has acquired the controlling interest in Bond & Goodwin & Tucker, Inc., and Hunter, Dulin & Co., Pacific Coast investment houses, and will shortly combine them into a new banking house under the name of Tucker, Hunter, Dulin & Co. Pacific American also controls the American Company, a holding company owning the American Trust Company of San Francisco, the American National Company, and C. F. Childs & Co.

When the consolidation of the American Trust Company with the Crocker-First National Bank of San Francisco is completed, Pacific American Associates will be the largest stockholder in the consolidated bank. Its ownership of C. F. Childs & Co. gives it the largest national investment house specializing in government securities.

Besides these assets, Pacific American Associates has acquired the securities of various Pacific Coast public utility, insurance, financial and industrial companies. These operations in all have increased its capital and surplus from the original amount of $10,000,000 to $100,000,000.

OFFICIALS LISTED

While the announcement does not disclose the securities held in the portfolio of this Pacific Coast company, it is presumed that this company is in part responsible for much of the accumulation lately in the shares of leading Pacific Coast industrial, public utility, banking and insurance companies.

The announcement of the affiliation with the Goldman Sachs Trading Corporation also lists the officers and directors of Pacific American Associates, Inc., all of whom are actively identified with business affairs on this Coast. Frank L. Taylor of Hunter, Dulin & Co., is the president; Nion R. Tucker, of Bond & Goodwin & Tucker, Inc., execu-

INCOME OF FINANCING UNIT TOLD

Seaboard Dairy Credit Reports Seven Months' Net of $197,739

Net earnings of the Seaboard Dairy Credit Corporation for seven months ended July 31, last, amounted to $197,739.05 after all charges including Federal income taxes and contingent reserves, equal after preferred dividends to $1.73 a share on 88,550 no-par common shares outstanding, or at the annual rate of $2.97 a share, Walter B. Congdon, secretary-treasurer, announced yesterday.

Gross earnings for the period amounted to $341,421.32; operating expenses $57,707.19; interest on bank loans, $22,420.83; reserve for taxes, $36,538.74 and reserve for possible losses $27,015.51.

While no comparative statement with last year is available the net earnings of the company for the first half of the current year were reported at $173,957.08, an increase of $59,603.60, or more than 50 per cent over the first half of 1927. Gross earnings increased $123,907.90 or more than 75 per cent, to $292,562.30 for the six months' period.

The net earnings for July, therefore, amounted to $23,781.97 after all charges. At the close of the seven months' period there was carried to surplus account after provision for dividends on both preferred and common stock, $53,441.27, bringing the surplus account to $309,345.07. Cash on hand totaled $241,998.45 and accounts payable $1545.72.

Trading Quiet on London Mart

LONDON, Aug. 21. (Exclusive)—Trading on stock exchange was quiet but tone confident. There was a fresh burst of activity in international issues. International Nickel was strong and international holdings and margarine issues were active. Talking machine issues were easier with radio shares higher. The tobacco list was steady with British American an easy exception. Mining and tractions were steady. Brazilian traction ordinary held around 74½.

Gilt edge division and foreign issues steady. Home rails well maintained while Argentine rails were dull.

New Langendorf Issue Approved

SAN FRANCISCO, Aug. 21. (Exclusive)—Langendorf United Bakeries has been authorized by the State Corporation Department to issue 10,000 Class A shares and 10,000 Class B shares to J. Barth, Shingle, Brown & Co. and Spencer, Trask & Co. This issue is the one recently authorized by stockholders.

According to the report to the commission, the entire issue will be sold to Spencer, Trask & Co. for New York distribution and will be listed on the New York Curb Exchange. Proceeds are to reimburse the company for expansion.

AUTOCAR SET-UP MAY BE CHANGED

PHILADELPHIA, Aug. 20. (Exclusive)—Final discussion will be given by the directorate of the Autocar Company to a refinancing plan at a meeting during the next week, it was learned here today. The plan is said to call for the retirement of the 8 per cent preferred stock and an exchange of one share of the present $100 par common stock for four shares of no par common. This will necessitate an increase in the common stock from 100,000 to 400,000 shares.

NEW HAVEN RAIL PROFITS INCREASE

NEW YORK, Aug. 21. (Exclusive) New York, New Haven and Hartford Railroad reported today net profits for the June quarter of $4,909,949, equal after preferred dividends and guarantees to $2.42 a share on 1,571,179 common shares. This compares with $3,244,361, or $1.36 a share in the preceding quarter and $3,121,604, or $1.30 a share in the June, 1928, quarter.

ON BAY CITY CURB

SAN FRANCISCO, Aug. 21. (Exclusive)—Effective today Blue Ridge Corporation convertible preferred and common stocks have been admitted to trading on the San Francisco Curb Exchange on a when, as and if issued basis.

PRICES FOR OILS COMPUTED

Ratio of Fifteen Times Annual Earnings Suggests Stocks May be Selling Out of Line

BY EARLE E. CROWE

Encouraged by the improved status of the oil-share market many sanguine stockholders are busily figuring theoretical market prices by the application of ratios of prices to earnings. The results in many instances indicate that stocks are selling out of line with earnings and furnish the basis for many fancy price estimates if and when a real oil market developes.

Eastern wire houses are using these ratios to tout the stocks of the Standard Oil companies, Texas Corporation, Atlantic Refining, etc., as likely prospects for extended advances in market price. Standard of New Yersey, Standard of California and Texas Corporation are all given theoretical levels above 100 on the strength of unofficial estimates of earnings for the first six months of the year.

CURRENT PRICES LOWER

Hardly a company that has reported for the first half of the year is selling near to the theoretical price indicated by a ratio of fifteen times estimated annual earnings. This ratio is the one developed by John J. Raskob as the proper measure for figuring the market worth of industrial shares and is considerably more conservative than some of the recent ratios applied to public shares.

Indicated annual earnings on the basis of earnings reported for the first six months of the year, and theoretical prices figured as fifteen times annual earnings are shown in the following table:

	1929 estimated earnings	Theoretical market price
Barnsdall	[illegible]	30
Houston	[illegible]	[illegible]
Pacific Western	2.12	32
Richfield	4.06	61
Rio Grande	[illegible]	74
Signal	6.42	96
Sinclair	5.74	86
Skelly	[illegible]	90
Tide Water Assn.	1.12	17
Union	3.44	52

Union Oil of California is the only stock in the foregoing table selling at or near the indicated market price. One explanation is that the investment interest in Union is always large on the supposition that the company does not disclose its ful earning power in its statements. As in most of the Standard Oils, investors figure that hidden earnings and assets entitle the stocks to sell higher than reported earnings indicate.

STOCKS UNDER PRESSURE

Stocks like Barnsdall, Richfield, Sinclair and Rio Grande are selling substantially below the indicated price level principally because of pressure from the short interests and the lack of speculative operations in the oil group generally. These companies are all earning more than last year and should do as well or better in the last half of the year.

So far there has been little comment concerning the possibility of dividend increases in the oil group. But if earnings continue at the current rate and the anticipated benefits from the gas wastage law are realized there should be action along this line in the last quarter of the year. From the stockholders' point of view the patience required to hold oil stocks in the last few years is entitled to reward as soon as the surplus production situation is cleared up.

Barnsdall, Houston, Richfield, Rio Grande, Signal, Sinclair, Skelly and Union are all earning at a rate to justify hopes of higher dividends. Tide Water Associated is not doing quite so well but may improve when the final results for the year are known. Pacific Western Oil is earning at a rate to warrant consideration of initial dividends.

Kreutzer to Use Kinner Motors

Joseph Kreutzer Corporation is planning to use Kinner airplane motors in its planes as standard equipment, it was learned yesterday. Two Kreutzer trimotored planes equipped with Kinner motors will be displayed at the Cleveland show.

Kreutzer officials said that while plans were under way to make the Kinner motors the standardized equipment for their ships, Le Blond motors would be available at the customer's option. A Kreutzer plane equipped with Le Blond motors is also being sent to the Cleveland show.

DIVIDENDS RESUMED BY HOSIERY MILLS

CHICAGO, Aug. 21. (Exclusive) Directors of the Real Silk Hosiery Mills today declared a quarterly dividend of $1.25 on the common stock, the first since 1927. The regular quarterly of 1 3-4 per cent on the preferred was also declared. Both dividends are payable October 1 to stock of record September 13.

CONSOLIDATED BUYS FLYING SCHOOLS

NEW YORK, Aug. 21. (Exclusive) Consolidated Aircraft Corporation, one of the oldest manufacturers of training planes, has purchased the National Flying Schools. The company recently purchased a substantial block of Kinner Airplane and Motor Corporation stock.

DEFICIT REPORTED

NEW YORK, Aug. 21. (Exclusive) Callahan Zinc and Lead Company reported today a net loss for the six months ended June 30, last, of $34,227, against a net income of $7537 for the first half of last year, equal to 1 cent a share on 724,592 capital shares. Net loss for the June quarter totaled $7237, against a net income of $8484 for the second quarter last year, or 1 cent a share.

POLYMET PROFIT UP

CHICAGO, Aug. 21. (Exclusive)—Polymet Manufacturing Company reported today that the final audit for the fiscal year closed July 31, shows net profits of $486,708, equal to $8.93 a share, on 54,500 capital shares. This compares with $85,922 earned for the former fiscal year, which ended March 31, 1928.

Wholesale Dry Goods Combine Plans Brewing

NEW YORK, Aug. 21. (Exclusive)—A movement to merge a considerable number of the leading wholesale dry-goods houses in order to insure their position in their field in view of chain-store competition has been launched by the United Dry Goods Corporation which has been organized for that purpose. It is understood that arrangements already have been made to acquire through an exchange of stock six large wholesale houses. These comprise Finch Van Slyke and McConville of St. Paul; Watts Ritter & Co. of Huntington, W. Va.; Walton Gore Dry Goods Company, San Francisco; Arbuthnot Stephenson Company, Pittsburgh, and A. Krolik & Co., Detroit.

An offer is said to have been made for the Ely and Walker Dry Goods Company of St. Louis, one of the largest houses which it is proposed to acquire, and a meeting of the directors of that company is called for today, it is believed, to vote on the proposal.

Houses having aggregate assets of $25,000,000 and doing an annual business of $90,000,000 will be included in the proposed merger, not including the St. Louis concern. In addition discussions are said to have been held looking to the acquisition of Carson Pirie Scott & Co. of Chicago and the Perkins Dry Goods Company of Dallas.

The United Dry Goods Corporation is headed by J. A. Daly, president; H. J. Howlett, vice-president, and E. West, secretary-treasurer.

United States Rubber in New Expansion Step

NEW YORK, Aug. 21. (Exclusive) Acquisition of control of Dispersions Process, Inc., by the United States Rubber Company, was disclosed today, when an application for the listing of the stock necessary for the purchase was approved by the New York Stock Exchange. The rubber company acquires 38,000 of the total 75,000 authorized common shares of the dispersions company and the total authorized issue of 8000 shares of preferred stock in return for 7547 shares of its common stock.

Dispersions Process, Inc., was incorporated under a Delaware charter in 1928. It manufactures and sells the entire production and purchases in the United States of aqueous dispersions of crude and reclaimed rubber. It owns many patents and patent applications covering the dispersion of crude and reclaimed rubber, asphalt, gums, waxes and similar material and is licensor of numerous valuable processes in the rubber industry.

In the application the United States Rubber Company stated that the stock in the company is acquired chiefly for the purpose of assisting in the retention of licensing arrangements and not principally to receive earnings on the stock. No capital surplus will be created upon the issuance of the stock, which will be used for the purchase.

INCOME OF POWER UTILITY INCREASES

NEW YORK, Aug. 21. (Exclusive) American Commonwealth Power Corporation announced here today net earnings for the twelve months closed July 31, of $2,778,240, after interest and subsidiary preferred dividends, but before Federal taxes and reserves. This compares with $1,664,494, earned for the preceding twelve months period. Gross earnings aggregated $20,606,819, against $17,638,073.

NATURAL GAS UNIT EARNINGS POINT UP

Oklahoma Natural Gas Corporation, a subsidiary of American Natural Gas Corporation, in a report issued yesterday covering the six months ended June 30, last, showed gross earnings of $6,714,288.55 as compared with $6,161,465.12 for the similar period of 1928 while net operating income totaled $3,378,569.21 as against $2,927,866.25 for the 1928 period.

PRINTING INK NET EARNINGS HIGHER

NEW YORK, Aug. 21. (Exclusive) International Printing Ink Corporation reported today net profits for the six months ended June 30, last, of $1,171,043 equal after preferred dividends to $3.54 a share on 271,158 common shares. This compares with earnings equivalent to $2.58 a share on 256,002 common shares reported for the first half of 1928.

UNION COMMERCE PLANS EXPANSION

NEW YORK, Aug. 21. (Exclusive) Union Commerce Corporation directors announced today an increase in capital from $10,000,000 to $25,000,000. Arrangements have been made to acquire five other financial institutions and to have Keene Higbie & Co., investment brokers, a part of the group.

PROFITS OF PULP PAPER CONCERN UP

Gain of 33 Per Cent for Three Months Reported by Crown Willamette

Net profits of the Crown Willamette Paper Company, affiliated with the Crown Zellerbach Corporation, for the first three months of its current fiscal year, ended July 31, last, amounted to $1,069,367 after all charges including United States and Canadian income taxes, according to a statement issued yesterday by the company. These profits include those of the wholly owned subsidiaries and represent an increase of approximately 33 1-3 per cent over earnings of $806,731 reported for the corresponding period of 1928.

Consolidated net profits of Crown Willamette and subsidiaries including Pacific Mills, Ltd., for the three months ended July 31, amounted to $1,191,926 after all charges, against $1,036,169 reported for the same period last year, an increase of $155,755 or more than 13 per cent.

Net profits of Pacific Mills for the period amounted to $130,733, as against $253,879 for the same period last year, a decrease of $123,146. Pacific Mills is a Canadian corporation controlled by Crown Willamette Paper Company, which holds 92.48 per cent of the common stock and 70.25 per cent of the preferred.

The decrease in earnings was due to a shutdown of a large part of its mills caused by extreme water shortage, it was stated. These units are now operating at capacity and stand-by generating plants have been installed to insure against future recurrence of power shortage.

Building-Loan Chiefs to Go to Convention

More than fifty building-loan executives of Southern California will leave Saturday night to attend the thirty-seventh annual convention of the United States Building and Loan League at Salt Lake City, which will open on the 27th inst. for a three-day session.

Among the California executives scheduled to address the convention are R. Holtby Myers, who has entitled his talk, "Three Score Plus," and A. A. Anderson, who will talk on National Thrift Week. Neill Davis of the California Building-Loan League will talk on advertising and publicity and John P. Kennedy, lecturer in appraisals, University of Southern California and University of California at Los Angeles, will discuss appraisals.

Representatives of 12,000 building-loan companies throughout the United States with aggregate assets of more than $8,000,000,000 are expected to attend. Mr. Myers of Los Angeles will be elected first vice-president of the national league if the usual practice of elevating officers each year is followed.

Investing Unit in Unique Offer

What is held to be the first public offering of shares of a new investment trust ever to be made at a price below their cash liquidating value is scheduled next week, when Fourth National Investors' Corporation will be formally launched under the joint sponsorship of the Guardian Detroit Group, the National Shawmut Bank of Boston, Harris Trust and Savings Bank of Chicago and the Marine Trust Company of Buffalo.

The public will be asked to pay $26,000,000 for 500,000 shares of common stock with warrants, whereas the corporation will start business with net cash assets of approximately $27,000,000. National Investors' Corporation, under whose management the trust will operate, will pay $8,000,000 to the trust for options on 750,000 common shares at $60, the same price as the stock warrants are exercisable at. Each share carries the right to purchase one additional half share.

IMPROVEMENT BONDS DUE ON MART TODAY

District Bond Company today will offer a $367,680.78 issue of Los Angeles County acquisition and improvement district serial bonds, due 1934 and 1948, inclusive, to yield 6 per cent. The bonds, issued against a district with an estimated valuation of $3,500,000, almost ten times the bonded indebtedness of this issue, are for the concrete paving of a portion of Atlantic avenue four miles north of the Long Beach city limits.

SPERRY FLOUR IN PRICE REDUCTION

SAN FRANCISCO, Aug. 21. (Exclusive)—Sperry Flour Company has reduced the price of Sperry "Drifted Snow" 40 cents a barrel making the new price of $7.60 a barrel effective immediately, it was announced here today. Several reductions in the price of flour have been made by the company in recent months.

HOTEL NET EARNINGS GAIN DURING JULY

Santa Barbara Biltmore Corporation, operators of the Santa Barbara Biltmore Hotel, yesterday reported for the month of July net income of $31,630 after all charges as compared with $10,000 for the same month last year. The hotel is doing capacity business at the present time and earnings for August may exceed those of July, it was stated.

CANADA INTERCOURSE GAIN

Dominion Statistician Gives Figures Showing Growth of Relations Between Two Peoples

BY JOHN F. SINCLAIR

[Copyright, 1929, by North American Newspaper Alliance.]

NEW YORK, Aug. 21.—"Between twenty-five and thirty million people cross between Canada and the United States every year," said R. H. Coates, Dominion statistician, and called "the most valuable civil servant in Canada," when I spoke to him about the growing intercourse between the peoples of these two countries.

"You see, when the war started in 1914, Great Britain had about $3,000,000,000 invested in Canada. The United States had $600,000,000. All this has changed. Now Britain has about $2,000,000,000 roughly, while the United States has about $3,500,000,000. There is every reason to believe that this flow of credit from the money centers of the United States will continue to flow into Canada. We have only begun. Our population is still under 10,000,000. Our resources, especially our minerals, are only now beginning to be discovered. I look to see the time come when twice as many people will be moving back and forth across the line."

As one talks to the different business leaders throughout Eastern Canada the impression is gained that the prosperity of Canada since the war is very largely due to the large capital outlays by American business corporations in the eastern section since the close of the war. Canada's taxes are high. Her war debt is still impressive in size. But her activities are expanding in nearly every direction.

For the first half of this year a little more than $278,000,000 went into building. This is an increase of 8½ per cent over the same period of last year. One contract alone in June was for the construction of a steel mill in Sault Ste. Marie, estimated to cost $2,500,000.

Canada's war debt—for it is nearly all attributable to the war—stands officially at $2,215,000,000. This is a decrease of $81,345,000 over the preceding year.

During the first three months of the current fiscal year which ended June 30 Canada collected $144,652,000 in revenue. About $13,500,000 more than last year for a corresponding period.

Now the expenditures for the period amounted to $80,660,000. So the excess of the receipts over the expenditures enabled Canada to have funds sufficient to pay off in full the $60,000,000 5½ per cent loan which fell due in New York City on the 1st inst. As a result of this payment, Canada is now saving about $10,000 a day in interest charges alone.

When it is understood that Canada has just one-thirteenth as many people as the United States, its record in the field of international trade is nothing short of remarkable.

NORTHWEST ROADS IN GRAIN EMBARGO

ST. PAUL, Aug. 21. (AP)—All railroads in the Northwest today ordered an embargo on shipments of rye, barley and oats from the 23rd to the 31st inst., in compliance with recommendations made yesterday by the Northwest Shippers' Advisory Board.

Associated Gas Making Strides

NEW YORK, Aug. 19.—Associated Gas & Electric Company, for the twelve months ended June 30, reports net income, after taxes, of $28,194,554, against $18,267,045, for the corresponding period last year, the company announced today.

Surplus, after preferred dividends of underlying companies, interest, depreciation and other charges, totaled $9,033,619 for the current period, while the figures for the year ended June 30 were $6,167,181.

Gross income for the twelve months ended June 30 aggregated $71,540,693, against $41,348,739 for the same 1928 period.

Steel

INDICATIVE of the prosperity of this powerful public utility is the recently released earning statement covering the twelve months ending June 30. The clipping shows that the net income and gross income both increased about fifty per cent over the same period of last year.

Future possibilities are indicated by the fact that about one third of the population of the United States still lives in unwired homes. More than half of the homes wired for electricity are still without any electric appliance other than the flat iron. More than 90% of the farms in the country are not yet being served by the power and light companies.

We are offering Associated Gas & Electric Company Class "A" stock which is paying annual dividends at the rate of 10% in stock. The possibilities of this issue warrant your immediate investigation.

Send us your name and address below for full details.

HEAVY SELLING BREAKS MARKET

Bull Movement Halted After Opening Advance

Early Gains Cut Sharply or Entirely Canceled

Downturn Viewed Chiefly as Technical Reaction

NEW YORK, Aug. 21. (AP)—The bull movement on the stock market, after encountering increasing resistance in recent sessions, was finally swamped with selling orders in the last hour of trading today. Sharp advances which sent an imposing assortment of prominent industrials to new high ground in the forenoon were largely lost and net losses were more common than gains at the close.

The downturn was generally regarded as a corrective reaction following the startling advance in high-priced issues this week. Commission-house advices to take profits and the prospect that a further increase in brokers' loans would be announced tomorrow afternoon were important factors in the selling. Increasingly gloomy reports from the conference at The Hague, and the possibility of an increase in the Bank of England's discount rate tomorrow also were unsettling influences.

Wheat Futures Off Sharply on Bearish Market

CHICAGO, Aug. 21. (AP)—Stupendous piling up of stocks of wheat at all the big market centers in this country and Canada smashed prices downward 6⅝c a bushel today. The jolt which did the work was announcement that because of unwieldy accumulations threatening to choke railroad and elevator facilities, an embargo against shipments of rye, oats and barley to Minneapolis and Duluth had been declared. This announcement, although not applying outright to wheat, was generally taken here to mean that acute scarcity of storage room for grain had reached a crisis, with the bulk of the spring wheat harvest movement in the Northwest yet to come.

After an almost vertical wild fall of prices and big selling out of future delivery holdings, the wheat market here closed weak, 5⅝@6c under yesterday's finish. Corn closed irregular, varying from 1⅝c net decline to 1c advance, oats ⅛@1¼c off and provisions unchanged to a setback of 5c.

Right from the beginning, the wheat market showed itself greatly unsteadied by news that the railroads had stopped acceptance of practically all grain intended for shipment to Minneapolis and Duluth, except only wheat and corn. In giving notice of this embargo, the railroads mentioned specifically that the reason was danger of a blockade of terminal market centers and of consequent damage to the interests of farmers. Most traders construed the announcement as pointing to abnormal congestion of grain on account of undue pressure of wheat away from farms, while no sufficient immediate outlet is in sight. It was noted in particular that European demand for wheat appeared to be at a virtual standstill today, and that arrivals of wheat at Minneapolis and Duluth are more than double the amount received at this time last year.

Lowest prices of the day in the Chicago wheat market were reached just a few minutes before trading was ended. Next to no rallying power was shown at any time, despite word that Duluth was loading out between 2,000,000 and 3,000,000 bushels of grain on lake vessels today, and that this movement promised to relieve the situation to a substantial degree. Equally ineffective as a market stimulus at least for the time being, was notice that an absolute embargo which for a considerable period has been checking wheat shipments to Galveston for export had been lifted, and that a permit system there would hereafter be the rule. On the other hand, offers today to send wheat from Chicago to Buffalo were without takers, notwithstanding a heretofore unheard of discount of 12 cents a bushel as compared with Chicago December delivery.

Corn showed relative firmness considering the severe break in wheat prices. The chief prop for the corn market was widespread need of rains. Oats sympathized with wheat.

Provisions were easier as a result of scattered selling.

City Tops State in Radio Sales

WASHINGTON, Aug. 21. (Exclusive)—Los Angeles leads the fourteen districts of California reporting radio sales to the Department of Commerce for the second quarter of 1929. More than a third of the electric sets sold in California during April, May and June of this year were sold in Los Angeles. Of the total volume of reported business for the State, amounting to $1,424,650, Los Angeles contributed $532,048. The State itself is ranked third in the volume of sales of radio sets and equipment reported. Illinois is first on the list. New York ranks second.

These figures released by the department today are based on questionnaires answered by dealers throughout the country and are considered indices only and not final statistics. The average number of dealers replying in California is 16 per cent of those polled. Replies from dealers in the Los Angeles zone show a return of only 14 per cent of the questionnaires.

CHARTER DENIED

Utah Puts Up Bar to Entry of Morris Plan Bank

SALT LAKE CITY, Aug. 21. (Exclusive)—The issuance of a charter to qualify it to do business in Utah was denied the Morris Plan Bank of Utah by order of the State banking department today. Walter H. Hadlock, State bank commissioner, based his denial on the ground that the thirteen banking institutions now operating in Salt Lake are sufficient to serve the banking needs of the community.

The formal protest made by the Utah Bankers' Association, individual bankers and the Salt Lake and Ogden clearinghouses against the issuance of a bank charter did in no way discredit any of the incorporators nor the purpose of the proposed new institution if operated under the industrial loan act, Mr. Hadlock declared.

UTILITY ANNOUNCES LIMIT ON EXCHANGE

NEW YORK, Aug. 21. (Exclusive) Associated Gas and Electric Company announced today that on September 10 all offers of exchange of securities will end and that all securities must be deposited or mailed so as to be postmarked on or before that date to take advantage of the offers. The announcement also stated that on September 10 all voluntary exchange offers for securities of Associated Gas and Electric System will cease and no others will be made during the current calendar year.

DYE WORKS NET REPORTED

NEW YORK, Aug. 21. (Exclusive) United Piece Dye Works and subsidiary companies reported today net profits for the six months closed June 30, of $1,933,029, equal after preferred dividends to $1.88 a share on 900,000 common shares.

RUBBER MARKET

NEW YORK, Aug. 21. (Exclusive)—Crude rubber values showed strength at the opening of the rubber exchange today, with initial advances of 20 to 30 points under support from dealers. Some profit-taking occurred at the upturns. However, with the sloth of buying the early levels dropped somewhat, excepting May, which turned inactive, midday prices unchanged to 10 points off. May held a 30-point rise.

At noon the trading became steady. Switching from September to January brought a premium of 120 points. Total sales aggregated about 400 contracts.

The London market opened with a firmness which was followed by a rather irregular movement which at the last cable showed advances of 1-16 to ⅛d.

	Spot-Sept.	Oct.-Dec.	Jan.-Mar.
Smoked ribbed sheets...	20¾	21½	21½

Edison Utility Liens Approved

SAN FRANCISCO, Aug. 21. (Exclusive)—The Railroad Commission today granted the Southern California Edison Company authority to issue and sell on or before December 31, 1929, $15,000,000 worth of its refunding mortgage gold bonds, Series of 5's, due 1954, and to use the proceeds derived from the sale to refund outstanding 5½ per cent bonds, and to reimburse its treasury for capital expenditures. They were ordered to sell the bonds at not less than 94½ per cent of face value, plus accrued interest.

The commission also authorized the company to limit the amount of their Series C, 5½ per cent preferred stock, sold under authorization of the commission on March 18, to 160,000 shares of a total par value of $4,000,000, instead of the original sum of $10,000,000.

CITRUS SALES HEAVY

Volume for July and First Half of August Sharply Up

Record quantities of Valencia oranges and lemons were sold during the month of July and the first half of August with a great improvement in the market situation, according to the official organ of the California Fruit Growers' Exchange to be issued today.

Total shipments of California oranges for the month of July were 5775 cars, as compared with 3344 cars in July, 1928, 4547 cars in July, 1927, and 4627 cars in July, 1926. Lemon shipments exceeded those of any previous July as was the case in June.

BLUE RIDGE FILLS STOCK PORTFOLIO

NEW YORK, Aug. 21. (Exclusive) The list of tenders for the exchange of common stocks of twenty-one leading industrial, public utility and railroad companies for shares of the Blue Ridge Corporation preference and common stock was closed late today, Clifford F. Stone, president, announced. Public announcement of the exchange appeared Tuesday morning.

SEAT SALE AT PEAK

CHICAGO, Aug. 21. (Exclusive) Arrangements have been made for the sale of a membership on the Chicago Stock Exchange for $100,000, a new high price and up $15,000 from the last sale, it was announced here today.

BRAZILIAN RUMOR DENIED

MONTREAL, Aug. 21. (Exclusive) Officials of the Brazilian Traction, Light and Power Company denied that the offer for its properties received from the American Utilities Companies will be accepted, it was announced here today.

GASOLINE STEADY

CHICAGO, Aug. 21. (Exclusive)—U. S. motor, 7⅛ to 7⅜c. Kerosene, 41-43 water white, 5⅜@5½c; 24-26 fuel oil, 70@72½c.

SUGAR STOCK DEPOSIT TIME EXTENSION SEEN

NEW YORK, Aug. 21. (Exclusive) Although the committee in charge of the deposit of stock and debentures in the reorganization plan of Cuba cane sugar has made no announcement, it is believed that an extension of time will be made. This is based on the fact that the committee is still accepting stock and practically all of the company's security holders must deposit their stock and debentures in order that the plan may succeed.

JULY
—a good hotel month
in Santa Barbara

FAMOUS as a winter resort, Santa Barbara has become almost as popular during the Summer months—ordinarily considered a dull period for the hotel business in Southern California. The Santa Barbara Biltmore Corporation reports that the hotel is operating at capacity and that net income for the month of July, 1929, after all charges, including interest and depreciation amounted to $31,620.00 as compared to $10,000 for the same month in 1928. It is expected that the month of August should show as well, if not better.

We are offering first closed mortgage 6½% bonds due 1945, secured by a 50% first mortgage on the new $2,480,000.00 Santa Barbara Biltmore Hotel property, located at Montecito Park, California. The bonds have been certified as legal investments for savings banks in California.

These Bonds are well protected as to earning power, since the largest annual interest installment amounts to $81,250.00 and net earnings after all charges, including interest, during July alone amounted to $31,630.00. Ownership and management by an exceptionally responsible group of business men and capitalists offer strong additional protection.

Price 100 and Interest to yield 6.50%.

$15,000,000
Southern California Edison Company
Refunding Mortgage Gold Bonds
Series of 5's, due June 1, 1954

Price 98 and Interest, Yielding 5.14%

Issuance authorized by Railroad Commission of State of California. All Refunding Mortgage Bonds heretofore issued are legal investments for Savings Banks in California and Massachusetts and application has been made in both states to certify these additional bonds.

The Company agrees to pay interest without deduction for the Normal Federal Income Tax up to 2%

The following information is taken from official sources:

The Southern California Edison Company owns and operates one of the most comprehensive systems in the world for the generation, transmission and distribution of electricity for power and lighting purposes. The territory served, either directly or at wholesale, embraces ten large counties in Southern and Central California (including Los Angeles), with a population of over 3,000,000 and an area of 55,000 square miles—equal to the combined area of Massachusetts, Vermont, New Hampshire, Rhode Island, Connecticut, Delaware and New Jersey. The electric generating plants of the Company have a present installed capacity of 1,116,060 horsepower, of which 631,660 is derived from water power.

The Company's total bonded debt, upon completion of this financing, will be $141,000,700, followed by $168,827,472 of dividend paying capital stocks and $9,083,600 preferred and common stocks subscribed for on a partial payment plan, having a total market value of about $313,754,000. Dividends have been paid on the common stock since 1910, the present rate being 8 per cent. Of more than 120,000 stockholders, over 85 per cent reside in the territory served. Ninety per cent of the permanent employees and 25 per cent of the customers of the Company are stockholders.

For the year ended June 30, 1929, gross earnings were $37,310,785; net earnings available for interest, depreciation, dividends, etc., were $24,346,175, or over 3.42 times the annual interest charge of $7,084,885 on the $141,000,700 bonds, including this issue.

We recommend these bonds for investment and shall be pleased to send circulars describing the issue in detail.

Chilean Consolidated Municipal Loan
7% External Sinking Fund Gold Notes, Due 1960

For over 100 years there has been no record of default in principal or interest by any Chilean municipality on its funded debt.

THE loan agreement signed by the Ministers of the Interior and Finance representing the participating Municipalities and the Government of Chile, provides:

(1) That not only this obligation shall be a joint obligation on the sixty-five cities included but that in case any of the cities do not pay their proportionate share of the service of this loan, quotas of the other participating municipalities shall be increased proportionately.

(2) That the Government will cause adequate provision of the service of this loan to be included in the budget of the respective municipalities and will retain or collect from the revenues of the respective municipalities funds sufficient to meet the service of this loan.

A cumulative sinking fund is calculated to redeem the entire issue by maturity at par. Application will be made to list this issue on the New York Stock Exchange.

Price 94 and Interest, to yield about 7.50% to Maturity

LOS ANGELES EXCHANGE

Bank Shares Attain Spotlight as General Security Price Level Falls Lower

Citizens' National and Security-First National banks were the outstanding issues on the Los Angeles Stock Exchange yesterday as the general list turned softer. Citizens' Bank, only occasionally traded in recent sessions, recorded a turnover of 1100 shares and in the last few minutes of trading shot up 3 points to a new peak for all time at 120. Security-First National, which has held firm around 131 for some time, spurted 3¼ points to 133¼ reaching the high mark on the last sale.

Pacific American Fire Insurance, which with other stocks of the Pacific Mutual group on the curb, was carried up 3 points to its top price recently established at 75. No other gains were recorded and while liquidation was evidenced in one or two places sufficient resistance of selling pressure developed which held recessions to small fractions in most cases.

Pacific Finance, the feature of the previous session, swung up to 146⅛ in the early dealings but dropped back to close at 143, off ½ net. International Re-Insurance, another of the Pacific Mutual group, held firm to 61. In the oils, Richfield, Rio Grande, Standard of California and Union Associates turned fractionally lower and Union Oil dropped a full point to 50 on large sales.

Southern California Edison fell back 1 3-8 points to 76 and the original preferred yielded 1 1-4 points to 73 3-4. Byron Jackson sold down 1 1-4 to 33 1-4 and Douglas Aircraft, Emsco Derrick, Goodyear Textile, Home Service, and Monolith Cement all turned slightly lower.

Sales totaled 22,146 shares valued at $1,362,924; previous day, 28,532 shares valued at $1,621,318.

[illegible]

*—Prices in cents.

LOS ANGELES CURB

Stocks of the Pacific Mutual group of companies overshadowed all dealings on the Los Angeles Curb Exchange yesterday and surged upward on a spirited demand generally believed to have been stimulated by the split-up action of directors of the Pacific Finance Corporation, one of the outstanding companies of the group.

Pacific Indemnity, following a lull over the two preceding sessions where it held firm between 261 and 265, resumed its upward climb to break through a new top with an advance of 6 points to a high and close at 271. Gladding McBean, another of the group, was the most active trader on the board and on a transfer of nearly 5000 shares shot up 4 points to 85½ and ended at 84 3-4 for a net gain of 3 3-4 points.

Pacific Mutual Life also drew a great deal of attention and advanced nearly 5 points to a high at 110 and ended the day at 109 3-4. Rights to the stock hit a new peak at 6 1-4 and closed at 6, up 5-8 net.

Consolidated Steel was the only issue of the group to decline on the day. This stock, following a fractional advance Tuesday, reached a top at 22 1-8 and finished the session at 21 7-8, off 1-8 net.

Aside from Claude Neon Electrical Products, which advanced 3 points to 54, no other changes of consequence took place.

Sales totaled 159,169 shares valued at $808,841; previous day, 114,931 shares valued at $312,791.

NAVAL STORES

SAVANNAH, Aug. 21. (AP)—Turpentine firm, 47; sales, 458; receipts, 1392; shipments, none; stock, 21,187.

Rosin firm; sales, 1720; receipts, 4733; shipments, none; stock, 115,905.

Quote: B, D, E, F, G, H, I, K, 7.35; M, 7.35@7.40; N, 7.50@7.62½; WG, 7.70@7.75; WW, 8.05; X, 8.05.

METAL MARKETS

NEW YORK, Aug. 21. (AP)—Copper steady; electrolytic spot and future, 18.

Iron steady, unchanged.

Tin easy; spot, 46.50; future, 47.00.

Lead steady; spot, New York, 6.75; East St. Louis, 6.55@6.57.

Zinc steady; East St. Louis spot and future, 6.77@6.80.

FLAXSEED MARKET

MINNEAPOLIS, Aug. 21. (Exclusive)—Flaxseed offerings were liberal but demand was good and early prices were firm compared with futures. Later on the crusher buyers dropped their bids about a cent. September and December closed 2.78½.

Duluth: Close—Flaxseed on track, 2.84½; to arrive, 2.84½; September, 2.86½; October, 2.88; November, 2.85½; December, 2.82.

WOOL MARKET

BOSTON, Aug. 21. (AP)—The volume of wool being moved continues somewhat smaller than during July and early August. The diminished volume of trading, however, is not causing any uneasiness and prices are very steady. New lines of goods are being shown in New York. The season is not advanced enough for members of the trade to estimate their probable future requirements.

Poland has nearly 175 agricultural machinery and implement factories.

The Small Investor

proportionately needs diversification even more than the large investor.

His list of securities is too small to be properly spread over the investment field, yet he cannot afford to risk his principal.

He can obtain this important element of diversification through the investment trust.

CONTINENTAL INVESTMENT CO.

ANNOUNCING

THE CONSOLIDATION OF

PACIFIC AMERICAN ASSOCIATES, INC.

with

THE GOLDMAN SACHS TRADING CORPORATION

The Board of Directors of Pacific American Associates, Inc., announces its consolidation with The Goldman Sachs Trading Corporation through an exchange by the Pacific American Associates, Inc., stockholders of their stock holdings in Pacific American Associates, Inc., for shares of stock in The Goldman Sachs Trading Corporation.

Pacific American Associates, Inc., was organized in January of this year under the laws of Delaware to buy, sell, trade in or hold stocks and securities of any kind, to participate in syndicates and underwritings and to exercise such other of its charter powers as its Board of Directors may from time to time determine.

Since its organization, Pacific American Associates, Inc., has acquired certain assets of Hunter, Dulin & Co., and Bond & Goodwin & Tucker, Inc., 98% of the capital stock of American Company and stocks and securities of various Pacific Coast public utility, insurance, financial and industrial companies, increasing its capital and surplus to $100,000,000. The American Company, directly or through subsidiaries, owns all of the capital stock of American Trust Company, American National Company and C. F. Childs and Company.

Pacific American Associates, Inc., through its affiliation with Goldman, Sachs and Co., Hunter, Dulin & Co., and Bond & Goodwin & Tucker, Inc., will afford financial facilities for the extensive development of the resources and industries of the entire Pacific Coast.

The operation and affairs of Pacific American Associates, Inc., will be under the direct management of its Board of Directors and Officers.

x—Ex-dividend. xr—ex-rights. a—Plus extras. b—[illegible] stock. f—2½% quarterly in common stock. [illegible] stock. n—Payable 1-50 of a share in Class A stock [illegible].

Total sales—4,716,330 shares; previous day, [illegible]; year ago, 3,109,700; January 1 to date, 687,351,000; year ago, 372,461,000.

HEAVY SELLING BREAKS MARKET

(Continued from Twelfth Page)

in preparation for autumn trade was more than counter-balancing the outflow of funds for crop moving. Also, funds were piling up in preparation for payment of recent large offerings of new securities. Rates for four to six month maturities of bankers' acceptances were increased slightly, but this was not regarded as of much consequence, as few acceptances are created of longer than ninety-day maturity.

The weekly iron and steel trade reviews reported some further slackening of demand, but stated that steel mill operations still held close to capacity and well above this season last year. American metal market stated there appears no disposition on the part of buyers to accumulate stocks. Earnings reports and dividend actions continued generally pleasing.

A feature of the market was a violent revival of bullish activity in the motor shares late in the session, in a last-minute effort to stem the tide of selling. General Motors was sent up about 4 points in a turnover of 100,000 shares in about half an hour, but later lost half its gain. Auburn Auto shot up 24 points to a new peak above 464, then slipped back 10. Chrysler, Hudson, Nash and Marmon also made substantial gains, but they were not maintained.

Bethlehem and United States Steel were bid up about 5 points each to record prices during the morning but later lost much of their gains. American and foreign power rose about a point to 151½, then tumbled to 146. Eastman Kodak, Gillette, Brooklyn Union Gas, Union Carbide and Westinghouse reached new high ground in wide gains, but also closed substantially below their best figures. In the rails, Pennsylvania and Erie reached new peak prices, the former crossing 100 for the first time, but both closed with fractional net losses. Coppers and oils were heavily bought, with Anaconda and Texas Corporation making fair gains.

Among important shares to turn heavy were American Can, Allis Chalmers, American Telephone, American Water Works, Commercial Solvents, Consolidated Gas, Continental Can, General Electric, Goodyear, International Telephone, Montgomery Ward, New York Central, North American, Radio Sears-Roebuck, and Simmons, losses running from 2 to 6 points. The utilities were particularly vulnerable. Peoples Gas closed 12 points off, having sold down as much as 16.

Commodities also were heavy. Wheat lost nearly 6 cents a bushel on a drop at Winnipeg and bearish weather and foreign crop reports. Corn closed 1 to 1½ cents lower on forecasts of beneficial rains. Cotton futures closed $1.65 to $2.05 lower in response to sagging prices at Liverpool and forecasts of favorable weather.

Foreign exchanges were irregular. Sterling cables rising to $4.84 27-32, at which level further gold imports are less likely, while French francs eased.

[illegible]

NEW YORK BOND PRICES

NEW YORK, Aug. 21. (AP)—Convertible bonds in the listed market today duplicated the performance of stocks, opening strong and then turning sharply downward in the face of easy money rates. Bonds without a speculative appeal were practically ignored.

The volume of trading was heavy in the morning session, but as profit taking became more pronounced sales tapered off in the afternoon. Sales totaled $11,214,000 par value. Some selling was attributed to traders fearing an increase in the Bank of England discount rate tomorrow. Call money renewed at 7 and dropped to 6 per cent, with some loans at 5½ per cent reported made in the outside market.

Instead of the usual note and mortgage financing for a building project, the National City Company today offered publicly $6,250,000 30-year 6 per cent income debentures and 62,500 shares of capital stock of the National Hotel of Cuba Corporation. The proceeds will finance construction of a new hotel in Cuba and is in line with the recent building loan policy announced by National City.

Commercial Investment Trust 5½s, which were publicly offered in February last, at 105, were pushed up to a high price at 109, but fell back in the afternoon selling wave, closing at 107 for a net gain of a fraction. United States Steel sinking fund 5s, which are being retired, reached a new high at 109⅝ on a fractional advance.

The communication convertibles—International Telephone 4½s and American Telephone 4½s—turned downward after the opening, closing with net losses of 6 points each.

The rails were not spared, and Atchison convertible 4½s after equaling their previous high at 150½, wound up the day at 157 for a net loss of 1½. Atchison general 4s equaled their previous low at 90 on a fractional decline. Rock Island 4½s "A" again sold at a new low.

Cuba Cane Sugar 7s dropped a point to their previous low at 57.

United States government securities were quiet, holding around their yesterday's closing levels. The foreign list was dull and featureless.

The quotations represent sales of bonds (in thousands of dollars) and the high, low and closing prices in the order given. To expedite transmission, the close is omitted when the same as the low, and both low and close when same as high.

Security-First National Bank
of Los Angeles

THIS institution is rapidly attaining a commanding position in the banking field.

Based upon July 1 reports, Security-First National now has more than 41% of the total deposits of the 15 leading Los Angeles banks.

It handles more than 40% of total investments and loans of the group.

Its surplus and undivided profits exceed 36% of the combined total of these 15 banks and it has more than 39% of their total resources.

Security-First National has paid out more than 53% of all dividends disbursed by the downtown Los Angeles banks for the first half of 1929, and approximately 37% of all interests paid depositors during the same period.

The stock is now within a few points of its low for the year and is far below its high of 142.

We recommend Security-First National stock both for permanent investment and for the market appreciation which we believe it will show within a reasonable length of time.

FINANCIAL STATEMENT OF DISTRICT:

Estimated Actual Valuation, Land and Improvements		$3,500,000.00
Assessed Valuation of Land	$1,402,898.00	
Assessed Valuation of Improvements	$ 221,198.00	
Total Assessed Valuation		$1,624,096.00
Bonded Indebtedness, this issue		$ 367,580.78

DISTRICT:

The district, embracing an area of 710.61 acres, extends from the City boundary of Long Beach, at Lincoln Street, North to Tweedy Road, including all the property lying within 750 feet on either side of Atlantic Avenue, as well as a portion of Olive Street and corresponding adjoining territory in the Southern part of the district.

These bonds are issued by the County of Los Angeles in payment for the concrete paving of a portion of Atlantic Avenue, which is now being improved as a through ninety-foot boulevard from Long Beach to Pasadena. The new boulevard provides a shorter and more direct route between Long Beach and Pasadena and is expected to relieve materially present traffic congestion between these two districts. It will be one of the principal thoroughfares of the East Side, and will be the route of a new through and local bus line. The section of the Atlantic Avenue improvement covered by these bonds is approximately four miles in length.

LEGALITY:

The legality of these bonds will be certified to by the approving opinion of Arthur M. Ellis, Esq., Los Angeles.

Constitutionality of the Act under which they are issued has been established by a decision of the Supreme Court of the State of California.

Develops a New Diesel Airplane Motor—

Authorities look upon it as one of the most outstanding developments in Aviation in recent years. Will it bring radical changes in the Automotive as well as Aviation industries? Who knows?

In a recent test flight from Detroit to Langley Field, Virginia, the new motor consumed only $4.68 worth of fuel, according to report. An ordinary airplane motor would have consumed almost six times that in cost and bulk, or about $27.00 worth.

Lindbergh Pleased With It

Col. Lindbergh, in a flight with Maj. Thomas Lanphier, August 15th, tested the new Diesel airplane motor and expressed himself as being highly pleased with it. He is the first person outside of the Packard staff to fly with the new engine.

For Immediate Purchase

Already the leading producer of high priced cars, Packard bids fair to become dominant in Aviation motors as well. We recommend this stock.

CONSIDER GOOD OILS

We anticipate marked activity in the good oils within the near future. *Now is the time to buy.* We particularly suggest

RIO GRANDE

as offering promising profit possibilities. Net earnings for first quarter this year 900% greater than same period last year. Production for first quarter more than entire year 1928. Rio Grande now yielding very satisfactory earnings and a marked advance is frankly predicted.

We recommend the purchase of this stock *at once.* Make a diversified investment of Rio Grande with other good oils. *Richfield* or *Sinclair* offer both security and added opportunity for profit.

PAY ONLY 20% DOWN

NEW YORK CURB STOCKS

NEW YORK, Aug. 21. (AP)—Call money dropped from 7 to 6 per cent today but the New York Curb Exchange ran into a heavy storm of selling on fears of a large increase in Federal Reserve brokers' loans tomorrow. Many early gains were cut down or wiped out and a rather long list of issues closed with net declines of 1 to 6 points. Much of the selling is believed to have represented profit taking.

Common stock of the new Blue Ridge Corporation was admitted to trading, the first transaction being a block of 15,000 shares at 29⅞, or approximately 50 per cent above the offering price. A brisk inquiry also developed for Interstate Equities, the new investment trust recently formed by the Blair-Bancamerica interests.

Electric Bond & Share closed 4⅝ points lower at 158¼, after having attained a new high yesterday at 168¼. American & Foreign Power warrants dropped more than 5 points and Allied Power & Light, American Superpower, Central & Southwest States Utilities, and United Gas Improvement lost 2 to 4 points.

Middle West Utilities issues showed independent strength, the old common stock soaring more than 10 points. Duke Power jumped nearly 35 points to a new high at 324½, but lost 4½ points. Southwest Gas Utilities crossed 10 to a new record price, closing at the top.

Garlock Packing advanced 2 points to a new high at 35 on the declaration of an initial dividend. Anchor Post Fence, McLellan Stores, Raybestos, Dayton Engine, and a few other specialties also topped their previous 1929 high marks. Pollis Fischer and Marconi International Marine sank to new lows.

Aluminum Company of America dropped 17 points to 433, which brings it more than 100 points below the year's high. Except for a jump of 6 points in Venezuela-Mexico Oil to a new high at 77½, most of the petroleum shares lost ground.

The closing price is omitted when same as the low, and both low and close when same as the high.

COTTON MARKET

NEW YORK, Aug. 21. (AP)—Rallies from an opening decline in the cotton market today were promoted by bullish features in the weekly report of the Weather Bureau, but these seemed to have well discounted and prices weakened again under liquidation and selling which seemed to come partly from the South. The forecast for probable showers in West Texas encouraged hope of improved weather conditions in that section, which no doubt contributed to the decline.

The midafternoon market was rather unsettled, with active months showing net losses of 25 to 30 points.

RANGE OF PRICES

NEW YORK, Aug. 21.—Cotton futures closed:

	High.	Low.	Close.
January	19.12	18.82	18.84@18.86
March	19.28	18.77	18.82@18.85
May	19.40	18.90	18.92
October, old..	18.65	18.29	18.29@18.33
October, new..	18.73	18.28	18.30@18.35
December	19.07	18.57	18.62@18.67

NEW ORLEANS, Aug. 21.—Cotton futures closed steady at net declines of 33 to 35 points.

	High.	Low.	Close.
January	19.08	18.53	18.59@18.61
March	19.10	18.70	18.75
May	19.21	18.83	18.84@18.85
October	18.76	18.22	18.29

SPOT PRICES

NEW YORK, Aug. 21.—Spot, quiet; middling, 18.50.

NEW ORLEANS, Aug. 21.—Spot cotton closed steady, 36 points down; sales, 2743; middling, 18.39.

COTTONSEED OIL

NEW YORK, Aug. 21. (Exclusive)—Cottonseed oil was dominated largely today by the action of cotton advancing early and reacting later. There was also further September liquidation and some selling on the easier lard market and the weakness in grain. The close was easy at 6 to 13 points net decline. Sales, 13,000 barrels. Prime crude nominal; prime summer yellow, spot, 9.00c; September closed 9.26c; October, 9.26c; December, 9.36c; January, 9.40c; March, 9.57c.

DAILY EASTERN CITRUS MARKETS

(By the Associated Press.)

California oranges and lemons continued to find unfavorable markets, with resultant lower prices at eastern and middle western markets today. While there were some reports of steady, unchanged or higher trends, the general tendency at most centers was to register lower values. Grapefruit also ranged lower.

Analysis of trading developed the following price range per box:

	ORANGES Graded above choice.	ORANGES Choice.	LEMONS Graded above choice.	LEMONS Choice.

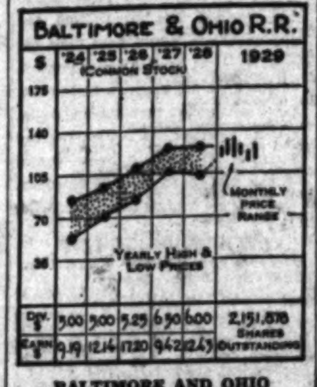
BAY CITY MINES

SAN FRANCISCO, Aug. 21. (Exclusive)—Following is the official list of quotations of the San Francisco Mining Exchange:

[illegible]

The chemical industry of Germany is booming.

WHAT'S BEHIND YOUR STOCK



BALTIMORE AND OHIO RAILWAY COMPANY

The Baltimore and Ohio is the oldest trunk line railroad in the United States. It owns and operates a total of about 5200 miles of road extending from tidewater at Baltimore to Chicago, Cincinnati and St. Louis, and from Baltimore to Philadelphia, whence connection is made over the Reading and Central of New Jersey for passenger trackage rights to New York.

While gross operating revenue receded in 1928 to the lowest figure since 1924, net income advanced to a new high record at $29,101,000. This compared with $22,632,000 in 1927. Classified operating expenses show that the decrease was in approximately one-third proportions as between maintenance of way, equipment maintenance and transportation expense which was lower than in the previous year by $4,861,000.

CAPITALIZATION

Funded debt, $538,900,029.

Total guaranteed bonds, $31,938,303.

Preferred stock (4 per cent non cum.) $58,863,181.

Common stock (par $100) $215,187,854.

CURRENT DATA

Net operating income for the six months ended June, 1929, has been reported at $22,480,840. This compared with $17,712,360 for the corresponding period of 1928.

The trousseau of a recent society bride in London consisted of sports clothes.

NOTICIAS MUNDIALES DE ULTIMA HORA

NOTAS TELEGRAFICAS

El Próximo Noviembre Serán las Elecciones Mejicanas

CIUDAD DE MEJICO, Agosto 21. El sucesor del presidente accidental de Méjico, Emilio Portes Gil, será, o José Vasconcelos, o Pascual Ortiz Rubio. El que de lo dos resultare elegido en Noviembre venidero ocupara la presidencia hasta completar el periodo que le hubiera correspondido al general Obregón.

Corre el rumor en los círculos políticos, aunque sin base que lo apoye, de que tal vez se intente posponer por un año más las elecciones.

Los dos candidatos tienen algunos puntos de contacto, si bien, personalmente, son de lo más diferentes entre sí. Vasconcelos es bien conocido como conferenciante y educador, tanto en los Estados Unidos como en Europa. Ortiz Rubio lo es solo en Méjico, pues aunque ha estado en el servicio diplomático de su país, nunca llegó a ser figura internacional como Vasconcelos.

Uno y otro figuraron en el grupo intelectual que apoyó el movimiento de emancipación de Méjico, comenzado en 1910 con el derrocamiento del general Porfirio Diaz. Han ocupado puestos de lucha, ya con un gobierno, ya con otro; y aunque a veces han pertenecido a grupos adversos entre sí, siempre han sostenido la bandera y las ideas revolucionarias. Los dos son civiles, y nunca han tenido grado en el ejército, por más que ambos hayan tomado parte en movimientos armados en el campo de la lucha.

Se Despachan Tropas para Sofocar el Levantamiento Maya

CIUDAD DE MEJICO, Agosto 21. Dice hoy un mensaje de Veracruz a El Universal que ha zarpado el barco de guerra "Anáhuac" para el Territorio de Quintana Roo con tropas destinadas a sofocar un levantamiento entre los indios mayas.

En estos últimos tiempos se han oído aquí de cuando en cuando rumores de rebeldía entre los mayas de la Península Yucateca; pero no se les había considerado alarmantes. Quintana Roo es el centro productor del chicle, y parece ser, por lo que aquí se sabe, que los indios no están satisfechos con sus jornales en la recolección del chicle.

El Joven Hoover Llamado al Servicio Activo

WASHINGTON, Agosto 21.—Hoy ha recibido órdenes del ministerio de la Guerra Herbert Hoover, Jr., hijo de nuestro presidente, para que entre en servicio activo el próximo 17 de Octubre, como teniente de la reserva especialista.

La orden, que se dice dada "por instrucciones del presidente, previene al teniente Hoover que proceda de Pasadena (California) a San Francisco, y se presente allí para servicio de instrucción. El 30 de Octubre volverá el teniente Hoover a quedar inactivo, por lo que se refiere a sus deberes militares.

Se Edificarán Quince Teatros de Fox en Arizona

PHOENIX, Agosto 21.—La compañía de Teatros de la Costa Occidental de Fox va a construir en breve, y con un coste de muchos millones de dólares, tres teatros modernos en Phoenix y quince en el Estado de Arizona.

El delegado David P. Kimball, en mitin celebrado hoy por la Comisión Municipal, es quien anunció los planes que tiene esa importante empresa teatral, que gira la friolera de $300,000,000.

La compañía de Fox tiene el proyecto de edificar dos coliseos en Tucson, y uno en cada una de las siguientes poblaciones: Jerome, Prescott, Winslow, Miami, Bisbee, Douglas, Safford y Yuma.

NOTAS LOCALES

Se Proyecta una Nueva Fábrica en Esta Ciudad

Se está pensando en Los Angeles como el sitio a propósito para establecer una nueva fábrica de material de radio, según anuncio hecho ayer a raíz de la llegada a ésta del señor Gordon C. Sleeper, vicepresidente y gerente general de la Radio-Sociedad de Temple, en Chicago. Va a pasar por acá cinco días estudiando las condiciones locales, con vistas a la erección de una sucursal de aquella fábrica en California.

Algo que ha influido en su decisión, según manifiesta, es el hecho de que la décima parte del volumen total de negocios de su compañía procede de California, y, en su opinión, aumentarían aquellos mucho si se estableciera aquí una fábrica local. En sus cálculos entra, claro está, el ahorro de fletes que así se tendría.

Dice el señor Sleeper que la nueva factoría que está levantando en Chicago su compañía va a multiplicar por dos el espacio de que ahora dispone la vieja fábrica, que es de 70,000 pies cuadrados. El nuevo edificio quedará listo para funcionar el próximo primero de Diciembre.

Tras una conferencia con Herbert H. Horn, distribuidor de sus productos en Los Angeles, voló a Catalina el señor Sleeper con Louis Gruen, gerente del distrito del Pacífico. Luego irá a San Francisco y Seattle, para estudiar esos lugares antes de decidirse por el que más adecuado le parezca para sus fines.

Charlas Infantiles para Chiquillos de Escuela

A CAZA DE UN PANTERA
(Hunting a Panther)
I.

De "Stories of Great Americans for Little Americans", por Edward Eggleston.

Viajaba Audubon por los bosques de Mississippi, cuando encontró la choza de un colono y pernoctó en ella (Audubon was traveling in the woods of Mississippi. He found the little cabin of a settler. He stayed there for the night). Díjole el colono que andaba una pantera por el pantano cercano a su habitación (The settler told him that there was a panther in the swamp near his house). La pantera es una fiera muy grande, que puede muy bien matar a un hombre (A panther is a very large and fierce animal. It is large enough to kill a man). Se trataba de una pantera muy mala, que ya había matado algunos de los perros del colono (This was a very bad panther. It had killed some of the settler's dogs).

Troops on Way to Quell Mayas

MEXICO CITY, Aug. 21. (AP)—A dispatch to El Universal today from Vera Cruz said the warship Anahuac has sailed for the territory of Quintana Roo with troops to quell an uprising among the Maya Indians.

Reports of uprising among the Mayas on the Yucatan Peninsula have cropped up here from time to time recently, but have not been regarded as alarming. Quintana Roo is the chicle producing center and it is understood here the Indians were dissatisfied with their wages as chicle gatherers.

FOREST SURVEY MEETING FIXED

House Committee to Hear State's Problems

Development Body Plans to Present Needs

Federal Aid to Farm Adjunct Province of Group

SACRAMENTO, Aug. 21. (Exclusive)—The fate of many outstanding needs of California forestry and agriculture will be given into the hands of the House of Representatives subcommittee on agricultural appropriations, when California greets this important legislative committee on arrival of the members in San Francisco on Tuesday, the 27th inst.

The committee, headed by Representative H. L. Dickinson of Iowa, will, on their visit to California, complete an extended tour over all the forest possessions of the United States, including Alaska, for the purpose of determining the need of Federal appropriation.

Accompanying Chairman Dickinson are his wife; Representative John N. Sandlin and wife; Representative John William Summers of Washington, and Maj. R. Y. Stewart, chief forester of the United States.

PLAN HEARING

At the request of the committee, the California Development Association has arranged a hearing Tuesday morning to bring to its attention any and all items dealing with the needs of forestry and agriculture in California. The association through its spokesmen, it is stated, will present the close relationship between forestry and agriculture in California, stressing the fact that water supply for the necessary irrigation of agricultural lands is dependent on the preservation of the forests, the majority of which are in the National Forest Reserve. Forest fire prevention rather than suppression should be the keynote of Federal forest management, according to the association.

Members of the forestry and agricultural committee of the development association will present the necessity of Federal appropriation on the following items:

Forest insect research and control, forest fire prevention, additional Federal co-operative funds for forest fire prevention as provided by the Clark-McNary Act, forest research and experimental station, rodent control, predatory animals, quarantine, weeds, poultry experiment station, bean insects, Palo Alto plant breeding station, lady beetles, agricultural field station.

LIST OF SPEAKERS

Among the speakers presenting these California problems will be Prof. Walter Mulford, University of California; R. A. Condee, chairman, State Board of Agriculture; A. T. Spencer, California Wool Growers' Association, and A. G. Hardison, former president California Farm Bureau.

E. W. Murphy, chairman of the conservation committee of the association, will act as chairman.

The committee will attend a California Development Association luncheon at the Whitcomb in San Francisco at noon on the 27th inst., and following a trip around the Bay region will attend a dinner given in its honor by the San Francisco Chamber of Commerce at the Bohemian Club.

Not learned out of books!

YOU CAN'T LOAN MONEY SAFELY . . through 36½ years . . with but one loan-loss . . as is the record of the MUTUAL Building and Loan Association OF POMONA . . and then take any condescension . . from any financier . . on the ground that we are a small-town, old-fashioned institution.

Bless you, we hold three State records just because we ARE a small-town, old-fashioned institution, attending strictly to business without too much golf, travel or what-not.

THERE IS NO LIGHT RESPONSIBILITY . . behind our $3,000,000 paid-in capital, surplus and reserve . . because we back that capital with UNLIMITED LIABILITY . . instead of the double liability of national-bank stock . . and our small-town viewpoint doesn't permit us to lose money lightly.

WE PAY 6% SAFELY, because that unlimited liability involves our personal fortunes if anything happens, and we have $13,000,000 of resources to safeguard in the MUTUAL Building and Loan Association OF POMONA. And we keep our expenses down, too, high up on the 10th floor, in Los Angeles.

ONE HOUR'S FREE PARKING, with elevator service to our 10th floor offices, with garage basement entrance, just south of Seventh Street, on the West side of Spring Street. We validate your parking ticket, with genuine pleasure.

Deputy Marshal Slays Suspect

TULSA (Okla.) Aug. 21. (AP)—G. A. Demoss, Deputy United States Marshall, reported today that he shot and killed Charles Jenkins in Cherokee county yesterday as Jenkins attempted to escape while a warrant was being served on him.

Jenkins had been sought since September, 1927, when he was indicted by a Federal grand jury for violation of the prohibition laws.

ALIENISTS START ON WILD'S EXAMINATION

VISALIA, Aug. 21.—Drs. Fred Conselman of Stockton and Dr. Gilbert Furness of Visalia, appointed as alienists to examine Jacob Wild, who entered a plea of not guilty by reason of insanity following charges of assault with intent to commit murder upon Mrs. Ethel Shaw and her 12-year-old son Leo, have started their examinations. Dr. Conselman, a member of the staff of the State Hospital at Stockton, arrived here Monday. Their report is not expected to be complete for several days. Testimony of the two physicians will form the main part of the evidence at Wild's trial, which is set for September 5, next.

NEGRO WOMAN'S HEARING DATE SET

VISALIA, Aug. 21. (AP)—Mrs. Amanda Humphrey, 40-year-old Allensworth negro settlement schoolteacher, was arraigned today before Justice J. E. Black on a charge of murdering her 9-year-old orphan nephew last Thursday. Friday, the 30th inst., was set as the time for the preliminary hearing.

Mexicali Labor Union Boycott Aims at Chinese

MEXICALI, Aug. 21. (Exclusive) A boycott against Chinese that may spread to include other nationalities was started here today, when the union labor syndicate placed pickets in front of the Climax and San Diego cafes where orientals are employed in the dining-room and kitchen.

Union leaders assert that Mexican laws require the employment of 80 per cent Mexican help and charge that this requirement is being violated in a number of Chinese restaurants in Mexicali.

The Chinese Consul from Nogales, who is here in conference with his countrymen, is quoted as denying that the Mexican laws require 80 per cent Mexican workers. He advised the local Chinese to continue their operations. While the boycott has been applied only to Chinese so far, several Mexicali firms are said to be uneasy because of information received that Americans soon will be affected.

SERVICE CONDUCTED FOR MONROVIAN

MONROVIA, Aug. 21.—Funeral services were held this afternoon from the First Presbyterian Church for Benjamin F. Black, 73 years of age, who died suddenly Monday night from heart disease, at his home, 343 Linwood avenue. Born in Dayton, O., January 24, 1856, Black spent the greater part of his life in Kansas City, coming here seven years ago, where he has since conducted a cigar store at 407 South Myrtle avenue. Dr. E. P. Shueler of Santa Barbara, formerly pastor of the Lutheran Church here, conducted the funeral service and interment took place in Live Oak Cemetery. Besides his widow, he leaves four children, Mrs. Robert Densmore of Duarte; and three sons, Dudley of Hollywood, George of Miami, Ariz., and Benjamin of Los Angeles.

BOY HURT JUST AS PARENTS LEAVE CITY

SANTA MONICA, Aug. 21.—Ted Kalman, 8 years of age, critically injured yesterday, when his bicycle was struck by an automobile, today lay at the point of death in the Santa Monica Hospital, but his parents, Mr. and Mrs. Jacob E. Kalman of 914 Nineteenth street, were at his side. Young Kalman was struck by a car driven by Porter Hendricks, 914 Nineteenth street, just after his parents had left for San Francisco.

KINGS SUPERVISORS SLASHING BUDGETS

HANFORD, Aug. 21.—The Kings County Board of Supervisors today continued its study of items in the budgets filed by county officers and various department heads. The board is scrutinizing every item in the hope of eliminating all unnecessary appropriations of funds. In their deliberations yesterday and today approximately $10,000 in minor items were stricken out of vrious budget requests.

The board has spent considerable time discussing road matters, and, whereas under the law a tax rate of 20 cents could be set aside for highway maintenance, in this county a rate of 8 cents hasbeen decided upon. This will raise approximately $21,600, which, added to the county's portion of motor vehicle funds, the board believes will be sufficient to carry out the annual program of paved highway maintenance.

JUSTICE REFUSES TO HEAR LAW SUIT

HUNTINGTON PARK, Aug. 21. A case which would come under the increased jurisdiction provided by a law passed by the last Legislature has been refused by the local San Antonio Township Court, it was learned today, the first refusal coming when Hancock & Rogers, a law firm of this city, sought to file a $1000 damage suit before Justice of the Peace Edward H. Miller. The justices of the peace have decided to refuse these cases until a test case is completed, it is stated.

INTOXICATION BLAME PUT ON SODA WATER

SAN DIEGO, Aug. 21.—C. S. Scott, accused by State Traffic Officers L. N. Harvey and H. H. Waite, of having been drunk and disorderly after a visit to Agua Caliente, was fined $25 on each count in Township Traffic Court today. Scott protested to the officers he had imbibed nothing stronger than soda water. But the officers declared he was not only intoxicated but when they halted his car at the border, "disturbed the peace" about it.

FIRE ON SHIP CAUSES JAM TO GET HOME

Tourists Stranded When Flames Delay Paris Rush in Vain to Other Lines

PARIS, Aug. 21. (AP)—Monday night's fire aboard the steamship Paris, putting her out of commission for several weeks, has caused a tourist traffic jam of almost unprecedented proportions in the French capital.

Some of those who had booked passage on the Paris succeeded in getting places aboard the Olympic and Republic sailing today, the President Harding on Friday and the Mauretania and France on Saturday. Most of these ships, however, had been booked to virtual capacity and all steamship offices have been jammed since yesterday morning by Americans pleading for a bunk of any kind of accommodation homeward. Some of those who had engaged first-class passage on the Paris were satisfied to be squeezed into the tourist class on other ships.

One American business man offered to pay for the trip homeward of anyone who would sell him a ticket on any ship arriving in New York prior to September 2.

The United States Lines announced that it is useless for anyone to try to get a passage on the Leviathan's next sailing as the waiting list numbers 200.

Boeing Airport Rumors Denied

SEATTLE, Aug. 21. (AP)—Denial that a new north end airport is being contemplated by the Boeing interests in Seattle was made here today by W. E. Boeing, chairman of the board of the Boeing Company. "There is no foundation to the rumor that the Boeing Company has purchased a landing field in the north end," Boeing declared.

"The Boeing companies will be adequately served by Boeing Field and our new water terminal at the foot of Yesler Way on Lake Washington. Boeing Field and its ultimate development will serve the Boeing companies for their complete requirements."

Anita Whitney Wins Freedom

SAN FRANCISCO, Aug. 21. (AP)—Anita Whitney and nine other defendants were today given suspended sentences of thirty days each in the police court here after being found guilty of a charge of disturbing the peace. They were arrested in connection with a demonstration in Chinatown here during the threats of a Chino-Russian war.

The court ruled that felony charges of distributing seditious literature presented insufficient evidence to prosecute the case, and dismissed the higher complaint.

RECORD RECEIPTS IN KERN COURTS

BAKERSFIELD, Aug. 21.—The courts of Kern county last year collected $43,882, according to a report from State Controller Ray L. Riley in Sacramento. The total receipts in fines and penalties indicate a record-breaking business in this county's courts, the report said.

GRAPE JUICE EVILS TOLD FARM BOARD

Mrs. Willebrandt Advises Loan Body of Asserted Questionable Practices

WASHINGTON, Aug. 21. (AP)—At the request of officials of the California grape industry, the Federal Farm Board has heard from Mrs. Mabel Walker Willebrandt a recitation of questionable processes of grape manufacture which might conflict with the prohibition laws. Board members said, however, they have no intention of taking any steps as a result of the information.

Mrs. Willebrandt, who formerly was assistant Attorney-General in charge of prohibition, told the board of her contact with processes by which some grape beverages are said to become alcholic in content after purchase.

The board has arranged for a $9,000,000 loan to stabilize the 1929 crop of raisins and fresh grapes.

Traffic on the Costa Rica Railway, of which miles of track, bridges and culverts were washed out by rains last November, is expected to be resumed soon.

Heals Legs by New Method

Send for free book which teaches you how to stop aches, pains and cramps and prevent swelling of the legs from varicose veins, phlebitis or milk leg. The New VISCOSE METHOD increases the return flow of circulation, which positively heals leg sores and ulcerations without being confined to bed. Explain your ailment.

TWO TRADE ENVOYS FROM EAST COAST

J. Gordon Bohannan, (above) and Maj. Le Roy Hodges

VIRGINIANS WANT TO BE OUR FRIENDS

Commerce Mission Hopes to Attract Business to Hampton Roads

Virginia wants to know Southern California better. With that end in view two envoys from the eastern seaboard State arrived in Los Angeles yesterday for the purpose of trying to better trade relations between the two commonwealths.

J. Gordon Bohannan, chairman of the State Port Authority of Virginia and president of the Virginia State Chamber of Commerce, and Maj. Le Roy Hodges, managing director of the same organization, arrived via air from the East and embarked from a Transcontinental Air Transport plane at the Grand Central Terminal in Glendale.

The Virginians left Richmond at noon Monday and made the trip in approximately fifty-four hours. They will visit in Los Angeles and later go to San Francisco, Portland, Seattle and Vancouver.

"Our mission is to attempt to get more intercoastal trade for our Virgnia ports and also to see to it that California gets some of our shipping. We believe that Virginia ports, if used by California, will save a great deal of money; will land the products more quickly and will reach the inland consumer in less time.

"Intercoastal trade between East and West coast cities last year totaled more than 9,000,000 tons. Hampton Roads, in which our ports are located, participated in less than 1½ per cent of this total.

"We want to meet with the various chamber of commerce, with shipping organizations and with

AVIATORS TAKE WING TO RACES

Many from Local Industry Head for Cleveland

Southland-Built Ships Will be Displayed There

Some Flyers Will Participate in Aerial Contests

Leaders of Southern California's aviation industry, including aircraft manufacturers, transport heads, aircraft and motor distributors and pilots are leaving here in various types of planes to attend the National Air Races of Cleveland, scheduled to start Saturday and close September 2.

They are going to the national event to participate in races with local products, to display Southern California-built ships and motors and to witness the national air program, similar to the one presented last year at Mines Field, which will bring together the pick of the nation's flyers and the last word in airplane design.

Many of those flying to Cleveland will return in new planes which they intend to purchase en route there or on the way back, while some of the ships being flown east from here will be delivered to purchasers.

MANY TAKE TRIP

Some of those making the Cleveland trip include Waldo D. Waterman, manager Los Angeles Metropolitan Airport; J. Morton Bach, vice-president and general manager Bach Aircraft Company; Vic Clark, aviation enthusiast; Lindsay Gillis and Earl Gordon of Angelus Aero Corporation; Glover Ruckstell, Great Lakes plane distributor, who will take as guests Frank Clark and Nelson Griffith; Roy T. Minor, Stearman dealer, who will be accompanied by Chester Elliott, aviation director of Standard Oil Company of California.

Victor Fleming, motion-picture director, will pilot, as his guests, two other directors, Howard Hawks and Arthur Rossen and Mrs. Rossen. H. C. Lippiatt, Travel Air dealer, left yesterday, accompanied by Mr. and Mrs. W. E. Thomas of the Pacific Aeromotive Corporation; Frank Muller, Hollywood automobile man; G. C. Caudin of Tulare, and Robert Merriam, Travel Air salesman, are others who will go.

OTHERS GOING

These air parties are from Los Angeles Metropolitan Airport, while other airdromes and factories will be represented by a group including Thomas B. Morgan, head of Pickwick Latin-American Airways; Loren W. Mendell, former holder of the world's endurance record with Pete Reinhart; Bob Blair, technical director of the California Aviation Club; F. E. Samuels of the Aero Digest; W. P. Balderston of the Pioneer Instrument Company; Joseph Kreutzer, manufacturer of Kreutzer air coaches, and C. F. Lienesch.

The local members of the aviation fraternity will be on hand to welcome Los Angeles participants in the National Women's Air Derby when they finish their cross-country race next Monday in Cleveland, and many of them plan to fly to Lakehurst, N. J., to witness the Graf landing there.

Landing Field Again Available for Navy's Use

General Manager Edwards of the Harbor Department yesterday stated that the ramps on the shore and land slides of the landing at Allen Field, on Terminal Island, maintained by the department, have been extended so that there no longer is any excuse for the navy seaplanes not using the station. He said the Navy had complained because the landing was out of water at low tide and since then has been using the Long Beach field for land planes and the ocean for its sea planes. Also, he reported, storage sheds for the special fuel used by navy planes have been provided.

There was no meeting of the harbor commission yesterday because of the absence of some of the members from the city.

DAY OASIS IN HEATED WEEK

Weather Bureau Surprised to Note Yesterday Cool Against Indications

Despite meteorological conditions in Nevada and Utah, which reduced the cooling effect of the sea breezes on the coastal plain, the mercury yesterday went only to 84 deg., the lowest maximum of any day this week, and the humidity likewise was reduced 8 per cent over Tuesday, the United States Weather Bureau announced last night.

While the thermometer was registering 84 deg. about noon, the humidity stood at 51 per cent, indicating a break for at least one day in the current warm weather, with a possibility of more agreeable weather over the week-end.

The official forecast is fair today and tomorrow with fog on the Coast at night, and gentle westerly winds. The mercury will remain in the summer heat range, but varying conditions may permit the return of the ocean breezes to a greater extent.

ASSOCIATES WILL HONOR BISCAILUZ

Farewell Banquet to be Given Tomorrow Nigh: by Sheriff's Office Force

Farewells will be said tomorrow night by members of the Sheriff's office to Eugene W. Biscailuz, former Undersheriff, at a banquet to be held at the Ambassador at 6:30 o'clock.

EUGENE BISCAILUZ

The dinner is sponsored by the Sheriff's Relief Association, of which Biscailuz was president for four years. He also was one of the small group of men from the Sheriff's office that organized the association.

Biscailuz recently announced his resignation as Undersheriff to accept an appointment from Gov. Young as chief of the California State Highway Patrol. His resignation becomes effective today at the end of a two weeks' vacation.

He has been associated with the Sheriff's office for nearly twenty-three years. Soon after his first appointment under Sheriff Hammel he became assistant chief deputy of the civil department. When Sheriff Traeger took office he was appointed as his Undersheriff.

In his new position, created under a law passed at the last session of the State Legislature, Biscailuz is faced with the task of organizing a complete new State department which will be required to patrol all State highways and to preserve law and order on them.

Reservations for seats at the banquet table are being made through George Segelke, secretary of the Sheriff's Relief Association at the Sheriff's office. These reservations will be closed at noon today, according to Mr. Segelke.

STATE GROUPS TO MEET

People from the States of Ohio, Colorado, Utah, Kansas, Nebraska, Michigan, Texas, Oklahoma, Pennsylvania, Wyoming, Arizona, Iowa, Wisconsin, Missouri, Illinois, Indiana, Alaska and Canada, will hold their first reunion for the coming season tomorrow at the California Auditorium, 1137 South Hope street, at 8 p.m. Definite plans for the society will be worked out for the coming year.

MOST RABID AIR FAN FLIES IN

New Yorker Turns Back on Railways

Howard S. Borden and Daughter, Doris

HOWARD S. BORDEN, New York merchant, on arrival here yesterday via the air route proved himself the most rabid aviation fan on record.

"They ought to abolish railways in favor of planes," he declared. "Railways are away behind times. They bump along and apparently are never in a hurry. Me for the plane for traveling. You slide along without an effort. It is the only way."

Gen. Borden, who came here via Transcontinental Air Transport, will fly to San Francisco tomorrow and later will return to Los Angeles and from here fly to New York. He is accompanied by his daughter, Doris.

Theory Offered on Tagged Bird

The stray, silver-tagged bird that alighted in a yard in Georgia street several days ago probably was released by the Biological Survey of the Department of Agriculture, according to the belief expressed yesterday by Capt. Edward C. Crossman, editor of the arms, ammunition and game—trails department of the outdoor magazine, Forest and Stream.

Although not a carrier pigeon, the exhausted bird bore on the right leg a silver tag stenciled with the number 71,722 and the name, "Bisurva." It came to earth in C. L. Dorman's yard at 1021 Georgia-street. Dorman is advised by Capt. Crossman to report the find to the Biological Survey, Department of Agriculture, Washington, D. C.

MANY BUILD AT SITE OF UNIVERSITY

Sixteen Men and Women's Greek Letter Societies Put Up Houses at Westwood

An important feature in connection with the moving of the University of California at Los Angeles to its new campus, is the preparation which students are making for residence accommodations in that neighborhood. Several club buildings have been erected or are under construction, and demands for apartments have caused the erection of several apartment-houses.

The greatest activity in this connection is declared to be among the Greek letter societies. The women have taken the lead in the erection of new houses and fourteen of their sororities have houses under course of construction, all of which are expected to be completed by the opening of the fall semester on September 20. Two of the men's fraternities have houses under construction.

The cost of the houses is approximately $40,000 each.

The fourteen women's groups that are building houses include Chi Phi, Alpha Tau Omega, Gamma Phi Beta, Delta Gamma, Pi Beta Phi, Chi Omega, Alpha Phi, Sigma Kappa, Kappa Kappa Gamma, Alpha Delta Pi, Alpha Gamma Delta, Delta Delta Delta, Alpha Omicron Pi and Alpha Sigma Delta. The two men's fraternities are the Phi Kappa Sigma and the Phi Beta Delta.

Thirty-four women's sororities and thirty men's fraternities have purchased sites for houses adjoining the new campus, it is stated.

BUILDING CODE FUNDS NEEDED

Conference Held to Consider Raising More Money

Compilation Only Half Done and Cash About Gone

Committee Chosen to Go Out and Obtain Pledges

With approximately 50 per cent of the tentative California uniform building code, being formulated under the auspices of the California State Chamber of Commerce, practically completed, a need for funds to carry the work to completion was revealed yesterday at a meeting called by the building code committee of the State chamber, formerly the California Development Association.

More than eighty representatives of various Los Angeles business organizations and industries attended the luncheon meeting at the Alexandria, where Arthur Bent, chairman, outlined the project of a State-wide building code, traced the development of the work so far accomplished, and emphasized the immediate necessity for additional funds to bring the task to a successful end.

OTHERS SPEAK

Other speakers were E. J. Witmer, chairman of the building code committee, and Edwin Bergstrom, Los Angeles architect and one of the two technical editors named by the State chamber to compile the great mass of data necessary to the writing of the code.

It was pointed out that a total of $30,000 had been pledged by the various interests allied with the State chamber for the working out of a suitable building code for California. Of this amount $17,855 has been contributed and expended and a total of $13,120 must be raised if the work is to be completed next spring.

COMMITTEE NAMED

Mr. Bent named a committee of eight men to contact the various business organizations and industries most vitally interested in a uniform building code, and to urge the payment of alloted quotas for the code fund.

It was revealed that, of the pledges already paid, interests in the northern part of the State have donated $9687.50 and those of the south $7967.50. The balance sought from the south is $7075 and from the north $6045.

GAME SHIPS' TINY CREWS REPORTED

Federal Officials May Call on Court if Craft Try to Leave Port

Report was made yesterday by Commander Hay of the United States Coast Guard Service to United States Attorney McNabb that he has taken the vessels Johanna Smith and the Monfalcone, said to have been gambling ships, from their anchorage off the shores of Huntington Beach and Long Beach, respectively, and anchored them in the outer harbor at San Pedro.

It was reported that both ships were improperly manned and were a menace to navigation, being in the steamer lane zone. On the Johanna Smith it was reported only two men were found, one a watchman and one an engineer. On the other ship eight men were found but few of them sailors and none navigators.

The ships were not seized by the government, it was reported, but, should an attempt be made to take them out of the harbor, an injunction will be sought in United States District Court on the ground that the vessels, if anchored in steamer lanes, will be menaces to navigation.

IMPROVEMENTS ORDERED

Ordinances calling for the abandonment of proceedings for the improvement of Raynol street at Reynolds avenue, the improvement of One Hundred Twelfth street at Main street and the improvement of the Santa Susanna avenue and Topango Canyon district were adopted yesterday by the Council.

by Harry Carr

A RIDE through the suburbs seems like a panorama of "For Rent" signs on what used to be wayside restaurants.

One of the firmest convictions of any old lady whose husband likes her coffee is that she could run a restaurant. The truth is, industry has few more highly specialized businesses.

A PROBLEM OF BUYING

The eating business is not what it appears to be. The real success or failure lies in the buying. For all practical purposes, it is a business of buying food at wholesale and selling it at retail. The fact that it is cooked and put on plates is incidental.

The old lady whose hubby likes her coffee has just about as much chance of success—unless she is a skillful, adroit buyer—as she would have trying to invent flying machines because she was always good with fly-swatters.

HIGH GENIUS

The only exception I know is our delectable Antoinette. If Antoinette starts a restaurant, it will change the history of the world. She devises strange non-alcoholic drinks of grape juice flavored with Damson plums; she produces hitherto unheard of Swedish dishes—such as flat noodles cooked with French prunes. And she never repeats. You'd better like it that time. Chances are you will never see it again.

SAVING THE PROUD ARAB

It seems a very curious fact that the ancient breed of Arab horses should be saved from extinction on a Pomona farm—at the expense of a manufacturer of breakfast food. But this is undoubtedly the case.

The Bedouin tribes have allowed their horses to run to seed. At one time they were so careful with the breeding that—if an Arab horse was captured in battle—the defeated sheik always sent over the horse's pedigree under a flag of truce to the captor.

POOR NAGS

When Rex Ingram, the motion-picture director, went to Morocco to make a desert picture, he despaired of finding one really good horse. Mr. Herbert Howe, the writer, objected to Mr. Ingram's final selection because he said the nag looked like Raymond Hitchcock.

THE HORSES OF THE DONS

Mrs. Nellie Van de Grift Sanchez, in her recent volume the new history of California, now being issued, states that all the early California horses were of pure Arab stock—descendants of the blooded war horses brought over by Cortez. I fear that we Gringos are responsible for the degenerated bronco.

DEFENSE

If Congressman W. Frank James can devise a plan for the adequate military protection of the United States without saddling us with an enormous army, he is a wizard. With our far-flung island empire, our fatally weak canal and our long coast lines, it is a tough problem.

STOP SIGNALS REQUESTED

Council yesterday received a petition asking for the installation of boulevard stop signals at the intersection of Santa Monica Boulevard and Wilton Place.

NEW GAS CURB PLAN READY

State Oil Supervisor Outlines Proposal to End Waste as Ordered by Law Soon in Effect

That the State of California will undertake to enforce its new gas law, which becomes effective September 1, by pro-rating the flow of oil and gas in the four or five large fields where gas wastage is the most serious, is indicated by a letter which R. D. Bush, State oil and gas supervisor, has mailed to all oil producers in the Santa Fe Springs, Long Beach, Seal Beach and Ventura-avenue oil fields.

Supervisor Bush is asking all producers to approve the suggested arrangement as quickly as possible, pointing out that the plan proposed will afford all companies producing oil and gas an equal opportunity. The companies which have the contracts for selling gas and the facilities for using it to repressure oil zones in old fields are said to have submitted the proposal which Supervisor Bush is asking all operators to approve. He indicates that his office is inclined to approve such a plan providing every operator be given equal opportunity.

PROPOSAL OUTLINED

"It is my duty," says Supervisor Bush in his letter, "to ask the State director of natural resources either to order a hearing before me as supervisor or bring an action in the Superior Court for an injunction restraining unreasonable waste of natural gas, whenever I find that natural gas is being blown, released, or allowed to escape into the air and the person responsible makes no showing of necessity to take his particular case out of the statutory presumption.

"A proposed plan for disposition of natural gas in the Los Angeles Basin and Ventura fields follows:

"First: That the amount of gas sold to the gas companies shall be taken pro-rata from all the producers, but that the companies having the contracts shall receive the payment for such gas, in accordance with the terms of their contracts as though their own gas had been delivered thereunder.

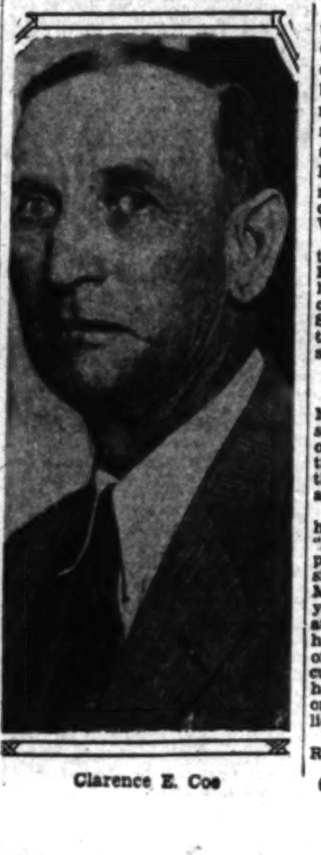
"Second: That all gas used in the field for fuel or other operative purposes shall be taken pro-rata from all the operators in that field.

OTHER FEATURES

"Third: That all gas used for repressuring in the field from which the gas is produced shall be taken

(Continued on Page 2, Column 3)

RETIRED BEAN FARMER GOES ON POLICE BOARD



Clarence E. Coe

Mayor Porter yesterday sent to the City Council the nomination of Clarence E. Coe, retired bean farmer residing in Palms, as a member of the Board of Police Commissioners to succeed Earl B. Gilmore, resigned. The nomination automatically was referred to the Police and Fire Committee and is not due to be considered by Council for confirmation before next Wednesday.

This makes the second nomination to the commission made by Mayor Porter, the first being Drake. He has still another vacancy to fill, created by the resignation of Dell Schweitzer. Commissioner Thorpe, the president of the commission, is slated to stay.

PLANS FOR WOMEN

The fifth member is Mark Pierce. Mayor Porter is reported to have said he plans putting two women on the commission at the same time. This would seem to indicate that the women will supplant Pierce and fill the Schweitzer vacancy.

The new nominee is presumed to have been subjected to a rigorous "investigation," as his name is reported to have been under consideration for several weeks. The Mayor's office issued a statement yesterday declaring that he lives at 3743 Mentone avenue, Palms, that he was once a director in the Bank of Palms, now a branch of the Security First National Bank, and that he is a retired bean farmer and is one of the members of the Republican County Central Committee.

Although he was elected to the Republican County Central Com-

(Continued on Page 2, Column 5)

DAM CEMENT SAVINGS DUE

Questioning of Legality of Bids May Open Way for Cut in San Gabriel Cost

A considerable saving in the price of the cement for the San Gabriel dam was forecast at the Hall of Records yesterday, when the County Board of Supervisors asked County Counsel Mattoon if the advertisement for bids for the cement opened Monday may not have been illegal.

Representatives of two cement companies that refused to offer bids Monday protested to the board that the advertisement was not legal because it specified a grade of cement as defined by the American Society for Testing Materials.

This grade of cement is subject to revision from time to time, it is said, and some cement manufacturers say they could price their product lower if specifications over the five-year period during which the dam will be building are known in advance and fixed.

Meanwhile Flood Control Engineer Eaton and Chairman McClellan of the Board of Supervisors are considering the possibility of building a cement mill in San Gabriel Canyon near the dam site, and making cement for the dam with limestone and shale on which the county already has taken an option.

Unless the bids for the cement are below a certain figure, it will pay the county to make its own cement, Supervisor McClellan said. The low figure of $1.72 a barrel at Azusa, and $1.40 f.o.b. mill near Riverside was bid by the Southwestern Portland Cement Company.

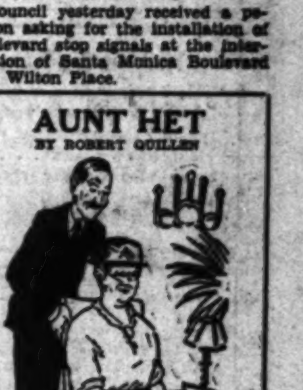
Representatives of companies that failed to bid hinted that lower bids will be forthcoming if the Supervisors change the specifications so they will not be subject to whatever fluctuations the Testing Material Society may see fit to accept.

GROHS FUNERAL TO TAKE PLACE TODAY

Funeral rites for Charles Grohs, contractor, a native of Germany who had lived in Los Angeles for the past twenty-four years, will be conducted at 10 a.m. today at the First Christian Church in Compton. Robinson & Adair are in charge. Burial will be in Inglewood Park Cemetery. Mr. Grohs died last Sunday at 57 years of age. He leaves his widow, Mrs. Mary A. Grohs, and a son, Robert D. Grohs.

AUNT HET

BY ROBERT QUILLEN



"Pa ain't a hypocrite in most things, but we et at a swell hotel once an' he held my chair back an' pushed it under me when I set down like they do in pictures."

INQUIRY CALLED IN BOARD ROW

Action on Rittenhouse Case Follows Charges

Police Commission Asked to Make Investigation

Clash Expected When Haight Takes Seat Today

An investigation by the Police Commission of charges made by playground and recreation commissioners against their fellow commissioner, E. M. Rittenhouse, yesterday was ordered by Mayor Porter. It is asserted that Rittenhouse has failed to pay to the city approximately $2700 in license fees for umbrella concessions at street ends on the Venice beach. Word of the investigation order was given by the Mayor in response to questions.

The Police Commission has been asked to find out why the police license bureau has not been enforcing the license ordinances, if the charges by the playground commissioners are supported by the facts.

Since Commissioners Weaver, Carter, McCulloch and Means voted to request the resignation of Commissioner Rittenhouse on the grounds that he has sought to discredit the work of the others on the board, Mrs. Means, whose term has expired, has been replaced on the board by Raymond L. Haight as the Mayor's selection.

Haight is said to be a friend and attorney for Rittenhouse and is scheduled to sit on the board for the first time at its regular meeting today, when further fireworks as the result of the row on the board are expected.

In the Rittenhouse camp it is rumored that should the Mayor seek to remove him if he doesn't resign, he may resist such an effort on the floor of the City Council.

Rittenhouse holds the street end concession from the old city of Venice, before it was annexed to Los Angeles, and has been active in fighting private encroachments on the public beach.

It was his assertion that his fellow commissioners had advised a compromise in a suit against these encroachments and that they subsequently voted to ask his resignation.

Rites Conducted for McLaughlin

Last rites for Dr. George McLaughlin, optometrist, who was killed last Thursday when he was struck by a Redondo Pacific Electric car, were conducted yesterday at 2 p.m. at Reed Brothers chapel, 721 West Washington street. Burial was in Inglewood Park Cemetery.

Dr. McLaughlin retired from active practice some years ago. He resided at 1300 Myrtle avenue. He began his practice in this city in 1908.

Dr. McLaughlin leaves three sisters, Mrs. John Moir and Mrs. A. J. Watters of this city, and Mrs. A. F. Mutchmor of Winnipeg, Can.

NEW PLANT FOR CITY IN PROSPECT

Temple Radio Company Considers Erection of Branch Factory Here

Los Angeles is being considered as the location for a new radio factory, it was announced yesterday, following the arrival here of Gordon C. Sleeper, vice-president and general manager of the Temple Radio Corporation of Chicago. He is spending five days here surveying local conditions with a view of erecting a California branch plant.

Influencing his decision the visitor said, is the fact that one-tenth of the corporation's total volume of business is from California, and he is of the opinion that this can be increased greatly by having a local factory. Saving on freight also will enter into calculations.

Mr. Sleeper said that the corporation's new factory in Chicago, which is to double the present floor space of 70,000 square feet, will be ready for operation December 1, next. After conferring with Herbert H. Horn, Los Angeles distributor, Mr. Sleeper flew to Catalina Island with Louis Gruen, Pacific Coast district manager. Following his local survey he will look over conditions at San Francisco and Seattle, obtaining data on which to base a decision regarding a local factory.

Girl Performs Amazing Feat in Emergency

Superhuman strength, called forth in the body of a frail 16-year-old girl by the peril of her brother, may have saved his life, it was stated at Georgia-street Receiving Hospital last night, where efforts were being made to relieve brain pressure caused by a depressed fracture of the skull of Jose Avila, 18 years of age, 218 West Thirty-second street.

Avila was working on his car at his home last night. The car was jacked up in the rear and slipped. Hearing her brother scream, Frances Avila, his sister, found him pinned beneath the car. By a superhuman effort she lifted the auto from the body of her brother. Surgeon John P. Sebastian operated last night to save the boy's life. The girl was treated for a badly sprained back.

Milham Picked for Power Job

Announcement has just been made in New York of the apppointment of C. G. Milham as assistant to the president of the recently organized $450,000,000 Niagara Hudson Power Corporation.

Mr. Milham, who will have charge of public relations in the new corporation, is well known through the Southland, having been executive secretary of the All-Year Club of Southern California for many years.

Friends Wish Them Bon Voyage

Brother Tom Liddecoat and Daughter, Miss Mary

TRIBUTE PAID BROTHER TOM

Midnight Mission Leader and Daughter Told Adieu as They Leave for Holy Land Visit

Three hundred citizens of Los Angeles assembled at a luncheon at the Alexandria yesterday noon to pay tribute to the twenty-five years of humanitarian service Brother Tom Liddecoat has given the Midnight Mission and to wish him and his daughter Miss Mary Godspeed on the four-months' trip to Palestine which they are taking under the direction of the board of governors of the institution. They left last evening and will sail from New York, on the 30th inst., on the steamer Carmania.

Brother Tom was surrounded at the head table by members of the board of governors, Col. Eric Fowler, chairman of the Republican County Central Committee presided. W. J. Sanborn, president of the City Council, said "The Midnight Mission is helping the city. Its work is not only helping the police department, but also is doing the work of city government in many ways that have raised the standard of citizenship." Mr. Sanborn spoke for Mayor Porter.

BROTHER TOM TIRED

Former Judge W. R. Hervey spoke of "the deserving reward of the trip accorded Brother Tom and his daughter, a trip which will carry this good man back to the Old World, whence came civilization; back to Palestine where the lesson of Christ was learned to be carried on through all ages. Brother Tom is tired. We are sending him forth for refreshment and rejuvenation and hope that he may come back to a bigger and better Midnight Mission."

Rev. Harold L. Proppe, pastor of the First Baptist Church of Hollywood, told how twelve years ago he preached on the streets of Los Angeles and how he learned to preach in the Midnight Mission, "where the written sermon, replete with fine English and poetic verse, must be cast aside to make room for simple words from the human heart, uttered that encouragement may be given to the downtrodden."

DAUGHTER SPEAKS

In 1923 Brother Tom was stricken with typhoid pneumonia and was taken to the home of Albert M. Johnston in Chicago who was president of the Pacific Garden Mission of that city. "I know what Brother Tom has done for discouraged, penniless men and women," said Mr. Johnston, "and that he came forth from the shadow of death because of his great faith that his mission was not ended."

Mrs. David R. Covell, wife of Dr. Covell, is to serve as acting superintendent of the mission during Brother Tom's absence and briefly outlined plans for the future. Sid Grauman spoke on the spirit of co-operation and pledged his support.

Miss Mary Liddecoat, who is a senior at the University of Southern California, was attired in a purple velvet traveling suit and made her maiden speech, thanking the directors for their kindness.

The guest of honor spoke for half an hour and recalled the influence of his wife during the eighteen years they supported the mission before it was incorporated.

POSTMEN TO TAKE BAND TO SESSION

Letter Carriers to Leave Today on Special Train for Minneapolis

One hundred Los Angeles letter-carriers will leave here at 9 a.m. today for the biennial convention of the National Association of Letter Carriers, commencing Monday, at Minneapolis. A special train over the Santa Fe will carry this city's delegation and band, which will play concerts along the route. A number of the ladies' auxiliary also will go along.

The delegation is headed by Henry D. Meyer, president of Angel City Branch, No. 24, of the letter carriers' organization. Adolph Klein is conductor of the band, which will play at Barstow and Needles, Gallup, Albuquerque and Las Vegas, N. M., Topeka, Kan., and Kansas City, Mo. The band will lead the Angeleno mailmen when they detrain at Minneapolis and parade to headquarters in the Andrews Hotel. The local bandmen expect again to be acclaimed the best band attending the convention, as they were on two occasions.

Former Illinois Editor's Rites Conducted Here

Funeral services for Jacob Swallow, former Illinois newspaper publisher, who died here Monday, were conducted yesterday morning at 10 o'clock from the W. A. Brown Mortuary, South Flower street. Cremation followed.

Mr. Swallow was 86 years of age. For thirty-five years he had been editor and publisher of the Tana (Ill.) Palladium. He had been living with his daughter, Mrs. Tom Kilfoil, 1025 West Twentieth street, at whose home he died.

NEW GAS CURB PLAN OFFERED

(Continued from First Page)

pro-rata from all the operators in said field who shall contribute pro-rata to the cost of injection of the gas.

"Fourth: Arrangements are being attempted for removing gas from fields and storing the same in distant reservoirs. If this can be worked out, it is understood that the gas so stored in distant reservoirs will be taken pro-rata from the producers and without charge to the producers for injection or transportation. This gas, when recaptured, will belong to the operators contributing toward the cost of injection, subject to such arrangements as can be made with the owner of the reservoir.

"Fifth: Whenever 'pro-rata' is used in this plan it is to be understood that it is the proportion which the producer's maximum oil and gas ratio, to be hereafter established, bears to the total maximum production of the field under the same limitation."

Sound Picture Expert on Visit

Combining pleasure with business, H. B. Santee, director of theatrical engineering, and G. E. Mather, recording engineer of the Electrical Products Company of New York, arrived yesterday morning over the Union Pacific for a ten-day visit here.

They will visit the studios in Southern California supplied with sound-recording and sound-producing machinery. Many new improvements are forecast by the visitors and they expect to gather valuable information while here to enable experiments in the research laboratories.

Santee and Mather, accompanied by their wives, are at the Roosevelt in Hollywood.

TRAIN-PLANE FIGURES SHOW SCHEDULES KEPT

Planes on the air divisions of the coast-to-coast air-rail service operated by the Universal Aviation Corporation, in conjunction with the Santa Fe and New York Central railroads, carried 585 passengers during July, flew 63,714 miles, and did not miss a single train connection, according to L. O. Kennedy, western traffic representative. The figures show that the average speed on the eastbound flights was 122.5 miles per hour, while westbound the average was 110.9 miles per hour.

PANTAGES PLEA SET FOR TODAY

Theater Magnate Expected to Enter Denial of Guilt

Prosecution Declared Ready for Trial at Any Time

Pringle Girl Has Brief Final Conference With Fitts

Alexander Pantages, vaudeville magnate charged with criminally attacking 17-year-old Eunice Pringle, is scheduled to make another appearance in court at 2 p.m. today, when he will appear before Superior Judge Aggeler to enter his plea to the charges against him.

With the practical certainty that he will plead not guilty, interest in today's session centers mainly in what date the court will set for the theater man's trial. It is known that the District Attorney's office will seek as early a date as possible, while Defense Attorneys Gilbert and Ford probably will ask for more time in which to prepare their case.

FITTS'S SUGGESTION

Dist.-Atty. Fitts, who returned to his office yesterday after a two-day visit to the American Legion convention at San Diego, declared that he thinks September 17, next, might be a date acceptable to both sides. This will allow time for the case of Mrs. Lois Pantages wife of the vaudeville man, who goes to trial in Superior Judge Hardy's court September 3 on a charge of murder arising out of an automobile accident i nwhich Joe Rokumoto was killed. Attorney Gilbert has represented both of the Pantages in court, and Attorney Ford, associated in the defense of Pantages, also is engaged in another case set for trial in the next few days.

PROSECUTION READY

No further witnesses in the attack case were questioned yesterday by the District Attorney's office and the prosecutors declared they are ready for trial at any time, their case being complete. Eunice Pringle and her mother and father appeared at the Hall of Justice for a few minutes yesterday afternoon to discuss final details of the case with Fitts and Chief Deputy District-Attorney Stewart, but the prosecutors declared that their visit had no other significance.

As the District Attorney declared that the State's case against the theater man is complete, he took occasion to compliment Police Captain Bruttig of the Juvenile Department for efficient work in gathering evidence. Bruttig co-operated with Thomas O'Brien, chief investigator, and Blaney Mathews, assistant chief investigator of the District Attorney's office.

COE NAMED TO POLICE POST

(Continued from First Page)

mittee at the last election, Mr. Coe said last night he has never taken a very active interest in politics and the only public office he has ever held before is that of trustee of the Palms School District before it was annexed to Los Angeles. He said that he had known Mayor Porter slightly some years ago but had not met him in recent years and took no part in the mayoralty campaign. At the time of the election he was on a trip to Washington, where he visited Congressman Crail, he said.

BORN IN IOWA

Mr. Coe was born in Lamars, Iowa, fifty-seven years ago, and came to California as a boy in 1882. Up until 1921 he was a farmer, and for the twenty-six years prior to 1921 he specialized in raising lima beans and lived all those years on a small farm on Sawtelle Boulevard. In addition to his own farm, however, he rented a great deal of acreage. In 1921, he said, he was farming 500 acres, most of it on the present site of the city of Beverly Hills.

When he retired from farming in 1921, he turned his farm over to his eldest son, Theron Coe. In 1918 he became a director of the Citizens State Bank of Sawtelle, which had a branch in Palms and another in Brentwood Heights. When this bank was merged with the present Security-First National Bank in 1927, he retired also from active participation in its affairs, but he still is a member of the executive board of the Palms branch of the Security-First National. He had moved to Palms when he gave up farming.

He is a Mason, a member of the Palms United Brethren Church, and is vice-president of the board of the Col. R. M. Baker Home for Retired Ministers. In addition to his son, Theron, his family consists of his wife, a 12-year-old son, Fenton, and two married daughters, Mrs. Argyle Nelson and Mrs. L. F. Arnold. Arnold is a real estate man of Sawtelle and a member of the present grand jury.

VIRGINIA WANTS TO BE FRIEND

(Continued from First Page)

manufacturers wherever possible. We have data that will be of value to them, we are sure. Most of the oil, fruit, lumber and minerals shipped from California via Panama Canal for eastern markets can be unloaded in Hampton Roads at less cost than any spot on the Atlantic coast. It is our mission to let California and the West know all about it."

The Virginians will return east about September 15.

OFFICIAL OF CUDAHY COMPANY GOES EAST

Completing his first official annual inspection of the local plant, F. E. Wilhelm, first vice-president of the Cudahy Packing Company, departed last night on the Union Pacific Los Angeles Limited for Chicago. He will stop on his return trip at Salt Lake City where he will inspect the company's plant there. Wilhelm formerly was general manager of the Cudahy Packing Company plant here and was transferred to Chicago where he was promoted to the executive post he now holds.

EARTHSLIDE AREA TO BE INSPECTED

Mayor and Others Will Go to See Point Fermin Slip and Determine Policy

A tour of inspection over the scene of the earth movement at Point Fermin, where six acres of improved property appears to be sliding toward the Pacific Ocean, is scheduled for this morning by the Mayor, Board of Public Works, engineers and geologists. The party will meet at 9:30 a.m. at Pacific avenue, near the slide.

City Engineer Shaw yesterday announced the appointment of two geologists to make a study of the matter in conformity with a resolution recently adopted by the Council. They are Dr. W. J. Miller, head of the geology department at the University of California at Los Angeles, and Dr. Malcolm H. Bissel of the geology department at the University of Southern California. Mr. Shaw asked Louis C. Hill, former Federal Reclamation Service engineer, to complete the committee but Mr. Hill was unable yesterday definitely to accept.

A delegation of harbor residents yesterday appeared before the Board of Public Works and asked that the entire region be fenced off. They said that last Sunday thousands of curious persons swarmed over the territory, doing damage. The board now has the streets roped off but asked the City Attorney for a ruling on the legality of fencing in the whole area.

Victim of Crash Wins Judgment

A judgment for $1983.85 was awarded Mrs. Jennie Soss by Superior Judge Needham yesterday, for personal injuries received in an automobile accident on June 17, 1928, at San Vincente Boulevard and Tremaine avenue. M. B. Restovich, driver of the car that collided with one in which Mrs. Soss was riding, was the defendant. The plaintiff asked $16,625 damages.

Judge Needham took his decision under submission until yesterday.

MIRACLES
Coolness

Delightful beverages and ice creams for hot summer days

The minute you start eating or drinking something cool, the whole temperature around you seems to improve. Business men and women know this when they order ice cream for lunch, or step up to the soda fountain for a delicious iced or carbonated drink. Menu-planners are aware of it when they order sherbet, frozen pudding, or bisque to be delivered at the dessert hour.

Aside from the immediate refreshing effect, such drinks and desserts cheer the eye by their colors and the cool click of ice. Their very elements are simple and healthful. Consider the milk, eggs, sugar, and flavoring that comprise ice cream . . . the clear fruit juices, ginger ales and sugar that go into most carbonated drinks. Also, the milk in ice cream, the amount of water and juice in the iced drinks, provide the liberal quantity of water that is a necessity in hot days.

Try soda fountain servings at home. Chocolate ice cream sundaes are possible at a minute's notice. Order the ice cream from the nearest dealer—pour on the chocolate syrup from the tin in your refrigerator. Ice cream sandwiches are a delightful [illegible] Put them together with wafers and [illegible] with chocolate, marshmallow, or fruit [illegible] Substitute frozen punch for the usual drinking punch at parties. Keep [illegible] and don't believe, that only children like ice cream cones. Keep ginger ale and other delightful carbonated drinks in the refrigerator. The Sugar Institute.

"A bit of sweet makes the meal complete"

Girl Giggles Her Way Into Talking Films

Yvonne Howell

"I giggle!"

Yvonne Howell, petite young film actress, called up all the casting directors in Hollywood yesterday and requested that this line be added to their file cards listing her talking screen qualifications.

The Paramount studio awarded her a role this week in a talking picture because she has the ability to giggle with the proper microphonic effect whenever she is given the cue.

The script called for a girl who giggles on the slightest provocation. Dozens of girls were tested with the discovery that giggling girls above the age of 12, are hard to find.

Miss Howell, a former Hollywood High School girl, won the part when Fred Datig, Paramount casting director, remembered her giggling when she registered with his department a few months ago.

Wife Declared "Lured" Away by Her Parents

James N. Oliger told a jury in Superior Judge Lambert's court yesterday that his wife's parents had "lured" her from his home with promises that they would support her, and by telling her she wasn't being properly supported.

Oliger, an interior decorator, sued his wife's parents, Mr. and Mrs. Lon J. Haddock of Beverly Hills, for $250,000, asserting they have alienated his wife's affections.

"I came home one day to find my wife and baby gone and the furniture moved out of the house," said Oliger. "I found later that her parents had taken her away."

In their answer to Oliger's petition, the defendants declare Oliger played on their daughter's sympathy by telling her he was a victim of the Lusitania disaster.

POLICE SCHOOL TO BE REOPENED

Training Course Plan Will be Given Commission

Finlinson Slated as Head of Work Again

Benefits of Prior Classes Prompts Sessions

Plans for the re-establishment of the Police Training School will be laid before the Police Commission at its next regular weekly meeting, Chief Davis announced yesterday.

Reorganization of the school, considered as one of the most important units of the police department, will be under the direction of Assistant Chief Finlinson, who was in charge of this work in 1924 and 1926. Announcement of the plans, according to Chief Davis, was made following recent conferences between himself, Finlinson, Emery E. Olson, director of the School of Citizenship and Public Administration of the University of Southern California and his assistants, William B. Henley and James I. Tucker. According to the prospectus already formulated the training courses will be co-ordinated with more advanced work in kindred fields to be offered by the university.

DAVIS EXPLAINS

Commenting upon the proposed school Chief Davis said: "Final plans for the reopening of the training school were not made until June when the department's last hope for an increase of personnel died with the failure to include such increase in the new budget. Had the 500 additional men asked for been allowed, the training school could have been re-established on its former basis. But with man power so short, it has been, and is impossible, to tie up whole classes of officers in full-time ninety-day courses. Therefore, the entire school plan had to be remodeled. Early in June a part-time training course was decided upon, to be started in September, when vacation periods are over."

According to present plans as presented by Chief Davis, all new officers sworn in to the department since the discontinuance of the school, will be enrolled in classes for six hours each week in three two-hour periods. It will be necessary, it is asserted, for these men to attend classes on their own time, giving a full day's service to the city in addition.

COURSE AS OUTLINED

The course, as outlined by Assistant Chief Finlinson, will consist of lectures on the California Penal Code, city ordinances, Federal statutes, California Vehicle Act, on what constitutes evidence, how to procure and present it, on the manner, bearing and conduct deemed "becoming an officer and a gentleman," courtesy in public contacts, and on uniformity and impartiality in enforcement. Some time also will be given to drill work, it is stated.

In stressing the urgent need for the re-establishment of the school Chief Davis pointed out the reported success with which the first school was conducted. Police personnel records show that 1151 recruits were enrolled during the two years it was in operation. Of that number 207 were weeded out as unfit material. This elimination, Davis stated, represents a large saving to the city. Of the total 944 men finished the ninety-day course with high marks.

DAMAGES SOUGHT FOR BROKEN NOSE

Mrs. Nell Guard

Mrs. Nell Guard, wife of Kit Guard, actor, told a jury in Superior Judge Edmonds's court yesterday how it feels to sustain a broken nose on the seat in front during a roller coaster ride.

The defendant is the Big Dipper Company.

Mrs. Guard sued for $20,000. Gertrude Garrett, a friend, testified for her. The case will go to the jury today.

UNIVERSITY NATAL FETE PLANS LAID

Dr. Rockwell Hunt Named by U.S.C. as Chairman of 1930 Celebration Group

The University of Southern California yesterday began the preparation of plans for the celebration in 1930 of the fiftieth anniversary of its founding. Dr. Rockwell D. Hunt was named chairman and announced that the Golden anniversary will last a week. Dr. Hunt is president of the Historical Society of Southern California, and dean of the Graduate School.

Cornerstone-laying ceremonies of the university were conducted September 4, 1880, eight years before the old Los Angeles City Hall was built on Broadway. The first board of directors consisted of P. Y. Cool, J. A. Van Anda, A. M. Hough, Charles Shelling, E. S. Chase, R. M. Widney, J. G. Downey, E. F. Spence, S. C. Hubbell, P. M. Green and F. S. Woodstock, and at the initial meeting Rev. Marion McKinley Bovard, A.M., was elected first president of the institution.

When fifty-five students and four faculty members assembled for the first class on October 6, 1880, Los Angeles still was a frontier town with a population of 11,145. The one university building was reached by a horse-car line which operated from the center of the city twice each day. Today there are 400 faculty members, seventeen schools and colleges of Class A grade, and an enrollment of more than 15,000 students.

Rift Blamed on Astrology

Astrology had such a hold on Mrs. Clara C. Hollowell that she became fanatical in her efforts to let it guide and direct her and her husband's lives, Emery D. Hollowell testified yesterday before Superior Judge Warne when granted a divorce.

Hollowell declared his wife endeavored to be guided by mysterious occult signs and influences to such an extent it was impossible to reason with her or have intelligent discourse with her.

The husband further testified Mrs. Hollowell told him she wanted to act independently of him and go and come as she pleased.

NEWPORT ATTACKS RECORD

Le Comple Davis Takes Up Day at Trial in Fight on Testimony Against Realty Man

Motions to strike out portions of testimony yesterday occupied the entire time of Superior Judge Doran's court in the trial of F. P. Newport, wealthy Los Angeles real estate subdivider, and Robert D. Clarke, former Municipal Court clerk, charged with attempting to influence a public official.

Newport and Clarke are accused of offering Municipal Judge Stafford $50,000 to rescind a decision he had given in a civil suit against Newport.

LeCompte Davis who, with William Neblett, represents Newport, has spent the last two days in reviewing the transcript of testimony during the trial requesting that certain portions be stricken out because, under the law, he contends, they can not apply to Newport.

In the early stages of the trial William T. Kendrick, Jr., attorney for Clarke, succeeded in having much of the testimony stricken from the record in favor of his client.

According to Dep. Dist.-Atty. Dennison, arguments probably will be presented to the jury today. However, the matter depends entirely on when the defense closes its case and completes its objections to testimony already given.

CITY COURT PROCEDURE HAS CHANGE

Presiding Judge Turney Creates New Division of Law and Motions

Creation of a new law and motion division of the Municipal Court, to become effective next Monday, was announced yesterday by Presiding Judge Turney.

According to arrangements, civil law and motion matters, with certain exceptions, will be heard by Judge Stafford in Division 19 mornings, excepting Saturday. An effort will be made to conduct the new division as closely as practicable along the lines of the law and motion department of the Superior Court.

Judge Turney's order provides that demurrers and motions in all civil actions, except motions for new trial, motions to advance or reset a cause already set for trial and motions for the consolidation of causes, be heard and determined by Judge Stafford. Filing of a demurrer without a memorandum of points and authorities will result in it being placed for hearing on the next succeeding law and motion calendar. Absence of the memorandum may be construed by the court as an admission that the demurrer is not meritorious.

A demurrer accompanied by a memorandum of points and authorities will be set for hearing on the fourth succeeding day thereafter. In the afternoons civil cases will be heard in Division 19.

Specialist in Stammer Cures Called by Death

Prof. O. H. Ennis, nationally known specialist in the correction of stuttering and stammering, died yesterday at the University Hospital, Culver City, following a two weeks' illness. Death was attributed to influenza and complications. He was 67 years of age.

Born in Claremont, Ind., Prof. Ennis early in life entered on an exhaustive study of speech correction, and for thirty years traveled all over the United States, coaching school children in co-operation with boards of education. He came to Los Angeles twenty-five years ago and in recent years resided at 2406 South Bronson avenue.

Funeral services will be conducted next Saturday, the 24th inst., at 10 a.m. at Reed Brothers' funeral parlors, 721 West Washington street.

In addition to his widow, Prof. Ennis leaves two sons, William H. and Oliver M. Ennis, and one daughter, Mrs. Earl Auble, all of Los Angeles. A brother, Charles Ennis, retail clothier, died here last February.

SIX ASPIRE TO ROBESON HUMANE JOB

Commission Gets Small Flood of Applications for General Managership

Six applications already have been filed with the Humane Commission for the job of general manager of the Humane Department, which pays $350 monthly, following the request of the commission for the resignation of Rodman Robeson, who is on sick leave in the mountains.

One of the applicants, recommended by the Van Nuys Women's Christian Temperance Union, is Dr. F. E. Williams, a veterinary of that community. Others include G. H. Burns, elevator starter in the City Hall; M. M. Cazier, of 132 North Maclay street; Alec Mitchell of Glendale; T. A. Rosen, of 1332 North Hobart, and Dr. Walter H. Scott, a dentist.

Receiving no answer from Robeson in response to the request for his resignation, the commission yesterday directed Mrs. E. M. Waddell, secretary, to forward the request by registered mail to Lone Pine, where Robeson is believed to be recuperating. Robeson recently informed F. C. Bradbury, president of the commission, that he would not make a decision until he returned from sick leave, Bradbury reported.

Mrs. Robeson states that her husband will never resign under fire, which may result in a hearing before the Civil Service Commission, since the position comes under jurisdiction of that body.

More Dollars Sent to Aid of Needy Family

The mother and three children whom police found stranded and destitute here two weeks ago, after their arrival from Texas, were richer yesterday by $6, that amount having been sent to The Times to be added to the fund for their relief.

Two contributors joined the ranks of those who have rallied to the woman's aid since reading of her plight. "A Friend" sent $5 and H. E. Carpenter of 432 West Temple street, mailed $1.

Including the $50 donated by kindly policemen, the amount which The Times has been able to turn over to the mother and children through the generosity of its readers is approximately $150.

CAFE HOSTESS SENTENCED

Mrs. Ochina, Owner of Happy Bungalow, Given Term of Eighteen Months in Jail on Liquor Charges

Mrs. Teresa Ochina, 45 years of age and proprietress of the Happy Bungalow, a cafe, at 11802 Washington Boulevard, was sentenced by Municipal Judge Sheldon to eighteen months in jail yesterday, after a jury found her guilty on seven counts charging violation of the Wright Act. It was her first offense.

One year was imposed on the count charging maintenance of a nuisance, and six months each, to run concurrently, on two counts charging sale of liquor. In addition on each of four counts charging possession, Mrs. Ochina was sentenced to one day in jail or a fine of $1.

WAITER SENTENCED

At the same time, Paul Livingston, a waiter employed by Mrs. Ochina, and who was tried with her on a charge of furnishing information in violation of the Wright Act, was sentenced to $450 fine or sixty days in jail. He indicated he will serve the time.

The jury's verdict settled a controversy waged during the trial between Deputy City Prosecutor Kaufman and the defense over the location of a table at which the arresting officers, Williams, Payne and Sale, testified they had been sold drinks by Mrs. Ochina as the result of information given by Livingston.

HALF AND HALF

While the Happy Bungalow is situated half in Los Angeles and half in Culver City, the boundary line bisecting the dance floor, the prosecution insisted the table was in Los Angeles territory. This was denied by Mrs. Ochina, she maintaining the case, therefore, was without the jurisdiction of Los Angeles.

Following the verdict Kaufman announced his intention of instituting abatement proceedings against the cafe.

MATE WANTS REMOVED TIES WIFE TRIPPED ON

Marriage was a stumbling block to the artistic career of Jessie Beryl LeSueur but Hollywood parties were not, her husband, Hal Hays LeSueur, brother of Joan Crawford, asserted in his divorce complaint on file yesterday.

"She insisted on going to parties at all times," the plaintiff declared, "and when I wouldn't take her, she went alone. She told me a career was the biggest thing in life and marriage was only a stumbling block."

According to LeSueur's complaint which was prepared by Attorney Milton Golden, the defendant insisted on having her own apartment and her own friends and announced she would see the plaintiff only by appointment.

When LeSueur refused to put his home on a companionate basis, she left him and wouldn't come back, he said. The couple were married in 1928 and separated May 15, last.

George Washington named six Executors to make sure at least *one* would survive him

ONE of the principal objections to naming an individual executor and trustee in a Will is the possibility of his death. ▶ A dead trustee can be of no service to your heirs no matter how capable he might have been while alive. ▶ In one hundred years from today this company will be faithfully administering estates. ▶ If George Washington had lived during the 20th century, he would undoubtedly have appointed a trust institution to carry out his wishes as expressed in his Will. ▶ Appoint an Executor and Trustee who will survive you. Write or call for booklets.

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed.

—Abraham Lincoln.

Today's Bible Text

Blessed is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of the scornful. But his delight is in the law of the Lord and in his law doth he meditate day and night. Psalms 1:1.

NO DEATH PENALTY

President Emilio Portes Gil has marked out the death penalty in the new Mexico penal code, which is intended to go into effect the first of next year. This would prove a rather startling change in the administration of justice below the border. The firing squad has been in usage for many a year.

PERILS OF HOME BREW

There are further examples of the perils of home brew. In a Virginia town a bottle of the stuff exploded the other day and a young man was killed. His throat was cut by a bit of flying glass. Home brewers should remember that their medicine is not of the kind that is to be shaken before taking.

THE INVASION

Al Capone, the Chicago gangster, has been removed from his Philadelphia jail to the Pennsylvania prison for safe keeping. His fellow-prisoners in the jail declined to associate with him and threatened to go on a strike. They want no Chicago interlopers to mess up their careers. They have scandal enough of their own.

MAKING TIME

One of the passengers who came over from Germany on the Zeppelin caught a plane in New York and came on through to Los Angeles. He was able to make the jaunt from Berlin to Burbank in 144 hours—and without any effort at speed during any stage of the journey. Thus proving what a small world we now occupy.

GRAPES TO MANILA

The other day we sent twenty carloads of our early grapes by boat to Manila. Under the impulse of refrigerated ships our fresh fruits are going to the Orient as well as Europe and there is no reason why the market in the Philippines should not be improved. The Filipinos will be wanting a lot of our grapes from now on.

BRIGHTEST EGYPT

Under a new dispensation it is said that games of chance are to be barred from Egypt. Visitors will be permitted to figure the age of the pyramids or guess whether Cleopatra was redheaded or not, but this is about as far as this form of dissipation can go. This grandpa of earth's civilizations is to be made safe for the stranger.

CLEANING UP

Half a dozen sports were sent to jail the other day for playing stud poker. They were not even given the chance to pay a fine. Some of these old-timers who still hold that poker is the national game will wonder what the country is coming to. If a man may be planted in the hoosegow for drawing pasteboards our boasted liberty has gone flooey.

CRADLE OF MANKIND

It seems that on account of the disturbances in China this latest expedition of Dr. Roy Chapman Andrews into the Gobi Desert and Mongolia will be abandoned for the present. Even if he can get in there is no assurance that he could get out with any discoveries he might make and this is the very hazard to kill the venture. When we find dinosaur eggs we want to be able to deliver them.

THE WORLD WIRELESS

There are now 20,000,000 radios storming the atmosphere of the universe. Of this number it seems that more than half are in use in this country and they are suffered to bleat their way without let or hindrance. Governments in other lands are not so considerate. In Salvador, for instance, a citizen buying a radio must pay $18 a year for license to use the same. In Japan it costs about $9 a year for a permit. In Germany it is over $5 and in England about $2.50. In no country are they as easy as in America and yet we have ungrateful souls who do not hesitate to criticise some of the labored efforts of our most persistent broadcasters. Well, what of it?

A "NEW DAY"

Indicating a course of action which, if permitted to continue, will develop chaos in the Los Angeles police department and subordinate matters of public safety to men without practical knowledge of police work, members of the Police Commission yesterday served notice on Chief Davis that, hereafter, the commission itself will take over duties ordinarily invested in the administrative head of the department.

Disclosure of the plans of the commission members came as a part of a rebuke directed by Commissioners Thorpe and Drake at Chief Davis for having taken steps for the protection of the public during the forthcoming visit in Los Angeles of the Graf Zeppelin.

The Chief's instructions, given as a routine order for the assignment of officers to handle the large crowds expected to witness the giant aircraft's arrival, was in conformity with the practice of the department since its inception and strictly in line with methods of police procedure universally in use.

Commissioner Drake, whose experience in police matters covers less than thirty days, informed Chief Davis that a "new day is dawning in the police department," and Commissioner Thorpe detailed ambitious plans for future commission activities. Both commissioners refused to answer the request of the Chief for an explanation of the extraordinary position they assumed. His renewed attempt to learn the commission's attitude was met with silence and stares.

The outburst of Thorpe and Drake over such a common occurrence, which involved no new or unusual exercise of authority by the Chief of Police, indicated less a determination upon their part to improve police conditions than to seize upon the incident as a pretext to embarrass and handicap the Chief in the exercise of his duties.

Before this destructive and mischievous policy is allowed to bring heavy penalties upon the citizens of Los Angeles it would be wise for Mayor Porter to look into the situation and warn his bellicose commissioners to discard personalities and politics in their official activities.

The Times has had occasion to disagree with some of the official acts of the new Mayor, but The Times believes that his intention is to give the people of Los Angeles an efficient, honest, honorable administration of the community's municipal government. And having such belief, this newspaper is determined to support Mayor Porter in all ways possible and to do all in its power to aid any plans he may have or may develop calculated to promote the general welfare of the community.

A new administration can live down and eradicate the consequences of early mistakes—even of grave mistakes—but continued and increasing errors of judgment are bound to bring discredit and failure.

Mayor Porter at the present time has a large majority of the community on his side, expecting him to accomplish results and willing to back him in his course. This happy condition will not continue if the Mayor either encourages or permits members of his official family to abuse the authority invested in them.

The Thorpe-Drake episode is an example of official strutting and stupidity which should receive immediate curb. Neither the Mayor, the Commission nor the Chief of Police is as important to the welfare of the community as is a properly conducted, self-respecting, efficient body of police officers. Such a body is not to be maintained by methods of petty childish hectoring of the department's executives. Demoralization of the entire organization is more apt to follow such tactics.

The visit of the Zeppelin will undoubtedly bring out an enormous crowd and a situation in which the most expert policing will be necessary to prevent serious accidents, involving injuries and possible fatalities to many spectators. Many years of study, training and experience have made Chief Davis expert in handling such problems. In accordance with all precedent and practice, he made tentative plans for the necessary policing of the airport and the streets leading thereto. Having done so he submitted these tentative arrangements to the Police Commission for consideration and approval and was roundly rebuked for having taken any initiative whatever in the matter.

Though the Zeppelin's scheduled arrival is but a few days away, it does not appear that Thorpe and Drake had themselves made any plans for handling this big police job. As a matter of fact neither is qualified to tackle it. The fact that the Chief had gone ahead and done what he is supposed to do merely supplied a convenient excuse for hectoring him, and they took it.

The post of Chief of Police of Los Angeles is one laden with enormous responsibilities and demanding expert qualifications of the first order. If the Chief is to be relegated to the status of an office boy, stripped of responsibility, authority and initiative and his functions turned over to inexperienced amateurs, it will indeed be a "new day" for Los Angeles.

It will also be a dark one.

"L" LINES UNPOPULAR

According to rapid-transit statistics quoted by the New York Evening Post, nearly 2,000,000 fewer fares were collected on the elevated railway lines of Manhattan during the first three months of the year than in the corresponding period of 1928. In the same time fares on the subway increased by 6,500,000, so there is no falling off in riding to account for the discrepancy.

These figures may be interesting to those who, a few years ago, sought to persuade Los Angeles to accept an elevated railway system, with all its clatter, dust and unsightliness, together with its danger.

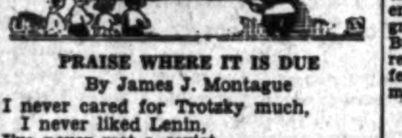
It is evident that the elevated railway lines are becoming less and less popular in New York, as in other cities which are plagued with them, and that their eventual removal is not far in the future. In the national Supreme Court decision on New York rapid-transit fares, it was brought out that while the subways were profitable, the "L" lines had been losing money for several years. The Post's figures show that this tendency is still continuing. A shirt in population is said to account for the change in part, but if the "L" lines were liked by their riders, a shift away from them would not be so likely to occur.

PLEASE BE GOOD

Newspapers in Moscow are conducting a reform campaign. They are daily printing articles in which thieves are implored on patriotic grounds to refrain from stealing and cease indulgence in crime. It is claimed that they are giving the country a bad reputation and like to injure its standing with other peoples. When visitors from Chicago and points west hear that there are pickpockets in Moscow they will pack their grips and hasten back to home and safety. But the world is curious to know how much attention the robbers really give to this newspaper plea.

THERE ARE SUCH

The Supervisors bought eight horses for the county farm at $750 each. They could have bought tractors for about the same money, but a tractor has no pedigree. These horses have. They are Belgian draft animals and are not afraid of the draft.



PRAISE WHERE IT IS DUE

By James J. Montague

I never cared for Trotsky much,
  I never liked Lenin,
I've never met a soviet
  That was not rough or mean.
Their government has had for me
  But very little glamour,
But I approve their recent move
  Of simplifying grammar.

Our English grammar in my youth
  I always thought a curse.
The sort they teach in Russian speech
  Must be distinctly worse.
With eighty letters in one word
  A tower of Babel clamor
Must be the schools that teach the rules
  Of present Russian grammar.

Co let me praise where praise is due
  The soviets in sooth
Since they've seen fit to ease a bit
  The trials of Russian youth.
Now little Ivan Petrovitch
  Won't have a ketsenjammer,
When he essays to parse a phrase
  In that atrocious grammar.

And if this great reform succeeds
  Let it become far flung
Till it shall reach the complex speech
  We call the English tongue.
I'd like some day to lay away
  The heavy mental hammer
That racks my brain when I in vain
  Defend the art of grammar.

(Copyright, 1929, by The Bell Syndicate, Inc.)

The LEE SIDE o' LA

BY Lee Shippey

WHEN you take that dreamed-of trip around the world and stand in awe before fakirs in India or the mystifying masters of magic arts in China or in Egypt, it may reassure you a good deal to remember that none of those wonder workers could do his most marvelous tricks if it weren't for the magicians' supplies he buys in Los Angeles.

For the only recognized source of magicians' supplies in the world, the only factory ready to fill any kind of order, is here and probably every famous magician who has entertained and bewildered the public in the last quarter century has been a patron of it. Hermann the Great and Hermann II, Houdini, Mme. Tenkatsu, court magician of Japan, and hundreds of others in Europe, Asia, Africa, South America and all parts of North America have been its patrons and the walls of its offices at No. 334 South San Pedro street are almost covered with pictures of magicians of many nationalities who rely on it for supplies. There are not, of course, enough magicians in California or the Southwest to support a factory which puts out a catalog more than an inch thick, including thousands of different articles. But its orders come in by cable, telegraph and mail from all parts of the world.

More Proof This Is "The Magic City"

Floyd G. Thayer, a retired magician, established this unique business in Los Angeles twenty-five years ago. Thayer has been in the magic business ever since he was a child, giving shows in his barn, for which he charged two pennies. That was in Vermont. He traveled as a professional magician and met many of the best-known men in his profession. But his greatest gift was for building contrivances and other magicians had to come to him for aid in perfecting their own equipment. Thayer saw the need of at least one complete factory for magic supplies and quite logically chose the magic city for its location. China, India and Japan being among the best customer nations, he had to choose a place in reach of both the Occident and the Orient.

Where Christians Use Magic Art

Since then every traveling magician who comes anywhere near Los Angeles finds time to visit Thayer's shop and it is said that there is no corner of the world, even the most remote, to which his goods have not been sent. Not only professional magicians but many other entertainers buy these goods. One missionary in the South Sea Islands is a regular customer. Native priests practicing voodooism had him at a disadvantage at first, but now, by aid of magic supplies, he has the natives so awed and spellbound that none dares lift a hand against him, and his wishes are almost laws.

The court magicians of China, the Fiji Islands and a few Indian states are greatly aided in holding their jobs by magic contrivances made in Los Angeles.

Random Thought

We suppose they need magic shows to liven up the South Sea Islands, now that both Gilda and Zane Grey are back in Los Angeles.

Backs to Nature

You talk of "back to nature,"
* And lots of backs I see*
Have not a thing between them
* And nature, I'll agree.*
But nothing can convince me
The back-to-nature tips
Are getting far until they are
* Applied to cheeks and lips.*

SEYMOUR SEITZ.

In Approved Spanish Fashion

Leeside: It may interest you to know that ancient Spanish customs, slightly tinctured by Fordism, survive in our own Sonoratown. I live in an apartment-house on the fringes of that interesting spot and the other night, it being rather warm, was sitting in my window and pajamas smoking a meditative pipe at 2 a.m. Suddenly one of Mr. Ford's vehicles, made in the days when they were called Lizzies instead of cars, churned into view on the Sonoratown side, stopped before a house half a block away and immediately its two occupants began a serenade—guitar and mandolin—with seductive vocal accompaniment. A shutter opened cautiously and two girls' heads peeped out. But it was a man's voice, from another window, which demanded: "Who is it?" The gallant dismounted and parleyed with him in Spanish too fast for me to follow and then played "La Golondrina." That did the work—the man stepped out and courteously invited the serenaders in.

AH! QUE BONITA!

Ah, yes, ours is a very charming and interesting neighborhood—for one who doesn't care much to sleep at night.—W. H. W.

WHAT OTHERS THINK ABOUT IT

FRUIT-FLY LOSSES

[New York Times]

The announcement of the President that he intends to ask Congress to compensate the Florida farmers and fruit growers whose crops have been condemned and destroyed in the fight against the Mediterranean fruit fly will doubtless be well received. These men have sacrificed a large part of their capital investment. The presence of the pest in their crops has been through no neglect or fault of theirs. Extermination of the pest is of importance to the whole country, and the destruction of orchards and crops must be considered as a war measure.

The State of California has been the first to demand that everything possible be done by the Federal government to stem the advance of the fruit fly. This is not only because the Californians wish to protect themselves against its ultimate ravages, but because they know from sad experience that unless prompt and drastic action is taken control becomes difficult and costly. The history of California fruit growing is replete with instances of war against pests. Where action has been immediate and co-operative it has succeeded. Where delays have been permitted to intervene the losses have been great.

It is part of Florida's misfortune—or sacrifice in the common behalf—that shipments of fruit from that State have been seriously curtailed as the result of the discovery of the larvae of the fruit fly in crates sent to various parts of the Union. If this quarantine restriction is made more severe, the entire State may be plunged into even graver financial difficulties than at present. But to their credit Floridians are frank in recognizing that the export of possibly infected fruits may help to spread the pest and make its ultimate control more difficult.

THE REPUBLICAN NOMINATION

[New York World]

With no acceptable candidate for the Mayoralty campaign in sight, it might profit the Republican party in this city to contemplate the reasons for its present plight.

On the surface the difficulty is simply that no candidate with demonstrated ability and the confidence of all factions of the party will consent to accept the nomination. The reason for this, however, is plainly that all of the gentlemen who might run put an exceedingly low estimate on the value of their chance to win. They do not wish to run because they know that they will probably be beaten. And why will they be beaten? Simply because the Republican party itself has made this a Democrat city in local politics as a result of the policy it has pursued at Albany.

Year after year the Republicans at Albany have attempted to face both ways on prohibition. Year after year they have denied the appeals of the city of New York for a larger measure of home rule in such important matters as its transit problem. Year after year they have let the up-State bosses set their policy for them in tax legislation, water power and the maintenance of a thoroughly rotten system of representation in the Legislature.

Then, every fourth year, when it comes time to choose a candidate for Mayor, the Republican party finds itself strangely handicapped by a lack of available men and a lack of public interest. On these occasions the Republican leaders might profitably remind themselves why their party has so little popularity in the city.

START AT THE BOTTOM

[Boston Transcript]

Now that the President has his Commission on Law Enforcement, we trust it will not overlook the injury to the public peace caused by the illegal blowing of motor horns.

THE CLUB WORKER'S REWARD

BY ALMA WHITAKER

The situation is interesting and becoming more acrimonious . . . since Edna La Moore Waldo, formerly an overburdened, unpaid worker in women's club realms, resigned and said why in her Pictorial Review article last May.

You see, with the mighty growth of the women's club movement, altruistic labor has increased to burdensome dimensions. For instance, consider the editors of the numerous club publications—a tremendous job. Or the glory of being club president, entailing as it does, often vast financial responsibility, organizing ability, diplomatic tact, the wielding of authority with grace, speech-making talent, cultural knowledge, a discreet sartorial sense (woe betide the club president who looks tacky!) and positively Solomonic judgment.

Or the secretary, the treasurer, the program chairman, the curators of sections, the club housekeeper . . . as the club grows their work not only becomes prodigious, but demands a professional efficiency. These are all vital and exacting jobs . . . jobs that would command excellent pay in any other realm. Of course women's clubs have grown in power and influence under this system of altruistic labor . . . and equally, of course, it is no wonder that many of these altruistic servitors are beginning to feel that the laborer is worthy of his hire.

Especially as so much of this exacting work is accepted as a matter of course by the rank and file of club women. Indeed, their attitude is that the distinction of being allowed to thus serve is an all-sufficient reward and that criticism of the altruistic effort is quite in order.

Mrs. Waldo's article has brought her hundreds of letters . . . both for and against her contention that such work should be paid for . . . a preponderance in favor of pay.

Yet, while I personally never could have been so altruistically industrious, I am conscious of regret that this situation should have arisen. It was so obviously because of this altruistic unpaid and efficient labor that women's clubs have attained their growth and influence. While all manner of commercialism was absent, the cause flourished amazingly. This undercurrent campaign for financial reward in club realms seems to hint of so many things . . .

And yet . . . in spite of the fact that clubs do have budgets for a certain number of paid programs . . . in the main they have become a bit parasitical, not alone upon a percentage of their own members, but upon other professions. Musicians galore sigh that so many of them are invited to give free club programs . . . "Because it will be good publicity for you." Celebrities galore are preyed upon for free lectures . . . In this city alone there are over 200 clubs who crave free entertainment at least once a week—the larger clubs, with several departments, often inviting, importing, coaxing, badgering half a dozen prominent, successful people a week to appear before them and provide free programs . . . in exchange for a somewhat indifferent lunch at the best. Of course the speakers, with no club loyalty, were the first to strike, so that it has become increasingly difficult for program chairmen to capture unpaid performers.

On the other hand, if women's clubs begin paying for all the numerous arduous services that are rendered for them, they must surely go bankrupt. Entrance fees and dues would have to be raised. This would reduce club membership exclusively to women with money . . . political aspirants with axes to grind and to paid officials. It's a sorry outlook.

And talking of "political aspirants" . . . it was the revelations of the machinations of some of these which caused the introspection of the hard-worked altruists. Were they working their heads off just to build up great organizations for political playball? Hence, numerous editors of club publications are already being paid nominal sums in some States . . . the thin end of the wedge. Here and there a club provides a paid secretary for Mme. President . . . a few paid stenographers.

And here again the position of these paid workers is interesting. Paid secretaries and stenographers have no voice in club affairs . . . no membership standing. Just hirelings . . . If the various leaders wish to be paid, how will this attitude work out, reasonable as it is? That will involve quite a nice little complication.

Yet more and more of the capable, efficient leaders yearn to turn "pro" and draw pay. Only the quite wealthy ones feel they can afford to scorn such reward. Hence, in time, women's clubs would be become toys of the idle rich, as it were, with most of the bright, capable women mere hirelings, anxious to hold their jobs.

What's the answer? It is a problem women's clubs are facing all over the country just now.

Electric Catch Big

Fishing by electricity is possible, according to experimenters at Munster, Germany. Through a well-stocked pool covering two acres, employees of an electrical firm recently pulled slowly a copper wire carrying an alternating 220-volt current, attached to a wood float. In a short time more than 300 pounds of carp and fifty pounds of pike rose unconscious to the surface.

The railroad station at Capa, South Dakota, is heated by a deep spring which spurts out of the earth at a temperature of 120 degrees Fahrenheit.

LETTERS TO The Times

[*Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.*]

Why Not an Alfalfa Diet?

ALTADENA, Aug. 17.—[To the Editor of The Times:] In a recent issue of The Times you state that the alfalfa crop in California is estimated to be worth $50,000,000. Such is a safe estimate. Los Angeles and Antelope Valley hay is now quoted at $25 per ton f.o.b. Los Angeles. The Antelope Valley will harvest between 75,000 and 100,000 tons this year. The greater amount of the hay is shipped by truck to Los Angeles. Owing to the excess protein or food value of alfalfa hay raised in the Antelope Valley, it brings the top price.

It is reported in the Good Book that Nebuchadnezzar went crazy, walked on all fours and ate grass like an ox. It is supposed the grass that he ate was alfalfa. Chefs make bread of alfalfa meal that is palatable. But the average person prefers the alfalfa distilled into milk from the cow. J. E. MINNEY.

An Elated Dry

ORANGE (Cal.) Aug. 21.—[To the Editor of The Times:] If there is any one thing more than another that, as an old man, I am thankful for, it is that I have been permitted to live to see the liquor traffic obliged to sneak around as a criminal and an outlaw in the darkness of the night in order to do any business at all. Despised by all decent citizens, execrated by the great metropolitan press and pursued by officers of the law.

What a contrast to the days when, in Minneapolis, Minn., where I then lived, and fought with the advance guard, intrenched as the liquor traffic was, behind a $1000 license—the only limit being a thousand saloons for that city. It was a $1,000,000 bulwark very difficult to overcome. When even the church more than half apologized for the system and no daily newspaper had the temerity to say a word against it—because of the $1,000,000 income to the city.

To me, an old-timer, your editorial on Mabel Walker Willebrandt's wonderful articles is a triumphant shout of victory. The battle is won. We are now only chasing into their holes recalcitrants that don't know enough to know they are licked. Go on! Go on! Go on!

GEORGE R. WHITCOMB.

Chiropractors Remonstrate

LOS ANGELES, Aug. 21.—[To the Editor of The Times:] We, the undersigned students of the Cale College of Chiropractic and members of the student body of that college, wish to remonstrate against the unfair charges now being heralded against our institution. We, of our certain knowledge, know these charges to be untrue and to be spite work of a discharged employee.

We are evidence of the fact that the faculty of this college demands the full 2400 hours required by the law, and that credits are given only when this requirement is complied with. In this connection we wish to call attention to the fact that a diploma does not automatically give a student the privilege to practice. All graduates must pass the State Board of Chiropractors and the license is granted by them.

We respectfully ask in justice to the faculty and the students of this college that judgment be suspended until the merit of the case has been settled by the court. We further respectfully ask that the same publicity be given this statement as has been given the charges.

A. R. RICHARD,
Student Body President, and thirty others.

WHERE CAN I LEARN

Plumbing Estimating?

BY LOUISE L. TEMPLE

[*Prepared in co-operation with the Los Angeles evening high schools. Questions concerning free evening classes will be answered if stamped addressed envelope is inclosed. Address Louise L. Temple, care of The Times.*]

Beginning September 10 the Frank Wiggins Trade Evening School, Venice Boulevard, between Hill street and Grand avenue, will offer a complete course of instruction in plumbing estimating and quantity survey. The class will meet Tuesday and Thursday evenings from 7 to 9 p.m. Instruction is free, the only expense being $1 enrollment fee.

Registration is limited to men who are actively engaged in the plumbing business, with two or more years of practical experience. Beginning September 10 the school will be open every school day, between 1 and 9 p.m. All those interested should apply in person.

The course includes specification work as related to plumbing contracts, plumbing layout drawings (riser and horizontal,) a systematic course of instruction in lineal and quantity survey from scaled drawings, labor estimating, organizing a complete cost sheet, pricing of estimated materials and labor, bid forms, quotations and contract, and a short course in selling plumbing installations.

Try the Drug Store

The lady entered the very fashionable specialty shop. "I'd like to look at some bathing dresses."

"I'm sorry, madam," said the superior modiste, "but we have none; don't carry them. We have exclusive designs in sand suits, foam fashions, and wave wear."—[Punch.

WHAT WE READ

The magazines which tell t story of those obscure yet daun less ones who rise from pover to glory, are sold in countl tons and tons. We often hea Smart Alecks jeering at publ tions of this type; the "inte lectuals" are sneering, they sa such stories are but tripe. I am glad so many read the and find in them the deeds d sired; methinks the toilers need them for inspiration whe they're tired. The young ma reads how Jabez Jingle has ris from a low estate, and straig way tightens his surcingle, d termined also to be great. Jabez left the dump behi him," the young man says, w shining eyes. "I'll take the tr he took and find him, and sho him I can win a prize. I've be discouraged for a season, I c not seem to get ahead; toda I thought I'd bitter reason coming home with laggard tre But having read of Jabez Jingl I see that chances great ar mine; the story sets my nerv a-tingle, and sends a thri along my spine." We've maga zines which view with sorro the youth who'd take the up ward way; they strive to sho him that tomorrow will be mor darker than today. The pri when won is not worth countin they argue, in prolix detail, an they forevermore are moaning that everything is flat and stal These magazines are circulat among a few poor jaundice jays, who are by heavy grouche weighted, who walk in pessimi tic ways. It is a hopeful sig my masters, that people rea those uplift tales which are in dorsed by all our pastors, whi which white virtue still prevails

medicinal qualities of kelp compared to a greater almost every day, the government chemist said. At Cornell University experiments have been carried out over a long period with kelp as an ingredient in cattle feed. It has been proved that kelp, mixed with cow feed, increases the iodine content of milk and makes that universal food even more beneficial to humans. Fish contains a desirable quantity of iodine but fish is not a universal food and therefore cannot be expected to prove as beneficial as milk with a good iodine content, he said.

Engaged for many years in carrying out the government's program for the development of potash supplies in the United States, Mr. Turrentine has made an exhaustive study of the subject and is the author of a book and scores of magazine articles on the chemistry of hydronitrogens, electrochemistry, fertiliser resources of the United States and goitre eradiction.

MUSICAL WIFE WAS TOO MODERN, HUSBAND SAYS

Tamea Tronstein, a musician, was just a bit too modern to be a housewife, according to her husband, Zoltan Tronstein, who appeared yesterday before Superior Judge Lamberson with a petition for a divorce. After hearing the husband's testimony the decree was granted.

Not only was Mrs. Tronstein extremely modernistic, but she also had a fiery and an ungovernable temper, the husband declared.

"She often would get angry and call me a common bum," Tronstein said. "At these times she would snatch the rings off her fingers, hurl them at me and tell me that I need not think I had bought her with them."

One of their fiercest arguments, the husband said, arose over the question of his shaving off a small mustache that he was nursing into a respectable hirsute adornment.

"She attacked me and it was all I could do to defend myself," Tronstein told the court.

The husband further testified that his wife refused to cook meals and told her women friends they were foolish for cooking meals for their husbands, or having children, as it was not the twentieth century way. Mrs. Tronstein also said that modern women do not wait on their husbands, the plaintiff declared.

HOLD-UP MAN CALLS TAXI FOR ESCAPE

Pasadena Showhouse Loses $500 as Bandit Robs Cashier and Flees

By a "Times" Staff Correspondent

PASADENA, Aug. 21. (Exclusive) A bandit who called a taxicab for his getaway tonight held up the box office cashier of Warner Brothers Egyptian Theater at 2316 East Colorado street, and escaped in the taxi with $500. Later the taxi driver telephoned that he had been forced at the point of a revolver to drive his bandit fare to Hill and Eleventh streets, Los Angeles.

The bandit, a man 22 or 23 years of age, wearing dark goggles, telephoned from a drug store adjoining the theater to the Tanner Motor Livery, ordering a taxi. When it drew up before the theater, the bandit aimed a nickel plated revolver at the cashier, Bernice Howard of 86 South Greenwood avenue, and ordered her to hand over the money. Miss Howard surrendered the night's receipts, approximately $500.

As she was doing so, Harry Lang of 2332 East Colorado street, left the theater where he had been viewing a picture. He saw the hold-up in progress and tried to run to the street and give an alarm. The gunman ordered him back, saying "Stop or I'll kill you." Lang obeyed. The bandit then jumped into the cab, which was driven by Harold Baldwin, and was driven rapidly away. Baldwin telephoned later, telling of his destination, while Detective Lieutenant Cropsey was investigating the hold-up.

KELLEY MAY ENTER RACE FOR SHERIFF

Pasadena Chief of Police Announces He'll Run if Traeger Does Not

By a "Times" Staff Correspondent

PASADENA, Aug. 21.—Police Chief Charles H. Kelley announced today that he will be a candidate for Sheriff next year in the event that Sheriff Traeger does not seek re-election.

"Traeger beat me three years ago for the Sheriff's job," said Kelley, "and it appears that I should be foolish to run against him so soon again.

"If Traeger doesn't run, however, I plan to throw my hat in the ring, although my active campaign will not start until I have a better idea of the field it will be necessary to oppose."

Equity's Head and Attorney Leave for East

Frank Gillmore, president of the Actors' Equity Association, accompanied by Paul N. Turner, attorney, left last night for New York following the collapse of the attempts to place Equity shop in the Hollywood motion-picture industry. A group of members of the organization were on hand to say farewell to Gillmore.

The Equity president departed Los Angeles without making further comment on the failure of his attempt to put over Equity form of contract for members of the association. In his last speech, Gillmore promised to return to Hollywood to resume the battle with the producers.

Ex-Army Officer on Hotel Staff

Capt. Lewis Mesherry, former United States Army officer, has been added to the directorial staff of the Alexandria as assistant manager, it was announced yesterday by Charles Hamilton, head of the Hamilton chain of hotels.

Capt. Mesherry retired from active duty in the Army at San Francisco after twenty years and entered the hotel business in the same city, where he was until recently assistant manager of the Bellevue.

GLASS-CUT WIFE GROWS BETTER

Mrs. Hamman Reported to be Improving After Row

Her Attorney and Dentist's Seek Property Pact

Divorce 'Railroading' Charge of Woman Called False

While attorneys sought an agreeable division of community property worth $250,000, Mrs. Helen L. Hamman, wife of Dr. Lee M. Hamman, local dentist, who is suing her husband for divorce and separate maintenance, yesterday was reported recovering from injuries suffered Tuesday when she "crashed" the glass doors of a law office where her estranged spouse and his counsel were in conference.

After the scene at the offices of Attorney Griffith Jones, 307 South Broadway, Mrs. Hamman asserted to police detectives that attempts were being made to "railroad" her into a divorce. She appeared at the office and after meeting a stepdaughter there excitedly shoved her arm twice through a plate glass door, severing an artery.

CRUELTY CHARGED

Bleeding profusely and in a highly distraught condition, she was taken to Georgia-street Receiving Hospital where she was treated and later removed to her home at 4047 Leeward avenue. At home she denied further interviews.

In denying the woman's charges of divorce "railroading" Attorney Jones produced a complaint she had filed through Attorney Milton Cohen with the County Clerk on the 15th inst., seeking a divorce and division of community property she asserted is valued at $250,000. The charges she placed against her husband were extreme cruelty.

Simultaneously with the reported recovery of the woman and the disclosure of the filing of the divorce petition, Attorneys Jones and Cohen, representing Dr. and Mrs. Hamman, respectively, said they have reached a tentative agreement on the property settlement which they would present at once to their clients for approval or disapproval.

In her divorce petition, Mrs. Hamman said she and the dentist were married at Santa Ana Sept. 8 1924, and separated after numerous quarrels on July 6, last. There are no children.

Mrs. Hamman's petition asserts "cruel and inhuman" treatment from the hands of her husband from which she suffered "humiliation, embarrassment and physical and mental anguish" that undermined and endangered her health.

The marital difficulties climaxed last July after she says the dentist struck her and beat a child by her former marriage.

After the affair at the lawyer's office Mrs. Hamman told the police officers that she was denied admittance to the conference rooms with Attorney Griffith and her estranged husband when she broke the glass panel in an office door.

DENIAL VOICED

"Mrs. Hamman was not denied admittance at my office," Attorney Jones said yesterday, "in fact, we did not know she was in the building until we heard a scream and the shattering of glass. Then we did everything possible to summon medical aid quickly."

Attorney Jones also denied Mrs. Hamman's charge that through her loyalty Dr. Hamman acquired and built-up a string of downtown dental offices.

"Dr. and Mrs. Hamman have been married but four years," the attorney said," and before his marriage to her Dr. Hamman had all but one of the offices of the present group.

"Mrs. Hamman was the dentist's secretary before the marriage.

Dr. Hamman's counsel says that the dentist is willing to make a reasonable settlement with Mrs. Hamman, but if the tentative agreement of counsel fails, he will be forced to file a cross-complaint to her divorce action.

AIRCRAFT PLANT PLAN DISCLOSED

Long Beach Option Taken by Eastern Maker as Site of Proposed Factory

LONG BEACH, Aug. 21. (Exclusive)—The Consolidated Aircraft Company of Buffalo is reported ready to exercise an option on thirty acres of land adjoining the municipal airport here, where they plan to build a factory for the manufacture of ten different types of airplanes.

This company a few months ago effected a consolidation with the Fleet Aircraft Company, also of Buffalo, and the new concern plans a wide range of manufacture. It is reported that products will range from small sport planes to six-place cabin monoplanes. Two models of seaplanes will be built and also primary training planes for use of the United States Army.

It is expected that the first unit of the factory will be started as soon as plans can be prepared. The primary training planes will be the first type to be manufactured. Others will follow as the factory is enlarged.

Officers of the company are Maj. R. H. Fleet, president; G. Newman, vice-president; Clarence D. Bell, vice-president and director of sales, and Thomas Kenny, secretary and treasurer.

WILLIAM R. RUDDOCK LAID TO FINAL REST

Funeral services for William Robert Ruddock, evangelist of the Plymouth Brethren Church, who died Monday, were conducted yesterday at the W. A. Brown chapel, 1815 South Flower street. Burial was in Forest Lawn Memorial Park. Mr. Ruddock was 71 years of age. He came to Los Angeles twenty-five years ago from Boston. His home was at 1716 Vineyard avenue. He leaves his widow, Mrs. Grace L. Ruddock, and a daughter, Mrs. Gladys Nielsen of San Fernando.

"WHERE THE STARS DINE"

SOCIETY

BY JUANA NEAL LEVY

This evening at 8:30 o'clock in the First Methodist Church will occur the wedding of Miss Leonarda Fisher, popular daughter of Dean John Frederick Fisher of the school of religion at the University of Southern California and Mrs. Fisher, and Alan Kemp Laing of Cincinnati, O., son of Mr. and Mrs. Peter Laing of Denver, Colo. Dean Fisher, assisted by Rev. E. E. Helms, in vestments, will read the service, using the double-ring ceremony, while in decoration of the church ecclesiastical features have been carried out, emphasized by the use of seven-branched candelabra arising from bases of Easter lilies. Peach-colored dahlias, ferns and palms complete the decorations.

The bride, given in marriage by her father and mother, will wear a Lanvin model in heavy ivory crepe satin, with a full train and veil of tulle paneled with oriental lace brought from India on a recent eastern trip made by the family. The veil will be caught into a cap effect by a wreath of tiny French orange blossoms, and shower of lilies and gardenias will be carried.

Miss Josephine Eckhart, cousin of the bride, and herself the bride-elect of Adna Wright Leonard, Jr., will assist as maid of honor, wearing soft yellow and carrying sweetheart roses. The attendants, Mrs. Joseph Wilson and Miss Bernice Palmer, are to be in deeper hues of the yellow, and will carry matching sweet peas. These gowns are Le Long models in satin.

Mr. Laing has chosen for his best man a former college chum and fraternity brother, William Saffold, while the ushers will be Adna Leonard, Jr., John Duggan and Marcus Beeks. Music during the ceremony will be provided by Mrs. Eithea Snyder Turner, organist, and Mrs. Lora May Comer, soprano, while during the reception for 225 guests to follow at the home of the bride's parents an orchestra composed of Filipino students from the University of Southern California will play. Here Mrs. Fisher will receive her guests in a gown of French faille in peach, made from her wedding gown, with rose point lace and tulle, with which she will wear gold slippers and pearls. Assisting her will be Dr. and Mrs. Helms, Mrs. George Clarke Peck of Baltimore, Md.; Mrs. William Saffold and Mrs. John Duggan. The home is to be decorated in a scheme similar to that used at the church, with tall single white candles, and supper will be served in the softly lighted gardens.

The bride, who attended Syracuse University, and took her master's degree at the University of Southern California, is a member of the Delta Gamma Sorority, to which her mother also belongs. Mr. Laing has a degree from the University of Denver and another from the Massachusetts Institute of Technology at Boston, is a member of Beta Theta Pi Fraternity and of the American Institute of Architects and now is professor of the history of architecture, art appreciation and related subjects at the University of Cincinnati, where he and his bride will make their home. Mr. and Mrs. Laing will motor to Ohio after the wedding, but will return next spring to pass the summer in Los Angeles.

The wedding this evening comes as a climax to a round of delightful affairs with which many friends and bridal party members have entertained, one of the most recent being the swimming party and bridge-breakfast given by Mrs. Alexander Dollar (Ruth Sampson) at the Pacific Coast Club for thirty guests.

Betrothal Told

Judge and Mrs. S. P. McConnell of 1046 Burnside avenue are making formal announcement of the engagement of their daughter, Miss Patsy McConnell, to Frederick Albright. The wedding will be an event of September 5 in Amanda Chapel, with Rev. Charles Murphy officiating. Mrs. Lynden Bowring will assist her sister as matron of honor and Charles Van Rensselaer Shepherd has been chosen by Mr. Albright to serve as best man. After a wedding trip in the north Mr. and Mrs. Albright will establish their home here.

Luncheon and Bridge

Honoring Mrs. Robert Lee Davis of Austin, Tex., who is visiting this month in Eagle Rock, a luncheon and bridge party of smart appointments was given Tuesday at the Mary Louise by Mrs. David B. Brown. Luncheon was served at a table prettily decorated with summer flowers and place cards, and covers were laid for Mmes. Waldo H. Rothert, Morton Sonneborn, Kenneth G. Wilman, Arthur W. Nolen, Edward S. Gilmore and I. Richard Lipsett.

For Miss Veatch

A bride-elect who is being feted with many affairs these days is Miss Cynthia Veatch, whose wedding with Hayden Glatte will be one of the outstanding events of September. Saturday, the 24th inst., Mrs. Gerald Secord of 184 Nieto avenue, Long Beach, will preside over a dinner and bridge for thirty guests, followed by a shower of gifts for the honoree, who is the daughter of Mr. and Mrs. George Lovatt Veatch of West Twenty-seventh street.

Bidden are Messrs. and Mmes. John King Hunter, Standhe Martin, Stanley Mattoon, Wayne Harrison, John Gunnerson and Bernard Leckie; Misses Marrianne Parker, Margaret Parker, Myra Sutherland, Marion Robertson, Mildred Martz, Wilma Lewis and Cynthia Veatch, and Messrs. Howard Murphy, Robert Lee, Frank Ferguson, Ralph Ware and Hayden Glatte.

Hollywood Engagement

Announcement is made by Mrs. Rose Doyle of 4215 Montclair avenue of the engagement of her daughter, Miss Rosalie Doyle, to Francis E. Foy of Hollywood, son of Mrs. H. T. Stevens of Verdugo City. Miss Doyle was graduated in 1927 from the Catholic Girls' High School, and will be the inspiration for many prenuptial affairs. The wedding will take place in the early autumn.

Sorority Affair

Zeta chapter of Phi Sigma Sorority entertained two score of guests Monday evening at a cabaret affair in the home of Miss Ruth Kleinman, South Mansfield avenue. Miss Kleinman, a recently-initiated member, assisted Miss Helen Abrams in planning the event.

In Minnesota

Miss Muriel Lerch, daughter of Mr. and Mrs. Fred A. Lerch of North Maple Drive, Beverly Hills, and Virginia, Minn., with her parents has been passing the summer in Virginia. They will return September 5 to Beverly Hills, and Miss Lerch will resume her studies at the University of Southern California, where she is a member of the Pi Beta Phi Sorority.

HOLMES FORD TO SPEAK

Holmes Ford, educator, artist, lecturer and traveler of Cleveland, will be the speaker at tomorrow's luncheon at the Biltmore of the Los Angeles Exchange Club. His subject will be "Painting Your Own Pictures." Dr. Sam G. Biddle will be chairman of the day. Glen Parker, banjoist and song leader; King Collins, pianist and baritone, and Grove Vail, tenor, all of the Sheriff's office, will provide an entertainment program.

Sending Flowers

Whenever sending flowers that will be without water for several hours snip off the stems and immediately tip the ends with sealing wax. This will keep the moisture in the stems. The sealing wax may be cut off when the flowers are to be put into water and no harm done.

MISS FROM BOSTON FETED

Numerous Affairs in Honor of Visitor

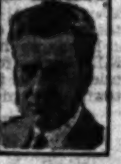
[Tycko studio]

Miss Anne Dwight

NUMEROUS affairs were given for Miss Anne Dwight, daughter of George E. Dwight of Boston, who had been visiting her brother, James S. Dwight of 400 North Normandie avenue, prior to her departure a day or two ago for her eastern home. Miss Dwight, who is a cousin of Miss Natalie Phelps of 807 South Berendo street, is to be one of the coming season's debutantes in Boston.

HEALTH and DIET ADVICE

By Dr Frank McCoy
author of "The Fast Way to Health"



Dr. McCoy will answer personal questions on health and diet, addressed to him care of the Los Angeles Times. Inclose stamped, addressed envelope for reply.

A pilot should not enter the air, especially with passengers, without feeling that his nervous equilibrium is unimpaired, his muscles feeling fit, and he should feel in a general state of well being, unhampered by a lack of sleep, fatigue of any sort, worry, or temperamental trouble.

In considering the causes of accidental death, it has been found that such a simple thing as a few nights' loss of sleep is a big factor in whether the aviator is going to crash or land safely. A temporary illness in the air, which might be unimportant on the ground, such as a sudden blinding headache, a bilious attack, or a feeling of staleness, may be quite serious when the flyer's life depends on the control of his ship. Even such things as a casual disturbance of the eyes, a sudden ringing in the ears, or an abnormality of the sense of motion may affect him suddenly just when his piloting needs his most careful attention.

Pilots just recovering from any acute disease had better stay on the ground. Also it has been found that several flyers using certain headache remedies were killed soon after using this drug. Feelings of nausea and dizziness and vomiting are not uncommon among flyers. At least 10 per cent of them will show a previous history of having been ill on ships, trains, merry-go-rounds or street cars. This tendency to vomit can be overcome in most cases by the proper diet. One of the foremost aces which America produced during the war vomited continually during his training time. He overcame this in actual combat work.

Sometimes a flyer, particularly an inexperienced one, may become acutely ill by having his morale lowered by seeing other ships on fire or other flyers crash. This is especially true if he should pass and see two accidents on the same day. Fright may also cause a flyer to freeze to the control, which will be followed by faintness, nausea and sometimes violent shaking.

In taking off into the higher altitudes, the flyer may become especially cold, and as he comes down his heart beats quickly and tries to force his blood through his cold veins which causes him to feel very sick, almost in agony. He returns very faint, totally exhausted. The excessively high altitudes have a tendency to affect his judgment in landing.

These things can all be guarded against, and the larger companies, employing passenger-carrying airplanes, take special precautions to prevent these accidents so that there is very little danger when flying with experienced pilots.

It is said, in fact, that there are fewer deaths in proportion to those who ride in airplanes than in those who ride in automobiles. This is because of the careful health examination given the pilots before they are permitted a license.

In flying, as in other fields of endeavor, health is the foundation of success.

QUESTIONS AND ANSWERS

Child has Chronic Cough

Question: Mother writes: "I have a little girl 11, who has had a loose cough for about four years. The doctors say it is not her lungs."

Answer: There is such a thing as a "habit" cough, but if your daughter has been troubled for four years there is doubtless some other deep-seated cause which could be discovered upon examination. I would suggest that you take her to one doctor after another if necessary until you find someone who understands diagnosing well enough to find the cause of her trouble.

Catarrh

Q.: H. E. J. asks: "May one who has catarrh eat wholewheat bread and muffins in which there is no sugar?"

A.: Wholewheat bread and muffins are wholesome foods, but all starches should be discontinued by the catarrhal patient until the excess amount of mucus has subsided. After that, these foods may be used in moderation with good results.

Try It

Oil paintings may be cleaned well and harmlessly by rubbing over the surface with a pared white potato, cutting away soiled parts of the potato as it picks up the dirt. The picture will look like new.

GUIDING YOUR CHILD

INFLUENCES

By Mrs. Agnes Lyne

Children past the age of 7 are influenced more by other children than by their elders.

Increasingly they pattern their daily behavior on their gang or on one or two friends rather than on an adult model.

For this reason you should be interested vitally in the type of children your child selects for playmates. You should take pains to know them well and to study them in relation to your child until you have a good idea of the influence they exercise on his growing personality.

Jim and Jack are close friends. They are of the same age, but in other ways a world apart. Jim is competent and well poised. He is skillful with his hands, always busy, while his whole personality radiates a pleasant, well-directed energy. Jack, on the other hand, is awkward and infantile. He fritters his time away and compensates for what doubtless are feelings of inadequacy by bullying younger boys. Jim and Jack have just one interest in common, they both love to tinker with radio.

Were I Jack's mother I would be pleased to have him much in the company of such a lad as Jim. For certainly through his friendship Jack is drawn into the very best sort of activity. But were I Jim's mother I would see to it that he spend not too much time in Jack's society. I would watch carefully, lest the companionship bring out undesirable tendencies in my boy. I should make every effort to see that he played with other boys who would lead and stimulate him much as he does Jack.

On the whole, the best relationships between children are those in which each child has something to contribute, where each has something to give and something to learn. The society of his equals is best for the growing child.

Dr. Sproul Here to Hasten Work on New Campus

Dr. Robert Gordon Sproul, comptroller and president-elect of the University of California, is spending two weeks in Southern California inspecting the institutions in this part of the State. He will give particular attention to the University of California at Los Angeles, which has just moved to its new campus in West Los Angeles and is preparing for the opening of the fall semester on the new campus on September 20. Dr. Sproul was recently elected president of the University of California, to take effect July 1, 1930.

Dr. Sproul is taking a leading part in connection with pressing forward to completion the contracts necessary to place the Los Angeles campus in readiness for the coming of the students at the opening of the fall semester.

Are You Tired of Your Face?

HORRID little blemishes... pores that show... tiny blotches here and there—rough surface texture! Why—oh why—can't you have that milky white skin, that smooth, flawless complexion that makes a woman so gorgeously beautiful? Now it is possible! Now there is a new way to bring clear waterlily whiteness to the skin.

Now...A New Kind of 6-fold Creme Brings Amazing Results to Skins That Don't Respond to Cold Cremes

At last there is a new way to make skin flawless...a new-type penetrating creme that acts like a six-fold facial treatment.

Ordinary cold creme never goes below the surface. It does no more than cleanse and protect. This new kind of creme is *absorbed*—not just into the pores, but into the skin itself. It actually *penetrates* all three layers of tissue. What an amazing difference this makes!

Blackheads are dissolved. Freckles fade out. Every tiny impurity is cleared from the skin. Coarse pores are refined. They fill out naturally to finest texture. Crow's-feet and fine wrinkles disappear. And finally, this new creme, called Gervaise Graham Beauty Secret, whitens the skin permanently and naturally—utterly without bleaching.

How It Works

The world's finest beauty aids—never used in cold creme—are emulsified into one 6-fold creme. A penetrating base takes them through the skin. They reach all three layers, clearing, smoothing and whitening. For the first time, the finest cos[illegible]

know that our city boasts
the finest potteries to be
So fine, in fact, that peo-
from the Atlantic Coast
of its products? This
the result of the South-
demand for high-class gar-
y—not only flower con-
extraordinary beauty, but
seats, garden statuary
bird-baths, sun-dials and other lovely things for our delightful outdoor places. Most interesting is this pottery, where one may see in process of making the hand-turned products and where one may become enlightened as to the reason for prizing hand craftsmanship above that turned out wholesale. Several volumes depicting the gardens of Southern California, wherein are placed the handsome creations from this pottery, may serve as inspiration for us to go and do likewise—that is, to beautify our home grounds, however small these may be.

Aesthetic Mops

The latest addition to home beautification in colorising is the floor mop! Yes, even the floor mop has gone colorful! Not only the handle of the floor-dusting mop may be in the color harmonising with the room which it is to floor-dust, but the strands of the mop itself may match the general color scheme. Aesthetic, from the ground up, I call that.

And Ceiling Dusters

For weeks Aunt Jane has been asking us to keep our eyes open for a certain kind of ceiling mop, and, at last, we have found it. Made from a fluffy round of real sheepskin, this mop attaches to a long handle that can be turned to enter corners. A ceiling mop, it is, that will not mar the wall, nor paper, a most accommodating cleaner.

These "Kitties"

Those dust fluffs, so elusive, called by housewives "kitties"—I suppose because they have so many lives—may be captured by wetting the broom with which you go after them in their hiding behind chairs, under beds and in any of these places to which they scurry after you have cleaned them out. One of the girls discovered this way to circumvent these pests after having lavished wicked language on them for many months.

Ostrich Curls

Some of the new hats of felt have for trimming a tiny row of ostrich fronds, along the back of the down-drooping crown. Looking for all the world like a tiny fringe of "Mary" curls—since they are brown like the hat which they adorn—these curlish tips are sole trimming of the chapeaux which they complete.

"Lolly Pup"

Was not that a clever name for that woolly little dog presented to those purchasing merchandise on the opening day of that newly here woolen shop?

Bagging Bargains

Editha, who would give up a trip to the Yosemite if she heard of a bargain in a downtown store or shop, always carries in her handbag a capacious bag of silk or mesh, which—when unfolded—resolves itself into a commodious carrier. "Thus," said she, "I seem quite innocent of bargain hunting, but upon demand I can transport any number of articles discovered in my shopping rounds. And," she added, "I never start out without this surreptitious bag nowadays, when bargains are so absolutely irresistible."

"Augustized"

Since merchandise in nearly every store and shop is "Augustized" at present one's emergency fund—always carried in the hideaway compartment of the purse—diminishes rapidly day by day. But as this fund diminishes home and personal savings grow—for future days. Also, the store of gift things gains value as one thus opportunes.

Wood Bag Frames

With handbags having wooden frames a genuine novelty, here come the frames separately! Thus you may make your own or reframe some treasured handbag, making it the very up-to-datest.

CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 2 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cookery in the lecture room of the Southwest Building, 130 South Broadway.

STUFFED HAM BUTT

Place a three-pound ham butt in a kettle, cover with boiling water, and three peppercorns, three whole cloves, one stalk of celery, one branch of parsley, one blade of mace, one whole carrot sliced, and two slices of onion. Cook until tender, and allow to cool in the water in which it is cooked. Make a dressing of one-half a cupful of bread crumbs, one-fourth of a cupful of melted butter, one-fourth of a cupful of finely chopped nut meats, one pimiento chopped fine, one tablespoonful of finely chopped parsley, cut the ham in two, leaving a hinge, fill with the dressing, tie or fasten together, place in a baking dish, and baste with a little of the ham liquor, bake for half an hour in a medium oven, when half done, place slices of pineapple around the ham and baste with a little of the pineapple juice. Remove from the oven and cover the ham and pineapple with a mixture made of brown sugar and chopped nut meats. Return to the oven and allow to brown. Sweet potatoes may be substituted for the pineapple, and the flavor is greatly improved if basted with a fourth of a cupful of cooking sherry.

STUFFED APPLE PIE

Peel and core a sufficient number of apples to fill a deep pie dish, when cut in half, cook the apples slowly in the syrup made of two cupfuls of water, two cupfuls of sugar, and one-half a cupful of little red cinnamon drops, turn the apples two or three times so that they will color well, when they are tender, allow to cool in the syrup and when cold place them in a baked pie shell, sprinkle with the chopped nut meats, and halved Maraschino cherries, place between the apples. Cook the syrup down until very thick, place a teaspoonful in each apple, make a meringue, cover the apples with it, place in the oven and slowly brown.

ORANGE JELLY SALAD

Soften one and one-third tablespoonfuls of gelatine in two tablespoonfuls of cold water, add two tablespoonfuls of boiling water, and stir until dissolved, add one-third of a cupful of sugar, three-fourths of a cupful of orange juice and one tablespoonful of lemon juice, drain, chill, and when the jelly begins to thicken, place small pieces of orange pulp in individual molds, and pour the jelly over it, garnish with hearts of lettuce, and cream cheese, that has been forced through a pastry bag with a rose tube, serve with a French dressing.

SUMMER SQUASH AND CORN

Cut off the kernels from four ears of uncooked corn, cut small summer squash (about one pound) in one-inch squares, add to the mixture, three peeled tomatoes, cut in squares, place in a saute pan, four tablespoonfuls of butter, add to it one finely chopped onion, and simmer until the onion is light yellow, then add the corn, tomatoes, and the squash, season with salt and paprika, cover and simmer slowly until the vegetables are tender.

Mrs. Wyman does not reply to letters, but requests for recipes are answered in the department, PRACTICAL RECIPES, published every Friday.—(All rights to reproduce reserved by A. L. Wyman.)

YOUR BABY AND MINE

BY MYRTLE MEYER ELDRED

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope, forwarded to this office, will bring a personal reply. This department offers leaflets on weaning and feeding the child from 6 weeks to 6 years, prenatal care and diet for the nursing mother, constipation, eczema, outfits for the new baby, sleeping, walking, teething, thumb-sucking, [illegible], bed wetting, training in cleanly habits, periods of unrest, cod liver oil, orange juice, fevers, worms, vomiting, refractory children, prune juice, lime water, ruptures, sties and boils and cradle cap. Before asking a personal question about one of these subjects, it is better to send a self-addressed stamped envelope for the leaflet you need. If your particular question is not covered in the above list, Mrs. Eldred will be glad to give you a personal reply.

TWO TO FOUR, THE IRRITABLE AGE OF CHILDHOOD

When the mother demands to know why her child whines and cries all day and never seems satisfied, she is noticing what is an almost universal condition of the ages from 2 to 4. Just what is wrong?

Watch yourself and you'll find it easier to understand what makes the child so unhappy and irritable. First of all, the baby has just outgrown babyhood. He has emerged from the period when he was carried around, fed by his parents, taken to the toilet, put to bed for naps and for the night, and into his playpen or carriage for his recreation. In fact, the child has been ordered around like a little automaton from birth until now.

At about 18 months, for the usual child, he blooms into childhood and begins to feel a dawning sense of his own personality and power. He has desires which often run counter to those of his parents. He wants to walk when they find it more convenient to carry him. He likes to feed himself, even if it is a long and messy proceeding. He wants to stand up and walk around his crib when his mother is equally as determined that he shall take a nap. The result is a constant conflict between the sometimes angry parent and the weaker child. There is one thing in this situation which the parent can't control and that is crying. The child can cry, and does cry, no matter how violently he is told to stop.

This is the so-called negativistic period because the child has suddenly learned the use of "no." He is more than apt to say "no" to almost anything that is asked of him. "Have a nice, cool drink of water," says mother. The child says, "I don't want a drink."

Five minutes later he demands a drink. "Why didn't you take it when I offered it to you?" says his exasperated mother. "You just want to make work for me." No, that is not the reason. He wanted to choose his own time for drinking. He wanted to feel that not his mother's suggestions, but his own desires were being followed. Not that the child thinks this out so clearly, but he shows the course of his reasoning by his actions. He has been listening to "no, no" for months, and now he has discovered that it is just as powerful a weapon for him as it is for his parents. He, too, can say "No" and his parents are helpless before it.

When a child reaches this period—some earlier, some later than others—the parent must watch herself carefully to eliminate the useless "don't" and "no" from her commands. Phrase them differently. Make them suggestions and let the child feel that he has made the choice himself. Let him exercise his newly discovered sense of being an independent personality. More liberty is the answer to the riddle. He is still badly adjusted to his new world if he has to express his personality by crying. Let him express it by harmless "doing." If he wants to walk, let him walk. If he wants to turn on the living-room light, let him do it. Let him feed himself and unbutton his own buttons. Thus we take away most of the irritations which lead him to cry and whine.

Valuables

If it is necessary for you to carry any valuable jewelry in your handbag for a time place it in a little bag or envelope and then pin the bag securely to the inside pocket of the bag with a large safety pin. Then in searching for change you are not apt to lose it unnoticed.

TUNE IN ON THIS RADIO HOT AIR

Publicity Blurbs Quoted to Get Fans Pepped Up

Humor, Tragedy and Other Things All Mixed Up

Anyway, There Will be Some Good Numbers Tonight

BY DR. RALPH L. POWER

The day's mail brings in a lot of publicity sheets from everywhere. Some are funny, others tragic, and others merely informative.

The first one tells us that free drinks perhaps may be served at the Radio Show which is but ten days away. Even though the projected plan calls merely for milk it would be something.

J. Stratton, Esq., scribe for the Radio Show, says: "From conducting a man's size radio show to the operation of a miniature dairy, built for two, was the far leap being considered yesterday by the management of the Radio Show.

"The announcement was made that two dairy cows may be installed in the show to afford opportunity for radio men, veterinaries and kindred scientists to note the reaction of the animals to broadcast melodies during the run of the exposition, September 2 to 7, next, in Ambassador Auditorium.

TRIED IN THE EAST

"Similar experiments in the East, it is said, when radio receivers were installed in dairy barns and dairy shows, tended to increase the flow of milk and soothed the animals' nerves."

Well, anyway, it isn't such a bad yarn after all.

Next the publicity man for the A. B. C. chain contributes this to help write the column today.

"Shuffle music of the most intriguing character is provided for those who seek afternoon entertainment, by Georgie Stoll and his Rhythm Aces from the San Francisco studios this afternoon at 1 o'clock.

"With Hazel Warner, crooner; Tom Smith, moaner; Georgie Stoll, fast fiddle exponent, and the Aces themselves, most any type of an afternoon tea could be staged by merely tuning in to the nearest A. B. C. station at this hour."

COMEDY DRAMA

In order to follow this through to the logical conclusion listen for the program over KMTR.

Then we have this from the N.B.C. press force: "Reviving memories of life in a typical Midwest town two decades ago, another comedy drama in the Memory Lane series will be broadcast tonight at 9 p.m.

"Gosher Center, a mythical spot where the Smithers family is socially supreme, is the scene for the action. Listeners will follow further incidents and events in the lives of Pan and Ma Smithers and other characters."

Of course, this doesn't tell you anything about it, so you will have to eavesdrop on the program to get further details. It is handled locally via KFI.

DETECTIVE YARN

A shadow has just passed my office door, and I find some publicity from that famous sleuth of radioland, Nick Harris, recently elected president of the Verdugo Woodlands Breakfast Club.

You don't want to miss this one. "At 7 o'clock tonight over KFI Nick Harris will present one of the most stupendous, mystifying, hair-raising episodes titled, 'The Man From Sleepy Hollow!' Bob and Monti, harmony duo, will be featured in their return to Nick's broadcast.

"They will sing, 'The Man From Sleepy Valley,' as a sort of theme tune to be artistically blended into the thirty minutes of entertainment."

No police whistles will be given to listeners tonight but, just the same, I cheerfully recommend that you bend an ear toward the radio at 7 o'clock for this.

NEW ARRANGEMENT

The publicity sheet from KHJ, the Don Lee station, is rather brief and sketchy today.

"Between 7 and 8 p.m. will be presented the original Half-Hour of Happiness which features the Two Boys, Don and Mart, who bring to listeners each Thursday a half-hour of humorous and melodious songs.

"At 9 o'clock there will be a program of diversified musical entertainment which will feature a new arrangement by Leigh Harline of 'Just Before Dawn.'

"Another presentation on the same broadcast has been taken from the current Broadway success, 'Fioretta,' and is entitled 'Dream Boat,' a waltz ballad with a beautiful melody.

FILM HOUR

"Folk from 'talkie' land who make things interesting for the ears of the world, as well as the eyes, will be featured in a special program between 8 and 9 o'clock over KHJ.

"Ed Sedgwick, comedy director, and Joseph Farnum, comedy title writer, will be masters of ceremonies, and have conspired to offer a bombardment of humor and mirth during the hour. This is the first time that one radio program will have two masters of ceremonies. The orchestra will be under the direction of Sam Wineland, guest conductor.

"George Liebling, internationally known pianist and composer, will appear on the program with special selections, for the semiserious part of the hour, and Julia Faye, star of many pictures, will make one of her few radio appearances, with things of especial interest to women."

No Marks

If you will glue a narrow strip of velvet on the part of the rocker touching the floor it will prevent the rockers of the chair from making marks on the hardwood floors and also prevent the chair from traveling while rocking.

WIDOW OF F. S. HOWARD SHOWS IMPROVEMENT

Mrs. Elizabeth Howard, who collapsed at the funeral of her husband, Frank S. Howard, was reported yesterday to be somewhat improved, although still highly nervous. The young son, Richard, who shot his father last Saturday at the family home, 1905 Victoria avenue, also is under the care of the doctor because of his condition.

"TWO STORES TO SERVE YOU"

An Old English Custom!

You've read about them in all good English sporting scenes. They've been in the Forsythe family for years. And now with the BIG MATCH coming off Saturday, and the National at Del Monte in September, and who knows how many races at Agua Caliente this Fall . . .

It's high time someone thot of providing the family with at least one folding cane!

Dyas has thought of this and sent for England's best Resticks which are now on display in the Sport Shop. Priced from 12.50 to 75.00.

TIBBETT TO WORK IN NEW YORK

Regis Toomey Signing New Contract With Paramount; Ramon Novarro Stars in Spanish College Yarn; Betty Blythe Will Appear at Orpheum

BY GRACE KINGSLEY

LAWRENCE TIBBETT

Lawrence Tibbett's option for a second picture for Metro-Goldwyn-Mayer is to be taken up, and the next picture will be made in New York.

This information was forthcoming yesterday from no less an authority than Irving G. Thalberg himself.

The identity of the story was not divulged. Thalberg said that two or three stories are being worked on at present with a view to selecting one for the grand opera singer. However, the story will be an original and will have a modern setting and theme—so much has been settled.

Tibbett has been engaged to star in a number of grand operas to be produced at the Metropolitan during the coming winter, and as his current M.-G.-M. vehicle, "The Rogue," will not be finished for several weeks yet, the second Tibbett picture will of necessity be made in the East.

In the meantime M.-G.-M. officials are tremendously enthusiastic over the screen tests of Tibbett, both as regards his acting ability and his personality, and of course the beauty of his voice goes without saying.

I heard and saw some of his tests yesterday at the studio, and judging from these, I agree with M.-G.-M. officials that Tibbett is going to be one of the outstanding talking screen successes of the coming year.

REGIS TOOMEY SIGNS AGAIN WITH LASKY

Regis Toomey, the college youth who sang his way to stage note and "died" his way to screen popularity in "Alibi," has been signed to a new contract by Paramount. And the company is looking out for special stories for him.

The actor has just completed a featured role with Charles Rogers and Nancy Carroll in "Illusion," and prior to that appeared in several other Paramount talking productions. At present he is being loaned to M.-G.-M. to play opposite Norma Shearer in her current starring vehicle.

After leaving the University of Pittsburgh, Toomey's dramatic ability took him into stock, and with the discovery of his voice became Dennis King's understudy in "Rose Marie," followed by a London engagement in "Little Nellie Kelly."

Ramon Novarro's Next Film

One is tremendously interested in English and American college youth, but one doesn't, somehow, think much about Spanish college boys.

However, we're going to have a chance now to find out how the Spanish college boys say "Rah, rah!" and what is the local substitute for "Boola boola."

Ramon Novarro's next talking picture for Metro-Goldwyn-Mayer will be "The House of Troy," which is a story of Spanish college life, and may be made abroad. It is understood that a version for use in Spain will be made.

Robert Leonard will direct the picture.

And, by the way, M.-G.-M. officials don't care for the title, "The House of Troy," and are seeking another one.

Betty Blythe at Orpheum

Beautiful Betty Blythe's hundreds of admirers are to have a chance to see her at the Orpheum during the coming week.

Betty Blythe.

Miss Blythe brings to the vaudeville house the colorful act which she did for twenty-seven weeks on the R.-K.-O. circuit. It is a musical act, called "Musical Mood," and tells an amusing back-stage story, as well as giving the actress a chance to reveal the beauties of her voice.

"Musical Mood" is a four-people act, is lavishly staged and gorgeously costumed.

As will be remembered, Miss Blythe was on the stage before going into pictures. Her greatest outstanding success in pictures was as the Queen of Sheba in Fox's, "The Queen of Sheba."

Sam Hardy With Columbia

Sam Hardy has just been signed by Columbia for a leading role in "Acquitted," a film talking version of a stage play.

SAM HARDY

Hardy will have the role of a master mind in a crook gang, and the film will afford him every opportunity for good acting.

Hardy recently finished at Paramount in a comedy role in "Speedy Life," when he portrayed the part of a baseball manager. He was one of the outstanding players in "On With the Show."

Jed Prouty With Duncans

That admirable character and comedy player, Jed Prouty, has been cast to appear opposite Rosetta Duncan in the Duncan sisters' new Metro-Goldwyn-Mayer comedy, "Cotton and Silk."

Prouty was for years an Erlanger star. He also was the professional partner of Leon Errol in a number of productions and in vaudeville. "Cotton and Silk" is progressing beautifully, under the direction of Sam Woods, and rushes of the picture viewed yesterday revealed that the two clever sister stars are going to be just as effective on the screen as on the stage, if not more so, their voices registering wonderfully well, and both their comedy and pathos being tremendously vivid.

If I'm any judge, their theme song, "I'm Following You," will turn into a whistling chorus all over the city after the picture is shown.

Ruth Chatterton In "Zaza"

"Zaza" is to be left by Paramount in the hands of Ruth Chatterton, after all. It is reported that there was some little discussion at the studio as to whether Clara Bow might play the role, but the final decision falls to Miss Chatterton.

Kathryn Carver Ill

Word received from Paris is to the effect that Kathryn Carver, wife of Adolphe Menjou, is ill, suffering from a nervous breakdown, in a Paris hospital.

Menjou is to make some pictures abroad, but is remaining in Paris until the recovery of his wife.

Leone Lane With King

Leone Lane has been selected for the part of Blanche, one of Dennis King's vagabond admirers, in Paramount's all-color song romance, "The Vagabond King," we heard yesterday.

The young actress is the first of three girls to be chosen for these leading roles.

Specialty dancing started her theatrical career. She began in Boston, her home city, when she was 12 years of age. From Boston she went to London, where she danced for three years. In 1926 she came to Hollywood with her mother and appeared in F.-B.-O. comedies, and a year ago signed with Paramount.

HOLLYWOOD PREPARING FOR SANTA

Elaborate Celebration to Take Place This Year at Christmas Season

Preliminary preparations were completed yesterday for the reception of Santa Claus when he arrives on the film capital's principal thoroughfare for the holidays, according to an announcement made yesterday by Col. Harry M. Baine, president of the Hollywood Boulevard Association.

The reception committee named by Col. Baine to supervise Hollywood's Christmas celebration includes Sid Grauman, Joseph M. Schenck, Gilbert Beesemyer, C. E. Toberman, Douglas Fairbanks, Mary Pickford, Charles Chaplin, Harry Richman and Clara Bow.

Plans are under way, according to Col. Baine, for a much more elaborate celebration of the holiday season than last year's festivities, when Santa Claus traversed Hollywood Boulevard nightly in his sleigh drawn by reindeer with a different motion-picture player as his guest each evening.

The date when Santa Claus will make his first appearance in Hollywood will be some time between Thanksgiving and the first week in December. The boulevard again will be lined with Christmas trees.

SHOPPING on Hollywood HOLLYWOOD BOULEVARD "STYLECESTER OF THE WORLD"

By
YVONNE of Hollywood

The habitue of the Pig'n Whistle cafes is often loath to go elsewhere when dining out. The menu is so varied, the cuisine so perfect, the surroundings so delightful that he soon becomes an ardent devotee of the sign of the "Little Pig" and hesitates to forsake old haunts for new. Three of these attractive cafes are conveniently located on the Boulevard.

Sleeves present one of the most important and interesting features of the autumn coats and are one of the unmistakable marks of the new season. This arises not only from fur manipulatious but from fine fabric work as well. The tnedency noted this spring to widen the sleeves from elbow to wrist, continues and another feature to be developed in new and decorative ways is the oversleeve. At the wrist line this sleeve shows two distinct types of treatment, either fitting very snugly or flaring decidedly. Half sleeves of fur are still used as well as spiral cuffs.

One's social status is often determined by one's luggage. Lest there be any doubt, have yours refinished at the Bohlin Co., 1610½ N. Cahuenga. Silver replating is also a specialty. HO. 8020.

Because the variety of women's clothing is greater than it used to be, the variety in shoes must literally keep apace with it. Colors, styles and fabrics of dresses determine the proper type of footwear to be chosen, for if milady strives for sartorial perfection she must consider her feet first as well as last. Her shoes should be in perfect accord with the rest of her costume. Too often one sees a stunning sport or tailored ensemble marred by excessively high heeled pumps. The meticulously garbed woman regards her shoes as an integral part of her costume and begrudges not a whit the time thought and money given to their selection.

At the Knit Shop, 6648½ Hollywood Boulevard, boys and girls, you will find your school wardrobe all ready. The smartest sweaters in fall styles and colorings and adorable hip yoke skirts plaited all around.

The multi-strand necklace of tiny seed beads is the newest thing in novelty jewelry. It may be monotone in effect or varicolored beads intertwined.

With half the population, male and female, engaging in air derbies and endurance flights, and the other half flying nonchalantly about the country on pleasure or business bent; with mail order houses selling flying busses and entire departments in the better stores being devoted to the air conscious, it is but natural that the new styles in aviation clothes should soar to dizzy heights of fashion. As in other sports, styles range from the severly simple trousered ensemble to the more feminized version, the latter usually being developed in lightweight wolens for tweeds.

If you haven't [illegible] illusion of it. Start [illegible] For $5 you may [illegible] Croquignole permanent [illegible] Beauty Shop. HO. [illegible]

The handling of [illegible] wool fabrics of the [illegible] will be very smart [illegible] wool costumes for fall [illegible] last spring, the [illegible] little headway during [illegible] but with wool fabrics [illegible] tweeds occupying [illegible] place in the scheme [illegible] ions, it is only logical [illegible] adoption of the [illegible]

With the long [illegible] such a furore [illegible] is only natural [illegible] tinue through the [illegible] long line continues [illegible] suggested rather [illegible] lengthened. The [illegible] fitting, as are the [illegible] length that is found [illegible] is of an irregular [illegible] more toward the [illegible] ing the appearance [illegible] of a long close-fitting [illegible]

PIGGLY WIGGLY

Oakland Again Conquers Hollywooders, 10 to 7

ACORNS AGAIN CONQUER STARS

Lombardi Slams Out Two Circuit Clouts

Drives in Five of Ten Acorn Markers

Kinney Victim of Barrage of Base Bingles

BY PAUL LOWRY

Seven runs in the seventh inning won for Oakland Tuesday, but it failed to turn the trick for the Hollywood Stars yesterday.

ERNIE LOMBARDI

And that's why Bill Lane's boys, who had an excellent chance to advance to the top of the heap at the expense of the lowly Bay City aggregation this week, are still reposing in the third spot this morning.

For aside from the seventh frame, when they drove the Messrs. Daglia and Kasich to the showers, the Stars couldn't manufacture a run and didn't know what one looked like.

At that the Stars might have won if their pitchers could have tamed Signor Lombardi, the gentleman with the fine Italian hand who catches for the Oaks.

But the good signor was running amuck yesterday, and his single, double and two home runs out of five times at bat accounted for five of the ten runs with which Oakland

(Continued on Page 11, Column 6)

THE SHOT HEARD AROUND THE WORLD

That's what Bobby Jones, Atlanta's leading citizen, hopes it will be anyway. It was his first shot at the Lakeside Country Club yesterday afternoon, in a nine-hole practice round that he made on his arrival here, and, incidentally, the first shot he ever made on the Pacific Coast. Jones is headed for Del Monte and the amateur championship. He plays an exhibition match here Saturday for sweet charity.

EQUALS PAR IN FIRST ATTEMPT

National Champion Bags 35 Over Second Nine

Brilliant Young Southerner Wins New Friends

Plans to Play Local Courses Before Going North

BY EDWARD LAWRENCE

This is a story about Bobby Jones—not so much about Bobby, the golfer, but more about Bobby, the brilliant young Atlanta attorney and southern gentleman.

GEORGE VON ELM

Bobby got in town yesterday afternoon. He immediately unpacked his famous putter "Calamity Jane" and the clubs that have carried him to championships in the national amateur and United States open tournaments within the past twelve months, and hurried out with eager enthusiasm to hit his first ball over Southern California turf at the Lakeside Country Club.

It was the perfect, relentless, supergolfing machine that clicked off a bogey, seven pars and a birdie over the difficult second nine at Lakeside to equal the par figures of 35.

That is the Bobby known by millions of golfers all over the world—but I should like to introduce you to a different Bobby—a warm hearted, hospitable, friendly young southerner, who is interested in everything and everybody, and apparently hasn't time to consider his own greatness.

We had the pleasure to meet Bobby at San Bernardino yesterday afternoon, when the thermom-

SERAPHS LOSE SWATTING STAR

Angels' First-Baseman on Way Eastward

Local Player Will Replace Charlie Grimm

Injuries to Field Captain's Hand Serious

Slug Tolson, powerful right-hand hitter of the Angels, will play first base for the Chicago Cubs during the remainder of their drive on the pennant or until such time as Capt. Charley Grimm is able to return to the line-up. Tolson is rushing eastward from Seattle, according to reports emanating from the northern city, where the Angels are engaged in this week's series.

SLUG TOLSON

The Chicago officials exercised their option on the services of the ex-Cub, who is batting 385 in the Coast League and stands in tenth place in the current rankings.

NEW YORK, Aug. 21.—The job of winning a pennant for Chicago will be carried on minus the services of Charlie Grimm, field captain and star first-sacker of the Cubs. Grimm went out of an active role this morning when an X-ray revealed a bone in his left hand had been splintered when he bumped against the grandstand while chasing a tall foul off Ed Roush's bat in the eighth inning of the second battle with the Giants yesterday. Grimm will be gone for a month, according to the doctors consulted here.

Grimm was sent back to Chicago this afternoon on the Broadway Limited and tomorrow will undergo an examination by the club's bone specialists. Manager McCarthy is hopeful the injury will prove less serious than first reports indicated.

If Grimm is forced to remain idle for a month he will go to his home in St. Louis.

LOUIE ALMADA HERO AS SEATTLE BUMPS ANGELS

SEATTLE, Aug. 21. (AP)—Louie Almada, Indian first sacker, almost solely won a baseball game here today against the visiting Los Angeles team. He smacked out a homer in the second with one on, singled in the ninth to bring in the tying run and scored from third for the winning marker, when

METERS KHJ KILOCYCLES

STECHER DEFEATS LUTZE IN OLYMPIC MAT BATTLE

BY RALPH HUSTON

The ropes surrounding the ring at the Olympic arena won a wrestling match for Joe Stecher last night. The ropes are supposed to protect the ringside spectators from the tumbles of the gladiators, as well as to bound the scene of action, but the Nebraska Cyclone used them as a haven of refuge, and so won two out of three falls from that brown-skinned local Adonis, Nick Lutze.

Whenever the going got tough—and it got mighty hard for Stecher after each grappler had won a fall—the one-time champion of all the heavyweights yanked and tugged his way to their sanctity, ducked his noble brow under the lower strand, and then waited for Pat McDonald to pry Lutze loose.

The bout was a pip, to put it mildly, with Lutze earning a moral, if not actual victory. But the actual victory goes into the books, and Stecher wins his way into the finals of Lou Daro's tournament to discover an opponent for champion Gus Sonnenberg. Ed (Strangler) Lewis is all but signed to meet the winner of last night's festivities.

Stecher won the first fall after twenty-one minutes and twenty-three seconds of enthusiastic grappling. Lutze applied a lot of splits and toe holds in an effort to weaken Stecher's legs, and so nullify

Twelve Championships to Go on Block For Swimming Stars in San Francisco

NATIONAL MEET ON TAP TODAY

Mermen Gather for Aquatic Tilts at Bay City

Weissmuller, Des Jardines and Kojac Absent

Austin Clapp and Walton Carry Local Hopes

SAN FRANCISCO, Aug. 21. (AP)—America's premier swimmers start on a foamy trail to glory here tomorrow in the four-day national A.A.U. men's outdoor championships at Fleishhacker pool.

JOHNNY WEISSMULLER

Listed among the absentees are Johnny Weismuller, Pete Des Jardines and George Kojac, but the twelve titles on the block for 1929 have lured a force of mermen that will do credit to any meeting anywhere.

Weismuller, one of the greatest aquatic stars of all time, and Des Jardines, diver extraordinary, have turned professional. Kojac, 220-yard back-stroke champion, failed to appear for competition and local officials have not been advised the reason therefor.

With the name of the mighty Weismuller stricken from the amateur lists, new champions will be crowned in the 100-meter and 440-yard free-style events. The springboard and platform diving diadems held by Des Jardines also will be claimed by new wearers.

Star of stars in last year's championships here, Clarence (Buster) Crabbe, blond giant from Hawaii, returns to defend the titles he won in the 300-meter medley, one-mile and 880-yard races. He captured individual high-point honors in 1928 and is favored to repeat in the face of strong competition from Walter Spence, versatile paddler from the Penn A. C. of Philadelphia.

Spence, ill last year, lost his 300-meter medley and 440-yard breast-stroke titles. He will compete in those events again as well as the 100-meter free-style and the 440-yard back-stroke.

Tom Blankenburg of the Hollywood A. C. will defend the 440-yard breast-stroke championship. In both plain and fancy diving Mickey Riley, runner-up last year, is looked upon to succeed Des Jardines. The young Los Angeles A. C. entrant has developed rapidly in the last few months.

"Buster" Crabbe, swimming under the colors of the Outrigger Canoe Club, Honolulu, has shouldered the biggest individual burden. In addition to seeking to retain his three titles he will make a bid in the 440-yard free-style, the 440-yard back-stroke and will be a member of the Outrigger team in the 880-yard relay.

Among the lesser lights will be Edward C. Crabbe, Jr., brother of "Buster;" Austin Clapp and Frank Walton, the latter two from the Hollywood A. C. Edward Crabbe and Walton will compete in the short races, while Clapp is entered in the long-distance trials.

Throughout the four-day meet most of the national women champions who returned this week from Honolulu will appear in exhibitions.

STECHER WINS IN MAT CLASH

(Continued from Ninth Page)

the effects of his rival's famed body scissors. Lutze evaded Stecher's pet hold by doing a turtle act that proved impregnable as far as a scissors was concerned. Each time that Lutze clamped on a punishing hold from which Stecher could find no relief the husky Nebraskan would crawl for the ropes while the crowd, which practically filled the auditorium, howled its disapproval.

After about twenty minutes of grappling Lutze started applying a body slam, but Stecher survived the attack and put on his hook scissors, high on Lutze's ribs, to win the fall.

After intermission both came back strong, specializing in toe holds. Stecher drew a flock of jeers by bending Lutze backward over the ropes and slightly spraining his back. Lutze came out of the ropes and rushed his foe across the ring, forcing him to dive under the strings on the opposite side. A few minutes later Lutze headlocked his way into another deadly scissor hold. But he climbed to his feet with Stecher still draped around him and proceeded to bounce the Nebraskan on his head and shoulders for a fall. Time, seven minutes, forty-nine seconds.

The last three minutes were fast and furious. Lutze opened with a bar arm lock that had Stecher white with pain. He rolled around in agony, and then with frantic efforts hauled and yanked his way to the ropes and freedom. Immediately thereafter he hung another hook-scissors on Lutze, and Nick repeated his operations of the second fall. Just when it appeared that one more bounce would stow Stecher away for the night, the former champion rolled over, dragged Lutze off his feet, and scored the deciding fall.

Bob Kruse and George McCleod put up a terrible exhibition in the one-hour semifinal. It was a draw. It should have been no contest. McCleod looked capable of winning in five or ten minutes, but evidently Kruse is his favorite nephew, for he let him stay the route. Ivan Linow, the "Collosal Cossack," was outweighed nine pounds by Jack Wingo—231 to 240—but managed to toss his rival with a body slam in 16m. 20s. The bout was a riot from start to finish, and everything went.

COMBINED TEAMS BAT .301

The eight Coast League ball teams have a combined batting strength of .301. In twenty-one weeks the teams were at bat 40,757 times and made 12,279 safe hits.

RABBIT PUNCHES
by PAUL LOWRY

THE CASE OF KING FOOTBALL

MR. BUD SPENCER, the demon quarter-miler, has been galloping around in the north looking over the football situation for his own personal satisfaction and that of periodicals he represents.

He landed here yesterday with considerable information on two of the feared members of the Pacific Coast Conference, namely and to wit, Stanford and California.

There is some slight prejudice on Bud's part in behalf of Stanford, the lean boy who holds the world's 400-meter record having gained his college education at Palo Alto.

But aside from hoping that Stanford smears everybody impartially Bud is quite willing to give the other teams their due.

He says the boys at California are hoping and praying for the best, and they feel quite confident of carrying on the success they attained last year in tying both Stanford and Southern California in their two biggest games of the year.

Bud says Capt. Roy Riegels has forgotten about his famous reverse run in the New Year's Day game, and has his mind only on beating Stanford and the Trojans, also Pennsylvania in the Quakers' back yard this year.

According to Bud the man most missed on the Berkeley campus is Charley Schmidt, the hard hitting fullback. Schmidt was the kind of a guy who not only hit hard carrying the ball himself, but on the defense he smacked ball carriers even harder.

A man who backed up the line like Schmidt last year isn't found every day, and consequently the Bears are sad over his loss.

* * *

THE STANFORD SITUATION

AT STANFORD the eminent Mr. Spencer declares there is considerable moaning and gnashing of teeth over the loss of the two star guards, Post and Robesky.

There are others missing, including the big blond fullback, Biff Hoffman, but when fullbacks are mentioned the boys immediately think of Bill Simkins, who, with the aid of Mr. Prentrup, saved the day for the Cards in the California game last year.

But there are no names to conjure with when the guard positions come up for discussion.

Capt. Walter Heinecke, who has been a jack of all trades as far as positions are concerned during his career on the Stanford varsity, is counted on to bolster up the center of the line, but the boys are earnestly hoping he will find a couple of capable gents to back him up on either side.

There is also some search going on for a right half, the Messrs. Rintala, Clark and Prentrup all playing left half. Bud says Rothert, the shot putter, may be shifted from fullback to this unfilled position.

Summing up the situation Mr. Spencer reports the campus sentiment at Stanford this year is quite according to Hoyle—that is, the boys figure they are the underdogs instead of the kingpins, and that therefore there will be no repetition of the Trojan disaster of last fall.

In fact, Mr. Spencer gleefully reports that he understands the Trojans have the world by the neck this year—that it is their big year—and he says he hopes they continue to feel this way.

Psychologically speaking, a cocky team is always due for a fall, and without saying it Mr. Spencer intimates that this was the trouble with Stanford in the Trojan game last year. He knows Stanford had the better team, but lost because the boys became overconfident.

* * *

ARMY AND STANFORD

HAVING already received requests for the purchase of tickets to the California-Stanford game this fall the conductor of this column was not at all shocked when he received a communication from Mr. Don Liebendorfer in the mail yesterday.

Mr. Liebendorfer is head of the news service at Stanford and as such is required to keep the affairs of Stanford in the public prints.

It is with this thought in mind that Mr. Liebendorfer dispatched a bit of information relative to the Stanford-Army game at Palo Alto, December 28. And he writes as follows:

"Dear Paul: We have received several hundred letters from the general public asking when tickets for the Army-Stanford football game on December 28 will be made available to them.

"We had planned on opening public sale October 15, but because of this interest, and in order to stop the flood of correspondence, have now placed application blanks at the disposal of the general public in Los Angeles.

"Sincerely yours,
"DON E. LIEBENDORFER,
"News Service Director."

FANS WOULD SUPORT FORGIONE TO BEAT ACE

All Hollywood fight fans are backing Vincent Forgione to beat Ace Hudkins if that fight ever takes place. Forgione is a top-heavy favorite to beat Everett Strong tomorrow night at the Hollywood American Legion Stadium and some like him to cop by a knockout. If Forgione goes out to level on Strong it is going to be tough for the Nebraska fighter to stay the limit.

There is talk around Hollywood that Hudkins is ducking Forgione and he is going to give him the run-around so Forgione will get disgusted and head home to Philadelphia. Forgione believes he can beat Hudkins. He has fought a draw with Rene De Vos, whom Hudkins beat, but the Italian has shown enough stamina and fighting ability to make the Hollywood fight fans think he is just a bit tougher than Ace. The match may be made, but until it is Forgione is seeking the support of the Legion stadium fans to support him in his campaign to get Hudkins.

A Filipino fighter who may jump into the limelight any time and be a sensation is Sid Torres, the bantamweight managed by Frank Churchill. Torres figures to beat Harold Matthews in the semi-wind-up. Torres is rated only second to Speedy Dado among the Filipino fighters.

A new welterweight breaks into the local fight game in Al Isos from Chicago. Jackie Fields is touting Isos. He boxed with Jackie in Chicago and was brought here by Willie Rooney and Fields. There are two four-round preliminaries rounding out the card.

O'DOWD AND HOOD TO TANGLE TONIGHT

Midget Mike O'Dowd will make his Coast debut at the Pasadena Arena tonight. This Brooklyn flyweight will take on Ernie Hood, Pasadena product and one of the toughest in the game today. The winner probably will be matched against Newsboy Brown.

Flyweights will put on the semifinal and special events, also. In the six-round semifinal, Bennie Marks of Warner Brothers will take on the cyclonic Filipino, Johnny Gabuco.

Canto Robleto, latest Pasadena sensation of the flyweight class, meets Jimmy Martinez in the four-round special. Oriel Astudillo meets Teddy Williams, 135 pounds, and Joe Padillo battles Jackie Stewart, 150 pounds.

REDS BOAST GREAT WEEK

At the start of this week's play the Mission Reds had the remarkable record of hitting home runs in eleven consecutive games. In the eleven contests the team hit eighteen home runs.

BATTLE OF CURVES ON TAP AT RACE SPEEDWAY

With all of the racing cars declared to be in the best of condition and with the pilots ready for a "battle on the curves" against the crafty Irish pilot, Mel Kenealy, the most exciting program of events of the season is predicted at the American Legion Speedway tonight.

The Pat Harmon Cup race of thirty laps will feature the evening's castor oil festivities and this is the event in which Walt May, Stubby Stubblefield, Jimmy Sharp and the rest of the open throttle knights will go a-gunning for Kenealy.

Kenealy has hung up the most brilliant string of victories on the Legion course since the late Frank Lockhart was burning up the curves at the local oval. Unless he is stopped tonight in his march to the 1929 A.A.A. championship of the Southwest, it is believed that the rest of the drivers might as well put their cars in a museum as curios—for all the chance they will have.

"Pop" Evans, the old-time pilot and caretaker of the Alhambra Boulevard track, has given the curves a good rejuvenating this week. Evans is one who believes that other pilots will try to "get" Kenealy on the hazardous bends tonight. Always a reasonably cautious pilot, Kenealy ordinarily does not take any foolish chances on the turns and there is where Walt May, Triplett and Sharp plan to fight it out with him.

In addition to the regular favorites, a "dark horse" in the person of Charley Gelston, Hollywood entrant, is being picked by many to pull the periodical surprise tonight. Gelston showed plenty on the throttle in the meeting last week.

Hawkins Bout Bid Declined by Dougherty

SAN DIEGO, Aug. 21. (AP)—James Dougherty, manager of George Godfrey, the "black shadow of Leiperville," today declined an offer to meet Long Tom Hawkins, San Diego negro heavyweight, in a match at Tia Juana on Labor Day. Tom G. Landis, local promoter, and James N. Crofton, general manager of the Agua Caliente interests, made the offer to Dougherty with a guarantee of $10,000 to be posted for Godfrey. Godfrey and Hawkins met recently in Los Angeles, Long Tom winning on a foul in the third round. Talk of a rematch has been broadcast since the bout but Godfrey silenced that today. Hawkins was ready to agree to the match, Crofton declared this afternoon, but Dougherty declared he would prefer to wait until spring before accepting a rematch.

BOBBY JONES, JR., PLAYS LAKESIDE

National Champion Bags 35 Over Second Nine

(Continued from Ninth Page)

eter was wavering at 105 and threatening to go to 110.

It was a thoroughly human Bobby who stepped off the train. He was sans hat and coat and perspired profusely, but nevertheless posed obligingly for pictures and signed a magazine for a young Gate City golf enthusiast.

ENTERTAINING HOST

In his private car, which has carried Bobby and his party of fourteen all the way from Atlanta without a change, the national amateur champion of these United States proved an animated and entertaining host.

O. B. Keeler, golf editor of the Atlanta Journal, who has traveled over 75,000 miles with Bobby in quest of championships in America and abroad, says that Bobby would willingly trade his laurels as a golfer for the ability to sing baritone. The national amateur champion is very fond of music, and with his dad, R. P. (Big Bob) Jones, Don Abbott, Charles Black, Jr., and Sherwood Hurt, Jr., joined in the singing of Georgia melodies.

It further developed that Bob has no use for airplanes, and turned down a trip west by the T.A.T. with Lindbergh as the pilot.

"But if it gets this hot next time I come west," said Bob, "I'll come by plane."

Those who came west with Jones, and who will leave with him Sunday evening for Pebble Beach are his father and mother, Mr. and Mrs. R. P. Jones, Mr. and Mrs. Charles H. Black, Mr. and Mrs. Charles H. Black, Jr.; Mr. and Mrs. Sherwood Hurt, Jr.; Mr. and Mrs. O. B. Keeler and Mr. and Mrs. Don Abbott.

It is easy to see where Jones gets his "it" from after meeting Mr. and Mrs. Jones. Bobby's dad, who is 50 years of age and doesn't look it, was an athlete in college and at one time was offered a contract to play for the Brooklyn Dodgers. He is a prominent Atlanta attorney. Bobby's mother is most charming, and his wife is as pleasant to meet as his mother.

PREPS FOR AMATEUR

Primarily, Jones is here to prepare for the defense of his national amateur championship at Pebble Beach next month. Accordingly he plans to play several courses while in Los Angeles, as well as playing an exhibition match Saturday at the Los Angeles Country Club with Charles Evans, George Von Elm and Jack Neville.

D. Scott Chisholm, who is sponsoring Jones while in the Southland, warned us that Jones might not play so well Saturday after his long trip.

But don't worry about Bobby! Getting out of his cramped train quarters after a transcontinental journey of six days, Jones motored out to Lakeside yesterday afternoon and shot the golf of a champion over a course he had never seen before.

Keeler told us earlier in the afternoon that Bobby was hitting them farther than ever, and he was right.

SOCKS 'EM A MILE

Had Bobby's putts been falling he would have rounded the second nine at Lakeside in 32 or 33. He was driving over 250 yards on the carry and he missed not one shot in nine holes with wood or iron.

Here is his card:

Par .... 453 543 443—35
Jones .... 443 543 444—35

Jones teamed up yesterday with Willie Low, Lakeside professional; Max Behr, who built the Lakeside course, and Black, Jr.

Bobby had little to say yesterday about the national amateur. When asked whom he considered to be his toughest competition at Pebble Beach, Bobby answered that he didn't know. "You see," said Bobby, "you know more about it than I do. When I am playing in a championship match I see only those golfers with whom I play."

The champion expressed himself as being entirely satisfied with the arrangement of matches in the amateur with two eighteen-hole matches the first day.

"Two eighteen-hole matches on the first day," Jones stated, "is a perfectly fair test. In the eighteen-hole matches you have to be careful to get off to a good start. In thirty-six-hole matches there is more opportunity of course to get under way."

Seeking privacy to practice, Bobby will sneak away today for a game over some Southland course. Tomorrow he will be the guest of Harold Lloyd with his party and will, in all probability, play over Lloyd's private course.

THREE TIE FOR WESTERN LEAD

Two Youngsters, Veteran Top Big Field

OZAUKEE COUNTRY CLUB (Milwaukee) Aug. 21. (AP)—Two youths and a grizzled Scotch veteran cracked par by exactly one stroke on the sun-baked, lightning-fast Ozaukee Country Club course today to lead the first of two contingents in the initial skirmish for the twenty-ninth western golf championship.

They were Bob MacDonald, 50-year-old golf teacher from Chicago who hasn't been very familiar with par since he won the Metropolitan championship almost a decade ago; Williard Hutchison, 26-year-old assistant professional at the Lake Shore Club at Glencoe, Ill., and Leonard Schmutte of Lima, O.

Each traversed the championship course in sixty - nine strokes, which was brilliant golf in face of the poor condition of the fairways and the brisk wind which swept the course.

Scores were uniformly high and of the 125 who competed in the initial round of the seventy-two holes of medal play only twenty-six had scores of 76 or lower.

NET FAVORITES STILL WINNING

(Continued from Ninth Page)

Helen Jacobs, the country's second ranking star, encountered stiff opposition at the hands of Mrs. B. C. Covell of the English contingent before she finally won by scores of 10-8, 6-2. Betty Nuthall, the British ace, pounded out a victory over Mrs. May Sutton Bundy, national champion of twenty-five years ago, 7-5, 6-1, and Helen Wills took just twenty-four minutes to outclass Alice Francis of Orange, N. J., in two love sets.

Results included:

Edith Cross, San Francisco, defeated Mrs. Lillian Hester, New York, 6-2, 6-2.

Mary Greef, Kansas City, defeated Sara Palfrey, Boston, 6-1, 6-1.

Helen Jacobs, San Francisco, defeated Mrs. B. C. Covell, England, 10-8, 6-2.

Mrs. Phoebe Watson, England, defeated Mrs. Anna Harper, San Francisco, 11-9, 6-1.

Helen Wills, San Francisco, defeated Alice Francis, New Jersey, 6-0, 6-0.

Betty Nuthall, England, defeated Mrs. May Sutton Bundy, Santa Monica, 7-5, 6-1.

Mrs. Peggy Mitchell, England, defeated Midge Gladman, Santa Monica, 4-6, 6-0, 6-1.

Mrs. Anna Harper and Edith Cross, San Francisco, defeated Carolyn Babcock and Helen Marlowe, Los Angeles, 6-2, 6-1.

Margaret Blake and Mrs. Anna Hubbard, Boston, defeated Virginia Rice and Evelyn Parsons, Palo Alto, Cal., 6-1, 7-5.

Mrs. B. C. Covell and Mrs. Shepherd-Barron, England, defeated Mrs. May Bundy, Santa Monica, Cal., and Josephine Cruickshank, Santa Ana, Cal., 6-0, 6-1.

Helen Jacobs, Berkeley, Cal., and Betty Nuthall, England, defeated Miss Marguerite Falkenburg, Brooklyn, N. Y., and Mrs. H. H. Walsh, New York, 6-4, 6-2.

Mrs. Charlotte Chapin, Springfield, and Marjorie Gladman, Santa Monica, Cal., defeated Mrs. Henry Guild, Boston, and Miss Penelope Anderson, Richmond, Va., 7-5, 6-4.

The schedule of tomorrow's feature matches is:

1:30 p.m.—Helen Jacobs, Berkeley, Cal., vs. Mary Greef, Kansas City.

3 p.m.—Edith Cross, San Francisco, and Mrs. Phoebe Watson, England.

3:30 p.m.—Mrs. Molla Mallory, New York vs. Betty Nuthall, England.

4 p.m.—Helen Wills, Berkeley, Cal., vs. Peggy Mitchell, England.

5 p.m.—Mrs. B. C. Covell and Mrs. Dorothy Shepherd-Barron, England, vs. Mrs. Charlotte Chapin and Marjorie Gladman.

5:30 p.m.—Helen Jacobs and Betty Nuthall vs. Sarah and Marianne Palfrey, Brookline, Mass.

Last Night's Fights

OAKLAND, Aug. 21. (AP)—Dave Shade, long-jawed Californian and foremost challenger for the middleweight title, scored a ten-round decision over Young George Dixon, Portland negro, at Oakland auditorium tonight. Shade weighed 156½ pounds and Dixon weighed 157 3-4.

SAN FRANCISCO, Aug. 21. (AP)—Johnny Lamar, 139, and Charley Greenberg, 136, Los Angeles lightweights, slugged ten rounds to a draw tonight in one of the fastest fights seen at National Hall in recent months. Knockdown after knockdown brought the fans to their feet in enthusiasm as the two lightweights bounced back from the canvas to renew the attack and the draw decision met with unanimous favor.

ZANESVILLE (O.) Aug. 21. (AP)—Jack Britton, New York, former welterweight champion of the world, was outpointed by Henry Firpo, Cleveland, in a ten-round match here tonight.

DAYTON (Ky.) Aug. 21. (AP)—Jimmy Reid, featherweight, Erie, Pa., won a ten-round decision over Jackie Dugan, Louisville, here tonight.

KENNEDY WINS AT WILMINGTON BOWL

Les Kennedy defeated Bad News Johnson in the ten-round main event at the Wilmington Athletic Club last night.

Pat Cunningham decisioned Jimmy Peterson in the six-round semifinal bout. Freddie Hawkins won over Dud Eades in four rounds. Jimmy Benway fought four rounds to a draw with Joe Espinosa. Leo Trelezan stopped Dave Johnson in the second round of the opener.

DEMPSEY ARRIVES IN CHICAGO TO TAKE JOB

CHICAGO, Aug. 21. (AP)—Jack Dempsey, former world heavyweight champion, arrived today to prepare for his premiere as a Chicago boxing promoter. The old mauler will hold his first show at the Coliseum October 2 with Jackie Fields, world's welterweight champion, in the main bout.

PRIZE GETS AWAY

AVALON, CATALINA ISLAND, Aug. 20.—A record run of marlin swordfish is reported in the Catalina Channel. William C. De Mille today fought a marlin for more than five hours when the sixteen-ounce rod of his regulation tackle broke. Earlier in the day Mr. De Mille took the first yellowtail of the season on 3-6 tackle. The fish weighed in at nineteen pounds.

SAN DIEGO GIRL WINS SWIMFEST

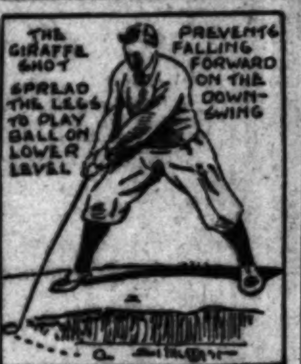
Noreen Forbes Carries Off First Honors in Sea Race Off Hermosa Beach

Noreen Forbes, representing the Florence Chambers Swimming Club of San Diego, won the second annual Hermosa Beach rough-water swim yesterday before a crowd of 10,000 swimming fans. The well-freckled Miss Forbes swam from the Olympic Barge to the shore, a distance of two miles, in 56m. 55 3-5s., and finished easily about twenty-five yards ahead of Hilda Curtis of the Norco Club.

Miss Curtis was pushed all the way, however, by Florence Chambers, and reached the finish only a yard ahead of her rival. Genevieve Stully, who swam the whole distance using the breast stroke, and Florence Chadwick, who is but 10 years of age, were popular with the crowd. The results:

First, Noreen Forbes (F.C.C.;) second, Hilda Curtis (N.C.;) third, Florence Chambers (F.C.C.;) fourth, Olga O'Byrne (S.C.C.;) fifth, Arleen Schiroll (F.C.C.;) sixth, Marie Moore (F.C.C.;) seventh, Genevieve Stully (F.C.C.;) eighth, Lillian Kelty (U.N.;) ninth, Florence Chadwick (F.C.C.;) tenth, Justine Moss (V. S. C.;) eleventh, Ruth Wier (U.N.;) twelfth, Mickey Wallate (V.S.C.) Time, 56m. 55 3-5s.

Try Giraffe Shot Out of the Ditch



THE GIRAFFE SHOT
SPREAD THE LEGS TO PLAY BALL ON LOWER LEVEL
PREVENTS FALLING FORWARD ON THE DOWN-SWING

BY SOL METZGER

Of course, you've found your ball in a ditch or on the downward slope of a hill a foot or two below the level of your stance. You know the shot where you try to bend over at the waist in order to reach the ball and then lose your balance as you swing.

Well, there is a sane way of playing this lie. It permits of a somewhat normal, orthodox swing with whatever club you should use for the distance to be gained. It's called the giraffe shot, probably because golfers have seen the pictures of giraffes drinking that so many African big game hunters have brought back to America. A giraffe, be it known, in order to get his head to the water-hole spreads his front legs at about 45 deg.

To play such a shot you do as the giraffe and swing only with the arms. If you try to pivot you'll sway and bungle the effort. This spread of feet lowers the hands in a normal manner to the right level to pick the ball clean and braces your body so you can't miss the shot. Tomorrow—Another bizarre shot that will save you at least one stroke in an odd situation.

Enjoy the thrill of long, straight drives. Write Sol Metzger, care of The Times, for free leaflet on "Driving." Inclose stamped, addressed envelope.

[Copyright, 1929, Publishers' Syndicate]

ATHLETICS BUY PAIR

DES MOINES, Aug. 21. (AP)—Glen Liebhardt, Jr., a pitcher, and Newell (Bud) Morse, an infielder, have been sold by the local Western League club to the Philadelphia Athletics for an unannounced price. Liebhardt is a son of the Cleveland pitcher of several years ago.

GIRARD PLAYER HAS LUCKY DAY

Gaines Gets Breaks Over Martin at Border

CORONADO, Aug. 21.—Jack Gaines of the Girard Country Club today advanced to the second round of the A. B. Spreckels trophy tournament at Coronado but his victory came through the kindness of the tournament committee rather than because of Gaines's skill on the links. He met the former Cubs star, Speed Martin, and in him he met a good golfer. Gaines was "off his game" after having been sold in the Calcutta pool for more than twice as much as any other player. At the seventeenth hole, though, Gaines was one up and two to go—and then the fun began.

Gaines drove first. Martin then drove and put one out of bounds. He happened to think, at that point, that Gaines had driven out of turn. He prepared to drive a second ball and did, after remarking to Gaines that the latter had driven out of turn. Gaines then called his attention to the fact that if he was recalling his shot, that he, Martin, had then driven his second ball out of turn. The whole situation was clear as mud but the gallery—if not the officials of the tournament—were enjoying things immensely.

When they came to their drives they were still discussing the question of how matters stood. Martin said, "What do you say we play the hole over?"

"It's all right with me," Gaines answered and picked up his ball. Martin at once protested his doing this, insisting that he had no right to touch it, so Gaines put it back and played it on up to the green, in the meantime they both drove again, provisional balls, and holed out. With one ball Gaines won the hole, with the first played, if no penalty strokes were called, it was halved. They played the eighteenth and Martin won it with a birdie, the tournament committee ordered them to play the nineteenth and Gaines won it with a birdie. And then the committee ordered the match replayed. It was—and Gaines was an overwhelming winner, as form indicated he would be.

Gaines having defeated Martin by a technical knockout, tomorrow will meet the very fine young San Diego player, Warner Edmonds. The latter today had a walkaway match with George Foelschow, also of San Diego, defeating him, 6 and 5.

Gibson Dunlop of Riviera, amateur champion of Southern California, smoothly stroked his way to a 3-and-2 victory over J. G. Hunter of San Francisco, to accomplish this Dunlop played par golf all the way. Tomorrow he will meet Jim McGregor, of San Diego, who today won from Tom Meanly, San Diego, one up.

In the lower bracket Jack Mackey, fine 18-year-old Los Angeles Country Club champion, sprang a surprise when he defeated K. D. Harrison of San Angelo, Tex., 1 up. Tomorrow he faces L. Van Zandt of Tulsa, Okla., who today won from Fred Barrows, 4 and 3.

Two very fine young San Diego players will meet tomorrow when Ward Edmonds, who today defeated Gail Stockton of San Bernardino, 4 and 3, meets Tom Owens, the latter today won from C. W. Riley of Los Angeles, 2 and 1.

GERARDEN, BURNS DRAW IN PARK GO

Johnny Gearden and Frankie Burns battled to an eight-round draw in the main event at Ocean Park last night.

Sig Ekland stopped Pancho Villa in the first round of the scheduled six-round semifinal scrap. Richard Frazer defeated Bobby Burns in six rounds. Frenchy Gillette stopped Noel Mitchell in the fourth round of the second preliminary, and Joe Saldivar won from Tiger Napoleon in four rounds.

HIT 797 HOME RUNS

Coast League ball clubs in twenty-one weeks have pounded out 797 home runs. The long-distance hits have been divided among the eight clubs as follows: San Francisco, 138; Los Angeles, 122; Missions, 116; Oakland, 109; Hollywood, 82; Sacramento, 79; Seattle, 72; Portland, 56.

FAIR MERCURY MERMAIDS IN "TIMES" SWIM EVENT

The Los Angeles Athletic Club will be represented by at least two and possibly more women entries in The Times pre-Olympic swim, to be held September 1 between the piers at Venice and Ocean Park, it was announced last night by Mercury athletic officials.

The two who are sure to compete are Olive Hatch and Jennie Cramer, both sprint swimmers but both capable of record time for longer races as well. Miss Hatch has shown remarkable improvement this year and will be one of the favorites in the women's race September 1. She is now in San Francisco, following her return from Honolulu where she placed third in the national 100-meter free style championship.

Miss Hatch has the speed for the shorter races and plenty of endurance for a half-mile event, the distance of The Times race for women. She placed second in the annual San Diego Silver Gate swim early this summer, but is now swimming in faster time. Her improvement is shown by the fact that she broke the world's 100-meter record at Honolulu, although she placed but third in the event, won by Eleanor Garratti in 69 4-5 seconds.

Miss Cramer is the present junior national fifty-yard dash champion, but of late has been working on longer distances in preparation for The Times race. Only last Sunday at Arrowhead she swam across the lake and return in excellent time.

Two more entries were accepted officially by the executive committee. George D. Self was added to the men's list and Marion Earl, a fast-improving Santa Maria miss, to the women's swim. The complete entries to date:

1—Austin Clapp, H.A.C.
2—George Harris, H.A.C.
3—Frank Walton, H.A.C.
4—Weston Kimball, H.A.C.
5—McGowan Miller, H.A.C.
6—Frank Booth, H.A.C.
7—Hartwell Shippey, unattached.
8—Herb Morey, unattached.
9—Sam Reid, Sea Breeze Beach Club.
10—Jack May, Sea Breeze Beach Club.
11—Lawrence Hall, H.A.C.
12—Fred Woods, L.A.A.C.
13—Julian Robertson, L.A.A.C.
14—Herbert Barthels, L.A.A.C.
15—Jose M. Padilla, unattached.
16—Norman Skeete, Glen Arden Club.
17—George D. Self, unattached.

Women's event:

1—Hilda Curtis, unattached.
2—Marjorie Lowe, unattached.
3—Margaret J. C. Gust, unattached.
4—Marion Earl, Santa Maria Athletic Club.

PORTLAND WINS TENTH STRAIGHT GAME, 7-2

PORTLAND (Or.) Aug. 21. (AP)—Limiting their assault to two big innings, the fourth and the seventh, the rejuvenated Portland Ducks climbed to within three games of the league leadership today by defeating the San Francisco Seals, 7 to 2. Today's was Portland's tenth straight victory. San Francisco nicked Roy Chesterfield for two runs in the first when Coleman clouted a homer with a runner on base.

BROWNS MAUL MACKMEN, 7-5

Manush and Schulte Hurt in Collision

McNeely Hits Home Run in Fifth Inning

White Sox Nose Out Yanks in Close Game, 4-3

ST. LOUIS, Aug. 21. (AP)—The Browns won their series with the Athletics, taking the final game by a score of 7 to 5 and making it three games to one. Heinie Manush and Fred Schulte, Brown outfielders, were both severely injured when they collided while chasing a fly batted by French in the fifth. Manush, bleeding profusely, walked from the field but Schulte was carried away unconscious. At St. John's Hospital, where X-ray pictures were being prepared it was believed the players' condition was not serious.

McNeely tied the score for the Browns with a home run in the fifth, his first for the year. Score:

YANKEES TRIPPED

CHICAGO, Aug. 21. (AP)—The Chicago White Sox could muster only five hits off the pitching of Ed Wells today but made them count to beat the New York Yankees, 4 to 3, and even the four-game series. Alphonse Thomas held the Yanks to nine hits and went the full distance.

Home runs by Koenig and Byrd gave the Yanks a 3-to-1 lead that the Sox wiped out in the seventh with a three-run rally. Hoffman tripled and Kerr hit a homer in this inning. Reynolds belted a homer for the Sox in the first. Score:

NEW YORK AB H O A — CHICAGO AB H O A

DYE TO BE ELIGIBLE FOR FOOTBALL WORK

George Dye, the "Alabama Elephant," will be eligible for football next semester at the University of Southern California. Putting to rest all rumors that he was neglecting his scholastic work, Dye appeared at the University yesterday, and announced he was ready to make up his incompleted units in German. Dye was given an incomplete last semester when injuries sustained in an auto accident forced him out of classes.

Dye, according to his professors, was making better than average grades when he was rendered hors de combat, and should have no difficulty in making up his work. Incidentally, the powerful center candidates is weighing a mere 242 pounds now, but expects to be down to 235 when he gets into action.

BRADDOCK SHOWS HIS STUFF TO ANGELENOS

James J. Braddock went on display yesterday at the Manhattan Gymnasium for the first time. Critics watched the boy slugger closely. He worked four rounds with Tom Patrick and Bill Cooley, the latter a youngster.

The New Yorker gave his hired men a good time by slugging with them. The youngster is in good shape. He takes a punch as well as delivers. He plainly likes to fight.

Joe Gould, Braddock's manager, may have to hold him back in gym fighting due to the heat. Braddock just quit a cool, outdoor camp at Saratoga a week ago.

The Braddock-Yale Okun light-heavy mill at the Olympic next Tuesday night is one of the choice attractions of the season. Both are proven men in the division, having fought all the good ones.

In his last four fights for Madison Square Garden Braddock has drawn aggregate gates of over $300,000. The three indoor shows were sellouts which ran between $56,000 to $57,000 varying according to the amount of standing room sold.

Braddock's last fight was with Tommy Loughran in the Yankee Stadium. It grossed $150,000. In the last six months Braddock has fought Leo Lomski, Jimmy Slattery, Tuffy Griffiths, Pete Latzo, George Gemas, Sailor Eddie Benson and Loughran. He lost a close decision to Lomski, stopped Slattery, Griffiths, Gemas and Benson. He defeated Latzo, breaking his jaw. He also lost to Loughran.

Braddock is partial to his right hand. His dynamite is there. He also showed a very stiff left in his workouts. The eastern light-heavy weighs around 173 pounds. Like Armand Emanuel, he is trying to pick up weight.

Okun worked at the Main-street club and looks to be in good shape. He is a better gymnasium fighter than Braddock.

The Olympic announced the semi-wind-up and special event yesterday, which should make a good card better. They are Frankie Campbell vs. Harry Beum and Ray Ravani vs. Mike Watters.

Both Campbell and Ravani have made one start here each. Campbell stopped Clyde Colvin and Ravani knocked out Herbert Turchi. Both are driving sluggers. The tip-off on Campbell is that he stood the gymnasium fire of big George Godfrey for a solid week. Ravani knocked out a welterweight yesterday.

Cowboys Face Uplifters in Mallet Clash

Will Rogers and his Cowboy mallet-swingers will match their western style of polo play against the orthodox brand Sunday afternoon at Rustic Canyon Field when they swing into action against the Uplifters' Ranch four, captained by Hal Roach. The game presents two opposite styles of play. Rogers's riders attired in chaps face the Uplifters sporting the latest in polo finery. The Cowboys will use the western saddles while the Uplifters will use an English saddle.

On Rogers's team are his son, Will, Gwyn "Big Boy" Williams, and Snowy Baker. Young Will picked up most of his polo in games with ranch hands on his father's place. "Big Boy" Williams rode into fame in motion pictures because of his cowboy experiences. Baker played all of his early polo in back country ranches of Australia with cowboys. So you see the team is a real bona fide cowboy outfit.

The Uplifters on the other hand were taught their polo by orthodox instructors. Their style of play is correct according to "city fellers." Whether it is better than the western way of getting over is something else again.

Uplifters believe one of the largest crowds of the summer season will attend the contest.

Hal Roach, George Masuphia, Lyell Puckett and Clair Brunson will represent the Uplifters.

SACRAMENTO UPSETS MISSION REDS, 6-5

SAN FRANCISCO, Aug. 21. (AP)—Sacramento's Senators put on another surprise party for the Missions today and defeated the locals 6-5 in an eleven-inning game. It made two straight for the Senators. Each side used three hurlers. The Missions tied the count with a tally in the ninth after Sacramento had scored three runs in its half of that frame. Score:

ALEX OUT FOR SEASON

ST. LOUIS, Aug. 21. (AP)—Grover Cleveland Alexander, "Old Pete" to St. Louis Cardinal fans, and hero of the 1926 world series, will do his penance for breaking training on a vacation at full pay for the remainder of the present season. President Sam Breadon of the Cardinals, after a brief conference with the hurler today, said he had ordered Alexander home to St. Paul, Neb., so he "can rest and build up."

LOMBARDI HERO OF OAK ATTACK

Catcher Slams Out Pair of Circuit Clouts

Drives in Five of Ten Acorn Markers

Kinney Victim of Barrage of Base Bingles

(Continued from Ninth Page)

smacked Hollywood by a 10-to-7 count.

TWO STRAIGHT

Therefore, it is easy to deduce that the good signor played the major part in the second straight victory which the lowly Oaks hung up over our ambitious Stars.

Walter Kinney, the portly southpaw person who finished the game for the Stars Tuesday, was the victim of yesterday's pernicious onslaught by the Oaks.

And the portly Walter has nobody to blame but himself. He kept throwing his home-run ball at the Oaks, and they kept biffing it over the fence. In all they rang up four four-ply swats to Hollywood's one.

And just to add insult to injury the Oaks broke Kinney's back by bunting him to the showers in the seventh inning.

It is true that Mr. Kinney pitched a home-run ball to Lombardi to start the eighth, but this swat made Skipper Vitt realize that Mr. Kinney had been ruined by those seventh-inning bunts, and he was relegated to let Mr. Shellenback finish the day.

Shelley got by with only one run scored from his delivery in the ninth, this being totally unnecessary as events later proved.

To date the hardest-worked man of the series is the Hon. Robert Cronin, the official scorekeeper. He is a plump person, and being forced to score games in which eleven and twelve men bat around in an inning, plus a rapid removal of pitchers, has just about got him down.

Aside from the eighth and ninth innings the Oaks got their runs in pairs.

MUCH ORATORY

The second inning saw a lot of loose talk fill the air and a couple of markers got up on the scoreboard for the Oaks.

Arlett opened the inning by lining out to Funk on a hard drive to deep left. Carlyle walked. Fenton smashed a single off Heath's glove, and the ball was retrieved by Albert in right field. Carlyle rounded second and streaked for third as Albert pegged to Lee at third. By a long slide Carlyle appeared to have the throw beaten, but his umps, Mr. Cady, ruled him out.

This act so riled Mr. Carlyle that he rushed up the base line toward home and jostled Mr. Cady considerably. This in turn incensed Mr. Cady, plus the fact that Manager Howard added fuel to the flames with a fine outburst of oratory.

The outcome of all the rhetoric was the banishment of Mr. Carlyle and Mr. Howard.

This left the situation up to Mr. Lombardi, who rose up in all his manly glory and smote the pill over the left-field fence, scoring First Baseman Fenton. Dean flew out to Lee to end the inning.

With Carlyle out of the line-up Arlett moved over from center field to Carlyle's spot in left and Frazier went to center, Schino staying in right.

The Stars got a man to first in both the second and third innings but no farther.

Four hits brought the Oaks two more runs in the first half of the fourth. Verges singled to left. Arlett struck out. Frazier sent a ground liner to center, the ball striking just to the right of the pitcher's box. Fenton singled off Kinney's glove, filling the bases. With the Stars' infield playing in Lombardi bounced a grounder over Rollings's head and Verges and Frazier scored. Dean then flew out to Albert and Daglia skied to Funk in left.

MISS CHANCE

The Stars had men on second and third with two out in the last of the fourth, but their hopes for a score were blasted when Maloney sent a long fly to right center, which Schino captured after a long run.

A walk to Brubaker and a homer by Verges over the left-field fence counted two more runs for the Oaks in the fifth. It was homer No. 36 for the Oaks' hard-hitting third baseman.

Two more runs came the way of the Oaks in the seventh, a homer, three singles and a sacrifice fly turning the trick. Daglia, first man up in the inning, dumped the ball over the fence in left center. Schino singled off Kinney's glove. Brubaker tried to sacrifice down the first-base line, but beat out Kinney's throw. Verges loaded the bases when he beat out a roller down the third-base line on which Kinney tried to get Schino at third, but failed. He had no chance to beat Verges to first. Frazier held Schino at third on Arlett's fly to right, but Schino scored on a deep one to the same territory by Frazier. Fenton rolled to Heath at first for the third out.

After doing nothing to write home about for six innings the Stars finally crashed through the Oak defenses in the seventh inning for seven runs, sending two pitchers to the showers and having two men still on the bags when Rollings, the twelfth batter of the inning, forced Lee at second for the third out.

Kinney started the fireworks by singling to center. Lee walked. Rollings flew out to left. Funk doubled to left, scoring Kinney and Lee. Albert walked. Carlyle scored Funk with a hot single through the pitchers' box. Heath walked, filling the bags. Daglia was removed in favor of Kasich. The new Oak pitcher got a strike and two balls on Severeid before he grooved a fast one with nothing on it. Severeid lifted the ball over the left-field barrier, sending Albert, Carlyle and Heath over the platter ahead of him amid the wild cheers of the assembled gathering.

Kasich got the second man out when he fanned Green, who batted for Maloney, but after giving Kinney a base on balls and permitting Lee to single to center he was removed and McEvoy sent to the mound. Rollings shot an apparent safe screamer down the third base line, but Umpire Cady ruled it foul by a few inches. Had it been safe the blow probably would have scored both runers. Rollings then forced Lee at second.

Lombardi banged out his second home run of the game in the eighth to ring up the Oaks' ninth tally, and Arlett scored in the ninth on his own double, Frazier's out at first and Fenton's sacrifice fly to Funk. Kinney was waved off the mound after Lombardi's home run and Shellenback inserted to finish the game.

The Stars could do nothing with McEvoy in either the eighth or ninth, and were retired in order. Score:

Sweden Wins Yacht Trophy

MARBLEHEAD (Mass.) Aug. 21. (AP)—Sweden won their third straight victory over America and Germany today in the three-cornered international 30-square-meter yachting series. The German yacht Kickerie came home second but Sweden's victory left the total score of three-race series as follows: Bacchant, Sweden, 9; Tipler III, America, 5, and Kickerie, German, 4.

Californians on Top Again

MILWAUKEE (Wis.) Aug. 21. (AP)—California's invaders moved a match closer to the titles in all three divisions in the Wisconsin open tennis tournaments today. Ellsworth Vines, Pasadena, defeated Walter Hergesheimer, Rochester, Minn., 6-0, 6-0 in the junior singles and then came back to eliminate Caldwell Russell, Louisville, from the same division, 6-0, 6-0. Keith Gledhill, Santa Barbara, Cal., defeated William Reasme, Waukegan, Ill., 6-2, 6-1, in the third round of the men's singles. The Golden State's boy title seekers also advanced to the semifinals. They are Jay Cohn, Santa Monica, and Charles Hunt of San Francisco.

Entries Open For Tourney

Invitations have been issued to youthful tennis players in Southern California to take part in the first semiannual open junior tennis tournament to be held on the courts of the Ambassador Hotel on September 5, 6, 7 and 8, under the auspices of the Southern California Lawn Tennis Association. Entries are to be made in writing, and accompanied by the entrance fee, to Vernon A. "Bud" Campbell, tennis professional at the Ambassador Tennis Club, who is managing the tournament; the Southern California Racket Stringing Company, or A. G. Spalding & Bros., on or before 6 p.m. on Tuesday, September 3.

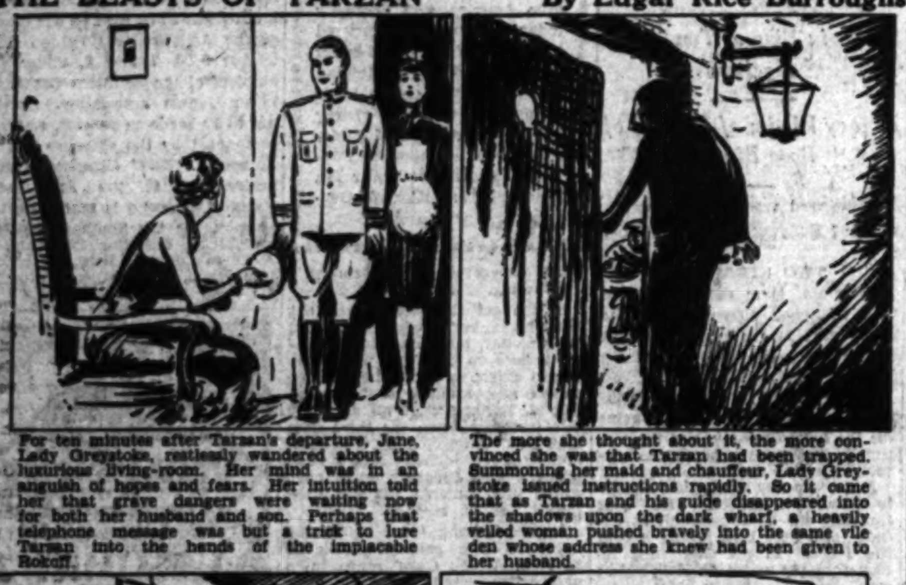
A CHUCKLE FOR EVERYBODY

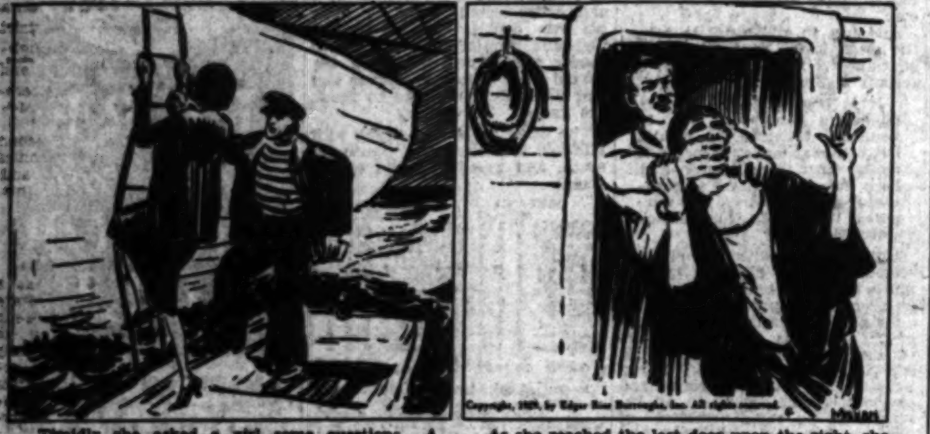
THE BEASTS OF TARZAN

By Edgar Rice Burroughs



For ten minutes after Tarzan's departure, Jane, Lady Greystoke, restlessly wandered about the luxurious living-room. Her mind was in an anguish of hopes and fears. Her intuition told her that grave dangers were waiting now for both her husband and son. Perhaps that telephone message was but a trick to lure Tarzan into the hands of the implacable Rokoff.

The more she thought about it, the more convinced she was that Tarzan had been trapped. Summoning her maid and chauffeur, Lady Greystoke issued instructions rapidly. So it came that as Tarzan and his guide disappeared into the shadows upon the dark wharf, a heavily veiled woman pushed bravely into the same vile den whose address she knew had been given to her husband.



Copyright, 1929, by Edgar Rice Burroughs, Inc. All rights reserved.

Timidly she asked a girl some questions. A sailor, hearing the queries, said he had seen two men rowing toward a steamer. "Ten pounds if you will take me to it," cried Lady Greystoke. And thus Jane found herself upon the apparently deserted ship, vainly searching for her husband and child. One by one she opened cabin doors, only to find empty interiors. Nor did she note the sudden purring of the engines.

As she reached the last door upon the right, she was seized from within by a powerful, dark-visaged man and drawn hastily into the stuffy, ill-smelling interior. "Well, this is luck!" grinned the man. The sudden shock of fright that this unexpected attack had upon her, drew a single, piercing scream from her throat. Then the fellow clapped a dirty hand roughly over her mouth.

NEWS OF SOUTHERN COUNTIES

KIDDIES KNOW THEIR FRUIT

Youngsters Pick Avocados for Fair

Brother and Sister Pick Daddy's Exhibit
Best of Southern California groves to be seen at Riverside.

RIVERSIDE, Aug. 21.—Visitors at the seventeenth annual Southern California Fair, here September 24-29, will have an opportunity to witness many interesting events exclusive of the numerous agricultural and livestock exhibits, according to Mrs. C. G. Cravens, secretary, who announces that arrangements have been made to entertain the 1200 students of the Sherman Institute on opening day. Capt. Ralph E. Johnson, instructor in military tactics at the institute, has arranged to provide an exhibition drill by the only Indian infantry detachment in the State. This detachment will guard the Graf Zeppelin during its stay at Mines Field.

All children of Southern California will be admitted free on the 24th, which will be known as "Children's Day," and special events and features have been planned for them.

The 25th inst. will bring 1500 officers and cadets of March Field to the fair grounds by invitation of the fair officials for "March Field Day."

Visitors interested in boxing will see some fast four-round bouts put on by the cadets of March Field every evening during the fair except Sunday.

POLICE WILL INVESTIGATE RUSTIN CASE

Railway Watchman's Death Due to Heart Trouble, But Fight May Have Caused It

SANTA MARIA, Aug. 21.—George Rustin, 51-year-old night watchman, whose body was found in a sump hole in the yards of the Santa Maria Valley Railroad, died from natural causes, a Coroner's jury decided in Santa Maria yesterday. The jury, however, recommended further police investigation when it was indicated that Rustin was dead when his body either fell into or was thrown into the sump hole.

Rustin, an autopsy performed on the body yesterday morning by Dr. W. D. Sink of Santa Maria disclosed, suffered from chronic heart trouble, that organ being much enlarged. Dr. Sink was firm in his opinion that Rustin was dead when his body either fell or was thrown into the sump hole. The physician further held to the opinion that Rustin may have engaged in an encounter with some prowler on railroad property and died of a heart seizure and that his assailant might have thrown his body into the sump hole.

Wrecked Drug Store Due to Pain in Ribs

INGLEWOOD, Aug. 21.—Severe pain in the side from recently broken ribs now in course of healing, was given as the cause of swerving that resulted in a motorist crashing into the corner of the Professional Building and causing damage estimated at $1000. Jack Evanson of Los Angeles, driver of the car, was arraigned before Police Judge A. F. Monroe today on a reckless-driving charge. The case was continued for thirty days.

According to police records the accident occurred on Sunday when Evanson, who was driving a car belonging to Mike Trujillo of 907 West Seventeenth street, Los Angeles, with the latter as a passenger, was seized with so violent a pain in his side that he crumpled in the seat, abandoning the wheel. Had it not been for the presence of mind of the owner, the machine would have plowed its way deep into the Professional Drug Store, causing much more extensive damage, according to the police.

As it was, the car went over the curb, across the sidewalk, sideswiped two plate-glass windows, completely destroying one of them and cracking another, and badly damaging one plate-glass showcase. Magazine racks at the doors were ruined and periodicals torn and scattered in all directions.

SAN FERNANDO TO ENTER ROSE FETE

SAN FERNANDO, Aug. 21.—It is now assured that this city will have a decorated float in the Rose Tournament parade at Pasadena on New Year's Day. At the meeting of the City Council it was voted to appropriate $500 to help pay for the expense of the float. This is said to be a minimum amount as it is understood the float may cost as much as $1000, the additional sum to be supplied by citizens and members of the several service clubs here. The appropriation of the $500 was made possible through the efforts of the Chamber of Commerce committee which appeared before the Council, headed by J. D. Merriwether as chairman.

County to Buy Preventorium Site from Ranch

VENTURA, Aug. 21.—Purchase of approximately sixty-seven acres of Rancho Santa Ana property for $50,000 was agreed upon by the Board of Supervisors yesterday afternoon, the property to be used as a site for the proposed county tuberculosis preventorium.

The value of the land is enhanced by an exceptional water development which would be sufficient for any use the county found necessary there, the supervisors declared. The property is near what is known as the old Rice Road, west of Mirror Lake.

Option on an additional piece of sixty-five acres which adjoins that to be purchased was taken by the supervisors, the price to be $1500. The great difference in price is due to the location of the land, the second piece being in the river bed.

Newspaper Man Files Alienation Suit for $80,000

EL CENTRO, Aug. 21.—Robert Hays, secretary of the local Chamber of Commerce, was made defendant in a suit filed here today by Attorney Wayne Compton of San Diego in behalf of John B. Baker, veteran newspaper man of Imperial Valley, in which the plaintiff asks for $80,000 damages for asserted alienation of his wife's affections.

The Bakers have been separated several months and Baker was awarded a divorce in July, last. It is charged that the friendship between Hays and Mrs. Baker started in Holtville several years ago when Baker was the publisher of the Holtville Tribune and Hays was a rancher in that district.

MAIL DELIVERY IN GLENDALE EXTENDED

GLENDALE, Aug. 21.—The city mail delivery territory is to be extended to embrace the area lying between the Southern Pacific tracks and the Los Angeles River, and bounded on north and south by Aviation Drive and Goodwin street, respectively, Postmaster Edwin F. Heisser advised the Chamber of Commerce today. The extension of the service by the local postoffice into territory lying within the city of Los Angeles was made as the result of petitions from residents and business houses in the district, that sought the Glendale service. Personnel and equipment have been assigned to the new territory, Heisser says, and the service will start immediately.

OVATION GIVEN HEAD OF LIONS

President Ray Riley Honored by Citrus Belt Dens

Past District Governor Wells Introduces Speaker

Lionism's Accomplishments and Aims Reviewed

UPLAND, Aug. 21.—Two hundred Lions from citrus belt communities stood and cheered Ray Riley, president of Lions International, for several minutes last night at The Sycamores, when he was introduced as "the greatest Lion of them all—and next Governor of California." Riley was introduced by Billy Wells of Riverside, past district-governor of Lions Clubs.

The president made no mention of the coming gubernatorial race, but confined his talk to accomplishments of Lions clubs and of programs for future work. He urged Lions to select worthy activities and to support them with vigor.

In reviewing Lionism as an organization, Riley said: "We do not usurp the functions of the church, yet we have helped to build many churches; we do not take the place of the Chamber of Commerce, yet we have helped them to success in many instances; we do not usurp the functions of government, but we do co-operate with those whose duty it is to administer government to the end that government may be respected and the best interests of the people be served."

Sam Carpenter, Los Angeles, governor of Lion District No. 4, made a short talk. Glenn Atwood of this city, president of the Citrus Belt Lions Council, presided over the reception meeting in honor of Riley.

Last Rites for Pioneer Woman of Queen City

ARCADIA, Aug. 21.—Last rites for Mrs. Jane Ann Unruh, 85 years of age, who died Sunday at the home of her son, David Unruh of Covina, were held this afternoon from Renaker's Funeral Parlors in Monrovia. The services were private and were conducted by Rev. J. Alvin Shirley, rector of St. Luke's Episcopal Church of Monrovia.

Mrs. Unruh had resided in California seventy years. The Unruh family came to this city in 1887, which was before the township of Arcadia was laid out by E. J. (Lucky) Baldwin, its founder.

The Unruh residence, which is still owned by the family, occupies a prominent corner in the business district at First avenue and Huntington Drive, and, one of the first five houses built here, was considered one of Arcadia's finest mansions of the early days.

Mrs. Unruh's husband, who died twelve years ago, served as executive manager for "Lucky" Baldwin and was a member of the City Council during Baldwin's administration as Mayor. A few years later Unruh succeeded to the office of Mayor.

Up to two years ago, Mrs. Unruh was active about her home, and was devoted to the care of the large gardens surrounding the house. The body will be cremated at Pasadena.

Two Women Hurt on Curve

REDLANDS, Aug. 21.—Two women were injured, one seriously, when their automobile skidded off a curve between San Bernardino and this city last night and overturned. They are Mrs. Pearl Mosher and Miss May McKinney, both of the Mission Gables Apartments, here.

Miss McKinney suffered lacerations of the face and a possible fractured skull while Mrs. Mosher's injuries were confined to cuts and bruises.

The former is at the hospital, while the latter was dismissed after being treated by Dr. E. L. Tisinger. The women were unable to explain the cause of the accident.

BURGLARY CASE IN COURT

HUNTINGTON PARK, Aug. 21.—Clyde Higgenson, charged with burglary, a felony, has been arraigned before Judge Edward H. Miller, his bail being placed at $3000 and preliminary hearing set for next Saturday. Higgenson is charged with having robbed the Charles N. Nay service station in this city last Sunday night.

WHALE-SWORDFISH BOUT THRILLS

Double Knockout Ends Marine Battle at Which Whalers Have Ringside Seats on Vessel's Deck and Ocean Waves Turn Red

SANTA BARBARA, Aug. 21.—Whalers are real fight fans and witness many battles ont at sea aboard their killer boats while hunting prey similar to the sixty-ton mammal now being exhibited here. The whalers who returned today brought back a blood-curdling ringside report of a battle between a whale and a sword fish. The whaler was cruising leisurely at five knots when the titanic battle started and all the crew had an excellent round-by-round view of the mill. Queensbury rules went by the board at the first gong when Kid Swordfish led to the breadbasket and clinched. The rest of the encounter involved the effort of Roughhouse Whale to shake off the Kid and land a sleep producer. The Kid kept his bill pushed into his antagonist's midsection, however, and shiftily avoided the slashing wallops. The fracas ended in a double knockout, the whale sinking in a sea of blood, carrying his assailant with him.

FIRST BLACKSMITH DIES

Edgar M. Prindle, Who Operated Monrovia's Pioneer Forge, Given Masonic Funeral at San Gabriel

MONROVIA, Aug. 21.—Local Masons paid their final tribute this afternoon to Edgar M. Prindle, local pioneer, who died Monday at his home, 120 West Walnut avenue. Funeral services were conducted from the chapel of the Burns-Temple Mortuary under the auspices of the lodge and the G.A.R. The Masons conducted services at the grave, interment taking place in the family plot in the old cemetery at San Gabriel.

The pioneer owned one of the first lots in the townsite of Monrovia purchased from its founder, W. N. Monroe, in 1886. He also established the first blacksmith shop here.

He was a Civil War veteran and a charter member of Monrovia Masonic Lodge No. 308, which was organized here in 1891. John H. Bartle, local banker, is now the only living charter member of the lodge, he and Prindle having shared that honor for several years.

The deceased was born in Schoolcraft, Mich., February 28, 1841, and enlisted in Company D, Seventeenth Infantry of Michigan, for service in the Civil War on January 23, 1862. While in service he was seriously wounded and advanced to the rank of corporal and later a sergeant.

Up until the time of his death his mind was active and he showed none of the infirmities which usually come with old age. He was in his garden the day before his death, which was caused by heart trouble. He leaves his only child, Mrs. Amber McQuilling of Pasadena.

PHYSICIAN RETURNS AS MISSIONARY

Dr. Joseph Cook Again Hears Call of Persia; Wife and Children to Go Too

BANNING, Aug. 21.—Dr. Joseph Cook, local physician, will leave soon with his family for Persia. Passports are now being obtained. Dr. Cook, who recently sold his practice here, will sail from New York in October to spend five years or more as a medical missionary at Teheran, Persia. Mrs. Cook and their four children will accompany Dr. Cook abroad and his mother will go with them for one year.

Dr. and Mrs. Cook met and were married in Persia when both were serving under the Presbyterian Mission Board. They will again go to the mission field under the auspices of this organization. They left Teheran twelve years ago to return to the United States and during recent years Dr. Cook has built up a practice here, becoming widely known as a specialist on tuberculosis.

Death Prevents Son's Grave Visit

PASADENA, Aug. 21.—Mrs. Rosa M. Heath, local Gold Star war mother planning to visit the grave of her son, Jackson W. Heath, who lost his life in France, died today at the Pasadena Hospital. She was taken ill while arranging to make a pilgrimage to her son's grave this fall. She leaves one son, Robert D. Heath, and a grandson, Robert D. Heath, Jr., of this city.

Funeral services will be held Friday at 3 p.m. in the Reynolds & Salisbury Co. chapel. Entombment will be in Mountain View Mausoleum.

FIREMAN FORGETS

Smoke-eater Works Under Car With Motor Running

SANTA MONICA, Aug. 21.—Although his work trained him to beware of carbon monoxide, a Los Angeles fireman, Emory M. Sawyer, 2031 Colorado avenue, today owed his life to the Santa Monica Fire Department inhalator squad, through his own asserted carelessness with the gas.

Sawyer was working under his car while the motor was running, and it took the Santa Monica rescue squad an hour and ten minutes to revive him. He was able to return to his home.

CANTALOUPE FORAY COSTLY TO MARAUDER

LOMITA, Aug. 21. — Breakfast cantaloupes proved an expensive luxury in the home of Quinn Morley of Long Beach who received a $200 fine in Police Judge Rippey's court on a charge of purloining the melons from the Boxueda patches here. Morley's asserted midnight foray on the melon patch was interrupted by workmen on the ranch who ordered his arrest. All but $50 of the fine was suspended two years.

Controversy on Valuations Still Vexes Ontario

ONTARIO, Aug. 21.—Determined to keep alive the recent controversy between local property owners and County Assessor A. E. Allen over increased valuations here, said to range from 300 to 500 per cent, Judge George N. Hilton last night, in addressing organized taxpayers of this city, hurled a broadside against county officers and assailed officers of this city, charging them with "juggling city finances and dipping into the fund of one department to support another."

Judge Hilton, president of the taxpayers' organization, charged that since 1926 the City Council has "juggled" city funds and criticised sharply the 10 per cent tax imposed on water users in the reduction of the 25 per cent discount on water bills to 15 per cent.

The speaker intimated Chaffey Union High School is not properly managed and the group voted to invite Miss Etta Griffith, Los Angeles school authority, to address the organization within a month on school management.

He assailed the Colorado River aqueduct plan as "an incredible scheme," and said Ontario's campaign for an airport might be worth while as the city should have a suitable landing field for disabled airplanes to fall on. It is the duty of the organized taxpayers to support men for public office, who will openly declare themselves for economy in government, he said.

This city's proposed zoning ordinance is not understood by members of the group, it was indicated, and A. B. Lund was appointed a committee of one to investigate it and report later. The taxpayers were urged to "sit in on" City Council meetings.

Two Burned as Gasoline Ignites

SOUTH PASADENA, Aug. 21.—Two local business men are reported to be recovering at the Pasadena Hospital from burns incurred last night when a gasoline explosion ignited the R. H. Thomas residence, 1116 Avon Place.

Trapped by flames which surrounded the porch, Thomas, a plumber, and Wilmer Hinman of 1307 Spruce street narrowly escaped with their lives. Hinman was given first-aid at the Pasadena Emergency Hospital and Thomas was treated by a private physician for second-degree burns about their faces and hands.

The fire started when three cans of gasoline, used in waterproofing a tent in the back yard, exploded and ignited the rear porch of the house.

The damage was estimated at $1000 to $3000.

Protest Hearing on Harbor Set

VENTURA, Aug. 21.—Next Monday at 10 a.m. was officially designated as the time for hearing any protests on the new Ventura Harbor project by the Board of Harbor Commissioners at its meeting today. Oral protests will be heard at the meeting as well as the reading of written ones filed in advance.

MANY BEQUESTS BY PIONEER

J. E. Wilshire, Late Redlands Resident, Remembers Relatives; Bequest to Widow Includes $25,000

OAK GLEN, Aug. 21.—Members of the immediate family are principal beneficiaries under terms of the will of Joseph E. Wilshire, pioneer of Redlands, and Oak Glen, who died the 7th inst. The relatives reside in Yucaipa, Redlands, San Bernardino and Long Beach.

A grand-daughter, Ida Parks, receives $1500 and a grandson, Arthur Parks, $1500. Mrs. Wilshire is given $4500 in trust to be invested and the income from which is to be given to the following grandchildren, Myron Parks, George Parks and Betty Parks.

A daughter, Eva Rosgla Carter, is to receive forty acres of property located on Baseline street near San Bernardino. Mrs. Wilshire is to receive $7500 for the use of the grandchildren, Joseph Richard Wilshire, Sara Dixie Wilshire, Earl Edes Wilshire and Mary Louise Wilshire. The sum is to be invested and income be theirs.

Two houses and lots with furniture and fixtures located at 259 and 303 Sonora street, Redlands, together with $25,000 in cash go to Mrs. Wilshire.

All the residue of the estate goes also to Mrs. Wilshire to be held in trust for ten years following the death of Mr. Wilshire to be administered to the benefit of the following sons and daughters: Ida Agnes Anderson, Clarence Joseph Wilshire, of Yucaipa; Alice Ann Biguline, Redlands; Ruth Elizabeth Wilshire, Redlands; Emma Melissa Wells, San Bernardino; George Edward Wilshire, Yucaipa; Susan Wilshire, Redlands; Mabel Louise Wilshire, Long Beach; Henry Clinton Wilshire, Redlands, and Francis Thomas Wilshire, Redlands.

DIRTY TRICK GETS LICENSES

But Applicants Must Wash Hands Now Before Taking Examination in Ventura

VENTURA, Aug. 21. (AP)—Applicants for automobile drivers' licenses in Ventura henceforth must wash their hands before checking questions on California's new examination forms.

Capt. Kenneth Murphy of the State Traffic Patrol ordered soap and water when it was discovered that several applicants who could not read English answered every question correctly.

They had key numbers written on their fingernails.

CHARGE OF MURDER IN FATALITY

Fred E. Deard, in Hospital Since Crash-Killed Woman, Arraigned in San Diego

SAN DIEGO, Aug. 21.—Fred E. Deard, able to leave the hospital where he had been under treatment since an automobile accident July 21, which was fatal to Davella Carothers, was arraigned in Township Court today on a charge of murder. The accident which caused the death of Mrs. Carothers, occupant of the other car involved in collision with Deard's, was due to criminal negligence, the District Attorney declares.

The complaint declared Deard's car, travelling at a fast rate east along El Cajon avenue on the wrong side of the street, struck the other car near Wilson street intersection. Deard's car lost both wheels but skidded on more than 100 feet before stopping, it was testified at the Coroner's inquest. The inquest resulted in a verdict that Deard should be prosecuted.

Preliminary hearing of the case was set for September 17 and Deard was remanded to the County Jail to post $20,000 bail.

Gold Fish are Good Bait But Law Prohibits

VAN NUYS, Aug. 21.—Use of gold fish for live bait may be a good stunt for the Isaak Walton who is angling for the wary trout and bass, but it doesn't conform to the ideas of the Fish and Game Commission.

F. D. Woodford of this city, who has received several orders for gold fish to be used as live bait, has been notified by the commission that it is unlawful to use gold fish for live bait in the lakes of California. The commissioner said that while the breeder of gold fish is entirely within the law when he sells his fish, the man who uses them for live bait is liable to arrest.

Snake Expert May Write Book

SAN FERNANDO, Aug. 21.—Willis A. Rowe, expert on the life and habits of snakes, who is in business here, is planning to assemble the notes in his journals and other memoranda and compile the same in a book for scientific use. Rowe for several years has delivered lectures before college societies and scientific clubs, and at present is the president of the California Herpetological Society.

Rowe's knowledge and experience extend over most of his life since boyhood. He has perfected a serum that is an antidote for rattlesnakes' bites. Rowe contends that the drinking of whisky after a snake bite is without the slightest remedial effect.

CAMPAIGN AGAINST GAMING YIELDS LITTLE

VENTURA, Aug. 21.—Two punchboards made up the total evidence of the end of the first twenty-four-hour campaign against all illegal gaming devices, which began yesterday under orders of Sheriff R. E. Clark. The largest "haul" was a gun board from the Seacliff Inn at Seacliff on the Rincon, by Deputies Suytar and R. E. Clark, Jr. The gun and knife prizes were worth approximately $320. The second board came from Martell's pool hall in Saticoy, brought in by Deputy Bliss. The board's prizes were estimated to be worth about $75.

NIGHT SCHOOL STUDY ALTERNATIVE TO JAIL

BELL, Aug. 21.—Caught stealing windwings and other accessories from a new automobile parked along a street here, Larry Vignaroli, 19 years of age, of Springdale; Ray A. Jones, 18, and Dennis A. Jessee, both of Willowbrook, were today before Police Judge I. N. Vaughn, who sentenced them to jail for thirty days.

The sentence, however, was suspended with the provision that each attend night school, and then report to local officers once a week, to show that they were in regular attendance at classes.

PROTEST SESSION HELD

AZUSA, Aug. 21.—To hear protests on the improvement of Foothill Boulevard from the westerly to easterly city limits, a mass meeting was held at the City Hall tonight. A definite program in tree planting along city streets was discussed.

SITE SURVEY TO BE MADE

Gov. Young Says Locations for Institutions Sought

Southland to Have Prison and Asylum for Insane

State's Chief Executive in New Bridge Dedication

LONG BEACH, Aug. 21—Surveys by which the State will pick sites for a new prison and a new hospital for the insane in Southern California will be started within a week, Gov. Young told the members of the Rotary Club here in a talk at the Hotel Virginia this noon.

Following the luncheon the Governor dedicated the new State street bridge over the flood control channel. The bridge will be a link in the Roosevelt Highway conecting Long Beach with Wilmington, Santa Monica and the Ventura district under the plans of the State Highway Commission. State, county and municipal officials attended the ceremony, including Supervisors McClellan and Beaty.

The Governor delivered a second address at the bridge ceremonies talking on State finances and economy along lines similar his Rotary Club address.

NEW HOSPITAL AND PRISON PROMISED

SANTA ANA, Aug. 21.—That a new State hospital and a State prison will be situated somewhere in Southern California, possibly in Orange county, was definitely stated at St. Ann's Inn here today by Gov. Young in an address made before 300 representative members of all the Santa Ana service clubs.

The Governor outlined briefly the institution of the State budget, from its preliminary informal construction in 1913, to the present system, authorized in 1922, which made a detailed account of every expenditure necessary.

"The present budget is divided and summarized," he said. "In considering the revenues, public utilities and insurance companies, such as the light and power companies, telegraph companies and railroads, pay more than a third of our expenses."

"This year we will undoubtedly have to call for emergency appropriations for our agricultural fund. Quarantine laws along all the border lines of the State as well as at every harbor are being rigidly enforced by an increased force of officers.

"The Mediterranean fruit fly is a plague that must be reckoned with. We are doing all in our power to keep it from getting into California, and these precautions cannot be taken without money. Should it arrive, even with our careful watch, we hope to isolate it as immediately and effectively as the hoof and mouth disease was eradicted a few years ago."

Highways and roads were discussed. The State gas tax, the Governor considered to be one of the fairest and best methods of taxation now employed by the State.

"County aid," he said, "both in highway funds and educational expenses, are among the chief expenditures of the State, even though they are not actually dispesensed by the State. A good 40 per cent of our revenue is handed over to counties alone."

The Governor landed the work of the various service clubs, and solicited their increased interest in the vital functions and finances of the State.

He was accompanied by Mrs. Young and his secretary, John Lonergan. Represented at the meeting were members of the Rotary, Exchange, Twenty-Thirty, Breakfast, Lions, Kiwanis, Round Table, Business and Professional Women's clubs, and the Realty Board and Chamber of Commerce, as well as outstanding city officials.

GOVERNOR SCHEDULE AT BREAKFAST CLUB

ARCADIA, Aug. 21.—Prominent bar representatives will be guests of the Foothill Breakfast Club tomorrow morning, according to Keeton Arnett, business manager.

Gov. Young will be an honored guest and others at the speakers' table will include Roy Crump, president of the Los Angeles Bar Association; members of the State Bar and Board of Governors of the Los Angeles Bar Association.

Allan Bixby, newly elected president, will preside, and Jimmy Burtiss will be master of ceremonies.

YOUNG WILL SPEAK TO BAY REALTY MEN

SANTA MONICA, Aug. 21.—Gov. Young will be guest of honor and principal speaker at a dinner given tomorrow night by the Santa Monica Bay District Realty Board at the Miramar Hotel. Gov. Young's topic will be "California State Finances." The executive has a summer home at Palisades Del Rey, near here.

SECRETARIES CHOOSE CONVENTION HOTEL

PASADENA, Aug. 21.—The Hotel Huntington was chosen headquarters today for the annual convention of the California Association of Commercial Secretaries, to be held January 2 to 4, inclusive. The announcement was made by R. J. Wade of Eureka, association president, at this morning's meeting of the local Chamber of Commerce directors. William Dunkerley, secretary of the local chamber, was named on the arrangements committee with Roy Beaton, secretary, San Pedro chamber; Charles Bayer, Los Angeles chamber; Tref La Bemay and Jerry M. Silvey, San Jose; Harry Barnes, Pittsburgh; Robert S. Lynch, Fresno; Fred McCarger, Salinas; T. C. McCauley, San Diego, and George Larsen, Sawtelle.

RAIDS ON CAFE LAID TO SPITE

Tony Panzich Says Officers Were Out to Get Him

His Purported Refusal to "Get on Line" Blamed

Defense Witnesses Heard at Abatement Trial

That the raiding of his cafe at 901 East First street by police officers in a search for liquor came after his refusal to turn loose and sell intoxicants and then "get on the line" with money for protection was the assertion of Tony Panzich late yesterday while on the stand in the abatement proceedings brought by the State against him which has been on trial all week before Superior Judge Finney.

Panzich declared that a police officer named R. F. Southard went to his cafe in May, 1928.

"We went into a booth and Southard began telling me about a new job he had in the department," the witness declared.

"After some talk about his new job Southard said to me to turn loose, sell liquor and get on the line. (The expression "get on the line" means paying protection money for selling liquor.)

"I told him I had never put up a dime on any line and wouldn't start now, for I was not violating the law."

POLICE ACCUSED

Panzich then went on to tell that the officer told him that they could get him, as customers took in liquor. The cafe man then declared that he had instructed his waiters to warn customers about exhibiting liquor when they came into the place to eat and to stay away if they had it with them.

Panzich further testified, relative to customers taking liquor to his cafe, that police officers were the worst offenders. He said that at times as many as a half dozen tables in the place would be filled with policemen.

"Did they pay for their food?" asked Attorney Ralph Graham, counsel for Panzich, who was conducting the examination.

"Not often," Panzich said.

Panzich said that after his refusal to "get on the line" officers, headed by Southard, began raiding his cafe.

The testimony was offered by Attorney Graham in an effort to show there was malice in the hearts of the officers which resulted later in raids and the abatement action to close the cafe on the grounds liquor was being sold there.

WIFE TESTIFIES

During the session yesterday Mrs. Mary Panzich, wife of Tony, testified relative to a raid on the Panzich residence at 940 Summit avenue, during which the officers turned the whole house topsy turvey. Photographs taken immediately after the raid were offered in evidence.

Other witnesses of the day were George C. King, foreman at the Swift Packing Company station, in the same block as the cafe, who said he had been eating in Tony's cafe for several years and never saw anything wrong with it.

George W. Tedford, former investigator of the District Attorney's office, also testified that the cafe bears a good reputation.

The cross-examination of the cafe proprietor will be conducted this morning by Dep. Dist.-Atty. Bonner Richardson.

During the first days of the trial the State offered testimony from numerous police officers, church workers and representatives of the Women's Christian Temperance Union that the cafe bears a bad reputation.

Several policemen declared that at times raids were made at the cafe and liquor was dumped into the sink before they could seize it as evidence.

HUSBAND'S LOVE SCOPE LIMITED

He Couldn't Care for Her and Other Woman, Too, Wife Declares He Said

Leonard E. Allen could not love two women, his wife and the other woman, he told Mrs. Edris E. Allen, according to the latter's testimony before Superior Judge Tappaan yesterday when granted a divorce from her husband.

Mrs. Allen, who said she formerly was a school-teacher at Culver City, brought a suit for divorce against Allen, naming Mrs. Justine Tipton as the cause of all the trouble, in the Allen domicile.

"He told me that he was in love with Mrs. Tipton and declared, 'I cannot love the two of you,'" Mrs. Allen said.

OFFICIAL DECLARES CHARGES BASELESS

Oscar M. Ferguson

TULARE TAX OFFICIAL HELD

Collector Visiting Sick Wife Here Arrested on Wire; Disputed Fees Base of Charge, Says Accused

Charged with embezzlement of public funds, Oscar M. Ferguson, 34 years of age, Tax Collector of Tulare county, was taken into custody yesterday by Deputy Sheriff Kelly of the Sheriff's fugitive detail and held for Tulare county officers.

Ferguson was arrested at 918 East First street, Long Beach, where he had called to visit his wife, who has been seriously ill for some time.

According to the Tulare county official, he does not know why the charge was filed against him, but expressed the opinion that it may be based upon his deduction of certain sums from tax collections from public utilities, to which, he believes, he is entitled under the State law.

These deductions, he intimated, include commissions upon taxes collected from cemetery associations, which, Ferguson said, he believes to be public utilities.

The Tax Collector was elected to his present office three years ago and said that he has been making his commission deductions since a short time after taking office. These commissions, however, would not amount to more than $1000 a year, he stated.

He was arrested upon a telegraphic warrant from Sheriff Hill of Tulare county, received by Capt. Fox of the Sheriff's office. The telegram did not give any details of the charge against Ferguson.

Rest of Life in Prison May be Burglar's Fate

Harold B. Mellon, arrested last Monday after he is asserted to have burglarized the home of Mrs. A. E. Hoffman at 832 Cloverdale street, may spend the rest of his life in prison as a habitual criminal, it was announced yesterday by Detective Captain McCaleb of the Wilshire division. McCaleb said the police records have revealed that Mellon has four prior convictions against him, and that the man has confessed to eighteen burglaries committed since he was discharged from the county road gang nine months ago.

Investigation of Mellon's past, according to McCaleb, disclosed that about ten years ago he was engaged in editing "Dog Topics," a local magazine.

ASSESSMENT AREA WILL BE ENLARGED

A new ordinance, creating a larger assessment district, was adopted yesterday by the Council in calling an election in Municipal Improvement District No. 71, the opening of Mariposa street from a point 380 feet south of Santa Monica Boulevard to Romaine street. The assessments for the improvement of Orlando avenue between Beverly Boulevard and Third street were confirmed, while the hearing of protests against the improvement of Avenue 54 at Coringa Drive was continued until September 25.

LIGHT SYSTEM WANTED

The Greater Olive Street Association yesterday petitioned the Council to install an ornamental lighting system in Olive street between Seventh and Twenty-third street, in connection with the improvement proceedings now under way. The petition was referred to the Traffic and Street Lighting Committee.

City Traffic Offender Cites State Statute

Friction between State and city traffic laws was pleaded yesterday by Stanley Moffett, an attorney of South Gate, who appeared before Municipal Judge Northrup on a traffic citation. Moffett was charged with making a U turn with his automobile at Temple street and Broadway.

In court he entered a demurrer, arguing that the State Motor Vehicle laws permit a U-turn and that therefore a city ordinance cannot supersede this State ruling. Furthermore, he asserted, if the municipal authorities intend to enforce an ordinance prohibiting U-turns they should display warning signs to that effect for the enlightenment of motorists.

Judge Northrup took the demurrer under advisement.

PAIR FACE BURGLARY TRIAL

Janitor and Wife Arraigned in $13,010 Robbery of United Artists Theater Safe

Arraigned before Municipal Judge Ballard on District Attorney's office complaints charging burglary and grand theft, in connection with the week-end "Jimmy Valentine" robbery of $13,010 from the United Artists' Theater safe, Edward Kavanaugh, 33 years of age, and his wife, Mary, 23, were held each in $10,000 bail yesterday for preliminary hearing on September 3, next. The couple were represented by Attorney S. S. Hahn.

While they were being arraigned, detectives of the police burglary detail, assisted by Investigator C. T. Rule of the Burns Detective Agency, were uncovering the hiding place of what they believe represents an additional $6100 of the plunder.

DEPOSIT IN BANK

On deposit in a bank at Fifth and Spring streets, according to Captain of Detectives Bert Lynn, Detective Lieutenant Malina and Rule found that amount in the name of Mrs. E. Roy, who, in reality, he asserts, is Mrs. Kavanaugh. Bank officials, according to Malina, identified a picture of Mrs. Kavanaugh positively as that of the woman who opened an account with them last Monday, making an initial deposit of $6100. They said the depositor at the time exhibited evidence of extreme nervousness.

In applying for the account Mrs. Roy gave 3118½ Division street as her address. The Kavanaugh address is 3218½ Division street.

When told that bank executives had identified her photograph, Mrs. Kavanaugh emphatically denied she had opened the account. Further, she repeated her denial of the charge that she had deposited $6500 in the United States National Bank at 3301 Verdugo Road, under the name of Mary Coniaglio, which the detectives say is her maiden name. The latter deposit was located on Tuesday and, according to the officers, fastened suspicion on the pair, Mary Coniaglio having given 3018½ Division street as her address.

According to Capt. Lynn, only $410 of the total sum stolen from the safe now remains unaccounted for.

Investigation of the robbery was aimed at Kavanaugh, when it became known that he had worked as head janitor at the theater for five months. Investigators of the Burns Detective Agency yesterday advanced the theory that Kavanaugh learned the combination of the safe, while pretending to be mopping the office floor at times when the house manager had occasion to open it.

HOLLYWOOD DAM TEST DUE

Mulholland Structure Will be Inspected Under New Authority by State Engineer

Investigation of Mulholland Dam in Hollywood will be made in the near future by State Engineer Hyatt as part of his new function of supervision over all dams in the State, according to news dispatches from Sacramento yesterday.

The State Legislature at its last session cloaked the State Engineer with authority to inspect municipal dams in the State. In the past he has had supervision over flood-control districts and county dams. In the future permits must be obtained from him to construct any dam in the State. It will be his duty to inspect and issue permits for dams already built but which were not under his jurisdiction when built.

H. A. Van Norman, general manager of the Department of Water and Power for the city, stated that the State Engineer, naturally, will receive every co-operation from the department in the inspection of the Mulholland or any other dam operated by the city. Mr. Van Norman pointed out that all the city dams and reservoirs were inspected by a board of consulting engineers a year ago and given approval, among them Mulholland Dam. The latter structure was given particular attention by the board. Exhaustive tests of the structure itself and of the underlying rock have been made. The dam was declared to be safe "as is."

Mulholland Dam will be inspected early in the program of general inspection, Mr. Hyatt said, but he could not say just when the inspection will begin.

TESTS FOR FIRE POST POSTPONED

Civil Service Board Sets New Examination Date for Battalion Chief Aspirants

At the request of Fire Chief Scott the civil service tests for fire department battalion chiefs, which were set for tomorrow have been continued by the Civil Service Commission until September 19, next. The qualifications also were changed so that instead of captains with two years of service being eligible for the test they will be required to have served four years as captains.

By this arrangement, according to Chief Scott, a larger number of applicants with greater experience will be eligible to take the examination.

The board canceled the application of Anna Brant, who passed for senior stenographer, on the ground that she had used different names in two other tests, for junior stenographer and file clerk.

Miss Brant's explanation for using the names, including Esther Tillie Thomas and Mary Tamarin, was that they are family names on both sides of the house and that she had a right to use them. The commissioners contend that the application blanks require those taking tests to give their true names.

Asserted 'Red' Handbill Passer Held for Trial

Charged with violating the city handbill ordinance, John Piscevic was arraigned yesterday before Municipal Judge Bogue and trial by jury set for September 11, next.

Piscevic, according to police, was arrested last Tuesday at Thirty-fourth street and Central avenue while passing out asserted Communistic literature advertising a meeting to take place tonight at the Plaza. "Mother Bloor," said to have recently come here from Gastonia, is scheduled as the principal speaker.

Bearing the names of the Communist Party of the United States and the Young Communists' League of Los Angeles, the handbills said to have been distributed by Piscevic bore the headlines: "In memory of Sacco and Vanzetti. Demonstrate for the immediate release of twenty-three Gastonia militants."

Frank Stoddard Funeral Today

Funeral rites will be conducted at the Little Church of the Flowers at 2 p.m. today for Frank Stoddard, native of California and veteran Southern Pacific conductor, who died Monday night at the California Lutheran Hospital. Interment will be in Forest Lawn Memorial Park.

Mr. Stoddard, who was 67 years of age, had put in forty-three years of uninterrupted service on the Los Angeles division of the Southern Pacific. He retired several years ago. His home was at Stoddard's Camp on Mount Baldy. He leaves his widow, Mrs. Mary C. Stoddard, and a son, Frank Stoddard, Jr., of Santa Monica. W. A. Brown is in charge of funeral arrangements.

DIVORCE WON WITH TALE OF JEALOUSY

A Christmas-Day wedding between William R. Leigh and Verna Leigh ended disastrously because of extreme jealousy on the part of the wife, Leigh declared yesterday when asking Superior Judge Weyand to grant him a divorce. The couple married on Christmas day in 1927. They separated on April 10, 1928. Leigh testified his wife always was accusing him of associating with other women and even went to the extent of having her girl friends call him up on the telephone and attempt to make appointments with him. After hearing the testimony Judge Weyand granted the decree.

FUNERAL CONDUCTED FOR MRS. NEWSTETTER

Last rites were conducted at the Little Church of the Flowers yesterday for Mrs. Emma C. Newstetter of 630 North Parkman avenue, mother of V. E. Newstetter, lieutenant of detectives. Mrs. Newstetter, who was 73 years of age, had resided in Los Angeles for twenty-four years. She came here from Ohio. She leaves two sons, V. R. and V. E. Newstetter, and a daughter, Mrs. William Maxhimer, all of Los Angeles. Interment was in Forest Lawn Memorial Park.

YOHN BURIAL RITES TODAY

The funeral of Jacob C. Yohn, 65 years of age, resident of this city for twenty-eight years, will take place at 10:30 a.m. today at Bresee Brothers' chapel, 856 South Figueroa street. Rev. Frank C. Reid will officiate. The body will be interred in Inglewood Park Cemetery. Mr. Yohn, who lived at 428 East Seventh street, died Monday last. He leaves a daughter, Mrs. Ines M. Jordon, and a son, John Yohn of Rio Vista.

SUMMER SESSION CLOSING

Classes in the first summer session of the extension division of the University of California at Los Angeles now are closing, according to announcement of Director Leon J. Richardson. A total of 271 students was enrolled. Fall classes open during the week of September 23. A new information clerk has been appointed to serve in the Hill-street Building during the evening hours. He is Russell Johnson, a junior, who is working his way through school.

EUROPEAN JOURNEY SPOILED, SHE STATES

Mrs. Fanny Bertagnolli

HER JAUNT NIGHTMARE, SAYS WIFE

Husband's Cruelty While Touring Europe Told in Woman's Divorce Plea

The European trip of Mrs. Fanny Bertagnolli was a nightmare of horrors, Mrs. Bertagnolli testified in Superior Judge Crawford's court yesterday, where she was granted a divorce.

When the plaintiff and her 18-year-old daughter Olga went to Europe with Bertagnolli, he culminated a series of cruelties by burning her shoulder with a lighted cigar, she testified. Bertagnolli had a habit of drinking too much, the woman testified.

Mrs. Bertagnolli said she was deserted in Innsbruck, Austria, and had to borrow money on which to return home.

Attempt to End Life Attributed to Extra Girl

Life seemed useless, Margaret Johnson, 23 years of age, a pretty motion-picture extra living at 1521 North Wilcox avenue, yesterday told police after she had swallowed a dose of poison. The young woman said she had become despondent because of lack of engagements, police reported.

Miss Johnson telephoned a friend, Virgil Johnson, that she wanted to see him, and when he went to her home she announced she was dying. Alarmed, he called a private physician, who promptly notified the police. The girl was taken in an ambulance to the Hollywood Hospital, where it is said that she will recover. Police say that she has been a motion-picture extra.

Pioneer Realty Operator Dies

John W. Arnold, widely known retired real estate man, died yesterday at his home, 2624 North Broadway. He was 84 years of age, and leaves a widow and four sons, Dr. B. C. Arnold, Dr. E. B. Arnold, Dr. Frank Arnold and John E. Arnold. Services will be conducted at the house at 3:30 p.m. today, followed by interment at Forest Lawn Memorial Park.

Mr. Arnold was born in Cleveland. He was a carriage manufacturer in Alliance, O., before coming to Los Angeles in 1882, when he engaged in real estate operations. With the exception of a year in Covina in 1884, he lived continuously on the North Side of Los Angeles. In 1887 he was associated with the late J. W. Yoakum, their office being in the old Pico House on the Plaza. He was affiliated with a number of improvement associations.

THIRTEEN GET JAIL IN GAMBLING CASES

Jail sentences of thirty days each yesterday were meted out to thirteen men recently convicted of gambling at the California Greek Association, 221½ East Second street, by Municipal Judge Sheldon. Commitments were ordered issued for eight of the men who did not appear in court for sentence. Those who appeared in court were Charles Winkler, Frank Hugo, Dan Carran, George Lubin and Isadore Fisher. Pending appeal bond has been set at $50. The case was prosecuted by Deputy City Prosecutor Kaufman, who stated that in future gambling convictions he will seek jail sentences in an effort to rid the city of gamblers.

NEW RAIL FARE CUT TO BRING VISITORS

Statisticians employed in keeping track of Southern California's summer tourists are far from totaling the new high record of 1929. This became a certainty yesterday with announcement by the Southern Pacific of another round-trip excursion for the first part of September from Arizona, New Mexico and Texas points to Los Angeles. The reduced fares will be sold in El Paso, Tex., Lordsburg, N. M., and in the principal cities of Arizona, on the 31st inst., with return limit of September 15. Tickets will be good in coaches and in Pullmans on payment of the sleeping-car rates, it is stated by C. L. McFaul, assistant passenger traffic manager.

DELIGHTFUL LOVE STORY UNFOLDED

"Lucky Star," Silent for the Most Part, Charms as Criterion Attraction

BY PHILIP K. SCHEUER

With the strength gone out of his own crippled legs, Tim Osborn turned to mending other broken things. Once it was said he could make something out of "most anything has a song in it" . . . and soon after, he came upon the Widow Tucker's daughter, Mary, who was like a licked puppy with a starving soul. Tim was Charles Farrel; Mary was Janet Gaynor; and the picture was "Lucky Star."

This tenuous romance which William Fox sent into his Criterion Theater yesterday is as restful as a rustic landscape. Lacking the powerful sentimental appeal of "Seventh Heaven" and the pretentiousness of "Street Angel," it is told with a simple directness that commands respect and admiration; and incidentally restores one's faith in a photographic art neglected, now, these many months, also, it makes a transition from silence to speech with a minimum of emphasis, and maintains a desirable placid quality to the very end.

The keenest loss is in the cessation of the music which accompanies the film up to that moment when it gives way to the vocal urge, even though its reproduction leaves something to be wished for. Thanks to the lines which John Hunter Booth has given his characters to utter, the shock which one usually experiences when audibility begins is hardly felt in the current instance. I cannot agree with those who deplore the quality of Miss Gaynor's voice; it were better that half her words were missed than that she emerged with a shrill soprano or a throaty contralto, since pantomimically she is so expressive that their lack is unimportant. I will admit, however, that there is really no need for her to talk at all.

Tim Osborn gives her the nickname of Baa-Baa in the picture—without intending any reflection, I am sure, on her enunciation. Osborn—or Farrell—possesses a voice which is possibly more youthful than one might expect to hear coming from a man who had been through a year in the war, but it is quite winning, and the point is a negligible one.

These twain are really the whole of "Lucky Star," though Guinn Williams and Hedwiga Reicher contribute briefly to the development of the fragile story. Miss Reicher plays the mother who attempts to force Miss Gaynor to marry Williams, an ex-sergeant. When Farrell sees his sweetheart being driven off to the station to meet her husband-to-be, he miraculously recovers the use of his legs and staggers off into a snowstorm to intervene. It would be ungraceful to suggest, I suppose, that his talent for devising knickknacks and the like led me to half suspect that he would turn his crutches into skis and coast down the hill to the station at the psychological moment; especially as he did nothing of the sort.

The pictorial compositions which Frank Borzage, the director, has lavished on the film are not the least of its charms. The battle scenes alone have an air of staginess about them, though this is not so heinous an offense as it would be in the realistic type of photoplay. A noisy war sequence in "Lucky Star" would be about as welcome as a bull in a china shop.

It is perhaps superfluous to add that, while this latest Gaynor-Farrell costarring vehicle will not make history, it establishes its principals once again as the freshest, most naive and most altogether irresistible pair of youngsters in the films. In losing Lillian Gish the screen will find much to compensate it in the delicate beauty of Janet Gaynor's art.

Stan Laurel and Oliver Hardy—to descend to the ridiculous—are this time involved in an imbroglio on the lakeside. Their effort is entitled "Men o' War," and a Criterion audience laughed long and loudly at it last evening. A Fox News is also being presented.

Beatrice Blinn "Kibitzer" Lead

Beatrice Blinn, who plays the lead in "Kibitzer," coming to the Mason on Wednesday, would have had a two-year run in the play in New York if it had not been for the interruption of a wedding.

Miss Blinn was engaged to the director, playwright and actor, Crane Wilbur. The latter was playing in London in "Jealousy." In order to keep her wedding date, it was necessary for Miss Blinn to get her release from "Kibitzer," in which she had created the role of Josie, and meet her fiance in England, where they were married.

Edward Horton Arrives Today

Edward Everett Horton, internationally known stage and film star, will arrive here tonight on the Santa Fe Chief from New York City to start preparations for his tenth Los Angeles season in drama, which will be launched next month at the Majestic Theater.

The actor, who holds records on the local rialto for continuous playing, is reported to be returning with a trunk full of new play scripts he garnered from agents and playwrights in New York.

Marion Harris With M.-G.-M.

Marion Harris, internationally noted blues singer and musical comedy star, will play the featured role of the "Countess" in the new Ramon Novarro production for Metro-Goldwyn-Mayer. The picture is temporarily titled "The Battle of the Ladies," and Sidney Franklin is directing.

Other players already cast in the Novarro picture include Dorothy Jordan, George Davis, John Miljan and Richard Travers. The ability of Marion Harris as a singer will be displayed in the production.

Love Story Told in Song

Barbara Bennett
Appears opposite Morton Downey in "Mother's Boy," a human tale of everyday life, starting at the Boulevard Theater today.

BROX SISTERS HEAD CAST

In the numbers and brilliance of musical comedy stars in its cast, the Harry Carroll Revue will be without parallel by any production in the theatrical annals of the west coast, it is said.

The three Brox sisters, musical-comedy favorites of New York, London and Paris, head the list of the new cast additions for the revue, which will open September 15 at Harry Carroll's Music Box Theater.

Waldemar Guterson and his band of musical-comedy fame will provide the orchestration for the revue, it was also announced. The new cast additions include Edyth Kramer, the young "it" girl recently discovered by motion pictures; Arline Langan, who was costarred with Ted Lewis for several seasons, and Andy Rice, Jr., comedian.

Among those previously announced for the all-star Carroll cast were Will Ahern, Al K. Hall, Vera Marsh, Gladys Ahern, Antonio De Marco and Mitzi Mayfair. A book for the revue is being completed by Andy Rice, Sr. The noted songwriting team of Jesse Greer and Raymond Klagges, together with Carroll, is writing the score and the lyrics for the extravaganza.

Loew's Shows Epic of Youth and Modernism

Joan Crawford and Doug Fairbanks, Jr., as screen lovers and matrimonial partners for the first time, have the roles of star and leading man, respectively, in "Our Modern Maidens," the speedy new epic of jazz and modernism, which starts today at Loew's State.

The opening hour of the theater has been changed for the first time in the theater's history, and will remain so all this week, to allow for the extra shows, making a total of eight daily.

Anita Page, Rod LaRocque, Josephine Dunn and others of Metro-Goldwyn-Mayer's contingent of flaming youth stars are also featured in "Our Modern Maidens." Appropriately selected as the stage attraction accompanying the picture is Fanchon and Marco's "Hollywood Studio Girls" Idea, an annual affair, featuring the most beautiful and talented of screenland's youthful players before the footlights.

NOTED PAIR HEAD MIDNIGHT MATINEE

Vivian and Rosetta Duncan

Interrupting production on their first all-talking and singing picture "Cotton and Silk," at the M.-G.-M. studios, the noted Duncan Sisters, known the world over for their "Topsy and Eva" comedy, will head the Saturday Midnight Matinee at Grauman's Chinese Theater.

As a special attraction in addition to the "Hollywood Revue of 1929" and a program of other stars and artists, Rosetta and Vivian will be presented in person together with their inimitable songs and comedy to their friends who have followed their meteoric success since school days.

In their new show for the talking screen, the two sisters will introduce ten new songs written especially for them.

A banner program of other stars and artists also will be presented in addition to the Duncans and the "Hollywood Revue."

Reviews Praise Picture Version of "Burlesque"

New York and its screen critics are applauding Paramount's pictorial achievement of the year, "The Dance of Life," which opened at the Rivoli Friday, it is said. Reviews of this all-talking production in which Hal Skelly, star of both the screen and stage versions, gives a remarkable performance, arrived in Hollywood yesterday. The comments were a distinct tribute to the creative genius of the author, George Manker Watters, who also wrote the picture version for Paramount, and to the entire cast.

The latter organization, it is reported, are unhesitatingly giving no little credit to Watters for the success of this production, since in addition to the novel twists incorporated in the film version of his own stage play, he furnished the technical advice necessary during the making of the opus. Immediately following the completion of this contractural obligation to Paramount, Watters became affiliated with the Universal organization. It is reported that this playwright is seriously considering an offer to direct another one of his stage plays for the screen, before returning east to produce it in January.

Circus Picture Plays Alhambra

Clara Bow appears in the role of a girl clown who falls in love with a young tight-rope walker in "Dangerous Curves," Paramount's latest all-talking production, now playing at the Alhambra Theater. Prominent in the supporting cast are Richard Arlen, Kay Francis, T. Roy Barnes, May Boley, Joyce Compton and others.

Directed by Lothar Mendes, this thrilling romance of circus life employed a total of over 300 tanbark performers, including clowns, wild animal trainers, acrobats, bareback riders, and jugglers.

POLICE INTERRUPT REHEARSAL OF PLAY

George Scarborough tells of an incident that occurred during the first rehearsal of his new play, "Bad Babies," now at the Figueroa Playhouse. Early rehearsals were held at the author's home because the players in the cast live in Hollywood and it was much easier to reach the Scarborough home.

The tense scene in the third act was being rehearsed with Frederic Burt holding the script and giving directions with Scarborough assisting. Just as the scene grew boisterous two policemen entered the house unannounced. They were passing in a police car and, hearing the noise, presumed a fight was in progress and stopped to do their duty. It took several minutes of explaining on Scarborough's part to convince them that all was well.

CUB CHRISTENED

Zeppelin, 3-month-old lion cub christened yesterday at Gay's Lion Farm, El Monte, will be introduced to Dr. Hugo Eckener, commander of the giant dirigible, upon arrival here, as the first applicant for passage from Los Angeles to New York. This cub is the son of Numa, veteran lion film star, and has been donated by Mr. and Mrs. Charles Gay to the Bronx Zoo in New York City, as an outstanding specimen of the thoroughbred African lions bred and raised in Southern California.

NEW PLAY COMES TO BELASCO

"Door Between" Brings Edna Hibbard, Richard Tucker

With the announcement of the arrival of Edna Hibbard, Richard Tucker and Kenneth Thompson in Vincent Lawrence's unique comedy, "The Door Between," at the Belasco Theater on September 8, comes the statement that the hilarious farce, "The Little Accident," will remain at the Belasco but two more weeks, ending its Los Angeles engagement on September 7.

"The Door Between" comes to the Belasco with the reputation of having been one of the outstanding eastern hits and is at present playing in San Francisco. Edna Hibbard, young and vivid star, recently established herself high in local popularity by her appearance in "Let Us Be Gay."

Belasco and Curran, the local producers, were able to bring "The Little Accident" with Thomas Mitchell and the New York cast intact to the Coast for only a brief engagement. It was taken from the eastern metropolis at the height of its run and must return directly to Chicago to begin an engagement there.

Walter to Run Musical Gamut With Offerings

Four compositions declared to represent the quintessence of symphonic music of the traditional form will come to a hearing tonight in what is expected to prove one of the largest triumphs of the Bruno Walter engagement.

Augmenting the volume of Mendelssohn's "Midsummer Night's Dream" music, represented on one previous program of the season, Bruno Walter tonight conducts the famous overture of the work. The composer was only seventeen when he wrote this coruscating conception.

Described by a commentator as a "contrapuntal complexity," Brahms's Fourth Symphony comes to a hearing for a third time in Bowl history. Its four movements run the gamut of musical moods, the final one supplying a climax of soaring splendor. The prelude to Wagner's opera "Lohengrin" is expected to prove especially interesting as interpreted by the great German conductor.

The final number on the program is Liszt's symphonic poem, "Les Preludes," one of the outstanding early examples of descriptive program music.

Film Comedians Together Again at Paramount

With the starting of the second week of Greater Movie Season today, the Paramount Theater offers "Fast Company," co-featuring Evelyn Brent, Jack Oakie and Richard (Skeets) Gallagher. Based on one of Ring Lardner's best-known and funniest stories, "Elmer the Great," "Fast Company" is said to be one of the most hilariously funny comedy features that the talking screen has yet presented.

The story is that of Elmer, a 10 o'clock boy in a 9 o'clock town, who is a natural ball player and home-run hitter. He is discovered by a big league scout and subsequently is signed by the New York Yankees, where he becomes a sensation as the world's greatest ball player.

The part of Elmer is played by Jack Oakie and the scout who discovers him, by Skeets Gallagher. Evelyn Brent, as a musical comedy star with whom Oakie falls in love, and Gwen Lee, her dancing and singing partner, bring romance and trouble to both Jack and Skeets. Sam Hardy, veteran of the stage and screen, plays the part of the baseball manager. Arthur Housman is cast in the role of the gambler.

Engineers Will Attend Carthay Circle Tonight

Forty of the country's most noted mining engineers will be the guests of the Carthay Circle Theater tonight at a special performance of "Dynamite," the current Cecil B. De Mille talking picture.

The party will be the guests of George A. Keating, graduate of the Colorado and Columbia universities' schools of mines and a prominent figure in Nevada and Arizona mining circles. Keating who saw a private preview of "Dynamite" says: "De Mille has combined New York's fastest sporting set with the drama of a modern mining camp in a most dramatically forceful fashion. 'Dynamite' is a mighty panorama of contrasts.

"As a mining engineer let me say that the cave-in of the mine shaft and the timbers of the 1100-foot level in 'Dynamite' is magnificently done."

Perry Askam to Headline Bill

Assurance of super-entertainment at the Hillstreet Theater starting Saturday was contained in the announcement made today that Perry Askam will headline the aggregation of stage attractions on the program with Pathe's latest release, "Paris Bound," a story of sincere sophistication in matrimony which stars the blond Ann Harding.

Askam will be remembered as the romantic singing star of the successful operetta, "The Desert Song," in which he appeared for two years. Prior to that he appeared in "Castles in the Air," "Blossom Time" and other musical successes. He will offer a special program of song numbers during his Hillstreet appearance.

AIR CRUISE
EN ROUT

Graf Starts f
Los Angeles

Sudden Weather Change
Tokio Hastens
Departure

Globe-Circler Under W
Since 10:13 p.m.
Yesterday

KASUMIGAURA (Japa
Aug. 23. (Friday) (AP)—T
globe-encircling dirigible Gr
Zeppelin, a day and a half b
hind schedule, took the air f
her projected 5470-mile journ
to Los Angeles at 3:13 o'clo
this afternoon (10:13 p.m
Thursday, Los Angeles time.)
The Graf sailed rapidly in
the northeast and disappear
at 3:28.

KASUMIGAURA (Japan) A
22. (Friday) (AP)—Unexpected
provement in weather conditions
sailed this afternoon in prepa
tions for immediate departure of
dirigible Graf Zeppelin for
Angeles.
The ground crew, summoned
move the large ship out of
hangar, took positions at 1 p.m.
The change in plans followed lo
ening of the north wind which h
been blowing across the entrance
the hangar, making handling
the airship difficult and poss
dangerous. Even as late as n
today (7 p.m., Thursday, Los A
geles time,) it had been stated t
no time for the departure could
fixed.
Dr. Hugo Eckener, commander
the dirigible, in view of the wea
er conditions, had set no hour for
next attempt to resume the fli
to Los Angeles, but arrangemen
were made so that passengers a
crew could be assembled on sh
notice. The ship itself is in perf
readiness for the long trans-Pac
flight.

GONDOLA DAMAGED

The giant airship first was balk
by a mishap as it was being dra
from its hangar yesterday. A r
motor gondola struck the earth a
did damage which made necess
repairs although it was not oth
wise of serious consequence. T
direction and strength of the wi
would make handling of the hu
bulk difficult and perhaps precario
by the ground crew. At that time
appeared the weather condition w
only temporary, but when the wi
seemed to settle from the unwant
point any attempt to fix a fre
hour for departure was abandon

WEATHER REPORTS

Arrangements have been ma
for the Zeppelin to receive offic
weather reports three times a d
until the eastward flight puts t
ship in easy contact with America
radio stations. The Tokio Weath
Bureau pointed out that althou
fogs must be expected over t
North Pacific at this season the
seldom extend upward more th
